

# DESERET EVENING NEWS

WEATHER FORECAST.

Snow and colder tonight. Saturday probably fair.

## The Semi-Weekly News

THE GREAT COUNTRY PAPER OF THE WEST.

Is Issued Mondays and Thursdays and contains all the cream of the Daily and Saturday News.

### LOCAL BRIEFS.

Furniture dealers say that the holiday trade is fair, but not as good as it was last year.

The Woman's Republican club will meet Monday at the residence of Mrs. W. H. Jones, 231 South Third East street.

There is a five-mile open skating race this afternoon at the fair grounds, and fancy skating will be the order of the evening there.

Ruth Sowles, the 11-year old daughter of M. B. Sowles, broke her arm Wednesday afternoon by falling on the ice while skating.

State Superintendent of Schools Nelson will go to American Fork tomorrow to assist in the dedication of a new schoolhouse at that place.

Rabbi Reynolds will speak on "Reflections on the Coming Season" in the Jewish temple this evening. The Rabbi has recovered from his illness.

There will be a civil service examination in this city, Jan. 27 for the position of physician in the Philippine service with compensation at \$1,200 to \$1,800 per annum.

Parties from Spokane say that the fog came up from the river every day, at this time of year, and when the fog is once enveloped all street car traffic has to be suspended.

There has been a delay in the arrival of a carload of terra cotta coping for the new Presbyterian church; but when it is received, the roof over the main auditorium will be put in place in short order.

A man giving the name of Neodham had his foot lacerated last midnight, at the corner of First South and East Temple streets, while trying to board a streetcar. He was sent to the Holy Cross hospital.

Mrs. Colonel Higgins, for years at the head of the slum and rescue work of the Salvation Army in the United States, will be in this city Jan. 27, to lecture in the theater on the life work of this being a legal holiday, the banks and public institutions are closed, and the postoffice observed Sunday hours except that the carriers made the morning rounds and their windows in consequence were not opened.

Wesley K. Walton has removed his residence from Utah county to this city for the winter. He thinks the north country too suggestive of Esquimaux, reindeer, Spitz dogs, walrus hunting, aurora borealis, and 40 degrees below zero, to remain there in cold weather.

Local fire insurance men shake their heads as they refer to the condition of the Iroquois theater in Chicago, and wonder why the house was allowed by the local authorities to open without the fire escapes in place, as the absence of these surely resulted in loss of many lives.

The Scandinavian ball at Russell's hall last night was an extraordinary well attended affair. There were perhaps 150 couples present and all tripped the light fantastic till at late hour. The ball was for the benefit of the new Latter-day Saints' menagehouse in Salt Lake, Sweden, and must have netted a good sum.

There were watch meetings last night in a number of the city churches, and at St. Mark's cathedral special services were conducted by Dean Eddy. There will be services in German at 3 p. m. today in the Lutheran church, at Fourth East and Second South streets. Services were held this morning in St. Paul's Episcopal church.

The Odd Fellows will have a lively time of it next week in this city, with the installation of officers in seven lodges, two Rebekah lodges, two encampments and one court. A number of Salt Lake Odd Fellows will attend the establishment of a new lodge at Freeman, 15 miles from Corinne, which begins with 60 members.

Over 60 Utah delegates to the Portland convention have issued their intention to make the pilgrimage, and President Jesse M. Smith of the Wool Growers' association is very hopeful now of a profitable time. The live stock convention will take up the action of the railway companies in refusing to return transportation to shippers of live stock.

The new directors of the Utah Light & Railway company will meet tomorrow to perfect the new organization, and the new incorporation papers will be filed in the morning with the county clerk. The Utah Light & Power company, and the Consolidated Railway & Power company ceased to have a legal existence last midnight when the merger went into effect, and the new company is now operating the properties of both concerns.

Mrs. N. P. Dooley, wife of the late mining man, died yesterday afternoon at the Sisters' hospital, after a long struggle with Bright's disease, her trouble being aggravated by the death of her husband a year ago. The body will be removed to Salt Francisco for interment by his side. Mrs. Dooley was a Miss Ward before marriage, and her home was at Ploche, Nev., where she was married. She was prominent in Catholic circles, and was a liberal giver to charities.

We pay 4 per cent interest per annum on \$1 to \$500. Zion's Savings Bank & Trust Co., Joseph F. Smith, President; George M. Cannon, Cashier.

