Visitors can see both shores of the Sound, while to the south the church towers and tail buildings in the lower part of the city do not obstruct the view of the lighthouses. General Hancock announced this evening that these arrangements had been decided upon: The Fourth Artillery of Fort Adams, under the command of Major Adams, will fire a salute at Mount McGregor, and Major Bandolph, commanding the Fifth Artillery at Fort Hamilton, will fire the final salute on the day of the funeral. Gen. Hancock and staff, accompanied by

The appointments are new and of the direct order. The haifs and rooms are thoroughly ventiliated, and warmed by a furnace and steam heating apparatas extending through the whole building. Good and capable nurses are supplied, and every attention paid to the comfort and welfare of its immates. The medical department comprises a fine stock of drugs, and a line of some of the most valuable and elegant surgical instruments and appliances ever inhave been made to secure the first medical talent the city affords for the benefit of patients. In most cases the South American States would aid in establishing American lines. Thatcher added that all the countries visited were in favor of a convention of the North and South American countries to consult on the commercial and financial interests, the
