

WRIT OF HABEAS CORPUS FOR MOYER

Idaho Supreme Court Issues One for Him, Haywood and Pettibone.

MADE RETURNABLE MARCH 1.

Application is Based Upon the Extradition Statute of the United States.

Boise, Ida., Feb. 23.—The supreme court late this afternoon issued a writ of habeas corpus in the cases of Moyer, Haywood and Pettibone, accused of the murder of former Gov. Steunenberg. The writ was made returnable on March 1, at which time a return will be made and a time set for hearing.

Atty. Richardson, representing the officers of the Western Federation of Miners, presented the petition for the writ.

The application for a writ is based upon the extradition statute of the United States. That is the real point, though many violations of the constitution of the state and the constitution of the United States are alleged. The extradition statute provides for the extradition of persons who, having committed an offense in one state, flee from its jurisdiction into that of another. It is claimed there is no provision, however, under which men can be extradited for conspiring in one state for commission of an offense in another, and the defense in this case is proceeding on that theory.

It is the intention to carry the point to the United States supreme court on a writ of error if the state supreme court refuses to release the prisoners on the writ. It is not expected by the defense that the state court will release them, but it is desired to save the point. It is stated by the defense that it anticipates the state would arrest the men if they were released, and proceed to trial with them, but the defense will save this point throughout the record. Mr. Richardson giving it as his belief that the supreme court at Washington will hold the extradition illegal. Under the laws of Idaho an accessory before the fact is made a principal, and the prosecution claims there can be no doubt that the men can be held. It is admitted by attorneys generally that the point is a nice one. In this case the state has charged the men with killing the victims of the explosion, and on that charge they were extradited. If they should be released at any time before trial it would be another question to determine their status. The state would immediately rearrest them, but it is said there is no precedent by which the right or lack of right to do so could be determined. It is further claimed on behalf of the state that this point cannot be successfully raised now, since the defense has no knowledge of what the state will offer to prove at this trial.

In this connection it is pointed out that it is claimed by the state that some of these men were in this state at different times with Harry Orchard, and that it may be the intention of the state to prove that they conspired to commit the crime.

Atty. Richardson, Miller, Nugent and Moore went to the state penitentiary this morning and asked to see these prisoners and Harry Orchard. They saw all of the men except Orchard, who sent out word that he did not care to see them. It was stated that Orchard was sick, but no physician has been called for him, and it is inferred that this was a ruse to keep the lawyers away from Orchard. Atty. Richardson entered vigorous protest against the prisoners being confined under the rules governing convicts.

Tomorrow the prisoners will be taken to Caldwell, where a grand jury will meet to investigate the assassination of Steunenberg.

ORCHARD'S CONFESSION.

Denver, Feb. 23.—Detective James McFarland has left for Idaho with all the documentary evidence in the case.

MOTHERS WHO THINK

USE ONLY

Cuticura SOAP

For baby's daily bath, because it unites the delicate, medicinal, emollient, sanative, and antiseptic properties of Cuticura, the great Skin Cure, with the purest of cleansing ingredients and most refreshing of flower odors. Hence it is not only the most effective Skin Purifying Soap for baby rashes, itchings, and chafings, but it is the purest and sweetest for toilet and bath as well.

CHAINED TO A CORPSE.

Doleful Punishment of the Ancients Duplicated in Our Modern Life.

The Romans used to punish a murderer by chaining to his body the corpse of his victim. Whenever he went he dragged behind him the body of his crime, the heavy, revolting thing that was once a man.

Every day you see people dragging around with them the corpse of their own folly, and dragging behind them, and many of them have become so intimate with these corpses that they have become corpses themselves. The misery of these poor unfortunate men is a condition with them, it is like an old shoe. They have become accustomed to it.

There are thousands of humans who are waiting the earth today with corpses attached to them—dyspeptic stomachs they can't get rid of. They have to get along the best they can with the stomachs they have. And the owners of dyspeptic stomachs are to be found in every walk of life, suffering from some form of indigestion, first cousin to dyspepsia.

