They Leave Washington.

WASHINGTON, April 19.—The delegates to the Pan-American conference left Washington at 11 o'clock tonight for their trip to the southern states with a view to securing three weeks. As on their north and west tour last fall, the tour is tendered through the courtesy of the United States government, and the party will travel in a train of Pullman coaches under the personal conduct of the secretary of the Pennsylvania Railroad Company.

WASHINGTON NEWS.

A Matter of U. S. Grant—Public Lands in Montana and Idaho.

WASHINGTON, April 19.—Senator Manderson introduced two bills, which were referred to the library committee, for the purchase of the Matthews portrait of Abraham Lincoln and to accept from the G. A. R. a statue of U. S. Grant and pedestal to be placed in the station hall in the Capitol. In connection with this resolution was a communication from a committee of the G. A. R. setting forth that it was a national movement among the G. A. R. men, who, by private voluntary contributions, had raised \$10,000 for the purpose.

MINERAL LANDS.

Thomas G. Merrill, secretary of the Montana Mineral Association, addressed the House committee on mines and mining in favor of the bill authorizing the examination and classification, with special reference to the mineral character of all the public lands in Montana and Idaho within fifty miles each side of the main line of the Northern Pacific, and to cancel all claims made by that company to mineral lands within these limits.

FARMERS AND FREE COINAGE.

Senators Manderson and Laddack introduced petitions from the Farmers' Alliance of Nebraska, opposing any bill for bonds as a loan for bank notes and asking for the free coinage of silver on an equality with gold, supplemented with United States legal tender notes until the currency shall reach \$50 per capita.

WEATHER BULLETIN.

The weather bulletin issued by the Signal Service says: The weather during the past week has been especially favorable for farm work in the Northwest. In Nebraska, the sowing of small grain is substantially completed as far north as southern Minnesota, and in good condition, but more rain is needed from the Missouri Valley northward over Minnesota. In Michigan, Illinois, Indiana, Kentucky and Tennessee the growing crops are greatly improved. Reports from Oregon indicate that the season is although favorable for fall wheat. Freezing weather occurred in this section during the week.

A Lumber Break.

NEW ORLEANS, April 19.—Reports from various points along the river show no material change except near Shreveport, where the levee broke last night and several plantations were slightly flooded.

Negroes Bound for Oklahoma.

TORONTO, April 19.—The Rev. B. F. Foster of this city, who has been in Alabama for the past two weeks, is interested in the Oklahoma Immigration Association, writes that colored people will come from Alabama before July 1st to settle in Oklahoma.

Disastrous Forest Fire.

ENO HARBOR CITY, N. J., April 19.—A great forest fire started in the Germania district this evening, and is still raging. A wide tract of heavy timber, a few hundred acres in extent, was destroyed in less than four hours. The flames then crossed the road and burned over three farms. The adjacent timber lands caught fire, and altogether 1000 acres of valuable timber was burned.

Attempted Assassination.

PHILADELPHIA, Pa., April 19.—It has just been made public that on last Tuesday night an attempt was made to assassinate C. H. Edmundson at his home near Fairmount. The matter has been kept secret at the request of the detective, who are trying to catch the would-be murderers. Mrs. Edmundson is postmistress at Belfair Mills and her husband is her deputy. Several days ago Edmundson had a dispute over the delivery of mail matter with some tough characters, and they threatened to force him out of office if he was not dismissed by the government. He paid no attention to the threats and last Tuesday night at 11 o'clock, hearing loud voices near his house, he ran to the window. A rifle report rang out and a bullet whizzed by his head. He jumped back just in time for a volley was fired into the room by the would-be assassins. The attacking party then tried to break into the house, but failed. Edmundson is a democrat, although his wife is a republican, and it is claimed by some that political troubles caused the assault.

Suspected Cigars.

JACKSONVILLE, Fla., April 19.—A special from Keyway says the customs inspectors seized in a steamer today 15,000 smuggled cigars valued at fully \$2,500. It is the Smiths' lot, from the United States ship, "Cuba," which was Pacific labeled "Whisper, Master at Arms."

A Sooty End.

NEW ORLEANS, April 19.—Celia Clay was arrested tonight on the charge of street walking. Her reputed husband, Harry Clay, married and was clubbed into unconsciousness. The woman when locked in the cell, set fire to her clothing, and before the police could rescue her she was fatally burned.

Railroad Work.

WHEELING, W. Va., April 19.—The Pittsburg and Cincinnati agent on the Baltimore & Ohio road collided with a freight train near Barnesville, O., tonight. Both trains were badly wrecked. One engineer was killed and a number of passengers wounded, but the names or details were not obtainable.

Confederate Remnant.
