MINING, BUSINESS AND STOCKS

NEVADA HAS A REAL SENSATION

Three-Year Old Camp of Clifford Under a New Name.

FIRST SINCE THE MANHATTAN

Broken Hills, or Helena Is New Name Attracting Mining Men of Sagebrush State.

The very latest thing in Nevada stampedes which promises to rival the last real boom, that of Manhattan, is what is now being spoken of as the Broken Hills, or Helena, but what was originally, Clifford, 50 miles due east of Tonopah.

miles due east of Tonopah.

There was more or less talk abou'
this discovery three years ago, and
some sales took place there at the
time, and although the samples taken
at the time from the unprospected
surface, were very rich in horn silver
and gold, there was absolutely nothing that resembled a ledge in evidence, and mining men did not, as
a rule, think much of the prospect.

An incline shaft, 30 feet deep has
been driven into the broken material
in which the pay was found at the
spex of a butte, with the result that
it is now claimed a well defined
ledge of great richness has been encountered, and for this J. C. McCormack has paid \$350.000 which he
quoted as saying he expects to take
from the ground within 90 days, provided he can get the teams to hauf
the ore to Tonopah, the nearest railroad point.

the ore to Tonopali, the nearest rairroad point.

Both Galdfield and Tonopali are making strong efforts to capture the trade of the new camp, the former probably having captured the mail route, while Nye county, through the hustling of its commissioners, in road improvements, looks like a winner to receive the received in the company of the received and the procedural processing.

improvements, looks like a winner in merchandising.

The mining company, which controlls the townsite, is discouraging the sale of lots for speculative purposes, making the statement that no rush of non-producers is desired at this time, for the reason that teams are scarce, and if these are to be used by a stampede, they will not be available for the hauling of ore and supplies for the mines.

The strike at Broken hills, to those who know the country, bears the ear marks of another stampede similar to that of Manhattan, which was checked by the San Francisco disaster.

CURB WAS LIVELIER.

Numerous Sales Recorded as Result Of Morning Session.

Dealing on the curb this morning was somewhat more animated than was the case yesterday, better prices and more sales resulting.

Ohio copper continued to hold the boards of most interest, and this morning sold as high as 5.25 although sales were recorded as low as \$5.95; \$4.20 was offered for Silver King Coalation, but no offering was made. Bingham Central Standard sold at 35, although the prevailing price demanded was 39 ½; 28 was asked for Uinta Treasure Hill, although it sold at 273½. Mineral Flat received a bid at 17 without sales, and Thompson was called at 15 with 20 asked; Dealing on the curb this morning bid at 17 without sales, and Thompson was called at 15 with 20 asked; 25 was offered for Ely with, 27 being the price asked. Western Nevada Copper had an offer of 30 but no sale followed; 190 was bid for Mammoth, but there was no trading, and Western Pacific had the same experience with 5 bid; 2½ was offered for East Crown Point with 3 asked, and the bid of \$1.50 for Utah Mine was the last call to receive a sale.

THE STOCK EXCHANGE.

The stock market, as reflected by the regular session of the exchange this morning mantains the same strong, healthy pulse as last report-ed. There were no sensational hap-penings, and the volume of business transacted continues to promise a heavy months? business heavy months' business.

W. H. Webber Declares it Is Des-

tined to Produce Large

Tonnage.

HIGH PRAISE FOR PRINCE MINE

Nevada Hills Trio Buys More Prop-

erty in District-A Com-

mercial Club.

Of the prominent mining men who

have been in Pioche during the past

few weeks, none has displayed more

enthusiasm than W. H. Webber, man-

ager of the Nevada Hills mine, who re-

turned to the city this morning with John A. Kirby and John T. Hodson, his business associates.

John A. Kirby and John T. Hodson, his business associates.

Mr. Webber's conservatism is well recognized everywhere in the west and whenever he gives any camp his stamp of approval, it means something—that it must possess merit. No better evidence of their faith in the great future of this district could be found than in the fact that during the late visit this Nevada Hills trio increased their holdings by concluding arrangements for the taking over of the Abe Lincoln group situated adjacent to the Demijohn and Half Moon mines.