They wear that tormented appearance, their energy is gone, and they interest no one, their faces are shrunk, their nerves are wilted and their shoulders sag. Are you one of the myriads who dandle and dally with the dyspepsia of the stomach? Are you one of those who allow their senses to run riot, eating too much, drinking too much, eating at wrong times, doing the half-cared, the queer and the impossible?

Are you bloated after eating, and imagine that it is your food that fills you? Do you have nausea when you look upon this or that, rebel at one thing and be hungry for it, too, at the same time? And have you got a whole lot of other things the matter with your stomach that you know about but nobody else does, and can't explain? If so, you have dyspepsia, real dyspepsia. And the chances are you have had it a long time.

Your stomach is overworked, abused, fatigued. The gastric and digestive juices are weak, the muscles of the stomach are jaded, and the whole business needs new life. It needs something which will take hold of the food as it comes in and do the digesting, and let your stomach take a rest.

Stuart's Dyspepsia Tablets do that very thing. They contain a most powerful ingredient which helps the stomach in the process of digestion, corrects dyspepsia, sour stomach, indigestion, heart-burn, eructations, acidity or fermentation. They invigorate the stomach, increase the flow of gastric juices, and do two-thirds of what the stomach would have to do without them. That gives the stomach some rest, and a chance to get right again.

You will feel first in your mind and heart and then over your whole body. You'll feel rosy and sweet. That's the object. You can get these effective little tablets almost anywhere on earth, for they are made in England.

Stuart's Dyspepsia Tablets is the name.

Steunenberg murder case, including Harry Orchard's confession, in his possession. He will testify before the grand jury, which is to begin its investigation next Monday. He will be the principal witness and his examination will probably occupy a full day or two.

Before leaving he asserted that no one could wish the accused federation officials a fair trial more than himself, but declared he is simply able to prove his charges.

Orchard's confession, a copy of which is on file in this city, embraces 124 pages, closely typewritten, and contains fully 25,000 words. It was secured by McFarland with two of his stenographers while he interviewed Orchard in the penitentiary at Boise City.

It is signed and sworn to, and the main points embraced herein are said to have been fully corroborated. The document was composed of the hands of the trial of Moyer, Haywood, Pettibone and others.

GREEN IS RELEASED.

Cripple Creek, Colo., Feb. 23.—Edward Green, the miner, who was arrested Monday supposedly upon warrants on instruction from Idaho as a result of investigation of the Steunenberg assassination, was released today by the district court. No charge of any kind had been filed against him, Green declares he will sue for damages for false arrest and imprisonment.

MINERS ACCEPT SCALE COMMITTEE'S CONCLUSION.

New York, Feb. 23.—The full scale committee of the United Mine Workers of America, including 36 members, among them President John Mitchell, District Presidents Fahy, Nichols and Dettrey, District Secretaries Gallagher, Dempsey and Hartlein, and the executive boards of hard coal districts Nos. 7 and 8, met in this city tonight to consider the demands of the anthracite miners to be made to the committee of operators appointed at the recent conference in this city. The miners' committee of six has been busy on these plans for the past week and presented them to President Mitchell for approval today. It was intended that President Mitchell should at once notify the operators that a meeting with them was desired. His action, therefore, in first calling a meeting of the scale committee to consider the proposals has given rise tonight to reports that the miners' demands are such as to make the situation a grave one.

The meeting of the scale committee lasted until nearly midnight. It was stated that the full committee endorsed the demands of the miners' committee of seven, and it was declared that the anthracite workers will stand by the demands and suggestions. It was decided to send a copy of the conclusions to Mr. Baer, the head of the operators' committee, tonight. It is likely there will be a meeting on Monday of the joint committee of miners and operators.

W. N. CLEVELAND REFUSED.

Columbus, O., Feb. 23.—W. N. Cleveland, nephew of former President Cleveland, was placed on the stand in the attorney-general's preliminary investigation of the alleged bridge trust today, but refused to answer material questions upon the ground that to do so would incriminate him.

