

ROUTES INTO NEW IDAHO GOLDFIELDS

Short Line Figuring on Extending
to Thunder Mountain.

THE MOST FEASIBLE LINE

Boise Men Want the Road to go
through Capital, but Railroad
Officials do not see it.

General Passenger Agent Burley of the Short Line is alive to the possibilities of the Thunder Mountain mining district in Idaho. He has had a special representative looking over the ground in the Salmon river country for an extension of the new branch road from Mackay to Challis and thence into the newly discovered gold fields. The Boise people are making strenuous efforts to have the Thunder Mountain road run from the state capital, but such a line would have seven ranges to cross and a greater distance, 155 miles, to travel than by the Mackay-Challis route, and Mr. Burley recently expressed himself in favor of the Salmon river line.

W. G. Page, a prominent Hailey mining man, when in Salt Lake lately, held that the proper route would be via Ketchikan over the Wood River line, but the Short Line officials shake their heads, and say, "No, the Salmon river is the most economical route."

From Utah the present route east of access is via Red Rock on the Short Line, and thence by stage to Salmon City, Lees Ferry, Yellow Jacket, thence it is only thirty eight miles by a good mountain trail on the middle fork of the Salmon river. Yet another route is up the Salmon river, past Clayton, Stanley creek and Bear valley, down the middle fork of the Salmon and thence up Marble creek.

It is claimed that at Challis the Short Line can depend on 800 tons of ore daily from mines now developed, and Judge Padgham of Salmon City, says there is not only gold in that country, but copper, cobalt, nickel and bismuth. Also that on Big creek to the north of the Salmon, there are great deposits of copper.

TRANS-ALASKAN ROAD.

Will Ask for Land Grants Like Pacific Roads.

Denver, Nov. 14.—President J. J. Frey of the Trans-Alaskan Railway company, has gone to Washington and will be followed in a few days by other officials of the company. The officers of the company go to Washington to work in the interests of a bill granting to the company every alternate section of land on their right of way through the peninsula. It is claimed that the new railway will be of great benefit to the government in the transportation of troops, munitions of war and mail, and that the company is entitled to the same subsidy as granted the Union Pacific when that road was built through the Western States. It is the intention to connect the Trans-Alaskan road with the trans-Siberian road and to settle a majority of the lands of Alaska with immigrants from Russia, Sweden, Norway and other old countries.

Petroleum for Engines.

"Petroleum is the greatest fuel ever burned in a locomotive fire box," said E. T. Plovman of the Harvey Dining car on the Santa Fe road, at the Knutsford yesterday. "Coal isn't in it with oil. But just at present none of the engines running east of Selkirk have been fitted up as oil burners, although this will come later on. Oil is clean handling, clean burning, no smoke, smut, soot or cinders, and the duties of a fireman on an oil burner are principally to look out of the left windows of his engine cab, and keep the fires of the cab fixtures. As to passenger traffic, it is the greatest in the history of the road, and the chances for this winter's business are excellent."

Trainmen's Ball.

The fifth annual ball was held at the 235, Brotherhood of Trainmen, will be held on the night of Tuesday, Dec. 17, in Christensen's hall. The invitations are printed in a very novel and unique form. They are in the shape of a telegraphic train order—"Train No. 1." It says: "This blank is to be used for dancing purposes only." "Time received, 8:30 p. m. O. K. given at 8:31 p. m. Conductor, P. H. Derrig, train special 288, made complete at 8:31 a. m. F. E. Dipley."

SPIKE AND RAIL.

The passenger men will meet in Philadelphia in 1902.

Rapid progress in construction is reported on the Laramie, Hahn's Peak & Pacific road.

It is reported that the Short Line station at Mackay, Idaho, is averaging in receipts, \$1,000 a day.

W. G. Sharp, general manager of the Pleasant Valley Coal company, has returned from New York.

Acting Traffic Manager Schumacher and General Superintendent Calvin of the Short Line are up the road on business.

men, who have seen five years of long service with the company.

The railway presidents have sent out positive orders to maintain eastbound rates from the Missouri river. These have been demoralized of late.

Burlington surveyors are running a line south of Cody to the 30,000 acres of coal land near Thermopolis, controlled by Senator Clark of Montana.