Mr. Webber made a thorough inspection of the Prince Consolidated mine, as did his associates, and all give it as their verdict that it is one of the country. "The Prince is a remarkable property," said Mr. Webber. "with something like \$7,000,000 worth of ore actually developed above the 400-foot level and I really believe the owners of this property have not yet awakened to its magnitude. One can almost count on the fingers of the hands the number of really great mines, and I believe the Prince Consolidated to be one of them."

Adjacent to the Prince mine, and extending along the same mineralized zone, is what was formerly known as the Miller group. This property has been acquired by Mossrs. Webber, Kirster of the prince concept in the late of the basic states and the states are mineralized zone, is what was formerly known as the Miller group. This property has been acquired by Mossrs. Webber, Kirster and the states are states and the states and the states and the states are states and the states are states and the states and the states and the states are states and the states and the states are states and the states are states and the states and the states are states and the states are states and the states and the states are states and the states and the states ar

the Miller group. This property has been acquired by Messrs. Webber, Kir-

been acquired by Messrs. Webber, Kir-by and Hodson, and is to form the basis for a new corporation. Unless nature has cut some unusual freak, which is highly improbable, it is expected that the splendid results achieved in the Prince mine will be repeated there. Another important asset to this group is the Golden Prince vain opened in

is the Golden Prince vein, opened in the Golden Prince mine, which is trac-able lengthwise of the Rosy and Glad-

stone claims.

The Abe Lincoln mine has a record of production to its credit of about

of production to its created a state of the states, some magnificent bodies of concentrating ore have been developed. The Demittoh mine has an encouraging

Demijohn mine has an encouraging

veloping into a permanent producer. This company is shipping 50 tons of ore per day to the United States smelter and brings an average of the company is the company of the

and brings an average of about \$75 a ton in gold, silver, icad and iron, The management of the Mendha will

shortly install a larger hoist and com-pressor. This property is developed to a depth of 700 feet by an inclined shaft,

following a fissure in limestone, which is cut by numerous cross fissures with enormous ore bodies making off into

the bedding planes.

Although Pioche produced upwards of

\$30,000,000 in the early days, practically

sag,000,000 in the early days, practically no development was done outside the quartitle fissures of the Raymond and Ely and Meadow Valley mines. More recently attention has been directed to the fissures in the limestone with the marvelous results already stated, Mr. Webber declares Pluche to be a high

Webber declares Pioche to be a high

grade camp. That is, there is an enormous quantity of rich ore developed in addition to the great deposits of low

grade ore which cannot be worked out in years. He says there is no doubt but what Pioche is on the eve of great

ONCE MORE, BREYFOGLE Royal Flush People Claim They Have

Historic Property. Since the day, late in the summer of 1860 that John Breyfogle, the Austin, Nev., blacksmith, returned to that little Nev., blacksmith, returned to that fitter mining town, hatless, coatless, and babbling insane things about the desert and the Indians, and the glitter of gold contained in a lost mine, men have spent their time, money and energies, searching in vain for the lost treasure, till it has come to be the belief of about all but the ever credulous chronic searcher for gold, that no such

mine was ever found. In this connection there now appears story in mining circles which seeks to create the impression that the lost

or create the impression that the lost Breyfogle mine is none other than the property of the Royal Flush company south of Goldfield.

The story is being told on the strength of there having been recently found on that property some old tools, of the style used by the miners of Property layer. The tests have been Breyfogle's day. The tools have been turned over to the state historical soci-

OLD BERLIN MINE PAYING. Gold Brick Returned After Month's

Run on Low Grade Ore.

S. T. Pearson, president and manager of the Goldfield Blue Bell company, is reported as returning a few days since from the company's property at Berlin, from where he brought a \$15,000 gold brick, shipping it to the mint at Carson. This brick is the result of the Octobe mill run, which was made on mixed ore from the mine and from the dump. averaging \$10, from which an extraction of 92 per cent was made.

Ore is now being taken from the 200 and 400 foot levels, and the 800 foot level, which is said to be the richest in the old mine, is being unwatered. Ore, it is thought, will be broken on

DEATH VALLEY PROGRESS.

this level again within the next 60

Wonder Installing Cyanide Plant in Great Desert.

The Keene Wonder mine, in Death valley is installing a cyanide plant, valley is installing a cyanide plant, from which, in conjunction with the mill now in operation, Homer Wilson, the mine manager, is reported as saying he expects to be able to produce a \$15,000 monthly dividend. This plant is supposed to be ready for operation Jan. 1, and would have been much soonshowing of ore, considerable of which is high grade.

