THE EVENING NEWS.

Saturday, - - - - January 28, 1871.

LOCAL AND OTHER MATTERS.

"THE LOST SHEP."—This exciting drama is to be presented to-night for the *last time*, so that all who have a taste for the sensational should avail themselves of this opportunity to witness this truly thrilling piece. On Wednesday night last it was received with rounds of applause, and Miss Colebrook and Mr. McKenzie were called before the curtain at its close.

The farce is a good one.

TENTH WARD LECTURES.—The Tenth Ward Lectures, heretofore so popular, are about to be resumed, and the first of this Winter's series will be delivered by Henry W. Naisbitt, Esq., on Monday evening next, at the Tenth Ward School House, to commence at 7 o'clock. The subject he has chosen is "Silent Forces." These lectures will be continued throughout the present winter, every Monday evening.

TONSORIAL.—Squires & Sons are furnishing and fitting up their saloon quite stylish and, when they have finished, their establishment will be first-class, and one to which it will be a pleasure to go for an easy shave, hair cutting and shampooing.

IN TOWN.—J. W. Willard, Esq., is in town, agent of the California powder works, where the celebrated blasting, Hercules', and other brands of powder are manufactured. His visit may be of interest to those engaged in mining pursuits, as he will receive orders for powder, fuse, shot, &c.

THE LECTURE LAST NIGHT.—There was a good attendance at Professor Pratt's lecture on astronomy last night. The fifth of the course will be given on the evening of Tuesday next.

PERIODICALS.—Peters' "Musical Monthly," and Scribner's beautiful "Monthly" for February; and the *Art Review* for January, published at Chicago and New York, are received, and may be purchased at Dwyer's News Depot, East Temple St. They are all excellent.

QUORUM PARTY.—The party given by the 4th Quorum of Seventies, on Thursday evening, at the Social Hall, was a fine affair, in every particular, all present enjoying themselves very much. Well-earned credit is due the committee of arrangements, which was composed of the following gentlemen: Messrs S. P. Neve, A. P. Solesborg, Henry McEwan, George Anderson and Thos. F. Harry. The Smith Bros' band played good music and the floor management was in capital hands. We noticed among those present, President D. H. Wells, President Jos. Young, Sen., Elder A. P. Rockwood and Col. John R. Winder.

THE UTAH GOVERNORSHIP.—A Washington telegram says:

"The name of Mr. Strickland, sent to the Senate for conformation as Governor of Utah, will be withdrawn by the President. It is said the Iowa delegation are urging the nomination of C. Pomeroy, of Iowa, for the position."

Upon the above the Omaha *Herald* has the following comments:

"This looks a little squally for our argentiferous arrangements, and we begin to have unpleasant fears that our candidate is about to fall by the way-side. Governor Vaughan needn't be too confident, however. When Thayer and Strickland and Hitchcock and Taylor get to Washington, things may acquire a new aspect.

THE LECTURE ON CHEMISTRY.—Dr. F. D. Benedict gave another interesting lecture, yesterday afternoon, at the Deseret University Lecture Room, on Chemistry, the subject of which was Hydrogen. He presented some very good illustrations as he progressed, among which were the burning of phosphorus in water, the explosive character of a combination of oxygen and hydrogen, and the burning of hydrogen in glass tubes. The subject matter was extensive and instructive, explaining the history, properties and methods of producing pure hydrogen.

Next Friday, Professor Bellerive will lecture on "The revival of Literature, Art and Science in the XVIth Century," to be succeeded, the following week, by the regular course on Chemistry.

WASATCH.—A correspondent writing from Wasatch, on the 25th instant, says business is very quiet, and he thinks the chief reason is that Chinamen have supplanted the whites in doing the section work on the railway. The Coalville coal haulers are the only ones who seem to be busy. The railway company will not move their machine shops from Wasatch to Evanston until April or May.

RETRENCHMENT PARTY.—The ladies of the Seventeenth Ward Retrenchment Society held a ball last evening in the Social Hall, and it certainly was one of the most pleasant and enjoyable parties held there this season. The honors were done on the occasion by the ladies in splendid style, and propriety and enjoyment were the order of the evening. The committee of arrangements consisted of Mrs S. J. Miller, and Misses A. F. Doremus, S. Lyons and M. E. Felt. Floor manager, Mr. Joseph H. Felt. It is gratifying to state that the party, financially, was a success,—the balance, after paying expenses being very satisfactory.