P. F. Sargent, grand chief of the B. of L. F. said at Denver the other day that the railroad orders of the United States will unite to aid the cause of irrigation.

The Street Railway company is laying its new 72-pound steel rails in various parts of the system, where it is most needed. The cars ride beautifully over it.

The railroads are taxed heavily to handle the sugar beets with anything less promptness. The sidings at the Ogden, Logan and Lehi factories are filled up with cars loading and unloading, and the growers are turning out their product "to beat the band."

BUSINESS NOTES.

Notwithstanding the fact that money is tightening up somewhat, due to the heavy withdrawals from the bank for the construction of the new line, local stockholders maintained their usual high positions. Broker Cutler reports that as high as \$197.50 was bid for stock of the Ogden Sugar company, \$122 per share for Co-Wagon, and \$105 for Church bonds. Deseret National sold at \$350 with the dividend of 3 per cent just paid. Utah Sugar has been rather dull during the week, the last sale taking place at \$14.50. The 12,000,000 pound sack will be passed tonight and both the Ogden and Logan factories are actively grinding. The sugar product of all three is selling actively in Utah, Idaho and Montana. Shipments being made to eastern points where a fair market is obtained.

Following are the latest quotations of local stocks:

Deseret National bank	\$260.00
Utah National bank	145.00
Home Fire Insurance Co.	130.00
Utah Sugar Co.	145.00
Ogden Sugar Co.	197.50
State Bank of Utah	145.00
Deseret Savings bank	190.00
Co-op Wagon & Machine Co.	122.00
Commercial National bank	100.00
Utah Com. & Sav. bank	99.00
Zion's Sav. Bank & Trust Co.	140.00
Provo Commercial & Sav. bank	115.00
Lehi Com. & Sav. bank	100.00
Thatcher Bros. B'k'g. Co., Logan	111.00
First National bank, Ogden	202.50
Rocky Mtn. Bell Tel. Co.	100.00
Davis Clearing bank, Farmington	100.00
Barnes Banking Co., Kaysville	200.00
Ogden Savings bank	103.00

BONDS.

Church bonds	105.00
S. L. City R. R. bonds (taken up in 1903)	104.00

Thomas R. Cutler, manager of the Utah Sugar company, left today for San Francisco on a flying business trip.

The new bank at Brigham City, which is to be a national institution, will, it is said, commence business about the first of the new year.

The Salt Lake Oil and Gas company has been organized in this city with a capital of \$250,000 in 25-cent shares to conduct a general oil business in Utah and Wyoming fields, also to develop 2,680 acres of oil lands now in the possession of the company. The incorporators are J. A. Rogers, president; B. S. Rives, secretary and treasurer; D. J. Williams and J. H. Rives. Vice-President Ely of the new company is expected to arrive in Salt Lake from Boston on business connected with it.

According to Bradstreet's table showing the amount of the bank clearings in all the principal cities of this country for the week ending November 14, with the percentage of increase over last year, Salt Lake clearings amounted to \$4,164,427 or an increase of 3.3 per cent; Los Angeles to \$4,275,500 or 5.1 per cent; increase; Portland to \$3,588,513, on 3.3 per cent increase; Seattle to \$3,779,967 or 3.6 per cent increase, and Denver to \$4,788,632 or a decrease of 4.6 per cent.

James Farlow, of Toronto, Thomas Farlow and Margaret J. Farlow, of this city, have conveyed to Dora Newell White of this city an undivided half interest in 504x165 feet of ground facing north on West Temple street from 200 feet to West Temple street. The consideration is \$4,000.

The working plans of the Tarbett terrace are nearing completion and building.

All Stuffed Up

That's the condition of many sufferers from catarrh, especially in the morning. Great difficulty is experienced in clearing the head and throat.

No wonder catarrh causes headache, impairs the taste, smell and hearing, pollutes the breath, deranges the stomach and affects the appetite.

To cure catarrh, treatment must be constitutional—alterative and tonic.

"I was afflicted with catarrh. I took medicines of different kinds, giving each a fair trial; but gradually grew worse until I could hardly bear, taste or smell. I then concluded to try Hood's Sarsaparilla, and after taking five bottles I was cured and have not had any return of the disease since." EDGAR FORBES, Lebanon, Kan.