Mr. Cleveland is a former member of the alleged trust.

STOCKMEN AT WHITE HOUSE.

Washington, Feb. 23.—A delegation from Colorado representing the American National Live Stock association, headed by the president of the organization, Murdo MacKenzie, called on President Roosevelt today to discuss some matters of legislation concerning which they have appeared before the committees of Congress.

SUIT TO RECOVER FEES.

Illegally Paid to Lawyers for Services For Choctaw Nation.

South McAllister, T. T., Feb. 24.—United States Dist. Atty. Latham yesterday filed suit against the law firm of Mansfield, McMurray & Cornish for \$42,381, and against McCurtain & Hill, lawyers, to recover \$25,000, as it is charged, these amounts were illegally paid to the defendants for services for the Choctaw nation.

WANTS FEDERAL SUPERVISION.

Mrs. Scott Durand Would Have Uncle Sam Inspect Nation's Milk Supply.

EVERYTHING IS NOW WRONG.

Prof. Lane, of Dept. of Agriculture, Says Department Has the Question Under Advisement.

Chicago, Feb. 24.—Federal supervision and inspection of the nation's milk supply, including farms and dairies, is urged by Mrs. Scott Durand. It was presented as a means whereby the consumers would be assured absolutely pure milk in a talk on "Dairy Conditions," before the convention of dairy farmers here yesterday.

She declared the whole system of milk production and distribution to be wrong and said to attempt to obtain a pure product by means of pasteurization or sterilization was rank nonsense so long as there is no government control of methods.

Of state food commissions, she said she was weary because the inspectors usually are more politicians who will inspect anything and in any way a farmer or dairy man wants them to.

Prof. C. B. Lane, assistant chief in dairy division of the United States department of agriculture, declared the department had under advisement the question of federal supervision of the milk supply as suggested by Mrs. Durand. Considerable mirth was created by William M. Hough, counsel for the National Wholesale Liquor Dealers' association, who testified before the food standard committee that the consumers of liquor would be benefited if the retailer could palm off water on his customers instead of whiskey.

"We wish to protect the consumer against the dealer who dilutes his whiskey with water," said Theodore Watterstrom, state chemist of Ohio. "If the dealer can palm off a drink of water instead of whiskey the customer is greatly benefited instead of injured," retorted Mr. Hough. "I think all men will admit that if the men won't the women will."

SCENE IN IOWA SENATE.

Senators Indulged in a Bitter Personal Debate on Lewis Bill.

Des Moines, Ia., Feb. 23.—Iowa senators in a bitter personal debate today assailed the Lewis bill for a national convention to decide upon plans for electing United States senators by the people as a Cummins scheme to unseat Senators Dolliver and Allison.

Senator Lewis, supporting the bill, attacked Ellkins and other United States senators as conspirators, and said that having failed to secure a direct attack, the senator should be hit from behind.

Replying to him, Senator Dunham declared that the interests behind the bill were after the jobs of the Iowa senators.

"It is a miserable, political impulse which prompted the introduction of this resolution," he said.

"Where did this resolution come from? It sprung from the dirty, old, pestilential politics in the history of the state. I oppose this measure because it is unclean."

BLEW HIS HEAD OFF.

Wm. Bell, Old Resident of Hamilton, Mont., Commits Suicide.

Butte, Mont., Feb. 23.—A miner special from Hamilton, Mont., says: Wm. Bell, an old, well-known resident of Hamilton, took his own life Wednesday by shooting himself in the head with a 40-32 rifle. The man's face was blown completely off, and three empty shells were found in the gun. Bell killed himself in his chicken house at his home across the river from the town Wednesday morning, but his body was not found till yesterday.

Bell came from Indiana many years ago and was highly respected in his community.

TORTURED BY JEALOUSY.

Richard Rabenauer Shoots Mrs. Gussie Monroe and Then Himself.

