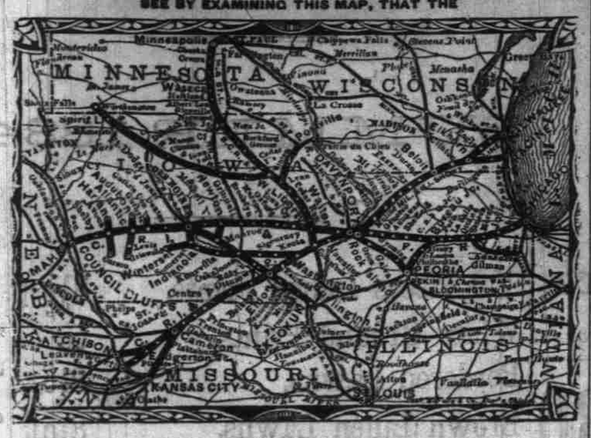
A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE



CHICAGO, ROCK ISLAND AND PACIFIC R'Y

Being the Great Central Line, affords to travelers, by reason of its unrivalled geographical position, the shortest and best route between the East, Northeast and Southeast, and the West, Northwest and Southwest.

It is literally and strictly true, that its connections are all of the principal lines of road between the Atlantic and the Pacific

By its main line and branches it reaches Chicago, Joliet, Peoria, Ottawa, La Salle, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Keokuk, Knoxville, Oskaloosa, Fairfield, Des Moines, West Liberty, Iowa City, Atlantic Avoca, Audubon, Harlan, Guthrie Center and Council Bluffs, in Iowa; Gallatin, Trenton, Cameron and Kansas City, in Missouri, and Leavenworth and Atchison in Kansas, and the hundreds of cities, villages and towns intermediate. The

"GREAT ROCK ISLAND ROUTE,"

As it is familiarly called, offers to travelers all the advantages and comforts incident to a smooth track, safe bridges, Union Depots at all connecting points, Fast Express Trains composed of COMMODIOUS, WELL VENTILATED, WELL HEATED, FINELY UPHOLSTERED and ELEGANT DAY COACHES; a line of the MOST MAGNIFICENT BOSTON RECLINING CHAIR CARS ever built; PULLMAN'S latest designed and handsomest PALACE SLEEPING CARS, and DINING CARS, that are acknowledged by press and people to be the FINEST RUN UPON ANY ROAD IN THE COUNTRY, and in which superior meals are served to travelers at the low rate of SEVENTY-FIVE CENTS EACH.

THREE TRAINS each way between CHICAGO and the MISSOURI RIVER.

TWO TRAINS each way between CHICAGO and MINNEAPOLIS and ST. PAUL via the famous

ALBERT LEA ROUTE.

January 1882, a new line will be opened, via Seneca and Kankakee, between Newport News, Richmond, Cincinnati, Indianapolis and La Fayette, and Council Bluffs, St. Paul, Minneapolis and intermediate points.

All Through Passengers carried on Fast Express Trains.

THE BY ALL ODDS BEST EQUIPPED RAILROAD IN THE WORLD

Let it be forever remembered that the

CHICAGO & NORTH-WESTERN

RAILWAY

is the best and shortest route to and from Chicago and Council Bluffs (Omaha), and that it is preferred by all well posted travelers when passing to or from

CALIFORNIA AND COLORADO.

It also operates the best route and the short line between

Chicago and St. Paul and Minneapolis

Milwaukee, LaCrosse, Sparta, Madison, Fort Howard (Green Bay), Wis., Winona, Owatonna, Mankato, Minn., Cedar Rapids, Des Moines, Webster City, Algona, Clinton Marshalltown, Iowa, Freeport, Elgin, Rockford, Ill., are amongst its 200 local stations in its lines.

Among a few of the numerous points of superiority enjoyed by the patrons of this road, are its DAY COACHES, which are the finest that human art and ingenuity can create; its PALATIAL SLEEPING CARS, which are models of comfort and elegance; its PALACE DRAWING ROOM CARS, which are unsurpassed by any; and its widely celebrated

NORTH-WESTERN DINING CARS,

the like of which are not run by any other road anywhere. In short, it is asserted that IT IS THE BEST EQUIPPED ROAD IN THE WORLD.

All points of interest North, Northwest and West of Chicago, business centres, summer resorts and noted hunting and fishing grounds are accessible by the various branches of this road.

It owns and controls over 5,000 miles of road and has over four hundred passenger conductors constantly caring for its millions of patrons.

