Attacked Company Quarters, Captured Them, After Wounding One of Onicers.

WAS MADE WITHOUT WARNING

On Approach of Constabulary to Relieve Americans and Loyal Natives, Mutineers Took to Mountains.

Manila, June 14 .- Details of the mutiny of the company of native constabulary stationed at Davao on the Island of Mindanao on the night of June 6, show that the attack on their officers was made unexpectedly by the mutineers. When the mutineers opened fire one offier, Lieut, Degolcouria was hit three times, but none of his wounds were serious, while Gov. Walker and the other officers of the company escaped without a scratch. The mutineers then fled to the hills after taking 30 rifles and 5,000 rounds

after taking 30 rifles and 5,000 rounds of ammunition.

Governor Walker hastily summoned the neighboring planters as soon as the mutineers were out of sight and proceeded to fortify a convent in preparation for a long siege. On account of the firearms retrictions most of the planters were only armed with revolvers, but when the natives made an attack on the convent on the afternoon of the 7, they fought with great spirit and drove off the mutineers. The mutineers madea desperate attack on the beleaguered garrison and number were killed and wounded before they retired. Among the besieged the wounded include Collector Ruddy and Messrs. Burchfield, Stephens, Reynolds and Hernandez. All of these planters' wounds were slight. Lieutenant Degolcouria, the wounded constabulary officer, is the man who cleaned out the bad men of Davao after the murder of Gov. Bolton in 1907. ton in 1907.

THE MUTINY.

Manila, June 13.—A portion of the second company of native constabulary stationed at Davao in the island of Mindanao in the southern part of the Philippline archipelago, mutinied on the night of June 6, and attacked the company of the property of the pro pany quarters which they captured af-ter wounding one of the native offi-

ter wounding one of the native officers.

After a fight lasting three hours on the following day, in which one American named Libbey was killed and four others wounded, the mutineers took to the mountains upon the approach of a company of constabiliary stationed at Mapi, which hurried to the relief of the besieged Americans and loyal natives.

Without any warning the mutineers suddenly attacked the quarters during the night and gained possession of them before any resistance could be offered by a few native non-commissioned officers and several loyal members of the company. Gov. Walker, of the Davao province, of which the city of Davao is the capital, immediately rallied the Americans and such natives as could is the capital, immediately railled the Americans and such natives as could be trusted, in a large church, and preparations for defense were hastily madduring the night. Windows and doors were barricaded, loop-holes cut, food and water taken into the building, and everything possible done to withstand a siege.

ATTACK ON CHURCH.

At 5 o'clock on the afternoon of the 7th the mulineers began an attack on the church. For three hours the fight raged. A heavy fire was directed against the church and its defenders. replied with such vigor that they dis-couraged all attempts to storm the

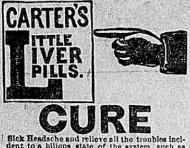

The mutineers retired and evidently expected to await darkness under cover of which a safer and more successful attack could be made upon the church. In the meantime, however, news of the muliny had reached Matl, a town of considerable size, 46 miles southeast of Davac. A company of constabulary stationed there immediately hurried to the relief of Davac. Their appropries the relief of Davao. Their approach caused the disloyal constabulary force to withdraw during the night. Thirty native troopers escaped to the mountains with their arms and equipment. With the receipt of the news of the mutiny today also came word that detachments of the Twenty-third infantry have reached Dayso and quickly suchave reached Dayao and quickly succeeded in restoring order. Several columns of troops were immediately dispatched in pursuit of the mutineers.

MUTINY LOCAL. It is believed here that the mutiny was purely local, resulting from dif-ferences over food supplies or the care of women members of the families of he constabulary. . It is thought to be confined to mem-

bers of the one company at Davao and the fact that a neighboring company, also composed of natives, hurried to the relief of the besieged governor and the few Amreicans at the place, is cited as proof of this.

NORTH GERMAN LLOYD LINER GEORGE WASHINGTON

Southhampton, June 13.-The New North German Lloyd liner George Washington, called here today and sailed again for Cherbourg on her maiden voyage to New York.

Director Heineken, managing diector of the North German Lloyd, in an address at a luncheon on board, said that in the building of the transatlantic liners nothing had been spared to render life at sea as comfortable as on shore. In the case of the George Washington he ventured to claim his

Washington he ventured to claim his company had succeeded in doing even more than this. They had to deal with a noble ship, bearing a noble name and so they had striven to create, so to speak, a noble atmosphere throughout the ship by filling every available space with reminiscences of the ship's great namesake.

The George Washington, 27,000 tons, is the largest ship ever built in Germany and is from the yards of the Vulcan company at Stettin.

