MINING, BUSINESS AND STOCKS.

PRICES WERE LOWER TODAY.

Uncle Sam, Daly-West and Boss Tweed Show Sharp Declines.

LITTLE CHIEF VERY STRONG

Carisa Inactive—Star Con. Unusually Active—Valeo in Demand—Joe Bowers Firm.

Business was quite active on the mining exchange this morning though prices were generally weaker. Uncle Sam, Boss Tweed and Daly-West showed the greatest decline, while the advances were confined to Little Chief, trading in which amounted to nearly 10,000 shares. After opening at 28 the stock sold up to 30¼, but weakened to 27 at the close. Uncle Sam recorded its first sale at $1.17½, but it weakened to $.14¾ before the call closed. Daly-West was traded in at $32.75, while Boss Tweed was active at 60. Joe Bowers was firm at 6½. Valeo was also firm. Upwards of 1,000 shares were sold at 27. Yankee Con. let go 500 shares on a bid of $4, while West Morning Glory advanced to 5¼ as compared with 5⅛ at the opening. Ajax, which was active at $1 at the opening, closed weak around 98. Star Con. was phenomenally active between 34 and 35. Tetro weakened to 34½, while Victor fluctuated between 59 and 60. Tesora opened at 52, declined to 51, and closed at 51¾. Lower Mammoth weakened to $2.70, while Dalton & Lark changed hands at 1½. May Day opened at $1.12, but declined to $1.09 before the call closed.

GRAND CENTRAL DAMAGE SUIT

Set for Nov. 18th—A Jury to Act in Advisory Way.

RICH IN LOWER MAMMOTH.

Supt. Ball Brings in Fine Samples of Ore—Annual Report of a Rich Mine—Notes.

The attorneys for the Grand Central-Mammoth damage suit returned from Nephi last evening after attending court convened by Judge Marioneaux to set the calendar for the term. When the Grand Central-Mammoth retrial case was called, the question of the eligibility of the judge to try the case, was raised by the plaintiff's attorneys. On the motion being overruled Judge Marioneaux announced that he proposed having a jury to act in an advisory way. Col. Pickett, one of the attorneys for the Mammoth, said today that while the practice is unusual, it is a well established principle of jurisprudence to call a jury to act in an advisory way to the conscience of the court. This jury will only judge as to matters of fact.

The motion for a change of venue was opposed by the plaintiff's attorneys. It was held that Judge Marioneaux was not disqualified from sitting on the case, and it was his duty to do so.

In disposing of the matter the court stated that he had not the remotest knowledge about the merits of the case. In deciding the motion for a new trial he had not gone beyond the question upon which that motion was decided. He decided to try the case himself, which was not objected to by Judge Dickson for the plaintiff, when the court announced that a jury would be called. The trial was set for November 18.

LOWER MAMMOTH STRIKE.

A Big Body of High Grade Silver Ore on 1,000 Level.

Superintendent Ball of the Lower Mammoth came in from the mine this morning with a grip full of rich samples taken from the winze below the 900 level. Mr. Ball is very much pleased with the face of the drift north from the bottom of the winze, which is practically on the 1,000 level of the mine. A few days ago a streak of high grade silver ore was encountered which has since been opened up for some distance and found to be between 6 and 8 feet wide. The ore brought to town today carries about 4,000 ounces silver per ton. It is of course much richer in horn silver than the average would be, but Mr. Ball says there is a great deal of horn silver across the whole width of the vein. An average face sample showed 325 ounces per ton while an assay of a pile that was broken down gave 90 ounces. Mr. Ball believes the average will be found to be about 100 ounces. A shipment is now being extracted. The body is large and Superintendent Ball expects to derive money from the new find to contiue the shaft to the 1,100 and do a great deal of work already mapped out. The west fissure has improved very much lately, the grade of the ore being much higher. The drift will soon be started from the shaft to the west fissure on the 1,00 level. The drift to the east fissure is about 100 feet away from the winze and the ore chute in which the strike was made.