Ask your ticket agents for tickets via this route, AND TAKE NONE OTHER. All leading ticket agents sell them. It costs no more to travel on this route, that gives first class accommodations, than it does to go by the poorly equipped roads.

For maps, descriptive circulars and summer resort papers, or other information not obtainable at your local ticket office, write to the

THE LIVER AND ITS FUNCTIONS.

It has become a well established fact that the largest portion of diseases to which the human family is subject arise in the first place from some derangement of the Liver. This organ is not only the largest, but at the same time one of the most important. The entire blood, as it returns to the heart, passes through this organ, and in its passage has imparted to it those elements which are necessary for digestion as well as for a nutritive to assist in the removal of waste material &c, are eliminated. From this it readily follows that the Liver is liable to get out of order to a greater or less extent, and when this occurs it is impossible for it to properly fulfill its office of purifying all objectionable matter from the blood, but allows it to pass through, carrying with it the poisons which it should have retained. The impure blood the whole system becomes affected, and no organ can properly perform its functions unless supplied with pure BLOOD to build it up. Hence the Liver becomes all important, and when deranged in its functions, or partially clogged, or inactive, the whole system becomes more or less affected, and the following symptoms are sure to follow: Dyspepsia, Headache, Constipation, Sallow Complexion, Nervousness, Blotches, Boils, Humors, Piles, Fever Sores, Scrofula, Rheumatism, Kidney Complaints, Female Weakness, Chills and Fever, Dizziness, Drowsiness, Dullness, Loss of Appetite, Bad Taste in the Mouth, Coated Tongue, Low Spirits, Blues, Nervous Prostration, Sleeplessness, Cold Feet, Wakefulness, Dreams, Sudden Flushes of Heat, Loss of Memory, Confusion of Ideas, Fluttering of the Heart, Timidity, Yellow Skin, Kidney Complaints, Dropsy, Gravel, Pain in the Back, Kidneys, Sudden Pains, Weakness, Numbness, Cold Hands or Feet, Sour Stomach, Sour Eructations, Bad Breath, Waterbrash, Slimy Accumulations, Nausea, Vomiting, Bad Taste when you first arise in the morning, Headache over the right eye, Restlessness at night, Highly Colored Urine, Constipation, Costiveness, Diarrhœa, Nervous Irritability, Low Spirits, Hypochondria, Blues, Melancholy, Suicidal Thoughts, Disturbed Sleep, Frightful Dreams, Want of Energy, Want of Appetite, Poor Memory, Dizziness, Want of Confidence, Aversion to Society, Timidity, Trembling, Flushing of Heat, Chilliness, Want of Will Power, Lassitude, Pain in the Side, Back, Chest, Limbs, &c., Sudden Attacks of Heat, Burning in the Flesh, Constant Fear, Imaginary Evils, Excessive Perspiration, Sexual Debility, Impotency, Involuntary Discharges, Premature Old Age, Exhausted Vitality, Softening of the Brain, Paralysis, Epilepsy or Fits, Seminal Weakness, Spermatorrhœa, Impediments to Marriage, Involving Organic Weakness, Self-Abuse, Over-Indulgence, Destroying Both Mind and Body, with all the Evils Following in the Train, Organic Weakness, Physical Decay, Nervousness, Rheumatism, Premature Old Age, Barrenness, Loss of Power, Pain in the Back, Dimness of Vision, Prematurely Old, Universal Lassitude of the Muscular System, Hot Hands, Inflamed Eyelids, Bloated Appearance, Twitching of the Muscles, Cold Feet, Restlessness, Sleeplessness, Cold Hands, Dry Skin, Pimples on the Face, Blotches, Worms, Tired Feeling, Dull Eyes, Pain under the Shoulder-blade, Coughs, Consumption, Decay, Rapid Decline, Cold Sweats, Nightmare, Shortness of Breath, Uneasy Sensations, Fluttering of the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dizziness on Rising Suddenly, Faintness, Poor Circulation, Want of Nerve Force, Want of Blood, Want of Flesh, Want of Feeling, Want of Development, Want of Tone, Want of Strength, Want of Vigor, Want of Action in any part of the system.

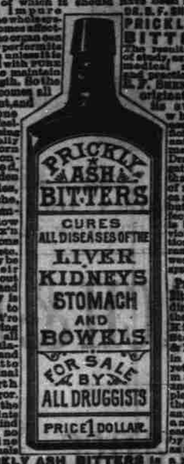
PRICKLY ASH BITTERS.



