

THE WIZARD'S WARDS ARRANGING PARADE

Parly Messager Received Announcing
That the Mountain Sage Will
Address His People.

Details of the reception and parade in honor of the Wizard of the Wasatch upon the occasion of his first annual visit to this city on the evening of Aug. 9, were further discussed at a meeting of the Wards of the Wizard, held at the Commercial club last evening. Information of the approval of the arrangements so far made by the faithful wards, was waited softly down the ravines of the Wasatch on the winds from the caverns of the wizard. By the same token it was learned that the mountain sage will be accompanied by four of his attendant spirits, Barth, Air, Water and Fire, all appropriately costumed and equipped, while the wizard himself will lead his mountain host mounted on a magnificent charger. The enthusiastic communication also contained the information that the wizard would condescend, at the conclusion of the parade, to address his Salt Lake subjects in front of the Commercial club, especially desiring to extend a welcome to his mountain domains to the Grand Army of the Republic on the occasion of its forty-third annual encampment.

Ward L. H. Harding was named to investigate the properties of perpetual fire, in order to carry a torch of this material in the parade to light the way of the wizard. Fisher Harris and A. G. McKenzie were given the task of selecting appropriate and original names for the officers of the parade, the following is the order of the parade which will pass down Main street when the wizard shall arrive:

Mounted policemen to clear the streets.

Heralds with long trumpets, mounted.

Band.

Escorts of the wizard.

Wizard.

Spirit representing Wind, Air, Water, Fire, costumed appropriately.

Wards of the wizard in dominoes.

Band.

Indian riders.

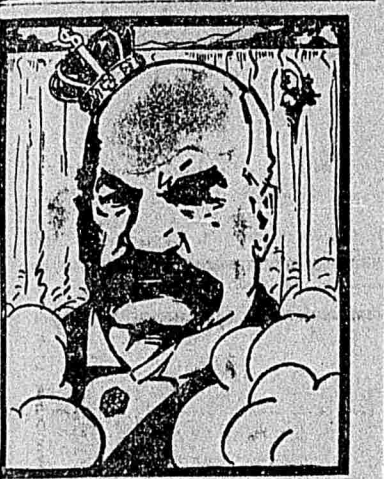

Plato.

Band.

Cowboys and rough riders.

The next meeting of the wards will be held on Monday evening, Aug. 2.

FLAGS AND BUNTING.

King Pierpont the First And the Trust That Will Control All Other Trusts.

Let the Eagle scream; the greatest republic in the world may point with pride to the greatest monarch in the world: Morgan, Monarch of America. Emperors and Czars and Kings may have empty titles—but Morgan has more real power than any other man on the face of the globe.

"Hot talk for such hot weather!" do we hear you say?

Every word of it founded on fact—as you can see for yourself by reading John L. Mathews' article, "The Trust That Will Control All the Trusts." Mathews has followed the trial of the scores—yes, hundreds—of electric, gas, traction and water power corporations that are busy in every section of the country; and the path leads directly back to 23 Wall St., the throne of King Pierpont the First.

The great water power trust that is grouping its parts together under Morgan's roof is so big, so stupendously important that none of us can appreciate its full meaning. It will control farming, manufacturing and transportation—and every one of us will be taxed on every article necessary to life.

Mathews has already stirred the country by his preceding articles; this one is so important that you must read it and urge your friends to read it.

You'll find it in that new magazine that every one is talking about—

PATIENTS MUST PAY TO BOARD OF HEALTH

Although Lacking the Authority,
Charges Are Made at Isolation Hospital.

Without any authority, the health department has been collecting fees of \$2 a day from smallpox patients who have been cared for at the isolation hospital. This was discovered last night when Charles J. Erickson, of 55 West Second North street, petitioned the city council, stating that he would be unable to pay the fee which was charged. His wife, Mrs. Henrietta R. Erickson, contracted smallpox and was transferred to the hospital on March 2 last. At the time, Erickson was induced to sign an agreement that he would pay \$2 a day for her care.

The matter came up last night at a meeting of the city council which was called to consider the committee reports which were laid over from Monday night's session. Erickson's petition was reported upon unfavorably by the sanitary committee. Councilman Cowburn declared that the city board of health had no authority to collect this money. If any money had been collected Mr. Cowburn wanted to see an accounting of it. The board of health was ordered to report on the matter next Monday night.

Mrs. Erickson remained in the hospital 20 days and a bill was presented to her husband for \$40. In his petition he says that his wife was neither properly cared for nor fed. He carried her several baskets of food within a couple of blocks of the hospital and she came and got it. He talked to her several times over the telephone while she was confined to the hospital and she complained about the treatment she had received.

