A delightful afternoon party was given on Thursday at Idlewild, the home of Mrs. Winifred Walker Prosser, by Mrs. Prosser's mother, Mrs. Mariah Sprague, who is occupying the residence. She had as guests Mrs. Asenath Adams, Mrs. Isabelle Pitts, Mr. and Mrs. H. G. Whitney, Mr. and Mrs. Arthur Wither and Mr. and Mrs. Lind Sprague. Of all the garments in my lady's wardrobe none is more practical and gives as great an amount of satisfaction and wear as the rubberized rain or utility coat. The dressier types of these garments are made of silk and satin, but those which are destined for good, hard wear are made of moire or a fine quality of English mohair. They are semi-fitting, but suggest the graceful lines of the figure, being cut to curve slightly at the waist line and flare nicely at the hem. The neck is finished with a high turnover collar, the fronts fastening double breasted to the neck line and the sleeves, of moderate size and full length, are gathered slightly into a high puff matching the collar.

FASHION FAVORS THE JUMPER.

Despite the fact that the jumper mode is no longer new, fashion still clings to it, realizing, perhaps, that it is one of the most becoming styles that we have had in many a day, for with the aid of various guimpes one is enabled to vary the effect of the jumper dress to no small degree. The modified mandarin armhole is still used and is very effective with the new long sleeves in guimpes of various materials.
