The board thought that if it were decided to pave, the curbing and paving could be done together with greater advantage than at separate times. SAN PEDRO MONEY WAS DECLINED.

City Council Refuses \$500 From Salt Lake & Los Angeles Road.

FOR CARE OF PIONEER PARK

A Similar Sum Voted From the City Treasury to Maintain the Square This Season.

The Council got down to work in good shape last night, and transacted a large amount of business with dispatch and a modicum of talk. Hartenstein was back in his place after his California trip, and Beatty and Thomas were the only absentees.

The first matter of importance to come up was a communication from General Attorney C. O. Whittemore, tendering a check for \$500 on behalf of the San Pedro, Los Angeles & Salt Lake Railroad company for the care of Pioneer Square park, until the question of granting it for depot purposes should be put to the vote of the people, provided the city furnish water for the purpose. Mr. Whittemore also offered as much more money on the part of his road as might be necessary for the proper maintenance of the park.

Robertson moved that Mr. Whittemore's communication be filed and the check covered into the city treasury on the understanding that when it came to a vote of the people, if they should not favor granting the square to the company, the money would be refunded.

Hewlett offered an amendment that the \$500 be refused with thanks. He did not see why the city should place itself under obligation to the railroad company.

Robertson thought that if it was accepted with the understanding that the San Pedro & Los Angeles road, if the road concluded not to utilize the square it would be all right.

Hartenstein seconded Hewlett's amendment. He thought that the way of giving up the square was premature. Canning spoke against the giving away to the road for a park for \$500. It was an outrage, but as he did not see how the measure was to be defeated, he moved for temporizing by letting the matter go over for a week.

Edgar Howe thought the Council wanted more light on the case before they took such a step.

When put to the vote Hewlett's amendment of declination won by a vote of 7 to 6. The ayes were, Canning, Cottrell, Hartenstein, Hewlett, Edgar Howe, Tuddenham and Buckle; the noes, Davis, Fernstrom, C. R. Howe, Reid, Robertson and Whittemore.

Towards the close of the session, Pioneer square came up for discussion again. This time, on motion of Cottrell, \$500 was voted from city funds to care for the park in spite of opposition from Buckle, Davis, Robertson and Whittemore.