The franchise granting the Salt Lake & Ogden Railroad company the right to construct curves at West Temple and South Temple streets, at Main and Third South streets and at the intersections of Main and Postoffice place and West Temple street and Postoffice place was granted. These curves will be connected with the Utah Light & Railroad company's tracks. The franchise also prohibits the company from transporting passengers within the city limits.

Several other routine matters were taken up and passed. The city and county building is to be decorated at a cost not to exceed \$150, for the G. A. R. encampment.

WEEKLY MARKET LETTER.

(Special Correspondence.)
Kansas City Stock Yards, July 26.—Receipts of cattle last week aggregated 65,000 head for the week, including 12,000 calves, but the proportion of these coming from remote states was extremely small. One drove of Colorado stock steers sold at \$4.10 to \$4.35. The run of cattle today is only 12,000 head, including 2,000 calves, the big falling off from receipts of a week ago attributed to the break in prices last week. Medium to low grades of steers declined 25 to 50 cents last week, and butchers' cattle suffered fully as much, but it is another story today and prices are unevenly higher, some sales 25 cents up. The rebound in the market today is likely to start a more liberal movement to market before the week is over, and the strength exhibited today implies that fairly good receipts can be handled without further losses in price. Prime feed steers sold at \$7.00 today, not quite the full strength of the market, and yearlings are quotable up to \$7.50, steady with a week ago, although full tests of the market on prime steers are not frequent. Grass-fed steers in the native division sell at \$4.50 to \$5.20, grass cows and heifers \$3 to \$4.50, canners around \$2.75, bulls \$3 to \$4.25, calves \$4.50 to \$7, stockers \$3.35 to \$4.85, feeders \$4 to \$5.25.

Mutton shears have shown some strength in the last week, but the lamb market is erratic and shows a lower tendency on account of heavy rain in southern farms at eastern markets. A more settled market will prevail after a week or two, in the opinion of traders. Run is 6,000 here today, sheep steady, lambs a trifle lower, some medium grade range lambs today at 7.35, top lambs worth around \$7.75, weathers and yearlings \$6.50, ewes \$5.15. Stock and feeding stuff is in demand, a few Utahs here in the last week to feeders at \$4.25 and \$4.50, feeding lambs worth up to \$6, breeding ewes commanding the usual premium when quality is desirable, yearling ewes up to \$5.75. Arizona ewes have sold recently at \$4.25 to \$4.50, and Texas muttons, grazed in Oklahoma, went at \$4.40.

SOLDIERS WHO HIT WHAT THEY AIM AT

Fifteenth Infantry Gun Sharks Pull
Down High Scores at
Leon Springs.

The following telegram was received last evening at the Post from First Lieut. Clark E. Elliott, Fifteenth Infantry, at Leon Springs, Tex., by Maj. James M. Arrasmith, Fifteenth Infantry, Fort Douglas, Utah:

Final—Whittaker first, 817; Rolf second, 766; Lynett third, 761; Butcher tenth, 726; Glarner eleventh, 687; Rafferty twelfth, 682; Ioeherg thirteenth, 678. "Hurrah."

ELLIOTT.

Leon Springs, Tex., July 28.—The message contains the names of the successful competitors from the Fifteenth Infantry, showing that the regiment still upholds its high reputation for having some of the best shots in the army. Sergt. Whittaker of A company, exceeded by 82 points the highest score made in the competition of 1908. The fine efforts of the representatives of the Fifteenth Infantry will be the better appreciated from the fact that five regiments of infantry, three regiments of cavalry and the signal corps were represented at the competition. The Fifteenth Infantry stood first in last year's contest also, and the fact that this year it captured the first three places is occasion for extended rejoicing at Fort Douglas.

CHURCH NOTICES

The regular monthly meeting of the high priest quorum of the Pioneer stake of Zion will be held Sunday, Aug. 1, 1909, at 10 a. m. in the stake hall. All members of the quorum are invited to attend.

The regular monthly general stake priesthood meeting of the Pioneer stake of Zion will be held Monday evening, Aug. 2, 1909, at 7:30 p. m. in the stake hall. All members of the priesthood are requested to attend.

The monthly meeting of the priesthood of the Granite stake will be held at the stake tabernacle Saturday, July 31, at 10 a. m.

The high priest quorum of Liberty stake will hold their regular meeting in the North ward meetinghouse Tuesday, August 3, at 7:45 p. m. All are requested to be present.

