wan Francisco, May 28 .-- Prior to the resumption this morning of the Schmitz trial in Judge Dunne's court, Atty. Slessinger appeared for Theodore V. Halsey, of the Pacific States Telephone & Telegraph company in the matter of the additional indictment returned against him by the grand jury last Friday charging the bribary of a superior. Mr. Slessinger stated that Attys. D. M. Del-W. P. Humphrey and himself would defend Halsey and asked that the name of Mr. Delmas be entered as one of the attorneys of record for the defendant. He said Halsey was in court ready for arraignment on this indictment; but through a clerical error the case had not been entered on the calenday, so the arraignment was set for tomorrow morning at 10 o'clock.

In order to allow Mr. Delmas to exandne the ten indictments previously returned against Halsey and the transcribed testimony before the grand jury arraignment on these counts was post poned until Saturday, June 1.

Of the 59 veniremen summoned into court for the completion of the Schmitz jury-eight jurors already having been sworn to try the case-41 answered the clerk's roll call, nine were absent, 25 offored excuses to the court and were al-lowed to depart, leaving 16 men from whom to select four jurors to complete

GEN. KUROKI AND STAFF ARE DOING CHICAGO.

Chicage, May 25.-Gen. Baron Kuroki and staff today began a four days' round of sightseeing in and around Chicago, with a tour in automobiles through the public parks and boulevards. They next made a minute inspection of the great packing plants at the stockyards. Every detail of the shipping, buying slaughter-ing and preparing for market of cattle, hogs and sheep was explained to the Japanese who showed much interest and asked many questions. The party were tendered a luncheon at the Saddle and Sirlein club.

It is not one on the regular police docket, but three men finally saw the "officer" before he was kicked out of the house, making a threat that he would report the rough treatment accorded to him "to the court." They all declare that they could identify him, and while they want their names kept out of print, unless it becomes neces-sary to use them, they stand ready to follow the case to any legitimate limits, and will sacrifice their feelings in this regard, should occasion demand it. London, May 28.—In an interview Lord Rochschilos said he could see no imme-diate prospect of an improvement in the stock markets. He added: "The best that can be said is that the markets are no worse today. Perhaps they are slightly better. But with Prest-dent Roceevelt attacking the railroads in one part of the world, the income tax question and other problems in France, and the Socialist movement in England, the poole are killing the goose that laid the golden eggs and we can expect noth ing more than what the market position reveals."

STREETCAR BLOWN UP.

Two Men Badly Injured, Many Thrown Down and Trampled Upon.

Chicago, May 28 .- Two men were badly injured by broken glass and a score of others received slight injuries carly today when a street car upon the Calumet Electric grailroad was blown from the tracks by a torpedo at Ninety-third street and South Chicago avenue. The explosion lifted the car body and dumped it into the road. The car was jammed with men going

to work in the steel works and in the panic that ensued many were thrown down and trampled upon. A rumor which found some credence as to the strike situation.

A runner which round some creatence was that the torpedo was planted with the design of blowing up prospective passengers upon the gambling boat City of Travers, whose landing place is about a block away, the theory ad-vanced being that it was planted either by wellgious fanatics or by type of by religious fanatics or by rivals of the City of Travers road. The police have found no evidence to substantiate this report.

That this man however is a mere member of the kindregarten of graft, instead of a graduate in the whack-up department, such as Parrent testified that he and Bell were, is evident from the fact that he accompanied the pros-pective victim of a "touch" to his home instead of throwing him down and robbing his pockets on the way. The first the party coming to com-plain of the incident to the "News" heard of any disturbance was when he was awakened by the officer, although he had heard mumblings in an indis-tinct way in another room of the apart-ments. From the story of the man and that of the officer, it was developed that the man was coming home on Main street, and when at the northeast corner of South Temple street, headed north, he was overtaken by the officer. The man, however, maintained that he had not been creating any disturbance, that he was not intoxicated to the point of being drunk, and that he was per-fectly able to continue his way home, towards which he was walking. An argument followed in which the officer finally accompanied him to the apartments where he lives, and then atfiver.

Finally my room mate, who had stood bis impor-tuning as long as he could, got out of bed, grappled him by the collar, shoved him through the door, and locked it. The last we heard as the door key clicked was that he would report this matter to the judge, and that we would have been stuck that much anyhow if he had taken him to the station. I can identify the officer I am most sure, he had a close cut grizzly moustache, and wore his star under his cout, on his vest, instead of in the usual place. Main street was Johnson's beat, but as he was acting sergeant it was his duty to make the rounds of the various beats and see that the officers were at their post. This necessitated a change on his beat, and Johnson put one of the men on Main street. But just who he assigned to this beat could not be learned, as no record was kept of that particular change. An investigation, however, could easily develop this fact, and it would not take Chief Sheets long to find out. El Paso, Tex., May 28 .- In spite of the fact that a similar charge was investigated and dismissed by a grand jury some time ago, another complaint has been filed with United States Dis-Atty. Llewellyn of New Mexico, that a tribe of Indians in that territory are given to the worship of an enormous serpent, to which is fed the new-born babes of a pueblo in which it is housed and carefully tended and guarded. The complaint was filed by a Catholic priest, who alleges that a dozen families were segregated from several pueblos around about two years ago and formed into a pueblo by themselves. That although t is known that many children have een born to these families, not a child is to be found in the pueblo. This led the priest to press his investigations with the result that he discovered that in an adobe house, isolated and closely guarded, there is an enormous serby guardes, there is an enormous ser-pent, which is worshiped by the Indians of all the pueblos around, and that every habe born in the small pueblo, and it is suspected many others, are fed to the serpent. Maj. Llewellyn, having no jurisdiction, has filed the af-fidavit of the prices and other evidence with the territorial authorities.
