hotel in New York, has been recently reflited, refurnished and redecorated in elegant style, in view of the approaching Centennial. The new designs in Fresco-work, especially, which adorns the halls, parlors, dining-rooms and exchanges, are the richest and most exquisite in the country.

While other hotels will probably adhere to their present rates, the Grand Central, justified by its immense capacity to accommodate 1,500 guests comfortably, will make a popular reduction, and schedule its rates from \$3.00 to \$4.00 per day. Ranking in every respect with the finest hotels in America, this liberal reduction cannot fail to meet with popular approval. -d90