He also speaks well of the Mendha mine, which he believes is rapidly deer, according to Mr. Wilson, had not the Los Angeles people who are ship-ping the material, stopped shipping because of the suit against T. B. Rickey, president of the defunct State Bank and Trust company, of Nevada, still pending at Independence, Cal.

TWO NEW COMPANIES.

The Utah Old Glory Mining company has filed articles of incorporation in the office of the secretary of state. The capital stock is \$150,000, the shares being of the par value of 50 cents each. Adolph Simon is president; John F. Welsh, vice president; R. H. Waters, second vice president; Joseph P. Lang-ford, secretary; Julius Frankel, treasurer, and these, with James Bennie, Edward Rosenbaum, Thomas Orr and William T. Quinn, form the board of

directors.

Articles of incorporation of the Waartheres of incorporation of the var-satch Utah Mining company have been filed in the office of Seey, of State Tingey. The corporation is capitalized for \$1,000,000, divided into an equal number of shares, and the office and number of shares, and the office and principal place of business are stated to be Elko, Elko county, Nev. The com-pany owns four groups of patented claims, and 10 groups of unpatented claims. A. W. Nieman is president and Frank Rumel, secretary,

TANANA OUTPUT.

Seattle, Wash., Nov. 18.—Receipts of gold at the United States assay office in this city for the season of 1908 show an increase for the Tanana district of \$1,750,000 over last year, the total being \$9,110,658.

CONSOLIDATED MILL.

From Goldfield comes the news that company will be ready to start on its initial run within the next two weeks. The 4,000 ton battery bins will be filled with low grade ore from the Mohawk, upon this the first run of the big

MAZUMA HILLS PUMP.

The Mazuma Hills mine at Seven Troughs, has installed a new and large apacity pump, which will admit of ex-ploring at depth, what is fast being conceded to be one of the largest mines in the state of Nevada.

CONCENTRATES.

The Railroad Red Book contains an extended account of the recent develop-ments and prospects of the San Juan oil fields, and predicts a year of greatest activity.

The Kindergarten 10-stamp mill at Seven Troughs has just completed the treatment of a little less than 200 tons f ore from which has been saved \$13,-000 worth of gold.

Friday evening the Utah Mine Operators' association will hold a meeting at the rooms of the Commercial club, at which time steps will be taken to protest against a reduction of the lead

The outlook for splendid returns from

11 East First South. S. L. City.

further development work in the Hick-ory mine, the property of the Majestic company in Beaver county, is very bright. A 40-foot shaft has opened silver values there which are said to be decidedly high grade.

A party of visitors just returned from A party of visitors just retained itsin the Sioux Con., is very enthusiastic about the resources of the mine, so far as they could be seen. An ore body on the first level is described which is so far without a limit, as the work covering about 60 feet, has failed thus well in either direct. far to reach a wall in either direc-

The Milwaukee Pioche mine, under The Milwaukee Pioche mine, under the management of J. B. Wheeler, is about to begin an active campaign, Mr. Wheeler being now here making arrangements to that end. Some splendid showings have already been made on the property, and Mr. Wheeler, with his well known energy, as a mining man, has every reason to believe a great future awaits the property. Working through the workings of the Working through the workings of the Working through the workings of the 200-foot level of the Eagle & Blue Bell. the King William mine is being opened up with greater and earlier success than was anticipated. Soon after crossing the King William line ground was broke which carried small gold and silver values, and it is evident that the work is bringing results faster than was anticipated.

was anticipated.

REAL ESTATE TRANSFERS.

TODAY'S.

MARKET CLOSED UNSETTLED, WEAK

New York, Nov. 18.-The tone of the opening stock market was slightly irregular, but a large majority of stocks old higher than last night. Later, the entire market began

droop and some of the Standard railroad stocks sold fractionally below yesterday's closing, and St. Paul a point. Northern Pacific advanced 1½, American Smelting 1½, and Union Pacific, Missouri Pacific, Amalgamated Copper and Anaconda 1.

Southern Pacific's rise to 120½; estabcan Smelling 1%, and chinds facing Missouri Pacific, Amalgamated Copper and Anaconda 1.

