## DROWNED IN OGDEN RIVER

Sad Fate Overtakes James A. Godfrey While Sightseeing With Young Lady.

## MR. ECCLES HOME FROM CUBA

Cuban vs. American Sugar Production—Junction City News Briefs.

Ogden, March 4.—James A. Godfrey, 27 years of age, one of the night clerks in the Oregon Short Line freight office, was drowned in the Ogden river near the Sanitarium yesterday afternoon, it is supposed, he fell from a short foot bridge into the swiftly flowing stream. Mr. Godfrey, in company with a young lady named Helen Smith of Salt Lake City, boarded the Ogden Canyon street car at 3:30 yesterday afternoon to spend an hour viewing the scenery. On their arrival at the mouth of the canyon they left the car and went over to the Sanitarium where they spent a short time and then went across the small foot bridge over the river to the hot springs on the south side. After about 15 minutes there, they started back over the bridge, Miss Smith going ahead and Mr. Godfrey followed. The young lady did not look around until she had arrived on the opposite side, then she turned to look for her companion and was surprised not to see him on the bridge. Believing he had turned back and hid somewhere, she went back over the bridge and up to the spring but was unable to find him, and it was then that she thought came to her that he might have fallen in the stream and been carried down. She began to cry and call for help. Several passers-by came to her assistance and immediately began a search of the river. After about a half hour the body was found and just south of the Sanitarium. Sheriff Sebring and his deputies went to that side of the river but could not get the body out. Two young men, Samuel Royle and Hyrum Farr, who

were horseback, happened along just at this time and rode into the stream and got the body out on the north side, but as life was extinct there was nothing to do but to have his body removed to the city. He was taken to Talmage undertaking parlor. The young lady was almost frantic with grief over the tragic ending of what they had expected to be a pleasant outing. It was learned by the other that Godfrey had been drinking considerable and was partially intoxicated. When at the Sanitarium he bought a bottle of beer which he drank and then threw it in the river so he should not drink it. She also got his pistol and unloaded what shells were in it and threw them in the river. How he could fall into the water is a mystery, as there are boards for hand holds the full length of the bridge. The matter is now in the hands of Acting Governor J. D. Murphy, who will hold an inquest. Godfrey has been in Ogden for a considerable time, having come here from Omaha where he has a mother and two sisters living at Twenty-eighth street, who have been notified and until they are heard from no arrangement for the disposition of the body will be made.

David Eccles and Family Return From Delightful Trip.  
Ogden, March 4.—David Eccles, who with his wife and daughters have been in Cuba for a month past, have returned and are delighted with the trip in every way. In speaking of Cuba Mr. Eccles said that it was the most beautiful country in the world, that last year the output was much greater than it has ever been, and the indications are that this year the sugar production will increase fully 25 per cent. Mr. Eccles says the people of America cannot compete with the output of sugar in Cuba. Sugar in Cuba is selling for 14 cents per pound, while in Utah the sugar beets alone cost 2 1/2 cents per pound. Enroute home Mr. Eccles stopped at St. Louis and secured some designs and a new motor car, which will be ordered soon.
