OGDEN, UTAH, - NOV. 13, 1903. PRICE OF COAL AGAIN RAISED.

Cause of Considerable Anxiety Among Consumers—Fear of Further Raise.

FAMILIES IN DIRE DISTRESS.

Pitiful Story Told by Mrs. Chauncey Belding—Work for the Philanthropic—Briefs and Personals.

The raising of the price of coal 75 cents per ton in Ogden during the past six weeks has caused considerable anxiety among consumers. About October 1, the first raise of 25 cents was announced by the dealers and yesterday they announced the second raise of 50 cents per ton on all kinds. Many of the consumers had received a hint during the past few days that the price on coal was going to raise and put in their winter's stock. Another raise is not anticipated by the dealers but may come. One of the coal dealers of the city had a proposition made to him yesterday by a large consumer to furnish him coal for the winter on a guarantee not to exceed \$5 per ton but the dealer refused to accept the proposition. The dealer states that it is not their fault that the price has been raised, but that after Friday, yesterday, they must pay the advance price of 50 cents per ton on all kinds of coal, and the orders for coal which the dealers had already placed with the mine owners at the old prices and had not been filled would be filled at the new prices. The dealer states that they would prefer to sell the coal at the old prices if the mine owners had not raised the price on them as their profits were just as large before the price raised as they are now. The mine owners state that the cause of their having raised the price on coal to the dealers is on account of the mines wages being raised. The local dealers met yesterday and decided that the price will be for nut coal at the yard \$5.25 per ton and for lump coal at yard \$5.25 per ton.

IN A DEPLORABLE CONDITION. Mrs. Chauncey Belding was arrested by Deputy Sheriff Behan yesterday morning on the charge of threatening to shoot and kill Mrs. Sarah S. Child of Riverdale, was brought before Judge Howell yesterday afternoon to answer to the charge and to be placed under bonds to keep the peace. The woman with tear stained eyes and between sobs told one of the most pitiful stories that have ever been told here. Judge Howell has admitted having, in a moment of rage and anger, made threatening remarks, but that it was not in her heart to carry them out. The woman told of the arrest of her husband about ten days ago together with her son-in-law, on the charge of burglary, that she with her six little children and her daughter with two little tots are now living at Riverdale in destitute circumstances and don't know where to go or what is to become of them this winter if their husbands are sent to the penitentiary. The judge's tender heart was touched and he told the poor, unfortunate woman

PROVO. HEAVY STORMS. Of Rain and Snow—Sixth Ward Fair—Sam Boyle Fined.

Special Correspondence. Provo, Utah Co., Nov. 14.—Sheriff Harmon took Sam Boyle to Payson yesterday, where Boyle was to have had a hearing before the justice of the peace on a charge of mayhem. This charge was dropped and the defendant was fined \$10 for disturbing the peace, instead. The Sixth ward will give one of its great feasts with dining-room attachment in the ward house during Thanks-

giving week. The proceeds will go to the new meetinghouse. Provo and vicinity has been visited with heavy rainstorms in the valley and snow in the mountains the past day or two.

SPRINGVILLE.

LIGHT PLANT NEARLY READY. Thousands for Beet Growers—Farwell Reception to Storrs Family.

Special Correspondence. Springville, Utah Co., Nov. 13.—On Monday the sugar factory will distribute \$61,000 among the farmers here, this being the payment for beets delivered in the month of October. Road Supervisor James Weight has been busy all this week grading State street south from Jefferson school. This has been a marked improvement to the county. All the machinery is now installed at the electric light plant except the dynamo, which is expected this week. The city expects to be lighted by artificial light within the next 30 days. E. H. Rollins & Sons of Denver bought the \$22,000 city electric light bonds. During the past week a number of railroad outfits have gone to California to work on the Clear cut. Among others are the Boyer Bros., Ray and Len Harward, Smith & Brown, Bird & Bird, Gray Mendhall and L. D. Teal went down last night to look over the work.

DEATH'S HARVEST.

Mrs. Mary Johnson, mother of Harmon Johnson, died on Tuesday of last week. She came to Utah in the year 1876, and made her home in Springville. She was a faithful Latter-day Saint.

Amie Cederlund, daughter of Mrs. Ella Cederlund Johnson, was buried on Monday, Nov. 2. She had been suffering for a number of weeks from an attack of typhoid fever. She was 12 years old.

