is apt to follow the breaking of a shell, but the results in the case of our fresh laid eggs are immensely satisfactory. There isn't a less acknowledged Uncle Sam's authority, that wouldn't be proud of our eggs, which are now only 10 cents a dozen. You're bound to have green groceries, too, staple, fancy and green, fresh from the garden and farm, and as welcome to the table as an umbrella is to the sun. You can make almost anything out of green groceries—a meal fit for man, and no meal was ever ground finer, nor half so fine as those composed of our table vegetables and delicacies. How do you like these tastes of car quality? Paint grape vines, or come up to our half-grown, 24 oz. per dozen.

Well, when do you think of the result of cycle racing on the Fourth of July? They talk about best! There is but one best!

**Rambler**

Carrie takes the march with hardly an exertion.

Well, well, Fresh Eggs being something unique in our market, will break the world's record! And how it did break things when we sent them to the last egg market, and two-thirds mile earlier, breaking the State record, and that too, against a wind pretty enough to turn back. And when we won the second place at the same market in the Egg Festival, Wellie did take to the one million record. Why, his competitors did not seem to be fit for a moment, and then went right along again, taking seconds and thirds off every race, but finally held her own, and won the tie.
