It is claimed that the object of Bowers' arrest is to send him back to Henry county, Ia., where he is wanted as a witness in a case to be tried there. The petition will be heard before Judge Lewis this afternoon at 3 o'clock.

ADDRESSED THE STUDENTS

Mabelle Bigart, B. A., of New York City, at Barratt Hall This Morning.

This morning at the Latter-day Saints' university, Miss Mabelle Bigart, B. A., of New York City, briefly addressed the students on the value of having true aims in life. Miss Bigart said she was delighted to meet such a body of western students. Thirteen years ago she had occupied the chair of prayer and literature in the University of Colorado, and was therefore familiar with the aims of western boys and girls. She stated that the responsibilities of the west in the destinies of this nation are at least as great as those of any other part of this country, and related by way of illustration some of the things to be seen among the Navajo and Navajo Indians among whom she has recently been living for the purpose of sociological study. She said besides the sheep, the cattle and the horses, the women at work in the hoe gardens, and not far off many of the men playing a gambling game they called "Monte," when she asked where they had learned that game, they said from the Mexicans. "Now, my dear," said the speaker, "is a game that goes on in all society, only it is mostly in other forms than those played by the Indians. We often risk our reputation, our hopes, our lives, on some mere chance. Young people, will you let your lives be mere games of chance, or shall they be based on reality and on the principles of truth and right? If God is in your life and if Christ abides in you, you may go through the world with the golden rule as your shield and motto."

UTAH LAKE PROJECT.

Engineers Leave Salt Lake After Completing Running Surveys.

The project of turning Utah lake into a vast reservoir for irrigation purposes is assuming definite shape. Supervising Engineer H. N. Savage of the Reclamation service of the United States geological survey, has just completed a detailed investigation of the scheme. He was assisted in the work by Consulting Engineers Geo. Y. Wiesner and W. H. Sanders, and they went very carefully over the surveys, plans, materials to be encountered in the development of the project. They visited the country where the work will be done and gave especial consideration to local features that are liable to present problems in working out the project. As yet no final decision has been reached.

Mr. Savage said, when seen today: "We found conditions as favorable as could be expected. It will be several months before certain conditions can be determined definitely enough to decide finally upon the feasibility of the project. It will be necessary to have an adjudication of private water rights on rivers tributary to the lake and title finally settled, in order to establish the water supply available to the lake itself."

The engineers leave Salt Lake at once to investigate projects on foot elsewhere by the reclamation service.

His Entire Hunting Establishment Has Been Sold.

New York, Sept. 30.—The entire hunting establishment of Foxhall P. Keene has been sold here at public auction. In addition to these two packs of hounds, bought in England, were sold.

The sale brought representatives not only from all the hunting colonies of this country, but from England and Ireland as well. While all the hunters offered brought high prices generally, the American blood horse commanded the highest figure in almost every instance. This English one was sold for \$10,000. The five-year-old brown gelding Prophet, by Horoscope Royal Nun, was sold to the agent of Capt. Matthews of the Royal Leicestershire regiment, Hyer, Ireland, for \$4,000. Wholesale grocers report an individual increase of business occasioned by lessened competition. The general tone of the market has materially improved and better conditions are anticipated as soon as farm products and beet crops are realized on. House building is active, but mining development is stationary. Collections are improved."

LATE LOCALS.

The overhauling of the White House hotel and its complete interior remodeling, have been completed.

The little Paradise girl baby who fell from the third story of the Eagle block, yesterday morning, appears to be all right today, but little the worse for the fall.

After last night's performance at the Salt Lake Theater, Miss Sallie Fisher, Miss Ida Savage, Mrs. W. D. Ritter, N. L. Morris and Hugh W. Douglass made up a very pleasant party who partook of a generous midnight spread at the Wilson cafe.

The cold wave is passing off and the weather today is much warmer, and overcasts are not needed this afternoon. The minimum temperatures were moderate yesterday all over the country, and heavy rains have fallen over Colorado, New Mexico and western Texas.

IDAHO A. P. U'S ARE ON THE ROCKS.

Dubois Storm-Starters Turned Down by the Bear Lake Democrats.

HAVE NO MONEY FOR THEM.

Notice Served on Anti-Mormon Machine to that Effect by the Committee Men.