Elder David Packard left on Monday for a mission to England. This is his second trip as an ambassador of truth, he having been treated right royally by the members of the Third ward previous to their departure. They were given a farewell reception in the meetinghouse and Mr. Storrs was presented with a rocking chair, and his daughters Eliza and Ella with an autograph album each.

The second ward bazaar is progressing nicely. During the latter week of this month the new meeting house will be sufficiently completed to be used. The Saints of the Third ward have decided to erect a new house of worship. John Mendhall and wife have returned from Magrath, Canada.

R. S. Bird, Richard Palfreyman, Joe Crandall, Aver Humphrey, George Hanson, are among the late arrivals from California.

Edward White, brother of Mrs. George Harrison, is home again, after an extended tour through the east. He visited his old friends in Vermont and New York states.

LEHI. FACTORY'S RECORD RUN.

Best in History of Utah Sugar Making—Nearly 100,000 Tons Beets.

Special Correspondence. Lehi, Utah Co., Nov. 14.—Mr. Jas. H. Gardner, superintendent of the Utah Sugar company here, reports that during the last twenty-four hours, ending at 7 a. m., this morning, the mill has passed all records both in making sugar and cutting beets. They have made 3,620 bags of sugar and have cut 1,314 tons of beets. During the last ten days they have averaged cutting 1,200 tons of beets, and during the same period they have sacked a daily average of 2,776 bags of white, granulated sugar. This beats any previous record that has been made in the Utah Sugar company. There have been no break downs and everything is still running as smoothly as possible. Practically all the beets are in and it is estimated that 90,000 tons will have been received for this season's crop. While it snowed in the mountains and rained for some time in the valley yesterday, the sky is again clear and those that have beets in the ground can get them in very nicely.

PIONEER LAID TO REST.

Another of the respected Pioneers of the valley was laid to rest today at Charleston, when William Wright was buried amid impressive services. Deceased came to the valley from Troy, in 1860. He leaves a large family of children and grandchildren to revere his memory.

HEBER. BURIAL OF WILLIAM WRIGHT.

Heavy Downpour—Last of Beet Crop Shipped This Week. Special Correspondence. Heber, Wasatch County, Nov. 13.—We are having one of the heaviest storms of the year. The storm commenced early Sunday last, and with cold winds, and during the same period they have sacked a daily average of 2,776 bags of white, granulated sugar. This beats any previous record that has been made in the Utah Sugar company. There have been no break downs and everything is still running as smoothly as possible. Practically all the beets are in and it is estimated that 90,000 tons will have been received for this season's crop. While it snowed in the mountains and rained for some time in the valley yesterday, the sky is again clear and those that have beets in the ground can get them in very nicely.

SCOTFIELD. FATAL RAILWAY ACCIDENT.

Stanley Gardner Seriously Injured and Rafael Pedote Killed. Scotfield, Carbon Co., Nov. 11.—A fatal accident occurred at the roundhouse here last night. While backing out of the roundhouse the engine struck a hand car running from Hale station, which was loaded with lumber for the work of Stanley Gardner, and his men. Rafael Pedote, section laborer, was instantly killed, and Foreman Gardner seriously injured.

REXBURG, IDAHO. RICKS ACADEMY NEWS.

Special Correspondence. Rexburg, Fremont Co., Ida., Nov. 11.—Our enrollment has reached the 250 mark, and more students are coming in every day. Sunday school work was begun in the academy last Sunday. Three classes will be regularly started. The normal class will prepare students to become efficient Sunday school teachers. The theological classes will follow the outlines furnished by the general board. Courses in cooking and sewing are offered in the academy this year. The girls are deeply interested in the work. So many have applied for cooking that it is necessary to divide the class. The girls in sewing have nearly finished the hand models and will begin machine work next week. A noted character under the management of the Clayton Lyeum bureau, appeared before the students and public last week. His delusions of grandeur were so well sustained that his identity was completely lost. He kept his audience interested for nearly two hours. In the afternoon he gave a very interesting talk to the students. Mr. Day left the missionary course began under very favorable circumstances last week. Every day more names are added to the roll. The class is composed

FARMINGTON. JURY LIST FOR NOVEMBER.

Pres. Hess Seriously Ill—Elijah E. Eli son Estate. Special Correspondence.