L. M. HIGLEY, HONEST PLUMBER. Heating Electric Wiring. 209 E. First South. Phone 753.

Rev. Carlisle P. B. Martin, L.L.D. Waverly, Texas, writes: "Of a morning, when first rising, I often find a troublesome collection of phlegm, which produces a cough, and is very hard to dislodge, but a small quantity of Ballard's Horehound Syrup will at once dislodge it, and the trouble is over. I know of no medicine that is equal to it, and it is so pleasant to take. I can most cordially recommend it to all persons, needing a medicine for throat or lung troubles." Price 25c, 50c, \$1.00 bottle at Z. C. M. I. Drug Dept.

## BOARD OF HEALTH AND VITAL REPORT.

Typhoid, Smallpox and Croup Show a Material Increase Over Previous Year.

### BIG DECREASE IN FATALITIES.

Contagious Diseases Also Show a Material Falling Off in Numbers During Last Year.

The annual report of the city health office which is now being prepared by Clerk Horace H. Smith, of the board of health, shows that there were 1,362 cases of contagious diseases in the city during the year 1903, while the previous year there were 1,573 cases reported to the board.

Scarlet fever, measles, diphtheria, chickenpox and whooping cough show a marked decrease this year as compared to last year.

There were seven times as many cases of measles reported last year as this year, and over three times as many cases of scarlet fever last year as this year.

There were 325 cases of smallpox reported during the year as compared to 120 for last year. At present, however, there are only three cases of the disease in the city and they were imported.

Typhoid fever was almost as bad as smallpox, there being 323 cases of the former disease reported during the year, and 19 deaths from the disease. Last year there were 167 cases reported and 28 deaths.

In the year 1903 there were 951 cases of contagious diseases in the city; in 1902 there were 1,573 and in 1901 there were 1,262.

The statistics for the past 13 years show that the mortality was often greatest when there were but few contagious diseases. In 1891 there were 370 cases of contagion and there was a total of 165 deaths.

In 1892 there were 385 cases reported and 45 deaths; in 1893 there were 342 cases and only 36 deaths; in 1902 there were 1,573 cases and 169 deaths and this year there were 1,362 cases and only 61 deaths.

Following is a comparative table of cases reported and deaths from contagious diseases in the city for the years 1902 and 1903:

Diseases	1902.	1903.
Diphtheria	218	37
Scarlet fever	147	8
Measles	951	325
Typhoid fever	323	323
Smallpox	120	323
Chickenpox	69	6
Whooping cough	1	202
Croup	1	0
Gravel	0	0
Totals	1,573	67

The following table shows the number of cases and deaths from typhoid fever and smallpox from 1891 to 1903, inclusive:

Year.	Typhoid.	Smallpox.
1891	45	0
1892	32	0
1893	22	0
1894	102	0
1895	121	0
1896	121	0
1897	162	0
1898	123	0
1899	167	0
1900	167	0
1901	170	0
1902	323	323
1903	323	323

Over 100 members of the University club and their friends held "High Jinks" last night, at the new clubhouse. Owing to the unfinished condition of the main floor, the ceremonies attendant on the festival occasion were held in the basement, where the billiard tables, grill and card rooms, and the music room are located. The evening was given up to cards, music, singing and refreshments. The principal feature being the singing of college songs, and the old year was sung to an eternal send, and the new year welcomed in with a very good chorus by George Lawrence, Grant Hampton, Jay H. Harris, Kenneth Kerr and L. H. Farnham, who accompanied their college associates with dramatic stunts that were very pleasing. The entire affair was enjoyable and well managed, and the club started off with this initial function as a successful curtain raiser for coming social entertainments. The interior of the building will be completed shortly, and be one of the most cozy, comfortable and home-like clubhouses in the west.

Mr. William S. Crane, of California, Md., suffered for years from rheumatism and lumbago. He was finally advised to try Chamberlain's Pain Balm, which he did and it effected a complete cure. This balm is for sale by all Druggists.

Ex-Salt Lake Dog Catcher Now a Preacher in Sacramento.

