# NEW RAILROAD TO YELLOWSTONE PARK

Chief Engineer Wm. Ashton Leaves Tonight to go Over Proposed Line.

#### SOME CHANGES IN THE CRADE.

Probabilities Are That Original Surveys Will be Altered in Some Minor Details.

Chief Eingineer William Ashton of the Oregon Short Line will leave for St. Anthony tonight when he will go over the survey of the Yellowstone Fark railroad, which is to be built to the National Park with a branch line southeast via Marysville, through Teton valley on to Victor.

Three corps of surveyors have been in the field for some time, working on the new line, and a portion of the right-of-way has already been secured by the Oregon Short Line representa-

The reason for the wisit of the chief engineer is the fact that some changes have been decided upon in the original route, so as to out down the grade and eliminate some curves. He is going up to pass upon the changes before a final decision is arrived at. Just as soon as cross sectlening completed contracts for the work w be let and construction pushed so that the line will be ready and open for business by June 1.

This case was called once before, and upon the showing of the defendant, by his attorneys, Judges Powers and darioneaux, that the accused was only Marioneaux, that the accused was only 17 years of age, the matter was referred to Judge Brown of the juvenile court. The latter took the case up and decided to refer it back to Judge Diehl. This morning Judge Marioneaux raised the same objection, to wit; that Judge Diehl did not have jurisdiction in the case for the reason of the defendant's tender years, he being only 17 years of age. Counsel argued the case to great length, quoting from the case to great length, quoting from the statutes making the juvenile court. Atty. Willard Hanson, for the state, argued that the case was not a trial but merely an examination, and that as a committing magistrate Judge Diehl had a right to bind the defendant over to the district court.

Hugh Anderson, the well known inurance man, has returned from Logan, where he went to adjust the losses inrident to the Agricultural college fire. He considers the incendiary theory the most reascrable one, and is ready to most reastrate one, and is ready to believe that the act was the outgrowth or result of the feeling which has been existing between Salt Lake and Logan in the matter of state aid for the respective colleges. Mr. Anderson calls ttention to the fact that the stude and professors were all out of the build ing and the electricity cut off before 6 p. m., and if there had been a cigar-ette left to smoulder, it would certainly have been heard from before 11 p. m. Moreover, the fire started in the store room among the inflammables, Mr. Anderson is ready to believe that the fire was started with the idea that it would communicate with the other buildings, and the entire plant would go, But fortunately, the wind had changed tround so that the flames blow away from the other structures.

Five thousand dollars, the insurance on the building, was placed with the London & Lancashire company, and \$2,100 on the contents was placed with the American Central of St. Louis, ----

# To Out=Of=Town Newsboys-Christmas News.

O the army of enterprising news boys who sell the Descret News in cities and towns outside of Salt Lake. This paper will present a handsome watch to the boy whose record shows that he has sold the greatest number of papers, including the Christmas News, between Sept. 15, 1965, and Jan. 1, 1906. In addition the picture of the successful newsboy will be printed in the Saturday "Nesva."