"I had catarrh in the head and throat. Had a bad cough and raised blood. My husband persuaded me to take Hood's Sarsaparilla and it has done me so much good I advise all to take it. When I began its use I could scarcely walk and had headaches. It has cured and built me up so I can do all my own housework." MRS. H. C. REYNOLDS, West Lacombe, N. S.

Hood's Sarsaparilla

Cures catarrh—it soothes and strengthens the mucous membrane and builds up the whole system. Sold by all druggists.

State Fair 1901.

GOLD MEDAL (HIGHEST PRIZE) AWARDED.

Three Crown Baking Powder, Gold Medal; Three Crown Spices, Gold Medal; Three Crown Flavoring Extracts, Gold Medal. Merit will tell; buy the best, and you will never be deceived.

HEWLETT BROS. CO.

ing will be begun at once. The terrace, which will be the old road on the southwest corner of the block between First and Second and I and J streets, will cost between \$30,000 and \$50,000.

Architect Neuhausen has completed a handsome set of plans for the proposed business block to be erected on the Walker House site for Hon. David Keith. The plans provide for a nine-story, fireproof modern business block to cost about \$300,000. Mr. Keith is expected to return some time next week from Portland and the coast, where he has been for several weeks and the architects competing for the building expect a speedy decision so that the work of tearing down the building now on the property may commence at once. It is thought the Walker House will be taken down immediately, so that work on the new building may be commenced as early as possible in the spring. Architect Neuhausen states that the work of construction will take about two years.

The Woolley Smokeless Furnace company is now tearing out its experimental furnace at the electric plant in the rear of the Atlas block and will at once erect smokeless furnaces with the improvements noted during the recent experiment, under all four boilers at the electric plant. There will then be final tests as to the consumption of smoke and tests also of the furnace as fuel savers. If they prove as successful as it is anticipated that the manufacture and introduction of the smokeless furnace will be pushed in all the larger cities of this country and others.

The real estate market is certainly not very active and it is the consensus of opinion among the dealers that there will not be much of a rush before spring. Some deals of more or less importance were concluded during the past week, the largest being the purchase by Lindsay R. Rogers of the P. L. Williams residence on Second and E streets, for \$15,000. Nearly all the sales made were of residence property, and it is stated by dealers as a fact that in every case the purchasers intend to reside in the homes bought. There is an absolute absence of a speculative element in the present market, and that taken in connection with the recent slump in the mining stock market and the consequent losses sustained by working men who speculated and who were also anxious to buy homes, are given as the reasons for the continued dullness at this time of the year.

Another factor in the market is the railroad situation. Many persons got the idea some months ago that in a few months time, at least one additional railroad would be built into this city. The continued delays discouraged them in the belief that Salt Lake will be a great railroad center and that consequently are awaiting developments before making purchases. Real estate dealers say that they have many inquiries now after homes but nearly all are in Salt Lake, and there is no market at all for business property or vacant lots.

Houses for rent are scarce and one dealer says that today the demand for good ones is equal to about one-half the demand, and as a consequence rentals have reached an almost prohibitive figure. Good offices are also commanding high prices and are almost unobtainable.

The Salt Lake Home Telephone company through Attorney Elmer B. Jones, Samuel F. Patton and F. T. Madson, its promoters, intends to go before the City Council committee on Monday evening in relation to its petition for a franchise to build and conduct an independent system of telephones in this city. An attempt will be made to have the franchise acted upon on Tuesday night by the City Council at its regular session.

Contractors say that although building materials are not so scarce as they were a few weeks ago still they are not plentiful. The brick companies are still running their plants continuously all winter and it is expected that an abundant supply of brick will be on hand for the big rush of buildings expected in the spring.

The Co-operative Association of Utah which has been operating a store in the Twentieth ward, is insolvent and at a meeting of the shareholders held last evening J. F. Bennett was given possession of the entire stock and fixtures of the concern, he agreeing to pay the stockholders 20 per cent on the money invested by them.

President George Y. Wallace, of the Bell Telephone company, stated today that the line to Beaver will be completed next week, and materials for the Milford and Frisco lines are being sent down as speedily as possible that there may be no delays in building those lines which it is intended shall be completed this winter.

The line into Douglas, Wyoming, north from Cheyenne will also be completed next week and Billings, Montana, will be connected up with the entire system as soon as the exchange now building can be made ready.