Ex-Sergeant J. Gordon McPherson of the Twenty-fourth infantry, and for a time dog catcher in ordinary to the Salt Lake City corporation under Mayor Thompson, has been distinguishing himself in Sacramento, where he has loomed up as a religious and extraordinary. McPherson came to Salt Lake with the Twenty-fourth infantry, and afterwards served with his regiment in Cuba, where his persuasive powers brought many to the baptismal font in the Salt Lake Baptist church. Among these converts was the "batter seven eighth" of a pillar of the church named Deacon Asbury, and when in face of his protests she insisted in carrying out her part of the program, the good deacon whipped a razor out of his belt and threatened to cut the hair of the man who was so determined to baptize him. Mayor Thompson with his importance and his honor appointed him dog catcher, but the new functionary's service was so distinguished by the unaccountable disappearance of valuable licensed dogs, that "lick" McPherson was relieved from his command and mustered out of the city's service.

From this city Mac murdered to Seattle, where a new freak struck him, and he discarded the lieutenant's uniform for the regulation garb of a colored preacher, and was "called" the ministry. After the reverend ex-sergeant and canine hypnotist had made a fair start on his new road, he migrated to Sacramento, where his persuasive powers brought many to the baptismal font in the Salt Lake Baptist church. Among these converts was the "batter seven eighth" of a pillar of the church named Deacon Asbury, and when in face of his protests she insisted in carrying out her part of the program, the good deacon whipped a razor out of his belt and threatened to cut the hair of the man who was so determined to baptize him. Mayor Thompson with his importance and his honor appointed him dog catcher, but the new functionary's service was so distinguished by the unaccountable disappearance of valuable licensed dogs, that "lick" McPherson was relieved from his command and mustered out of the city's service.

## GOOD CHANCE FOR BRIGHT YOUNG MEN

Free School of Electrical Engineering to be Established by Telluride Company.

### AT MOUTH OF PROVO CANYON.

Establishment of Such an Institution Has Been Hobby of General Manager Nunn for Years.

Some years ago, when the Telluride Power Transmission company first invaded Utah, there came to Provo, the scene of its first local operations, a liberal hearted general manager, L. L. Nunn. About his first move, was to select from among the host of bright young men living in that city a number who were anxious to receive a practical education. He placed them on books of electrical engineering while the power plant in Provo canyon was being built, and at its completion he gave all of them positions in the plant that would enable them to get the practical experience so essential to such an education. The life was not a pleasure—this standing at a water-gate, there are ten hours daily and watching constantly to see that the generator's water-supply did not vary—nor was it an extremely hard existence, except to the boys whose hands had been gloved all their life. Each of the candidates who remained at his post for one year was rewarded with something better, and eventually, after having shown himself capable, he was placed in a position to complete his education. Several of them were sent to college at the individual expense of L. L. Nunn, whose aim it was to give the Utah boys as many of the important positions in the company as possible. In this aim, he succeeded. It is said that practically all of the Telluride company's employees in this state are from Provo, Logan, Salt Lake and Bingham, except the Utah manager, who came originally from Colorado, and has since married a Utah girl and settled in Provo.

So it is not surprising to learn that the company is now to branch out in its system of free education by establishing a school at the mouth of Provo canyon, in connection with the power plant, where students of electrical engineering will be taught in practical branches. "From the point where the college drop then," says Nunn, explaining the school, "the school will start at \$20.00, and will accommodate from 30 to 40 students, including sleeping quarters. The company bears all the expense."

To his students in this manner is but continuation of Manager Nunn's philanthropic "hobbyism." He is a man of considerable wealth. Outside of his lucrative managerial position, he is president of the Telluride Power Transmission company, and has a wide range of interests. Since he became a man of affluence he has endeavored in every way to put his money where it would do the most good. It is no exaggeration to say that his hobby has been to find boys of intelligence, in all conditions of life, and put them through the various stages of education, paying all their expenses. It has been his privilege to select their own colleges and the professions for which they were best suited. There are quite a number of electrical engineers in this city today who owe their training to Mr. Nunn, who will modestly deny any credit, if asked about it. One or two of his "boys" are on the bench in other states, and there are a number of others who are engaged in the various courses of education, paying all their expenses. It has been his privilege to select their own colleges and the professions for which they were best suited. There are quite a number of electrical engineers in this city today who owe their training to Mr. Nunn, who will modestly deny any credit, if asked about it. One or two of his "boys" are on the bench in other states, and there are a number of others who are engaged in the various courses of education, paying all their expenses. It has been his privilege to select their own colleges and the professions for which they were best suited.
