President Makes Public Details Of One by Postoffice Inspectors And Secret Service Agents.

## WILL MAKE REPLY MONDAY.

Charges Are That Senator Used His Senatorial Influence to Further Interests of Himself and Family.

Washington, Jan. 8.-President Accessvelt tonight made public details of an investigation by postoffice inspectors and secret service agents of Senator Tillman's connection with an alleged "land grab" in Oregon. As he presents the evidence to Senator Hale. in response to the latter's request to the heads of the various executive departments for a statement of the operations of the secret service, the president undertakes to show:

Tiliman had ever done anything in vio-lation of his oath. Senator Tiliman did not permit the fact that President Roosevelt was giv-ing out the charges against him to alter his determination to make no statement until Monday. He said that be could not make his reply so com-plete as he would desire for tomor-row's papers, and that he would there-fore withhold whatever remarks he might have to make until Monday, when he would make a statement to the senate. No effort was made by him to converse that when he had becaud to conceal that when he had learned the facts concerning the railroad grant he had made an effort to obtain por-tains of the land in the names of himself and members of his family, but he declared that as at most he could have gotten possession of only a few hun-

A SYNDICATE CIRCULAR.

On the 19th of February, 1908 (see of the lath of Pebruary, 1995 (see exhibit A). Senator Tilinan called the attention of the senate to a circular of a syndicate firm for the sake of lande in Orogon, particularly in Coos and Douglas counties, which had been granted to corporations by the gov-ernment, the circular stating that the ernment, the circular stating that the company in possession of the lands was bound to well them for \$2.50 an acre-or upon their refusal would be prose-cuted by the government, and that "among those who have spoken for a part of this land is Scenator Tillman of South Carolina, the leader of the Democratic party in the schate, a man who usually gets what he goos after." "Sonator Tillman denied the state-ments of this circular and expressed a wish for an investigation, and upon his request the postoffice department, through its inspectors, made such an investigation. He stated in reference to this circular: "T have not bought any land any-where in the west, nor undertaken is

I simply want the people of the country to be put on no-tice that this swindler at Portland has no warrant whatever for endeavoring to inveigle others into his game." TILLMAN EXHIBITS.

"In this letter Mr. Lee explains that

he had written Senator Tillman full: he had writen senator iniman fully as to the status of the land matter, ad-vising him that it was 'a good gamble,' but that the senator was lecturing so that he did not get Lee's letter until a week and a half later. The letter iontinues:

"In case Senator Tillman goes in on this deal with some good land in the eight quarters we want. I am satisfied that he can be of great help in getting matters started from Washington and cause the government to get busy and do something along the line you desire. He will set up such a how! that it will be impossible to do otherwise. This will be very important for your whole scheme to have a man of his influence here to aid you at this end of the line. By all means save a lot of good land for us, as we intend to be of more value than any one of the others in this mat-ter."

THLMAN RESOLUTION.

"On the 31st of January, 1908, Senator sion appointed by Congress and largely composed of senators and representa-tives, which has found it absolutely Tillman introduced in the senate the

following resolution: "Whereas, At divers times, various rallroads and other corporations have

"The resolution being laid over, Senator Tillman Introduced the same day a further and joint resolution containing the same recitals, but concluding as fallows:

follows: "Resolved, etc., That the attorney-general be, and is hereby directed authorized and empowered to take such proceedings or institute such suit or suits on behalf of the United States as may be necessary, appropriate or ex-pedient, to insure a compliance with the above-mentioned conditions or to restore the said lands to the public domain, or to report to the Congress why such action as aforesaid has not why such action as aforesaid has not been or should not be taken.' PHOTO OF TILLMAN'S LETTER.

"On Feb. 15, Senator Tillman wrote to Messra. Reeder and Watkins. A photograph of his letter is attached as exhibit D5. In it I call your atten-tion to the fact that he speaks again of Mr. Lee as his agent and of the correspondence carried on through Mr. Lee. He states that what he has done in stirring up the question of the Or-egon land grants to railroads has been egon land grants to railroads has been done entirely apart from any person-al interest he has in the matter, and

adds: "'Although I would not have had my attention called to it but for the investigations as set on foot in conmeetion with the proposed purchase by me of some of the timber land in ques-tion. "" your making any case in the court at all, "" "This letter, in which Senator Till-main requested that eight of the besi quarter-sections be held in reserve for him, was written just four days be-fore he announced to the senate that he had not undertaken to buy any land in the west. It is unnecessary to com-ment upon his proposal, made in this letter, to use his influence as a sen-ator to force the government to in-stitute a sult which would make it easy for him personally to obtain some of the land. This letter, purely pertain-ing to Mr. Tillman's personal and pri-vate business, was sent in a franked envelope, of which I attach a photo-graphic copy marked exhibit D5. THLLMAN AND DOER.

necessary to employ detectives in or-der to achieve the best results. In my communication of the 4th (nst., to the lower house, I have set forth at length the reasons why, in my judgment, it is eminently desirable that, in addition to the special detectives or inspection service of each department, there should be in some one department, preferably the department of justice, a service which can be used at need in any department in order to achieve the any department in order to achieve the ends which I have described. I would like to state here that very frequently accusations have been made to me pri-vately by members of the two houses to the offect that the secret aervice had been used as a "police of morals" or to shadow senators, congressmen and other public officials. Hitherto the ef-fort to discover the basis for such alle-gations has always been fruitess. gations has always been fruitless. I should be greatly obliged if any infor-mation could be furnished me tending

mation could be furnished me tending to show any instance where this has been done in times past. "Certain of the special agents, inspec-tors and the like, in the several depart-ments have a highly specialized work to perform. In the treasury depart-ment, the secret service is especially trained to deal with counterfeiters and the special agents with customs frauds. In the postoffice department the corps of inspectors is especially trained and especially fitted to detect criminality or abuses or fraudulent use of mails in connection with the postal service. In or abuses or fraudulent use of mails in connection with the postal service. In the interior department the special usents of the land office and the in-spector of the Indian bureau are trained in similar fashion to meet present needs. In addition, it is urgently neo-essary, as set forth in Mr. Root's ac-companying report, that there shall be a central force of searct service men who can be detailed for work anywhere in the government service. "Of course, In the investigation of specific frauda we sometimes come across wholly unexpected cases of mis-conduct. The frauds in the postal de-partment which were unsarthed some

partment which were uncarthed some six years ago, for instance, offer a case in point. My suspicions were first case in point. My suspicions were first aroused by a report made as to the wery extravagant and debauched manner of life of a certain postial em-ploye, the report being made by an of-field of the secret service in con-metion with another trabsaction on which he was at work. So it was with the cases of the abuse of the franking privilege. Some of these instances represent real abuses, but in other cause they are due to carelesmess or ignorance, and very

abuses, but in other cases they are due to carelessness or ignorance, and very often, doubtless, are entriely unknown to the congressmen themselves and no good purpose would be served by any publicity in the matter.