The following list of jurors has been drawn to serve at the November term of the district court in this county, which will convene on Nov. 27 next at Farmington: Fernelius, South Weber; Charles Barber, Syracuse; Hyrum S. King, Philo Dibble, Geo. V. Stevenson, Layton; Geo. H. Colmore, John T. Walker, Fred C. Williams, David Campbell, Christopher Boynton, Jos. H. Harvey, Kristiansen; James Stevenson, Jno. M. Christensen, D. F. Rice, Farmington; Wm. H. Evans, Centerville; John Pennington, Brigham; Jos. J. Holbrook, Mark Woodruff, Bountiful.

Harriet E. Ellison and James E. Ellison have petitioned the district court for letters of administration in the estate of Elijah E. Ellison, deceased. The decedent was one of Layton's prominent residents who recently succumbed to the ravages of typhoid fever.

President John W. Hess of the Davis stake, who has been in poor health for a long time, is again very seriously ill. It is feared that an operation will have to be performed to save his life, although everything is being done for him that can be, to ease his suffering, and avoid an operation if possible.

NEPHI. DAMAGE SUIT CONTINUED.

Old Folks Day—Mrs. Nettie Bowers Laid to Rest. Special Correspondence.

Nephi, Juab Co., Nov. 12.—The big damage suit of Hannah S. Simons et al against the R. L. Sims Co. and Grand Central Mining company, was brought to a sudden stop when counsel for the plaintiff asked permission to amend the complaint so as to show that there were contributors to the accident of the deceased. This, according to the defendants, so changed the facts of the case that the court could not grant a continuance of the case. The continuance was granted upon the plaintiffs paying the cost of the case on the next term of the court.

The case of J. D. Harris vs J. M. Ferrin et al was continued till Monday next at defendant's cost.

OLD FOLKS DAY.

The old folks of this place are to be royally entertained on the 17th inst. Committees are hard at work preparing for the event. The prospects are that our gray haired veterans will have a splendid time. Heretofore these events took place on the 1st of March, as near that date as possible, but those in charge of this time more propitious, for such events.

Mrs. Nettie Bowers, wife of Abraham Bowers of this place, who died in the hospital in Salt Lake City, a few days ago, after undergoing a long illness, was brought here for interment. The funeral took place from the Second ward meetinghouse yesterday at 1 o'clock, and a large number were interested in the city cemetery.

A Dangerous Month.

This is the month of coughs, colds and acute catarrh. Do you catch cold easily? Find yourself hoarse, with a tickling in your throat and an annoying cough? Then, you should always have handy a bottle of Ballard's Horehound Syrup. J. A. Anderson, 324 West 5th St., Salt Lake City, writes: "We use Ballard's Horehound Syrup for coughs and colds. It gives immediate relief. We know it's the best remedy for these troubles. I write this to induce other people to try this pleasant and reliable remedy." 25c, 50c and \$1.00 at Z. C. M. I. Drug Dept.

LYMAN, WYO. FIERCE WINDS AND SNOW.

Death of Mrs. James Stewart, Sen.—Primary Entertainment. Special Correspondence.

Lyman, Wyo., Nov. 12.—About one inch of snow fell on the 6th and yesterday the wind blew a fierce gale, blowing over hay stacks, out buildings, and making it almost impossible to travel. Today there is about three inches of snow and still falling. But indications are that it will not last long, as it is quite warm and likely to thaw. Mrs. James Stewart, Sen., died Nov. 12, after an illness of six weeks, leaving a husband and 12 children, the youngest being only two years old. The funeral was held on the 9th inst. in the Lyman meetinghouse. The speakers were Bishop S. R. Brown, Elders James and Henry Overy, James Eardley and Henry Overy.

A primary entertainment will be given next Friday afternoon, and conclude with a ball at night for adults. A number of paying for their tickets is for each young man to weigh his partner and pay a half cent per pound and all those without partners have to pay for their own weight at same rate.

The Woodruff State conference was held in Evanston last Saturday and Sunday. A little girl baby arrived at the home of Mr. and Mrs. James Syme two weeks ago.

THATCHER ARIZONA. ACADEMY NOTES.

Company A, N. G. A. Organized—Manual Training. Special Correspondence.

Thatcher, Graham Co., Ariz., Nov. 9.—The second academy party was given last Friday evening by the Thatcher Academy. The basket ball girls served lunch and every one had a good time. While Dr. J. M. Tanner, the superintendent of the Thatcher schools, was here we were given some very good instructions. He encouraged the students in their efforts to succeed and announced the establishment of a manual training department in the academy, and tools have been ordered for that purpose.

