

CITIZENS ASK FOR SPECIAL SESSION

Prominent Utah Men Appeal to Governor Cutler to Call Law-makers Together.

ALL FAVOR CONSOLIDATION.

Claim is That Action is Imperative and That it Would Result in Great Saving to State.

Gov. Cutler this afternoon received a petition signed by many of the leading business men of Utah asking that a special session of the legislature be held for the purpose of taking action in the matter of the proposed consolidation of the state agricultural college at Logan and the University of Utah. The petition sets forth that the question is one of grave importance, and involves the peace and harmony of the entire population of the state. Should it be allowed to go over until another regular legislative session the question will become more or less of a political one, to the disgrace of higher education in all its branches. About 40 reasons are offered tending to show why the institutions should occupy one site and become one consolidated educational institution.

The loss through duplication of courses, instruction, appliances, etc., is entered into with particularity, and is estimated as running into thousands of dollars annually. The rival lobbying every two years for the government appropriation would be done away with, and a combination of the two institutions would be stronger and greater in every way than either institution is at present. It is likely to become, it is said, to be impossible to prevent duplication in the two schools under the present arrangements and experience has gone to show that combined institutions of learning are enabled to obtain stronger and more generally satisfactory work; \$152,000 is mentioned as the amount which would be saved during the coming year by a combination of buildings alone. It is pointed out that the farm of the Agricultural college has been abandoned, and that ground has to be rented by the state for experimental purposes, and that another six acres of land must be purchased at once should the college continue to occupy its present quarters. The present legislature by reason of its familiarity with newspaper publicity, etc., with the situation, is in a better position to cope with the matter than would be the new one. It is estimated that the necessary appropriation for 1907, should the Agricultural college combine with the state university, would be \$300,000, of which \$190,000 would go into new buildings, and the balance into barns, coops, new equipment, etc., and this amount would do away with the necessity of any appropriation whatever in 1909. As matters now stand, \$149,500, it is argued, will be required by the college should it retain its present quarters.

The petition was signed:

Heber M. Wells, Nepti L. Morris, Raion S. Wells, E. A. Wall, Richard W. Young, B. P. Cummings, Thomas R. Cutler, John C. Mackey, E. T. Miller, Frank Knox, W. P. Adams, Waldemar Van Cott, E. N. PERSONALS.

George E. Wallace and wife of El Paso are guests at the Knutsford.

Mrs. A. L. Cooley has returned from a two months' visit with her brother and sister in California.

S. B. Tuttle has returned from a pleasant trip to San Diego where Mrs. Tuttle and the two children have been during the warm weather. The latter will return early in the coming week.

Mr. and Mrs. L. C. Miller will make a hunting trip to the Hudson bay territory next month in company with Chicago friends. The party will reach the country by canoe from the last steamship landing.

KANSAS DEMOCRATS.

Topeka, Kas., July 26.—The nomination papers for the Democratic ticket were filed at the secretary of state's office today without protest on the part of Mr. Burrows, the secretary. Mr. Burrows recently stated that he thought W. A. Harris, the Democratic nominee for governor, was not a resident of the state and therefore it would be illegal to place Mr. Harris' name on the ballot.

ALL STATIONS GUARDED.

Kharov, July 26.—A correspondent of the Associated Press who arrived here today from St. Petersburg found all the railroad stations en route guarded by troops. While all is quiet here there is a tremendous undercurrent of excitement.

The governor general has confiscated the paper owned by Prof. Godeskul, who was vice president of the lower house and another liberal paper, and has forbidden the printing offices to publish contributions of any kind from members of the outlawed parliament. The attitude of the peasantry in this province is represented to be alarming. Agitators are recruiting men to place in battle, inciting the peasants to rise, burn, plunder and take possession of the land. Two estates near here were burned last night.

JEWISH ORPHANS.

Lemberg, Galicia, Austria, July 26.—A committee of Jews representing Frankfurt and other German societies arrived here from Russia today, with 100 children who have been made orphans recently as the result of another Jewish outbreak at various places. After a few days' rest the party will proceed to Germany, whence the children will be forwarded to the United States and England.

MORE VOTERS WANTED.

City and County Officials Decide to Purchase Six Machines.

A meeting was held this morning at which were present Mayor Thompson, Councilmen Black and Crabtree, and the Salt Lake county commissioners, at which it was decided to immediately purchase six more voting machines for use in the coming elections. County Clerk Eldredge submitted a report on the matter as a result of his recent checking of the election booths, which disclosed the fact that in some districts there were more voters than the law allowed for one voting machine.

ECHO OF QUAKE.

Husband Lost and Anxious Wife Looking for Him.

Another frightful episode in connection with the recent San Francisco disaster, was disclosed this morning when Mrs. C. L. Buelsford applied to County Clerk Eldredge for assistance in locating her husband who is supposed to have been in the city on the morning of the quake.

Mrs. Buelsford is employed as a cook at the Grand Pacific hotel here and endeavoring to support her children on her small earnings. She declares that her husband and the children came from the east last spring and settled in Sugar City. Later he moved further west in search of remunerative employment and in the one letter since received from him he announced his intention of starting for Tullock in Stanislaus county, California. He is known to have visited Price and to have had about \$500 with him at the time. Not a line or message of any kind has been received from him since the disaster in spite of all Mrs. Buelsford's efforts to locate him.

APPOINTMENTS FOR UTAH.

Examinations Will be Held Here During September and October.

Senator Reed Smoot is in receipt of a letter from L. Foster Bower, 363 West Twentieth street, New York, in which inquiries are made concerning members of the family of ex-Governor of Utah Samuel B. Axtell. Any information that will place Mr. Bower in communication with any of the ex-governor's family will be gratefully received by the writer of the letter.

Senator Smoot has received a communication from the civil service department, Washington, D. C., stating that sufficient applications from Utah for positions of stenographers and typewriters in the department have been received to warrant the holding of examinations here during the months of September and October. It is stated in the letter that Utah is entitled to a larger quota in the department appointments than her citizens have availed themselves of, and a desire is expressed that a larger number of applications be filed. The salaries of males in the positions indicated range from \$340 to \$1,000 per annum, and females receive from \$280 to \$720 annually.

THEY HAD GOOD LUCK.

Party of Salt Laker Return From Idaho With Big Catch.

A party of young Salt Lakers stepped off the Short Line train from the north with evidence of decided good fishing. In all they had 200 trout, several of which went over two and a half pounds. These they solemnly averred they caught with their own hands on Camas creek, 18 miles west of Dubois, Ida., yesterday and the day before. They claim that if they had taken bigger hooks and stronger tackle they would have done even better. The natives advised them to fish with bait if they wanted to get big ones, but being good sportsmen they stayed with flies and had all kinds of fun.

In the party were Messrs MacRae, Johnson of the Y. M. C. A., H. O. Williams, W. T. Jackson and M. O. Egly.