San Francisco, Feb. 23.—Made despondent by the loss of his citizenship papers and his employment, and tortured by jealousy, Richard Rabenauer tonight shot and fatally wounded Mrs. Gussie Monroe and inflicted a mortal wound upon himself. Until a short time ago Rabenauer was third officer of the steamer Peru. The federal officials discovered that he had fraudulent citizenship papers and as a result he was dismissed from the service of the steamship company. Rabenauer had been maintaining friendly relations with Mrs. Monroe, wife of James Monroe, now in Dawson City, looking after some mining interests. Rabenauer desired to marry her, but she told him his wishes were impossible as she would not secure a divorce. Tonight Rabenauer visited her at the home of her father and without giving warning of his intentions, shot her twice in the head. He then shot himself. The physicians say that he will die before morning.

YOUNG FRENCH GIRL MYSTERIOUSLY DISAPPEARS.

Rejo, Nev., Feb. 23.—Miss Martin, a young French girl, who recently arrived here, has disappeared from the town, which is left in a state of alarm, and it is feared that she threw herself into the straits of Carquinez, while the train was being taken from Benicia to Port Costa on the big ferry boat Solano. Her mind was undoubtedly affected, as she became confused several times yesterday and last evening while awaiting the arrival of the train she was to take from Reno.

Miss Martin was about 22 years of age, and had a rather somber expression on her face. She is a French girl, and her husband may join in the procession up the river.

If the ship be on time the entrance of the train to the city will be delayed for a short time in order that the ship carrying the bride's daughter and her husband may join in the procession up the river.

Mrs. Longworth will arrive here in time to attend the ball of the Knights of Pythias on Monday night, and will be one of the guests of honor. If present plans be carried out, she will witness the grand parade of the city, one of the spectacles of the club here. On Tuesday night she will be the guest of the Conus society and of the Rex club.

The Japanese do not make use of the flatiron in laundry work, but instead employ smoothing boards like those seen in the cut. The water used in boiling rice is saved and the newly washed clothes are dipped in it and spread out smoothly on boards to dry.

MANFIELD WILL RETIRE FROM THE STAGE.

Boston, Feb. 23.—Richard Mansfield tonight authorized the statement that he had formulated plans for retiring from the stage. It is Mr. Mansfield's intention to play for three more seasons, ending his theatrical career in the spring of 1907.

Mr. Mansfield is a comparatively young man, being less than 50 years old. It is his desire, he says, to retire from the stage before his dramatic powers wane and before the present strain on his nervous energies shatters his health.

Beyond his three remaining seasons, Mr. Mansfield has no definite plans. He expects to make a tour of the world, however, and it is probable he will give some attention to literary work. Two of the leading American universities have offered him the chair of drama, but it is not known that he will accept.

JOHN B. STETSON'S WILL.

Philadelphia, Feb. 23.—The will of John B. Stetson, the hat manufacturer who died Sunday afternoon last at his winter home in Deland, Fla., which was filed today, divides his entire estate, estimated at \$5,000,000, among the members of his family. The University of Deland which he founded, was not mentioned.

CRIME IN UNITED STATES.

Dr. A. D. White Expresses Some Common Sense Views on Matter.

New York, Feb. 24.—Dr. Andrew D. White, former ambassador to Germany, and first president of Cornell university, addressed the students there yesterday on "High Crimes in the United States." He said, according to the official correspondent of the Herald:

"The number of homicides that are punished by lynching exceeds those abolished by due process of law. When we consider that out of every 46 homicides committed in the United States only one in 46 is legally punished, it is no wonder that people look somewhere else for the solution.

"There is nothing more nonsensical or ridiculous than the goody-goody talk about lynching. Much may be said in favor of the quotation of the famous Englishman, Goldwin Smith, 'There are some communities in the United States in which their lynch law is better than any other.' I have no sympathy for the criminal. My sympathy is for those who will be murdered, for their families and for their children."