Southern Pacific's rise to 120%; established a record price for that stock. The preferred advanced 1½, Union Pacific recovered to above 184 in sympathy but the response in the general list was moderate. Canadian Pacific gained 2, Minneapolis & St. Louis preferred 1½ and International Paper I. Illinois Central, Minneapolis & St. Louis and General Electric declined 1½ and Delaware & Hudson, Southern Italiway preferred, Consolidated Gas and United States Rubber 1.

Bonds were firm.

Activity subsided when the advance in Southern Pacific halted and there was a resultant narrowness in the price fluctuations, Lackawanna fell 8, but the novements otherwise were unimportant.

novements otherwise were unimportant.

A sharp setback took place in the middle of the afternoon when Union Pacific was forced back to yesterday's closing after rising above 184 again. Southern Pacific, Northern Pacific, Canadiaa Pacific, Amalgamated Copper and Smelting also reacted a point and Reading, dropped as much below last night's closing. Brisk bidding for St. Paul lifted it to 160 afterwards, but the rally which followed in other stocks was not maintained.

The market closed unsettled and generally weak. Throwing over of speculative holdings coupled with offerings down of quotations by the bears caused, a general break in prices. Many important stocks were carried a point or more below last night. Shorts covered on the break but the rallies were feeble.

CHICAGO.

CHICAGO.

Chicago, Nov. 18.—Realizing sales brought out by yesterday's sharp advance caused moderate weakness in the local wheat market today. The market was also bearishly affected by favorable crop news from Argentina, where harvesting is in progress now, and by the indifference of foreign grain markets to the upturn here yesterday. Prices at the start were ½ @ ½ to ½ lower but partial recoveries were made on buying by elevator interests. Detember which opened at 1.03% to 1.03%, advanced to 1.03%.

Corn opened easy on selling by cash houses based on excellent weather for the movement, but a firmer tone developed early in the session as a result of buying by shorts. December opened unchanged to ¼ lower at 62% to 62% and sold up to 63%.

Scattered sales by commission houses caused slight weakness in oats at the opening but the market soon became firm owing to buying by pit traders. December opened a shade lower at 49%, sold at 49% and then advanced to 49%, sold at 49% and then southern Argentina had been broken. December was reached at 1.64%. The market became was again late in the session on a report that the drouth in southern Argentina had been broken. December sold off to 1.93%. The market clos-

ed weak at the bottom, December off % @ % at 1.03% %1.03%.
The corn market rallied with wheat December advancing to ..3%. There was a considerable reaction from the top on profit-takings, but the close was steady, December up % @ % at 63% 53%. 634. May. Close—Wheat—Dec., 1.03½ @1.03%; May. 1.08½; July, 1.02½; Corn—Nov., 63½; Dec., 63½@63½; May. 63; July 62½@63%; Sept., 62½; Oats—Dec., 4½@41½; May 51½; July, 46%. standard Oil PERSONALS.

J. T. Raleigh has gone to Los An-

geles for a few weeks' visit. Mr. and Mrs. Tom Hobday left yesterday for the east to be gone until after Thanksgiving.

State Sunt Nelson has returned from the southwestern part of the state, where he inspected the schools, making long rides in stages. He found conditions satisfactory.

NOTICE OF ASSESSMENT.

UTAH CONSOLIDATED PLASTER COMPANY.—Location of principal place of business. Salt Lake City, Utah. Notice is hereby given that at a meeting of the directors of the Utah Consolidated Plaster Company, held on the 6th day of October, 1908, an assessment of 10 cents per share was levied on the capital stock of the corporation, payable immediately to W. Bert Robinson, Secretary, at the office of the company. Room 202 Hooper Building, 21 and 23 East First South Street, Salt Lake City, Utah. Any stock upon which this assessment may remain unpaid on the 24th day of December, 1998, will be delinquent and advertised for sale at public auction, and unless payment is made before will be sold on the 29th day of January, 1998, at 2 octock p. m., at the company's office, to pay the delinquent assessment together with costs of advertising and expense of sale.

W. BERT ROBINSON. W. BERT ROBINSON,

Room 202 Hooper Bld. Daniels' Daily Talk-No. 92.

My big sale is stirring things. Pretty nice to get a suit of clothes that suits-made to order-strong, graceful lines, quality looking, fine materials, splendid fitting-at \$10 to \$20 under prices.

I make suits for most of the mining, business and professional men.

Suits \$25 to \$35.

Any style of overcoat made to mea-are—\$25.00