Apparently the Idaho Democrats have no funds for the Dubois campaign, judging from the notice served on the Gem State branch of the A. P. U.'s by Messrs. Hart and Hoff of the Bear Lake county Democratic committee. The following clipping from the Sugar City Times under the date line of Montpelier gives the situation in a nutshell:

The following telegrams are being handed around among the faithful here and may be taken as an indication of the direction of the campaign in Bear Lake county this fall:

Boise, Ida., Sept. 13.—W. H. Hoff, Montpelier, Ida.: Can you procure hail for Heitfeld at Paris, Monday evening, the 19th, and Montpelier, the 20th? Answer, CHAS. H. JACKSON, Chairman.

C. H. Jackson, Chairman, Boise, Ida.: Have no money for campaign purposes. Who pays the bills for hiring halls? H. H. HOFF.

Boise, Ida., Sept. 14.—J. E. Hart, Chairman Dem. Co. Com. Paris, Ida.: Hoff telegraphs: "Have no money for campaign purposes. Who pays the bills for hiring halls?" What are we to infer from this?

CHAS. H. JACKSON, Chairman.
Boise, Ida., Sept. 14.—H. H. Hoff, Paris, Ida.: By your telegram we are to infer that the state committee is to receive no assistance from Bear Lake county in this campaign.
CHAS. H. JACKSON, Chairman.

Paris, Ida., Sept. 15.—Charles H. Jackson, Chairman, Boise, Ida.: From H. H. Hoff's telegram you may infer that we have no money to pay the expenses of any crusade against any creed, church or people in our state. Let those who take stock in this warfare put up the cash.

JAMES E. HART, Chairman Co. Dem. Com.
HENRY H. HOFF.

"An Old Line Democrat," writing to the Boise Capital News, says that just to show the political character of the gentlemen who are now directing the destinies of a Democratic party in Idaho, the following categorical statement of past party affiliations may prove of interest:

Senator Fred T. Dubois—Republican; anti-Mormon; silver Republican; fusionist; Democrat; "American." Charles A. Arvey—Secretary to Senator Dubois and secretary of the Democratic state central committee; Republican; anti-Mormon; silver Republican; fusionist; Democrat; "American." P. Donnelly, ex-chairman Democratic central committee—Republican; silver Republican; fusionist; Democrat; "American." C. J. Bassett, ex-secretary of state—Republican; anti-Mormon; silver Republican; fusionist; Democrat; "American." C. Harvey Jackson, chairman Democratic state central committee—Tammam Democrat from New York City, and the only one in high Democratic circles who is not a political renegade.

The real Democratic party of Idaho never desired to resurrect this mouldering corpse of the past, but the delegates to the Legislature convention were, by some byronic means, coaxed into making it the one issue of the campaign. It was a mistake that will split their party asunder and disorganize it for years. The real Democrats represented by such newspapers as the Daily Capital News of Boise, the Daily Tribune of Lewiston, the Advance of Pocatello, and a score of others will follow the lead of this mongrel aggregation but they will still maintain the semblance of an organization and will eventually wrest the leadership of their party from those who have destroyed it. There will come a time when Democrats and Republicans of Idaho can fight it out squarely and honestly upon issues that are of vital importance to the state and nation. But not this year. This is to be a one-issue campaign, if Mr. Dubois and his followers can make it so.

GAINS AND LOSSES ABOUT EVEN.

New York, Sept. 30.—Opening price changes were very evenly divided between gains and losses. Conspicuous buying of the local municipal stocks gradually infused firmness into the rest of the list, and prices advanced rapidly to a level over last night's standard stocks were benefited by the heavy absorption of St. Paul and United States Steel preferred. Stocks were inclined to drop for a while, but were pulled up again by United States Steel preferred, which rose to 77 1/2, the highest price on the present movement, and 14 over last night. The rise was slight and some of the prominent stocks amongst the Pacific, trunk lines and Southern group were inclined to sink back to last night's level or slightly below. Distillers Securities fell 1/4.

Bonds were firm at noon.

The market displayed little feature aside from the steady rise in United States Steel preferred, which touched 77 1/2 at 1 o'clock. The railroads list was better than at noon, especially Union Pacific and Canadian Pacific, which ruled a point higher.