HOMESTAKE'S REPORT.

Interesting Details Regarding the World's Greatest Gold Mine.

An eastern exchange says the annual report of the Homestake Mining company, of South Dakota, has just been received by the stockholders. It covers the year previous to May 31, 1901. The Homestake is the greatest gold mine in the world and some of the details of the report will have local interest. It has paid 276 dividends without a miss in the past twenty-three years. The report states that the total of ore milled at the five mills was 335,441 tons, which netted $3,588,654.71 on the plates, $48,305.14 in concentrates and $2,372.15 in silicious ore, making a total of $3,639,232.05 for the total output of the mine.

The company paid out for labor in the mine $1,226,143 and in the mills and hoisting plants $174,942. The amount paid for mine timbers was $242,727.75, and the additional lumber and timbers brings the total amount to $251,714. The coal bill is placed at 211,995, powder at $127,281, quicksilver at $9,707 and candles at $35,760. The company produced 133 gold bricks, averaging about 1,150 ounces of gold to the brick, valued at $26,000 to $30,000 cash. There was an average of eleven bricks to the month, which gave a total of 237,006.9 ounces for the year. The Homestake bullion averages about $15 per ounce at New York. A dividend of $1,260,000 was paid during the year. The 1,200-ton cyanide plant was built at a cost of about $300,000, and the water system of bringing into the city water from Spearfish creek, at a cost of $1,000,000, was completed.

The report shows that $3.90 in gold was saved per ton on an assay value but a little more than that figure.

Mining Deeds Recorded.

Provo, Oct. 24.—The following mining deeds have been filed for record with the county recorder:

John Dillon, of Eureka, to L. C. Peterson, of Eureka, an undivided one-fourth interest in the Sunnyside and the Malinda mining claims, Tintic mining district; consideration $100.

L. C. Peterson and Anna Peterson, his wife, of Eureka, to J. B. Caldwell and W. F. Smith (in trust) of Salt Lake City, an undivided one-half interest in the Sunnyside and the Malinda mining claims, Tintic mining district; consideration $1,000.

J. B. Caldwell and W. F. Smith of Salt Lake to the Madeline Mining company, of Salt Lake City, a one-half undivided interest in the Sunnyside and the Malinda mining claims, Tintic mining district; consideration, $1,000.

Frank Chopping of Clear Creek, to L. C. Peterson, of Eureka, all right and interest in the Malinda and the Sunnyside mining claims, in Tintic mining district; consideration, $500.

L. C. Peterson, of Eureka, to the Madeline Mining company, of Salt Lake City, an undivided one-half interest in the Sunnyside and Madeline mining claims, Tintic mining district; consideration, $1,000.

MINING NOTES.

The May Day, of Tintic, had two cars of ore on the market today.

The Ophir Hill reached the market today with ten cars of concentrates.

Col. H. L. Pickett expected to leave this evening for the Savanic mine.

A car of ore was marketed today from the Excelsior mine at Eureka, Nevada.

Some interesting developments are reported in the Spy ground belonging to the Carisa.

Two shifts are now enployed on the Silver Star claims near the California in Thayne's canyon.

Four hundred shares of California changed hands on the curb this morning at $1.22 and $1.22½.

A car of ore from the Grand Gulch mine has just been sold on controls showing 43 per cent copper.

President Corum, of the Bingham Consolidated company, is expected to reach the city tomorrow.

The contracts for the Alaska machinery were not awarded today. Prices were high and new bids will be asked for.

Franklin Farrel, who sold the Parrot mine in Butte to the Amalgamated company, is expected in the city tonight.

A thirty-ton lot of high grade copper ore was marketed this afternoon from the Savanic mine near the Grand Gulch.

E. L. White, who is connected with the Bingham Consolidated Mining company, is expected in from Lowell, Mass., tomorrow.

A car of lead ore is at the sampler today from the Ajax of Tintic. The property is said to be looking better than ever in the face of the north drift.