HAINES' NEW TREATISE.—We received, to-day, from E. B. Myers & Co., Law Booksellers and Publishers, 87 Washington Street, Chicago, a copy of the fifth revised edition of "A Practical Treatise on the Powers and Duties of Justices of the Peace, and Constables in the State of Illinois, with the necessary forms of proceeding, embracing also a collection of original and selected forms for popular use in the transaction of business," by Elijah M. Haines, Counselor-at-Law. This book is one octavo volume of over 800 pages, bound in best law sheep; price $7.50. As far as we have had an opportunity of examining the work, we are pleased with its contents, arrangement and classification of subjects. It has lately been revised by the author, and materially improved by the addition of much important matter, giving all the late laws and published decisions down to 1870. The Justice of the Peace, Police Magistrate, Constable and Coroner, will find in this book all the necessary forms and instructions in regard to every branch of his duty. The practicing lawyer will find both collected and arranged in convenient form, all the Statute Law and decisions, with reference to adjudicated cases applicable in ordinary practice. The business man will find in it a complete collection of forms required in the transaction of business. Students of the law will likewise find this a valuable work for perusal and reference as containing the general principles of the common law, clearly stated, in connection with the ordinary branches of jurisprudence.

The work came to us in care of Mr. James Dwyer, of the Railway News Depot, where it can be purchased at publishers prices.

SPIRITUALISM, &c.—Elder Miles Grant, the Second Adventist, who is just now making considerable stir by his public teachings and preaching in San Francisco, last Tuesday evening gave a lecture on Spiritualism, in which his hearers were informed that Spiritualism could not be explained by philosophy or trickery; it was altogether the work of demons—a class of beings higher than men but lower than angels. The spirits of the departed had nothing whatever to do with the communications received through mediums, the demons did it all. The Elder also informed the people that angels were not the spirits of men, because they were before men; both angels and demons had the power to make themselves visible to mortals when they choose to do so. The difference between mesmerism and spiritualism, is, one is done in the body, the other out. The Elder also stated that when the demons want to make a convert they gather around their victim and mesmerise him; after that one demon is sufficient to take care of him.

Mount Ranier, in Washington Territory, has been decided to be the highest mountain on this coast, being 14,444 feet high.

PEOPLE'S VERDICT!
Over Half a Million sold and in use!
4,000 made and sold per week!
SINGER'S
New Improved Silent
FAMILY SEWING MACHINES
ARE
The Best in the World,
Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly impracticable.

THE SINGER
NEW FAMILY MACHINE
Has been brought to perfection, regardless of time, labor or expense and is now incomparably the best Sewing Machine in existence.
It is *simple, compact, durable, beautiful, quiet, light-running,* and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.
The New Improved Attachments for Hemming, (any width) Braiding, Embroidering, Magic Ruffling, Gathering and sewing on (at the same time) Self-Sewing, Cording, Tucking Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.

Folding Tops and Cabinet Cases.
New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as black Walnut, Mahogany, Rosewood, Satinwood, and from the plainest to the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.
In the Singer the work is fed or passed through the Machine in the natural direction, namely, *from the operator,* permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, *compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back, etc.*
The Singer uses a SHORT STRAIGHT NEEDLE, which is not liable to break or miss the stitch. Many other Machines use a long crooked needle, which *is* liable to break and to miss the stitch.
In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no oil, and does not soil the thread or goods. Other Machines *drive* their Shuttles, in a race, thus causing great wear, and *requiring oil,* soiling the thread and goods.
On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.

The SINGER is the
Oldest Practical Sewing Machine,
Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses All the Very Latest Inventions and Improvements. It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Complicated, to do Useless and Silly things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives trouble, but is readily and easily managed by those *who utterly fail on other Machines.*

SINGER'S
New Manufacturing Machines
Claim the same advantages over others of their class as the new Family Machines. These old and well-tried Sewing Machines are *applicable to all kinds of heavy and light manufacturing in Cloths, Leather, etc.,* and run in the most perfect and reliable manner without trouble to the operator.

HAVE ARRIVED!
A Full Assortment of those
Beautiful and Unrivaled
MACHINES.
(The numbers on which show a manufacture of between Five and Six Hundred Thousand.) Consisting of the Different Varieties made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on
EASY MONTHLY INSTALMENTS
So that all may possess one of these *Blessings.*
For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical running order before it leaves the Institution and will also impart to purchasers all needful instruction, so that they can at once commence work.
We resort to no trickery whatever to sell Sewing Machines, but allow their Great Merits to recommend them. We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works.
We having been so fortunate as to secure the
General Central Agency,
For this Territory, we extend a cordial invitation to all to come and see the Machines, whether they wish to buy or not. See all others, but do not buy without you examine the Singer.
We Guarantee every Machine we sell to give entire satisfaction.

THE SINGER
BUTTON-HOLE MACHINE
Is the only Practical one in the World.