She is 778 feet long and 78 feet wide, and depth from the upper deck is 54 feet and from the awning deck 80 feet. There are two sets of triple expansion engines, aggregating 20,000 horse power, which will give an average speed of 18½ knots. Her floating population will amount to 3,203 persons. There is an open arbor connected with the smoking room on the upper deck and Marconi offices for writing messages, dark rooms for photographers a large electric gymnasium and winter gardens.

JAPANESE STRIKE LEADERS INDICTED

Twelve on Charges of Conspiring To Riot, Three for Conspiracy to Murder.

WILL AVERT MARTIAL LAW.

Perritorial High Sheriff Issues Proclamation Forbidding Assembling Of Large Crowds.

Honolulu, June 13 .- Fifteen of the lapanese strike leaders arrested yesterday upon indictments returned by the hearing today. District Judge W. L. Whitney held 12 of them for trial on charges of conspiring to riot, and three for conspiracy to murder. The energetic action taken by the territorial authorities, it is believed, will make military interference and the declaration of martial law in any part of the Hawaiiani islands unnecessary.

When the territorial district court convened in extraordinary session for the preliminary examination of the the preliminary examination of the strike leaders, Sheriff Jarrett, with the approval of Presiding Judge W. J. Robinson, ordered that no crowd would be allowed to assemble about the courthouse during the hearings of the case against the Japanese, on the ground that it was likely to lead to disorder and disturbance of the peace. This order was rigidly enforced by a large detail of police. detail of police.

ASSEMBLAGES FORBIDDEN.

Following the action of the court in holding the indicted Japanese for trial. William H. Henry, territorial high sheriff, united with County Sheriff Jarrett in the issuance of a proclamation forbidding the assembling of large crowds anywhere in the territory while present conditions in the islands obtain. With thousands of idle Japanese excited over the agreest and trial of excited over the arrest and trial of their countrymen, the authorities deemed it wise to prevent the assembly of strikers in numbers that might

lead to disorder and violence.

The authorities declare that the evidence adduced before the grand jury yesterday and the papers seized Friday when the offices of the Jiji, the Japawhen the offices of the Jiji, the Japanese newspaper, and those of the Japanese Higher Wiage association were raided, furnish abundant grounds for the belief that the strikers intended from the beginning to resort to infimidation and violence in their effort to control the sugar industry and eventually the internal affairs of the territory.

PLAN OF STRIKERS.

Dist. Atty. W. A. Kinney, who has charge of the prosecution of the alleged conspirators, stated today that the evidence in the possession of the authorities discloses the entire plan of the strike leaders from the inception of the agitation for higher wages.

The plan, he alleged, included the controlling of the strike by a sceret committee and the carrying on of a campaign among the Japanese laborers,

campaign among the Japanese laborers, through the columns of the Nippu and Jiji, two newspapers controlled by the leaders; the accumulation of funds for the hiring of attorneys to defend and furnish ball money for those placed under arrest as a result of their activity; to unite in the punishment by strikes or otherwise of such planters as opposed the program, and to boycott such of their own countrymen as refused their co-operation. Senichi Uyeno, Japanese counsel general, has advised his countrymen against the men who led the strike movement from the beginning of the

movement from the beginning of the agitation. He expresses approval of their arrest and prosecution.

SENSATIONAL DISCLOSURES.

This action promptly followed the somewhat sensational disclosures yes, terday, when a search of the offices of the Higher Wage association and the Japanese newspaper, Jiji, by the authorities, ref/caled incendiary letters, reports and other correspondence tending to show that a conspiracy was in prospective formation among certain Japanese to wrest the control of affairs in the islands from the whites.

So important was the discovery of what appeared to be a plot among some of the strike leaders regarded by the authorities that the grand jury was best live superposed.

some of the strike leaders regarded by the authorities that the grand jury was hastily summoned and the documentary evidence seized in the raids laid before that body. The deliberations of the inquistorial body, which summoned and interrogated numerous witnesses during the day, was followed by the finding of true bills against 15 strike leaders.

Among the correspondence between strikers and some of their leaders seized by the officers in their search, of which translations were submitted to the grand jury, is the following:

"The Japanese strikes are facing the planters with enough powder, lead and food to make victory sure in the end. Now is the time to exalt the name of your nation and thit with blood the flag of the Rising Sun. Against those who oppose our action we must be ready with hammer of iron and rain of blood, to make the obstinate and blind planters reflect, and to exterminate Sometaro Sheba, the traitor editor of the Shimpo, and his followers. We must prepare.

"If higher wages are not obtained the sword may visit Sheba at any time, and he should provide for the livelihood of his family, which will be left."

The Nippu, the organ of the strikers denounces the arrest of the leaders, and declares that should any extraordinary thing happen it will not be the fault of the peaceful strikers but that the whole blame will rest upon the capitalists and authorities who have resorted to oppression. Ponds for the appearance of the ar-rested leaders were quickly furnished and the 15 men were released.