General Manager D. S. Murray is on an eastern pleasure and business trip and will not be home until the end of the month.

The Home Investment company has the plans ready for the extensive remodeling of its offices in this city. After the first of January the entire business apartment now used by it and by other tenants will be occupied by it alone. The interior will be handsomely fitted up with furniture, bank fixtures and desks of rosewood similar to those in the Burlington offices. The estimated cost of the improvements is \$1,500.

According to W. R. Kivett of Boise City, the secretary of the Idaho Lumber Dealers' association, things are favorable for the organization of a similar association in this state and he is

here now to affect it. Mr. Kivett states that the purpose of the lumber dealers' organization is to protect the protection to lumber men by preventing contractors and consumers in general from purchasing lumber on the same terms as dealers.

Stops the Cough and works off the Cold.
Laxative Bromo-Quinine Tablets cure a cold in one day. No cure, No pay. Price 25 cents.

Your last opportunity to meet in social gathering with our friends Messrs. Ed. Braby and Will D. Campbell before they leave for Germany, will be afforded you Wednesday evening at 8:15 in the First Ward meeting house.

PEOPLE WHO ARE PASSING

W. A. Ebbert, of Moline, Ill., who is at the Knutsford, says the current year beats all previous annual records in the sale of farm wagons, notwithstanding the shortage in the corn crop.

F. J. Hagenbarth has returned from attendance on the Idaho Wool Growers' convention at Boise, and at the Cullen. He says the sheep interests of the state were much advanced by the recent convention.

Frank M. Johnson, examiner of surveys for the general land office, left yesterday for St. George, where he will inspect the new boundary line between Utah and Arizona. C. S. Carpenter of Cheyenne, who conducted the survey, accompanied him.

J. T. Farrar, the Green River, Utah, merchant, was a visitor in this city this morning. He states that Green River is very lively now consequent to the oil excitement and that people are anxiously awaiting developments on the California-Utah company's land where drilling will commence within ten days at a point five miles southwest of Green River station.

"There is undoubtedly oil in the San Rafael well," said L. W. Ely at the Cullen today on his return from Woodside, "and when the drill reaches the bottom of the oil bearing stratum of sand, I expect there will be a good-sized flow. The entire country has been taken up in oil claims, and just as soon as a good flow of oil is struck the value of all adjacent claims will be greatly enhanced."

W. M. White of Beaver, who is at the Cullen, relates an interesting incident at Beaver of the recent seismic shake up which pretty nearly destroyed the town. He said the earthquake threw over into the kitchen of his house a large part of the adobe lining wall, with a crash. The little daughter of a Mrs. Cox, who was visiting with Mrs. White, immediately ran to the kitchen table, blew out the lamp, fearing an explosion, and then dropping on her knees began to pray. Both ladies were very much affected.

Indian Inspector James McLaughlin, of Washington, is at the Knutsford, having stopped over Sunday to visit with his old time friend, Capt. Singler, of Salem, Ida., now at the hotel. He laughs at the antics of the Colorado game wardens who, he says, are only on their annual rampage, and he is not surprised to learn that these wardens in the absence of Indians, are laying to "Mormons" the slaughter of game killed by native and foreign hunters. The major is no more to be troubled with the White Rocks agency Indians about school matters, and the noble redman is taking kindly to being made a citizen by accepting from the government allotments of land and in severity under the Dawes act.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

ETERNAL VIGILANCE IS THE PRICE OF A BEAUTIFUL COMPLEXION

when such remedies are relied on.

Mr. H. T. Shobe, 2704 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disgusting eruption on her face, which resisted all treatment until she was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without success. Finally, she was told to try S. S. S., and the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her skin perfectly and she is now perfectly smooth. She is now seventeen years old, and not a sign of the embarrassing disease has ever returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions.

SSS purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off all impurities from the body. If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

SWIFT SPECIFIC COMPANY, ATLANTA, GA.

STRAYED OR STOLEN.

Large St. Bernard dog; name DON; 170 pounds; color dark yellow and white; small wart on upper eyelid; and of tail had been cut off but is healed. Liberal reward for information or return of dog.

\$50.00 REWARD

for arrest and conviction of party holding dog, if stolen. Pickering, 205 East Fifth South street, Salt Lake City.
