One Form of Rudeness.

A flagrant breach of politeness, said: and one which is most annoying to refined and sensitive people, is the pastor, absently. very general practice of interrupting one's conversation. The impunity with which this is done has degraded rational conversation, which ought to be the greatest charm of social intercourse, into a noisy farce. A man or woman who has anything to say that is worth saying, desires to say it in his or her own way, and those who have brains to appreciate it will be equally desirous of hearing it without interruption. Yet it is a common thing for a parlor conversation to partake more of the babble of Babel than a conversation among rational beings, who are supposed to know and appreciate what each other says. One begins to relate an incident, and before he has finished two sentences, some parrot in fine clothes chimes in with her senseless gabble, breaking the thread of discourse, and compelling the narrator to begin again, or abandon the attempt to instruct or entertain.

This is the grossest impoliteness; but is as common an occurrence as conversation itself. It is not much to say, that nine out of every ten people who indulge in this habit are incapable of carrying on a rational conversation on any useful topic, and indulge in these breach- was falsely reported in a newspaper, es of etiquette by way of covering writes: "It's a mistake. Never interrupt a conversation by interjecting remarks, however appropriate and witty they may seem. All sensible people will respect you, and conclude that you have good sense and know how to use it to the best advantage.

Interrupted Table Talk.

The other evening the Rev. Mr. Philacter sat down at the tea table with a very thoughtful air, and attended to the wants of his brood in a very abstracted manner. Presently he looked at his wife and said:

"The Apostle Paul —" "Got an awful lump on the head eldest son, "playing base ball. Bat | Were there any converts?" He flew out of the striker's hands me right above the ear, an' dropped me. Hurt? Golly !" And the lad shook his head in dismal but expressive pantomime as ne tenderly rubbed a lump that looked like a billiard ball with hair on it. The pastor gravely paused for the interruption, and resumed:

"The Apostle Paul ---" "Saw Mrs. O'Gheminie down at Greenbaum's this afternoon," said his eldest daughter, addressing her mother. "She had the same old everlasting black silk, made over with a vest of tilleul green silk, ald. coat tail basque pattern, overskirt made with diagonal folds in front, edged with deep fringe; yellow ers. "My horse was lame for a year with a fetlock wrench. All remedies utterly failed to cure, and I considered him worthless until I commenced to use Centaur Liniment, which rapidly cured him. I heartily recommend it."

It makes very little difference whether the ca e be "wrench," sprain, spavin or lameness of any kind, the effects are the some. The great power of the Liniment is, however, shown in Poll-evil, Big-head, Sweeny, Spavin, Ring bone, Galls and Scratches.