PRICKLY ASH BITTERS is a medicine of rare merit, and not an intoxicating beverage, and being purely vegetable in its composition can be used at all times with benefit to health. It is not claimed as a cure-all, but for derangements of the organs mentioned, it is a specific and as a BLOOD PURIFIER rivals almost all other preparations. Ask your druggist for it, and give it a fair trial. If he has none on hand, ask that it be ordered for you.

The fishermen of Brittany, so the story goes, are wont to utter this simple prayer when they launch their boats upon the deep: "Keep me, my God, my boat is so small and Thy ocean is so wide."

"If there's anything I love it's roast goose!" remarked Fenderson, as he passed up his plate for a second helping.—"It does you credit," said Fogg. "There's nothing so beautiful as affection among the members of a family.

"Fine morning, your honor," affably remarked the man who was arrested the night before for being drunk and disorderly. "Yes, indeed," heartily responded the justice; "quite a fine morning; in fact, a $10 fine morning."—*Detroit Free Press.*

A grand wedding in India is remarkable for many things, but no feature of it is more extraordinary than the universal hospitality by which it is attended. At the wedding of the Rao of Cutch 34,000 people were fed on the first day, on the second 37,000, and on the third 36,000.

The vestry of Calvary Episcopal Church at Tamaqua, Pa., have decided to close up for the present and hold no services, because the rector, Rev. W. B. Burke, has recently married a lady outside of his flock and whom his congregation do not like. There has been trouble in the church ever since the wedding.

When amiability descends to weakness, it loses all claims to respect or admiration. To be worthy of regard it must be strong, and to be strong it must stand on a solid foundation. He who is able and willing to say "No," firmly whenever the cause of right requires it, will say "Yes" with a fuller and a richer meaning at all other times.

Lieutenant Ray says the effects of the Arctic climate upon materials and men are exactly the same as in a tropical country. Boards unloaded from a ship to make a house shrank and cracked open as if under the influence of a torrid sun. He suffered from thirst there more acutely than on the arid plains of Arizona or New Mexico. The natives suffer terribly for want of water in winter time.

In accordance with the wishes of General Thomas L. Kane, his widow has formally presented the property known as the Thompson House, Kane, Pa., to the trustees of the Presbyterian Hospital, to be used as a summer home for the sick and suffering. The property is a four story frame structure, with a large four story frame wing 100 feet in length, and originally cost $83,000.

A remarkable state of things prevails in the Belle Fourche region of Dakota, according to a newspaper correspondent. A long-continued feud between the cattle men and the farmers has culminated in the death of all the dogs owned by the farmers on the river, the burning of the range, and the drowning of hundreds of cattle. The stockmen poisoned the dogs to keep them from running their stock, and the farmers, being unable to fence to save their property from being destroyed by range cattle set the grass on fire, and the cattle perished in the river, while endeavoring to escape from the flames.

Dr. J. G. Johnson, of Brooklyn, has given the following rules as aids in detecting unsound or tainted canned goods: "Every can should be examined, and if two holes are found to have been punched in it take the can immediately to the Board of Health with its contents, and give the name of the grocer from whom it was bought. Reject every can that does not show the golden line of resin around the edge of the solder of the cap, the same as is seen on the seam of the side of the can." The absence of this indicates that the sealing was effected by the use of muriatic acid, the doctor claims "Reject any and every can that shows any rust around the cap on the inside of the can. Reject any that does not bear the manufacturer's name. Before buying, press the bottom of the can up, and if the contents are decomposed, the tin will rattle like the bottom of the oiler of your sewing machine. If the contents are sound, the bottom will be solid and impossible to push up."

THE EVILS OF CANDY EATING.

We all know the story of the melancholy tramp, who stated that but for one trial life would be endurable, and that was "working between meals." There are instances for our good—what most of us have to do, it is only one part of the human economy which can truly sympathize with the tramp, and that is the human stomach. That is a region which has rest. The pet spoon and candy is well. It is evil to be poisoned. It were better to include the whole commodity in the interdict. The poison is bad; so much sweet is bad and deranges the digestion and rules the stomach; the irritation of the stomach which cries out is a craving which seems to call for more, and the more increases the mischief. A wise physician of full experience—I read it somewhere—gave it as his opinion that "the candy shops did as much harm as the rum shops," and that means a great deal. The evil is everywhere; the poorest man can give his child a penny to buy sweets; a profitable place for the vender is as near the public school as he dares go; the little street-sweeper or beggar buys the choicest confectionery. "Oh, yes, they are some of our best customers," says one in a Broadway shop. The young girl stops daily for her portion; well, if brandy drops be not included. The mother carries sweets (and dyspepsia) home to her children, and the father comes with his Saturday night box of candy for the family. Even if pure so much concentrated sweet is unwholesome, and still more that, like the tramp's work, it comes between meals. The stomach has no time to rest, the heavy sweetness ferments; then acidity, restlessness, soda, and more candy.

