FREICHT TRAIN WRECKED.

Conductor S. P. Silsby Severely Injured -Smashup Occurred at Kelton.

Footpads Foiled and Afterwards Ar-

rested-Funeral of C. L. Thompson

In the Police Court.

A Southern Pacific freight train was wrecked yesterday near Kelton, and three engines and nine cars were piled up; only one person was hurt, Conducfor S. B. Silsby was caught under one of the cars, and three of his rfus were broken, and it is feared he received internal injuries. The train was a heavy one, and three engines were attached to it, moving at a fair rate of speed, when a rail turned out. As soon as the news of the wreck was received in Ogden, a special was dispatched to the scene, carrying Superintendents Noble and Fitzgerald and Dr. Ferkins, and a number of workmen to clear off the track.

Mr. alsby was brought to Ogden and taken to the hospital, where every possible care is being given him, and it is thought he will soon recover. FOOTPADS ARRESTED.

Last evening between six and seven clock, three men tried to hold up a man named Monahan, at the rear of the Central saloon on 25th street. It is said that the men were in the sa-loon together and went out to the rear, when the three tried to go through Monahan's pockets, and would have succeeded had the bar tender not in-terfered and scared the hold-ups away. pefore they obtained anything. The immediately started out on the search. They rounded up two of the hold-ups, who gave their names at the police station as Chas, Winters and Dan Kelly. The third man, a negro, has not yet been apprehended, but every effort is being made to locate him.

Hold-ups are getting very frequent here in Ogden; and the perpetrators of crimes are getting very bold in their workings.

Farewell Reception and Wedding of Elder Burton Allred.

Special Correspondence. Moab, Grand Co., Sept. 30.—Burton All-red, one of our most respected young men, who has been called to fill a mis-sion to the Northern States, was the recipient of a very pleasant social giv-en at the ward meeting house last evening, Singing, speechmaking and re-citing entertained the large crewd who had come out to do honor to the young man, and a good fat purse given him at the close showed how much they wished him success in his labors in the mission field. Miss Annie Johnson, one of our popular young ladies, will ac-company Brother Allred as far as Salt Lake City, and there, at the Temple, they twain will be made one ere he de-parts for his field of labor. Weather and Crop Bulletin for Week Ending Oct. 2, 1900.

U. S. Department of Agriculture, Idaho Section, Climate and Crop Ser-vice, Weather Bureau.—Boise, Idaho, October 2, 1900.—The average tempera-ture for the week was considerably be-

low the normal, and frost was of nightly occurrence. On the 24th, 25th, 26th and 27th severe frost occurred. On Camas prairie the temperature fell to 19 degrees on the 26th and 16 degrees on the 27th, and in the mild section of the Snake River valley a tempera-ture of 33 degrees was reached on the

The drouth in the extreme southeastern counties was broken by a good rain on the 25th, and on the same date snow fell in many of the mountainous districts. The precipitation over the whole State for the week was below the normal.

THE CROP SEASON.

The season for growing crops has come to a close. Only a small part of the grain crop remains to be threshed. the grain crop remains to be threshed. Three cuttings of alfalfa are safe in the stack in good condition, and in some sections a fourth cutting was secured, though much of the fourth cutting was damaged by frost. All vegetables have matured and points digging to making good progress, with the visites s making good progress, with the yields about the average. Hops and sugar about the average. Hops and sugar beets were successfully grown. Corn, which was grown more extensively than heretofore, exceeded expectations as to growth of the stalk and yield of fodder and grain. The season was entirely favorable for the growth and maturity of the fruit crops; ship-ping has become less active, except as o fall apples; fruit drying is still ac-

Drouth prevailed in the southern sections of the State from late spring to early fail, resulting in a scarcity of water in many districts, but there was water in many districts, but there was sufficient water for irrigation, as a rule, though the grass on the ranges became dry and parched, a condition which was unfavorable to stock. The season was generally favorthough in some sections too much given to "dry farming," the yields

were light.

ITCH IS TORTURE.

Eczema is caused by an acid humor in the blood coming in contact with the skin and producing great redness and inflammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczema in any form is a tormenting, stubborn disease, and the itching and burning at times are almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Salves, washes nor other external applications do any real good, for as long as the poison remains in the blood it will keep the skin irritated.