Company A, N. G. A., has been reorganized with John Smith as captain, R. W. Smith as first and David Phillips as second lieutenants. This company of national guards is situated in Thatcher and is conducted in connection with the academy. At Morenci during the recent strike there, this company made the best showing of any of the companies of the territory, and settled credit with both the academy and Graham county.

JUAREZ, MEXICO. STAKE ACADEMY NOTES.

Large Attendance Courses in Domestic Arts and Manual Training. Special Correspondence.

Juarez, Chihuahua, Mexico, Nov. 3.—The Juarez stake academy commenced regular work in all departments Monday, Sept. 7, with good prospects ahead. Three new Smith Premier typewriters were added to the business department of the academy and their clicking can be heard from early till late in the morning. The present attendance at the academy is 270 students with prospects for more in the near future. The attendance on the larger number of operating machines is doing very well. Courses in domestic arts and manual training have been added to the academy, and a heavy duty boys' gym has been added, and during the same period they have sacked a daily average of 2,776 bags of white, granulated sugar. This beats any previous record that has been made in the Utah Sugar company. There have been no break downs and everything is still running as smoothly as possible. Practically all the beets are in and it is estimated that 90,000 tons will have been received for this season's crop. DAIRYING FOR THE FARM BOY.

As a rule the women of the farm have so much hard work to do about the house that it would seem too much to put the additional burden on them of looking after the cows, and especially milking them as well as making the butter and attending to the milking utensils. But the question of necessity often settles this outside of what is right or wrong. At the same time every woman has a right to consider the work she has to do in connection with handling the milk. This is the woman's work, as it is in all well regulated dairies, even to the washing up of the milk vessels.

She has, therefore, the right to put her wits to work to devise some plan of passing this burden to the shoulders of those who ought to bear it. This means that she should get the roughest work to do, and enough of it to occupy all their time. Let us then, see if we cannot find the right one to take up this work, not as a temporary relief to the men or women, but as a life work with a view to making a good living out of it.

L. S. Hardin, the dairy editor of Home and Farm, has been using over the farm dairy to the boy. Every boy, he says, when he reaches the age of 15, or if well grown, a year or two younger, or the average farm must begin to look forward to the day when he intends to choose for his life-work what he will make a living at. If he does not do this of his own accord then his parents must do it for him. This is the solemn duty. Boys of the above age, if left to their own choice, are beginning to make trips to the village and to cities and soon become fascinated with the charms of city life, and with the pleasures of living in large towns and having no definite purpose on the farm is it any wonder they early desert the old farm to go to the city? This is the solemn duty. Boys of the above age, if left to their own choice, are beginning to make trips to the village and to cities and soon become fascinated with the charms of city life, and with the pleasures of living in large towns and having no definite purpose on the farm is it any wonder they early desert the old farm to go to the city? This is the solemn duty.

OTHER CHURCHES.

Our Saviour's Evangelical Lutheran church, Fourth St., between Fourth and Fifth South, Sunday services at 10:30 a. m., in English, and 4 p. m., in Norwegian. You are cordially invited to attend. A. G. H. Overy, Pastor.

First Unitarian Society—Services held in the new Unitary Hall, 140 Second East Street, between 10 and 11 o'clock, every Sunday. The pastor is Rev. W. H. Fish, Jr. There will be special music by Mrs. Larsen, and the Unitarian choir. Emerson class will meet immediately after services in the upstairs hall. Sunday school at 12:15 p. m. in the large hall downstairs. Unity circle will meet Wednesday afternoon at the hall. The Ladies of Unity circle will hold a rummage sale at the new hall on Saturday, Nov. 21.

NEW IDEAS IN MAKING LIME. SALT AND SULPHUR WASH.

