READ THIS!

"A movement is under way looking to the amalgamation of all the principal mines in the Greenwater District, from and including Clark's Furnace Creek property on the west to Greenwater Death Valley on the east. This would include the Kuntze, Boston Greenwater Copper and Oddie groups.

"That such a combination would make a magnificent property, no one will question who is familiar with the district.

"The Heinze interests now dominate the Furnace, Furnace Creek Extension, Boston Greenwater, and are believed to control the Kuntze group. Such a combination should make for increased valuations of all the properties mentioned, and the stocks of same are likely to show sensational advances."—Goldfield Tribune, October 22, 1906.

We have satisfied ourselves that this is true. Already the Furnace Creek and Greenwater Death Valley have shown sensational advances. Furnace Creek, issued a year ago at 25 cents per share, has since sold at \$8.00, while Greenwater Death Valley, issued at \$1.00 a share sixty days ago, has since sold at \$3.75.

That the BOSTON GREENWATER COPPER will repeat this is as certain as anything can be, for this group lies in the very midst of the properties mentioned; and it was the sensational values here found that made the Greenwater District famous.

The stock of the BOSTON GREENWATER COPPER COMPANY is to be immediately listed on the principal mining exchanges of the country. Meanwhile we can fill orders on the curb between 55 and 80 cents.

Wire your reservations with limit and we will promptly confirm at the best obtainable price.

REMEMBER THIS STOCK WILL SELL AT A DOLLAR PER SHARE WITHIN THIRTY DAYS,

And Five Dollars Per Share Within Twelve Months.