LABOR APPEALS TO PRESIDENT.

Chicago, Feb. 24.—Labor in Chicago yesterday appealed to President Roosevelt to veto the "urgent deficiency" bill passed by Congress which abolishes the eight-hour work day on the Panama canal. The names of President John Fitzpatrick and Secy. E. N. Nickels of the Chicago Federation of Labor were signed to a telegram sent to Washington, are as follows:

"Organized labor is unanimously protesting against the urgent deficiency bill so long as it contains the provision repealing the eight hour law or any part of it and most respectfully requests a veto."

The action of the local unions followed instructions from President Gompers of the American Federation of Labor. In a statement Mr. Gompers asserted that the law was intended as the beginning of an attack upon the eight hour and statute as applied to all government service.

FIRST MAIL THROUGH SUBWAY.

Chicago, Feb. 24.—The first mail to pass through the subway under the downtown streets will be sent today through the tunnel connecting the LaSalle street railroad station with the postoffice.

This marks the opening of the underground mail system, which eventually will be opened between the main postoffice and all the railroad stations. The apparatus which raises the mail bags from the tunnel into the postoffice has a capacity of 2,000 mail pouches an hour.

Peculiar Disappearance.

J. D. Runyan, of Butteville, O., laid the peculiar disappearance of his painful symptoms, of indigestion and biliousness, to Dr. King's New Life Pills. He says: "They are a perfect remedy for dizziness, sour stomach, headache, constipation, etc." Guaranteed at Z. C. M. I. drug store, 112-114 south Main street; price 25c.

THE LONGWORTHS TO BE GUESTS OF NEW ORLEANS.

Chicago, Feb. 24.—A dispatch to the Inter-Ocean, from New Orleans, La., says:

Mr. and Mrs. Nicholas Longworth will be the guests of the city of New Orleans during the carnival season, according to the information received yesterday by the Morgan Steamship company of Louisiana.

The officers of the steamship company say that all arrangements have been made at the company's Havana office to book passage for Mr. and Mrs. Longworth on the Morgan liner Prince Arthur, which sails from there tonight and which will reach New Orleans, Monday.

If the ship be on time the entrance of the train to the city will be delayed for a short time in order that the ship carrying the bride's daughter and her husband may join in the procession up the river.

Mrs. Longworth will arrive here in time to attend the ball of the Knights of Pythias on Monday night, and will be one of the guests of honor. If present plans be carried out, she will witness the grand parade of the city, one of the spectacles of the club here. On Tuesday night she will be the guest of the Conus society and of the Rex club.

CONTAGIOUS BLOOD POISON KING OF ALL DISEASES

To Contagious Blood Poison rightfully belongs the name King of all Diseases. It is the most powerful of all human ailments—corrupting every part of the body and wrecking and ruining the lives of those unfortunate enough to contract it. When the first sign appears in the form of an insignificant sore or ulcer, few persons realize that the deadly virus has entered the blood; but so potent is the poison that one drop will vitiate and pollute the purest and healthiest blood, and in a short time the degrading and horrible symptoms begin to appear. The mouth and throat ulcerate, the glands in the neck and groins swell, the hair and eye-brows fall out, copper-colored spots appear on the body, and in the latter stages of the disease the poison even works down and destroys the bones. No other disease is so highly contagious, and many have contracted it and suffered its awful consequences through a friendly hand-shake, handling the clothing of one afflicted with it, or drinking from the same vessel. S. S. S., The King of Blood Purifiers, is the only cure for Contagious Blood Poison. It goes down into the circulation and forces out every particle of the virus. It is nature's antidote for this peculiar poison, and cures the disease in all its stages, and cures it permanently. S. S. S. does not hide or cover up any of the poison to break out in future years, but so completely eradicates it from the blood that no signs are ever seen again. S. S. S. is purely vegetable, we offer \$1.00 for proof that it contains a particle of mineral of any kind. Book with instructions for home treatment and any medical advice you desire will be furnished by our physicians without charge.