The California method of preparing the lime, salt and sulphur wash for use on fruit trees for the eradication of scale insects, principally to destroy the pernicious or San Jose scale, has undoubtedly deterred many persons from using this most valuable and reliable remedy, believed to be the only practical, safe, economical and thoroughly successful one known. A. N. Brown, ex-president of the Peninsula Horticultural society, followed the tedious California method very closely, but was not satisfied with the results. With the most careful attention to detail, boiling vigorously the required time, he could not secure a combination of the lime and sulphur that would stand one hour without separation. A perfect combination of these essentials in this formula is not only desirable but absolutely necessary. He began experimenting for himself and finally reached a conclusion that he finds very satisfactory, and which has proven successful. In a recent issue of Orange-Judd Farmer Mr. Brown gives his method of preparing the lime, sulphur and salt wash as follows:

I secure a good sugar barrel holding about 60 gallons, and secure with two more hoops driven tight. Place in it 40 pounds best stone lime obtainable. I take another vessel, an ordinary wash tub will answer, and place in it 20 pounds sulphur (flower sulphur preferred). I now take two gallons boiling water and add it to the sulphur, a little at a time, stirring constantly until I have a thick paste. The little globules or particles of the sulphur will puff or swell up and burst, a condition indicating that the sulphur is fully dissolved. This accomplished, pour 12 gallons boiling water over the lime in the sugar barrel and immediately add the sulphur paste. Cover the barrel with an old blanket and let it stand 24 hours. Therefore giving it only an ordinary garden hose to keep the lime from setting, and thus prevent its burning.

After this has been left to do its own cooking I have every particle of the lime and sulphur dissolved, forming a combination brought about by the heat produced by the slaking of the lime, which has both power and capacity, and is easily operated. I coat the trees thoroughly by spraying them from four sides.

The results plainly stated are these: 1. complete dissolution of both lime and sulphur; 2. a combination that will stand until the mixture can be applied; 3. but ordinary spraying is used as easy as water, thus saving time, labor and annoyance; 4. my material is more adhesive. The wash applied last March is still plainly visible on the trees, now the middle of October; 5. I have killed more scale than by any other method. Instead of injury have added to the vigor and healthfulness of my trees.

The San Jose scale is no more a terror to me than the curculio, codling moth, or other injurious insects. It can be held in check by the lime, sulphur and salt wash.

In my crude way I can prepare the material as rapidly as it can be applied with the pump I use with two discharge hoses, covering 1000 seven-year-old peach trees daily. With an ordinary farm engine with which to pump and heat the water, and 20 barrels arranged to conveniently mix a row according to my method to keep two power spraying outfits running steadily. I believe this washing should be prepared in small quantities, not more than 120 gallons at a time, better still 60 gallons.

The method of mixing the material with the use of calcium sulphate seems to me to be objectionable, because it is almost impossible to slake even the best quality stone lime in cold water perfectly. The sulphur cannot be dissolved with cold water, although the soda or lye may doubtless aid dissolution as well as hold these materials in combination.

THE DICKSON OIL WASH.

In this connection and acting upon the principles observed in my method of preparing the L. S. S. Wash, William M. Dickson, one of Delmarva's progressive fruit growers and farmers, has worked out a new formula for the de-

struction of San Jose scale. He calls it lime oil. I think this new combination will doubtless be responsible for many changes in the use of both eruda petroleum or refined oil. Mr. Dickson states ten pounds stone lime with five gallons refined kerosene oil after which he adds 25 gallons water; this gives him a 16-2-3 per cent oil solution. If an applied almost as surely as pure kerosene, and will injure the foliage and will kill the scale.

DAIRYING FOR THE FARM BOY.

As a rule the women of the farm have so much hard work to do about the house that it would seem too much to put the additional burden on them of looking after the cows, and especially milking them as well as making the butter and attending to the milking utensils. But the question of necessity often settles this outside of what is right or wrong. At the same time every woman has a right to consider the work she has to do in connection with handling the milk. This is the woman's work, as it is in all well regulated dairies, even to the washing up of the milk vessels.

She has, therefore, the right to put her wits to work to devise some plan of passing this burden to the shoulders of those who ought to bear it. This means that she should get the roughest work to do, and enough of it to occupy all their time. Let us then, see if we cannot find the right one to take up this work, not as a temporary relief to the men or women, but as a life work with a view to making a good living out of it.

L. S. Hardin, the dairy editor of Home and Farm, has been using over the farm dairy to the boy. Every boy, he says, when he reaches the age of 15, or if well grown, a year or two younger, or the average farm must begin to look forward to the day when he intends to choose for his life-work what he will make a living at. If he does not do this of his own accord then his parents must do it for him. This is the solemn duty. Boys of the above age, if left to their own choice, are beginning to make trips to the village and to cities and soon become fascinated with the charms of city life, and with the pleasures of living in large towns and having no definite purpose on the farm is it any wonder they early desert the old farm to go to the city? This is the solemn duty.
