ENCOUNTER WITH RATTLER. While in the mountains ofter wood, Niels Thurston of Annabella, recently had a thrilling experience with a rattle-snake. The brush was full of grass-hoppers, flying against his legs, and for some time he did notice an unusu-al thumping below his knee. Finally he looked down and saw a big rattle-snake colled around his leg and strik-ing rapidly on the calf of his limb. He killed the reptile and then hurried down the mountain and tore open his trousers leg. He discovered two red marks, where the rattler's fangs had reached through his heavy clothing to the skin, but had falled to break the skin. By that small margin he was probably saved from death.
