SAD TRAGEDY NEAR BLACKFOOT

Special Correspondence. R LACKFOOT, Ida., Nov. 39,-One of the most distressing accidents that D has been known here occurred Monday night, Clarence McDonald was found dead, and the nature of the accident will probably never be known.

Mr. McDonald was hauling wood from the Lavas, about 20 miles from Blackfoot. He left home early Monday Blackfool. He left home early Mondaly morning with the intention of return-ing that night. Just before dark one of his horses passed the ranch of his broth-er, Henry McDonald, about four miles from where he was loading wood. This caused considerable anxiety, and Hen-ry, with two of his neighbors, started at once in secure of the missing man ry, with two of his neighbors, started at once in search of the missing man. The night was very dark and a terrific snowstorm raging, but they finally dis-covered his wagon, with one of the horses tied to the load. They built a fire near the wagon and soon heard the bark of a dog. They started in the di-rection from which this sound came and soon discovered the lifeless body of Clarence; his dog lying close at his side. The muzzle of his shot gun was clinched tightly in his hand, and a gun wound was found in his head. It was also discovered that one of his legs was broken between the knee and ankle and had been bandaged with his

D RIGOS, Fremont Co., Ida., Nov. 23, -The Teton valley to the test talked of region in the state of Idaho just now. A vigorous agitation is going on to promote a big mass meeting to be held next Monday at 11 o'clock a. m. in the new stake house at Driggs. Mr. Mark Austin, manager of the Ida-ho Sugar company, has just finished a tour of the valley in the interest of the new proposed branch railroad from Sugar City to Victor. This is far the most feasable route, saving about nire miles of heavy cuts and fills in the dis-tance. The right-of-way has been guar-anteed from Sugar City to Canyon creek, a distance of about 20 miles. From there lies a stretch of about 12 miles of unoccupied country that will all be dry farmed in the very near fu-ture, into the Teton valley. The people are becoming intensely interested and will no doubt offer a free right of way from the river bridge through Haden, Cache, Driggs, Chapin and Victor. SEN. PLATT GOING TO INSURA NCE INVESTIGATIONS.

The above snapshot of Senator Platt was taken as he was leaving his Broadway office to testify before the Insurance Investigation in the Council Chamber of the City Hall. So weak was the "Easy Boss" that he had to be literally carried on a chair to and from the Council Chamber. He had never appeared so frail and helpless in public. When his testimony was concluded he was borne from the building in a chair carried by three attendants. Whatever there was of weakness, however, extended from the neck down. The head that has planned a hundred battles was still as serviceable as ever.

The fragile old man was barely able to support his thin, shaking hand in the air, with the elbow on the table, while taking the oath.

Special Correspondence. M OSCOW, 1da., Nov. 28.—Another pioneer woman who crossed the plains in 1847 en route to Utah has passed away in the person of Jane R. Gustin Holden of this place, wife of William Holden. After an illness of three months' duration she passed away Nov. 16, 1905.

The deceased passed through all the privations and dangers that marked early life here, having come to Utah in Parley P. Pratt's hundred and Perry Green Sessions' fifty. She arrived in Salt Lake City Sept. 10, 1847, and was the owner of the first hand loom that was turned out in the state. She also

turned out the first yard of cloth that was woven by hand in Utah. On March 25, 1849, she married William R. Holden. She was the mother of children, nine girls and three boys.

children, nine giris and three boys. Of this family six girls, one son and her husband survive her. She had 50 grand-children and 35 great grandchildren, 32 of whom are still living. Together with her husband she moved from Salt Lake to Sanpete valley and helped to build up the city of Mapri. It was in this city that she lost her first two children from accidental burning. Then she moved to Nephl, where the rest of the family was born subsequent to moving to Moscow in

You have read our oft-repeated statement, "In use for over 30 years." It was in the early sixties that Dr. Pitcher first made use of the prescription now universally known as Castoria. With a record of over fifty, under five years of age out of every bundred deaths, it was the AMBITION OF EVERY PHYSICIAN to discover a remedy suitable for the ailments of infants and children that would decrease this distressing mortality. In Castoria that relief has been found.

Let us take the statistics covering the deaths in the City of New York for the past 30 years, and here we find the benificent effect of a combination of drugs excluding opiates and narootics so long sought for, namely: CASTORIA.

Of the total number of deaths in New York City is 1870, 50 per cent. were under five years of age; in 1880, 46 per cent.; in 1890, 40 per cent.; in 1900, 35 per cent. enly. Just stop to think of it.

Until 1897 no counterfeits or imitations of Castoria appeared on drug store shelves, but since that date Mr. Fletcher has been called upon to suppress a number of these frauds. While the record for 1900 does not come down to our expectation it is owing to the carelessness of mothers when buying Castoria. The signature of Chas. H. Fletcher is the only safeguard, and he alone is authorized to use the doctor's name.