BEHIND THE SCENES OF LIFE IN A CIRCUS

Homes on the Cars With Library,
Clubs, Charity Guilds and
Literary Societies.

Circus life is not without its reward or charm. The work is hard, but the life is in the open when the fields and the trees are green and the skies distill health for all nature. Husbands, wives, sons, daughters, uncles and aunts travel together, and like the small, take their homes with them. These homes are in sleeping cars, and necessarily modest in space, but they are made to bloom cheerily by the domestic pride and taste of their tenants.

With Ringling Brothers' world's greatest show the married couples occupy opposite sections, and a natural desire for neatness leads each to decorate with the fanciful things found in a home sleeping room, like slipper cases, dainty silken window curtains, little cabinets for toilet articles, snowy counterpanes and other things of comfort and ornament.

An unwritten law holds every performer to a strict accountability for the tidiness of his apartment, and the slovenly one is left severely alone. It is not eventually driven away. Such a one is never invited to the little feasts, musicals, parties and many other kinds of amusements, fitted to so cramped quarters. The cozy corner, called the library, is supplied with standard books, magazines and writing tables. On the Sunday runs of the show, usually the longest of the week, the women make chocolate and tea for the men and serve delicacies.

The library is really the living room for the big family in the Pullmans. There are twenty-six of these with Ringling Brothers' big show, occupied by the performers. And the business staff. There are card clubs, a woman's club, clown society, Cosmopolitan club, charity guild and literary society in the social life of the circus.

The clown club is unique and governed by stern rules. To be eligible one must have seen five years of active service with a circus. The club has over \$800 in its treasury which it plans to invest in books bearing lightly and gravely upon their ancient and honorable profession. The guild with the circus has seen this season, young as it is, several barrels of simple and useful articles to organizations that care for the poor. Circus people risk their lives every day and are keenly sympathetic toward those in distress. After dinner there is a little time left before the evening show, and then the women come together, fetch out their embroidery, fancy work and plain sewing, anything of everything except their business, which topic is forbidden.

The feminine touch of refinement is to be seen about the living part of the circus tents as well as in the cars. The dressing tent has no hard wood floor, nor soft carpets, but cool matting is stretched over the grass. Each artist surrounds her little plot of ground with portieres, and gives an individual touch of color to the spot.

The Cosmopolitan club with the Ringling show was started last season. Very few of its members speak English, and they stumble helplessly. It is a polyglot crowd, working far from home and needing such fellowship.

Of the 1,288 with Ringling Brothers' circus 50 are children. Many are the sons and daughters of performers—in a sense born to the business. Others are the children of relatives, and some are apprentices. The boys and girls go to school and study with greater ease because of splendid physical health and the six months' separation from school routine. The boys and girls with Ringling Brothers show have special comforts and are taught between shows and on long runs by special instructors, paid by the management.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY

"It affords me pleasure to state that I consider the preparation known as Chamberlain's Colic, Cholera and Diarrhoea Remedy the best and surest of good results of any I have ever used in any family. Having been afflicted with Mount Aerial, Ky. This is the universal verdict of all who use this remedy. Its cures are so prompt and effective that people take pleasure in recommending it for sale by all druggists."

LEWIS ANDERSON, President.

Logan temple will close on Friday July 30, and reopen on Tuesday September 7, 1909.

WM. BUDGE, President.

BRIGHT'S DISEASE

Let there be no evasion—we mean chronic and supposed incurable cases involving dropsy, albumen and casts. They are curable in a great majority of all cases.

Let us cite a typical case—that of Mr. E. P. Nittackie, of 1246 Spaight street, Madison, Wis. There had been eight physicians on this case and it got so extreme that he finally had one of the last symptoms; namely, falling eye-sight. In January, 1907, the doctors admitted that nothing further could be done, and they sent him to Eureka Springs, Arkansas. He continued to get worse, the dropsy finally reaching the stomach, heart and lungs. At one time tests showed albumen as high as 75 per cent.

He learned of Fulton's Renal Compound and began to take it July 2. The dropsy began slowly to decline and the albumen dropped to forty, then to twenty, then to ten, and finally to two per cent in May, 1908.

The patient is now back to his employment and is devoting full time to his business.

Patients desiring to know more of this treatment can get full literature by writing to the John J. Fulton company, 212 First St., San Francisco.

Fulton's Renal Compound can be had in your city E. J. Hill Drug Co.

We desire every patient to write us who is not getting the usual improvement by the third week.