The Taylor-Brunton sampler reported ten cars of concentrates from Stockton, two from Tintic, one from Nevada and one from Bingham today.

The Old Colony company's new shaft is down about 90 feet. It is being sunk near the Lower Mammoth south lines and a 35-horse power hoist is being installed.

A. B. Lewis received word from Beaver county last evening that a copper lined cave had been struck in the O. K. mine on the west drift from the 300 level.

Joseph Oberndorfer says he has heard nothing about the Little Chief which would account for the jump in the stock today. The prospect is looking favorable but no strike has been made.

Assays of the shipment of ore from the Golden Star on Gold Mountain were received yesterday afternoon which showed a little over 10 ounces gold and 14.6 ounces silver per ton.

The sales on the Mining Exchange yesterday morning amounted to 60,350 shares which represented a selling value of $44,393.62. The afternoon sales amounted to $34,238 representing the sale of 62,180 shares.

W. I. Snyder returned from the California mine in Thayne's canyon last evening. He says the California deal is still in the air as no agreement has been reached regarding the price at which it is proposed to buy the control. The management has upraised three sets in the big ore body.

The Sunflower Mining company filed articles of incorporation yesterday afternoon with a capital of $50,000. The company proposes to develop the Sunflower group of nine mining claims, situated on Clear Creek mountain, Box Elder county. Jennie R. Browning is president; Frank Browning, vice president; Orvin Morris, secretary and treasurer, and Lavinia Morris and H. R. A. Greve are the other directors.

BULLS BID THE MARKET UP

Professional Operators Realized Heavily Causing General Selling Movement.

Large Dealings in St. Paul, Union Pacific and Amalgamated Copper.

New York, Oct. 24.—The market opened active and irregular with large dealings in St. Paul, Union Pacific and Amalgamated Copper. St. Paul sold at 170 to 169½ on the transfer of 2,500 shares, compared with 170 last night. Union Pacific on the sale of 2,500 shares, compared with 170 last night. Union Pacific on the sale of 2,500 shares was quoted at 102¾ to 102½, compared with 102⅝ last night. Amalgamated Copper ran off nearly a point. Price changes otherwise were small and much mixed. Professional operators realized heavily but as this selling had little effect on prices the bulls bid the market up all around. While the rallies in the leaders reached in some cases a point, St. Paul, Atchison and the Pacifics ruled only a small fraction above yesterday's close. B. & O. was unusually active and gained 2¼, and Chicago Great Western preferred "B" rose 4¾ to 50. The Eries and Readings also rose strongly. Heavy selling of Sugar, Alamgamated Copper, Union Pacific and St. Paul had depressed them over a point by 11 o'clock and the entire market weakened. General selling followed the room traders' realizing movement, resulting in earlier gains being generally wiped out and putting St. Paul, Union Pacific, Northern Pacific, Northwestern, and Amalgamated Copper 1 to 1½ under last night. The weakness of the general market was accentuated by large sales of United States Steel.

Brooklyn Transit advanced a point in the face of heavy selling elsewhere but its rise was soon cancelled. The general selling was largest in St. Paul, Union Pacific and People's Gas, which ruled from ⅜ to 2½ below their best prices. Chicago Great Western preferred "B" reacted 2½ and losses in other stocks of a point and over were numerous. Speculation was very dull at 1 o'clock and prices were slightly above the lowest in sympathy with a rise of 5 in Lackawanna and 3¾ in Delaware and Hudson.

Bonds were irregular.

MONEY AND BONDS.

Money on call firm at 3½ per cent.

Prime mercantile paper 4½@5 per cent.

CITY AND COUNTY NEWS.

Commissioner Anderson Calls Attention to Registration Time Limit Error.

Deputy Assessor Carbis Is Not Overpaid—County Forbidden to Bury Dead in City's Charge.

