

CIGARETTES AND INSANITY.

AN EXTREMELY CLOSE CONNECTION EXISTS BETWEEN THEM.

(New York News.)

Cigarettes have lately entered the ranks of "poisonous" by virtue of their health-destroying power. It is now well known by the physician of the West, Dr. Benjamin Bloodgood, that they may do even worse things than cause death. After a careful examination of a great number of patients at a private asylum, and a thorough investigation into the "family history" of each case, it was found that the majority of the younger patients had been addicted to the use of cigarettes.

This is itself was strongly suggestive of the effect of cigarette smoking on the system—the slow and insidious manner in which the disease came on, the nervousness, the loss of sleep, the loss of appetite, the loss of weight, the loss of strength, the loss of vitality, the loss of energy, the loss of power, the loss of endurance, the loss of resistance, the loss of recuperation, the loss of health, the loss of life.

In a greater or less degree, he says, this disease is directly attributable to the pernicious cigarette-smoking habit, now so long prevalent among our youth. It is a disease which is insidious in its onset, and which is fatal in its result. It is a disease which is common to all ages, and which is fatal to all who are afflicted by it. It is a disease which is common to all classes, and which is fatal to all who are afflicted by it. It is a disease which is common to all nations, and which is fatal to all who are afflicted by it.

Cigarette-smoking and other smoking, it is further pointed out, are entirely different things. One may smoke cigars and be healthy, and yet be afflicted with the disease which is caused by cigarette-smoking. It is the habit of cigarette-smoking, and not the habit of smoking in general, which is the cause of the disease. It is the habit of cigarette-smoking, and not the habit of smoking in general, which is the cause of the disease. It is the habit of cigarette-smoking, and not the habit of smoking in general, which is the cause of the disease.

A NO-TO-BAC MIRACLE.

Physical Perfection Prevented by the Use of Tobacco.

As Old-Time Cured After Using Tobacco Twenty-Three Years—He Gains Twenty Pounds in Thirty Days.

Long years ago, I was afflicted with the habit of smoking tobacco. It was a habit which I had acquired in my youth, and which I had followed for many years. It was a habit which I had followed for many years, and which I had followed for many years. It was a habit which I had followed for many years, and which I had followed for many years.

The habit of smoking tobacco, it is further pointed out, is a habit which is entirely different from the habit of smoking in general. It is a habit which is entirely different from the habit of smoking in general, and which is entirely different from the habit of smoking in general. It is a habit which is entirely different from the habit of smoking in general, and which is entirely different from the habit of smoking in general.

Our friends say their children have kept strong and well all winter by taking Scott's Emulsion. Many children do not assimilate enough fat with their food, hence they need this easy fat food, and thrive on it. It is for all children that are not absolutely strong. The combination of God-liver Oil and Hypophosphites as prepared in Scott's Emulsion is marvelous in its power to arrest wasting.
