## PANAMA TREATY TO BE AMENDED AND REPORTED.

Washington, Jan. 16.—The senate committee on foreign relations today directed Senator Culom to report the Panama treaty with three amendments. The Republican members voted for the treaty, but only two Democrats, Morgan and Money, were present. The former voted against the treaty and Mr. Money stated that he had not yet had time to consider it, as it was the first meeting of the committee he had been able to attend.

The three amendments, relate to sanitation, limitation of cities and control of harbors. The United States by the amendment relating to sanitation is granted more direct power in all sanitary regulations. The amendment concerning the limitation of the cities more specifically defines what are the limits of Panama and Colon in relation to the canal zone. The harbor amendment gives the United States control of the harbors for the purpose of improving.

## SETBACK FOR BOUNTY INDUSTRY.

State Auditor Tingey Mails Notices To County Auditors Throughout Utah Generally.

FUND IS NEARLY EXHAUSTED.

Already There is but \$2,000 Remaining Of the \$100,000 Set Aside for The Current Year.

State Auditor Tingey has mailed notices to the county auditors throughout the state notifying them that the bounty fund for the year 1904 set aside by the last Legislature is nearly exhausted. The Legislature of 1903 appropriated \$100,000 for the payment of the bounty on certain wild animals for the years 1903 and 1904. The fund for 1903 was exhausted in November last and all bounty certificates after that were held to about a week. In that event the certificates issued after the bounty fund is exhausted will not be paid by the state until after the next session of the Legislature, when another appropriation will be made. The last Legislature increased the bounty on coyotes 50 per cent, but did not increase the amount of the fund, hence there will be quite a shortage, which will have to be made up by the next Legislature.

## HEATH SAYS HE IS BEING CRUCIFIED.

Consoles Himself in Statement That Other Good Men Have Had Same Fate.

NOT BOOMING SENATOR HANNA.

Declares That Latter Does Not Need to Be Boomed and That Sentiment is For Him Already.

(Special to the "News.") New York, Jan. 18.—Perry Heath, who is at the Waldorf with Senator Kearns, said to a "News" reporter today: "I have no intention of retiring. The only people who talked about my retiring are enemies who want me to. I went into the postoffice department to carry out my obligations to President McKinley. It seems I am to be crucified. I am ready for crucifixion as others have been crucified before. I have done my duty honestly and faithfully and am not booming Senator Hanna nor any other candidate. Hanna is a man who does not need booming."

"Senator Hanna doesn't have to manufacture sentiment. It's there already. Hanna is in a peculiar position. He elected his candidate in 1896 and 1900, and has had two successful campaigns. He conducted two campaigns for himself for Senator. He is in robust health and old enough to speak for himself. Loyal friends who came to his assistance in those campaigns did not do so because of his being a good candidate, but because of his (Hanna's) own individuality. The same friends are now coming to Hanna and are asking him to stand for the presidency. Hanna cannot grab a baseball bat and beat them for the suggestion, nor treat them abruptly but he must be considerate."

"There are 15 railroad presidents in this hotel now; all of them are for him for the presidential candidate. Ten of them have urged him to announce himself. The fact that some state convention last year endorsed Roosevelt is not of any great significance. It has always been customary for such conventions to endorse the administration in power and the president, but it has never been considered as binding for the delegates of the subsequent convention or the national delegates from that particular state to vote for such a candidate or his re-nomination."

## TOM O'DONNELL CHANGES HIS PLEA.

Admits Being Guilty of Burglary and is Sentenced to Eighteen Months.

ENTERED 22ND WARD CO-OP.

Case Was Set for Trial Today But Change Made Such a Proceeding Unnecessary.

Tom O'Donnell this morning withdrew his plea of not guilty to the charge of burglary and entered one of guilty, and was sentenced by Judge Morse, in the criminal division of the district court, to 18 months in the state prison. O'Donnell was charged with burglarizing the Twenty-second Ward Co-op store at 589 west Fourth North street on the night of Dec. 12, 1903. His case was set for trial today but when it was called, Attorney C. G. Gattrell, who represented defendant, stated that his client had decided to change his plea. O'Donnell was then permitted to change his plea and was sentenced by the court as stated above.