County Commissioner James H. Anderson today called attention to an election matter that has come under his notice. He says that after a reading of instruction to registrars, some of those election officers have entered upon their lists the names of persons who have been living within the precinct for less than sixty days prior to the day of election. "This is a mistaken construction of the requirements," said Mr. Anderson, "and the board will at once issue a short notice explaining the correct situation. The law provides that a voter to be qualified to register in a precinct must have lived in such municipal division for a period of at least sixty days prior to election day, but that a person moving from one voting district to another within the same precinct is entitled to registration in such new district at any time previous to the day of election, provided, of course, that his application for registration be received by the registrars before the time set for the final closing of the books."

CARBIS GETS OVERTIME.

With reference to the question raised by State Auditor Tingey as to his right to honor the state's proportion of the monthly pay of $110 of Chief Deputy Assessor W. O. Carbis, the commissioners say that the bill is allowable because the extra compensation is for extra work done by the deputy and that Mr. Carbis will not be required to refund any amounts which he may have heretofore drawn upon this account. The law provides that no deputy in any of the county offices shall regularly draw over two-thirds of the amount of the salary paid to his principal. Inasmuch as the assessor's salary is $150 per month, it was contended that Mr. Carbis was entitled to but $100 maximum salary, that being the two-third limit. The commissioners say, however, that any amount in excess of $100 per month that may be drawn by the deputy represents actual extra work done by that official and that he will not be required to refund any moneys which he may have heretofore drawn as such pay. Had the present course not been pursued, say the commissioners, another deputy must necessarily have been employed for a part of the time and the state and county would probably have been required to pay more than is now necessary.

INDIGENT DEAD.

A few days ago the county commissioners were criticised for having refused to bury the body of a man who had died in the city jail. The law upon the matter has been looked up and it is found that the city ordinances provide for the payment of expenses incident upon and connected with the burial of bodies of indigent persons who at the time of death are charges of the city; and it is also seen that similar persons are given to county commissioners in such cases, the language used in the law in both instances being identical. Under the health laws, however, the county is forbidden to enter upon the domain of municipal corporations for these purposes, unless the indigent dead may already be a charge of the county within the city limits. It is a well known fact, said one of the commissioners today, that the county has fully attended to its duty in such cases.

ROAD REPAIRS.

Having an eye upon close-approaching bad winter weather, the county commissioners are hastening the repairs upon county roads as fast as their resources will permit, so as to better the highways as much as possible against the days of snow and mud.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

PEOPLE LIKE

OUR WAY OF FITTING GLASSES.

This has been proven by the way in which our business has grown in the past year. We now have two stores, one in Ogden at No. 2482 Washington Ave., and our old stand at 73 west First South. Don't fail to remember that we charge nothing to examine your eyes and will tell you honestly if you should or should not wear glasses.

Burlington Route
The Pride Of the Road.

Every railroad has its "pet" train.

The Burlington's pet is the Chicago Special—No. 4—as railroad men call it.

To run on the Chicago Special is the ambition of every conductor, brakeman, engineer and fireman on the west end.

The Chicago Special is as clean as a new pin. Spick and span and radiant in the glory of its varnished cars. Fast as a whirlwind. As easy riding as a rubber-tired automobile over an asphalt pavement.

Leaves Denver at 4:00 p. m. Arrives Omaha 6:45 next morning, Chicago 8:30 next evening—only one day on the way. St. Louis Special leaves at 2:15 p. m. Vestibuled Flyer at 10:00 p. m.

Lewis' 98 % Lye,
Powdered and Perfumed.
(PATENTED)
The strongest and purest made. Unlike other Lyes, it is finely powdered, packed in a can having two lids, one easily cut and the other removable for constant use. It will make the best perfumed Hard Soap in 20 minutes without boiling. It is the best for cleansing waste pipes, disinfecting sinks, closets, cleaning paint, bottles, barrels, killing trees and killing insects; for engineers and machinists' use; for painters, to remove old paints, etc.