Why don't the doctors tell us so? Many of them do not know it, or do not think, and more than that, they have tried preaching to the wind. Some know that it would cut down their practice. But more than that is the hopelessness of reasoning against custom, fashion or appetite; bad eating, evil dressing, tight lacing, squeezed and distorted feet. Not one in a hundred will listen to them, "charm they never so wisely."

To go back to adulterations. Possibly glucose may be a blessing, if it is inert, innocuous, and will not raise a ferment. If the thing is harmful the purity counts for little. People say if they have pure spirits it is safe to drink, forgetting that the alcohol is the poison, that the candy is harmless if it be pure, forgetting that it is the sugar which ferments. Look at the teeth of candy eaters and see the effect of bad digestion and poor nutriment, still, nobody cares.—*N. Y. Tribune.*

A CASE OF CONSCIENCE.

An Eastern man who has been making a trip through Georgia found every hotel supplied with such abominable butter that he at length got mad enough to face a landlord and ask:

"Where on earth do you buy the stuff you put on the table and call butter?"

"Mostly in Chicago, sir," was the prompt reply.

"And don't you know that it is at least 60 per cent. adulteration?"

"Certainly, sir; but as long as Chicago parties buy our cotton-seed oil as one of the ingredients, we feel bound to make one hand wash the other by ordering their butter."

TUTT'S PILLS

TORPID BOWELS and DISORDERED LIVER.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, a feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, highly colored Urine. CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work, and are a perfect

THOSE WOMEN FOLK.

How Hard-Headed Men Estimate Some Things which they don't Understand.

Anybody who has led a domestic life knows how common such things as the backache, and pains in the chest, are among the women who do the work. Often—and perhaps generally—the distresses are borne without much complaint. The women get about, and the machinery of the house goes on. Beyond this, those coarse-grained animals whom New England women call "the men folks," seldom look. So long as their wives or daughters are not actually in bed, under the doctor's care, the average thick-skinned husband and father gives the subject no attention. At the same time the poor household drudges—who deserve a better fate—creep around, broom or utensils in hand, up stairs down stairs and out-of-doors, doing that woman's work which "is never done." Losses of loved wives and fair girls—losses whose suddenness and unexpectedness astonish those wondenpated husbands and fathers—fall, seemingly out of a clear sky, and form the logical sequel to the story of neglect.

Now, you men who stand at the heads of ten thousand such homes, allow us to drop a word in your respective ears. If these women of yours are worth having, they are worth saving. That back-ache—that pain in the chest! What are they but indications of some organic trouble of the kidneys, the heart, or the lungs? End it at once by the application of BENSON'S CAPCINE POROUS PLASTER. It will soothe that nervous distress, drive away that pain, banish that dull, weary back-ache, give new strength to the body and fresh hope to the heart. No other plasters will do this. The Benson's Plaster, however, is not made to sell—but to heal. It is a remedy which never yet broke its promise—and never will.

Your druggist has it. But before paying your 25 cents and putting the plaster in your pocket, look for the word CAPCINE cut in the middle.

DANGEROUS

SUBSTITUTES

FOR

HORSFORD'S ACID PHOSPHATE

Several inferior and dangerous "substitutes" for the genuine "Horsford's Acid Phosphate" are being offered for sale; and we hereby caution the dealers and public against buying or using them, as they will not produce the same effect upon the system as the genuine "Horsford's," and the ingredients in some of them are dangerous to health.

Some of these "substitutes" or imitations are, simply Dilute Phosphoric Acid, which interferes with the digestion; while the genuine "Horsford's" not only causes no trouble with the digestive organs, but materially assists in their action.

One preparation that is being offered for sale, by the gallon, contains Meta- or Pyro-Phosphoric Acid, which are declared by the highest authority to be poisonous. The same preparation also contains Chloric Acid, which is a compound of Chlorine. "Horsford's" contains neither of these ingredients.

These "substitutes" are liable to be found at soda fountains, because of their cheapness.

CALL for "HORSFORD'S," and TAKE NO OTHER. NEVER SOLD IN BULK.