## CZAR GIVES HOSTAGE TO PEACE.

His Assurance of a Desire to Maintain it in Far East so Regarded by Diplomats.

ONUS OF A RUPTURE ON JAPAN.

Russia's Guarantee of open Ports in Manchuria Looked Upon as Placing it There.

HOW RUSSIANS HEARD THE NEWS

St. Petersburg Newspapers Remark it Is Strange That it First Came By Way of America.

St. Petersburg, Jan. 18.—The czar's assurance given at the winter palace Jan. 14 on the occasion of the New Year's reception that he desires and intended to do all in his power to maintain peace in the far east is regarded by the foreign diplomats as a hostage given to the world for the preservation of peace, while the guarantee that Russia will recognize the open ports and other concessions in Manchuria will, it is thought, place the onus of a rupture on Japan. Most of the newspapers here join in the peaceful chorus, one paper remarking, however, that it was strange for Russians to first hear of the czar's words by way of America.

The Novoe Vremya, referring to the reports of the offer of good offices from the United States, France and Great Britain, says:

"Is such action necessary when the whole world has been informed of what his majesty has graciously been pleased to say to the diplomats at the winter palace? How is it possible to render further service to the cause of peace after the czar has announced that he will direct all his influence toward maintaining it?"

"A more precious guarantee that Russia will not draw the sword it is impossible to conceive."

The Novoe Vremya concludes as follows:

"Japan is in an unfortunate position as she is required to avoid the dangers arising from the good offices of officious friends."

As a sidelight on the situation the Moscow Gazette announces that its editors and other employees are donating their salaries to the purchase of a swift privateer, adding that the sum of \$25,000 has already been raised for this purpose.

Berlin, Jan. 18.—Further advices from German Southwest Africa say the Hereros are murdering settlers and burning homesteads over wide areas. The German colonial troops in the disturbed districts are wholly insufficient to deal with the revolted natives. Chancellor von Buelow submitted to Emperor William yesterday the dispatches received on the subject by the government and the emperor sent for War Minister von Elern and Admiralty Secretary von Tirpitz. The decision of the conference was to ask the reichstag immediately to authorize the sending out of reinforcements.

Addressing the reichstag immediately after it had assembled today, the chancellor said it had become his duty to inform the house of the serious position of the German settlers in Southwest Africa through the revolt of the Hereros. They had killed a number of settlers who were fleeing to the stations, had destroyed houses and farm improvements and had driven off cattle of great number of farmers who are now unable to leave the protection of the station. The insurrection came at a time when the governor and a large number of the colonial troops were absent on the Hondsawt tribe, 29 days' march away. In consequence of this, and the remaining forces being scattered among the various places of the colony, the natives were seriously threatening Okavango, Otjomuise and Karabib, and even Windhoek itself. The government before the last dispatches had been received, had ordered 500 men, with six machine guns and six pieces of artillery, to be placed in readiness for service, but a storm made it not possible until Jan. 30. The serious intelligence now at hand made it necessary to send out immediately a battalion of 800 marines in addition to the other troops, with a complement of guns and railroad pioneers. These would embark Thursday on a North German Lloyd steamer and arrive at Swakopmund today. Moreover, 2,300 men previously dispatched would reach Swakopmund Feb. 2. The German people, continued the chancellor, would answer the call for help for the faithful servants of the state and the colonies. The chancellor alluded briefly to the financial requirements necessary and said these would be provided later.

The reichstag after warmly applauding the chancellor's statement, took up the regular business of the day.

Of this number between 2,000 and 3,000 are in Monastir vilayet. The Turkish government is affording some relief and funds are coming from America and England. ## TO MAKE ANTI-TOXIN.

Chicago May Establish One for Municipality.

Chicago, Jan. 18.—A municipal laboratory for the manufacture of anti-toxin under the supervision of public chemists may be the outcome of the campaign instituted by the Chicago Medical society against the high prices exacted by the manufacturers of the so-called "death serum."

At a conference of the officers of the organization the feasibility of the scheme was discussed in detail. The result is a decision to refer the matter for final action to a meeting on Wednesday with the recommendation that the plan be adopted as the permanent solution of the problem. If the approval of the society be obtained some anti-toxin will be asked to introduce an ordinance creating the laboratory and managing the necessary appropriation for its foundation and maintenance.

The arbitrary 100 per cent advance in price of one of the essential of the modern treatment of diphtheria is held by the physicians to show that provision for the constant supply of the article devolves upon the municipality as a measure for the preservation of the public health. The high price now placed on the serum by the "death serum" is declared, means that thousands of children may perish in the first diphtheria epidemic which appears in the city.

Secretary Walls of the Chicago Medical society, said today:

"The sentiment of physicians throughout the country is now arrayed against the men who have advanced the price of anti-toxin. The effect will be a natural discrimination against those firms in other articles which they sell to the profession."

## HOUSE TROUBLE SETTLED.

No More Difficulty Over Eviction of Strikers in Carbon County.

The house question had been settled amicably at Sunnyside and at Clear Creek; it is now being adjusted at Winter Quarters, and will be taken up at Castle Gate later. Mr. Williams did not see as there was anything to indicate trouble. He noticed that the strikers are gradually thinning out, as they make up their minds to try it somewhere else. He said that he was confident that the work is now progressing satisfactorily at all of the camps.

First Lieut. E. V. Smith of a troop is in town today, on leave of absence from the coal camps where he is on brigade detail, as acting lieutenant colonel. He says a lot of strikers are coming to stay in tents for the winter in expectation of being taken back by the fuel company in the spring.

## ESTABLISH STABLES HERE.

Important Announcement of Famous Illinois Horse Breeders.

An announcement of no little importance to the livestock interests of the west, and of especial interest to horsemen, is made by E. B. Fletcher and Coleman of the celebrated Woodlawn Horse Farm, Wayne, Ill.

This well known firm has decided to establish a branch stable here for breeding, selling and exhibition purposes, making Salt Lake the distributing center for all the western territory. The stable will be managed by E. B. Fletcher, who is in the city making his final preparations for the reception of a car of fine American and French coach horses.

Mr. Fletcher was sent here to investigate the conditions. His trip was the result of a large number of letters received from local territory, which demonstrated to him that the western horsemen were interested in fine-bred horses, and that many sales could be made here.

"I was more than delighted with my findings here," said Mr. Fletcher, who is at the Cullen, and immediately argued the opening of the branch stable. This is the very best place for it. It is central, your railroad facilities are great and within 100 miles of here, I know that I can dispose of 30 Percheron stallions, if this establishment is not a temporary one, you understand. We will raise there blooded horses right here and sell as we wish. One of the things I want to accomplish is to implant a desire in the horseman for first class stock. By working together, the standard can be raised wonderfully within two or three years."

## WONDER OF WONDERS.

Ministers Fail to Roast the Mormons Or Dip Into Politics.

The Salt Lake Ministerial association listened this morning to a paper by Rev. Emmanuel Rydberg of the Swedish Lutheran church on "The Pastor in His Study." The essayist held that the pastor's study should be his work room, a shop, rather than a library in the customary acceptance of the term; its furniture should be in harmony with the character of the place; it should not be a reception room; it should be a sanctuary with the windows opening toward Jerusalem.

It is stated that the senatorial situation into which the ministers have mixed with so much relish heretofore was absolutely ignored. It is even stated that there was not a word said in relation to politics or against the "Mormons" and that the whole of the meeting was devoted to the subject of the "Pastor and His Study." It would seem from careful inquiry that religion really had a place in the session and that for once stirring up strife was dropped. It may be a sign of the times, but no one was seen this afternoon who explain could the phenomenon. It is probably a significant calm before another storm.
