EVENING NEWS.

Thursday . Sept. 23, 1886

THE FAR EAST.

NEWS NOTES FROM CHINA, JAPAN AND COREA.

The steamer *Gaelic* arrived in San Francisco September 15th, bringing Hong Kong advices to August 24th, and Yokohama news to September 1st, as follows:

CHINA.

In relation to the recent riots the Shanghai *Courier* says: "We have received advices from Chung King, dated the 5th inst., which are to the effect that fighting was going on between rioters and native Roman Catholic Christians, and 'several hundred' are represented to be killed. The Roman Catholic Fathers have escaped to the hills. Mr. Bourne, H. B. M.'s Consular Agent, and Mr. and Mrs. Nichols are still detained at the Yamen, and are not allowed to go. It is feared that if they did they would be maltreated and perhaps killed. The populace are enraged, trade is bad, rice very dear, and the officials are at their wit's end to know what to do."

A great sensation has been caused at Canton, by the issue of a circular by order of the Viceroy and Governor in which a compulsory loan is announced to be subscribed to by all persons of means, according to their ability. Though it is a forced loan nominally, the people, warned by past experience of the ways of their officials, regard it as a squeeze, and hence the announcement has been received with anger and dismay by the more opulent classes, many of whom declare their intention of resisting it to the utmost of their ability. Resistance, however, will probably be useless; they will have to bleed to the tune it pleases the Viceroy, and attempts to evade contribution will be likely to involve the recalcitrant in serious trouble. The amount needed is said to be upwards of $8,000,000.

A fight took place the other day between the soldiers sent to arrest them and a robber band at Chen Hing, in the Hoi Ping district. It seems that a body of 500 troops was dispatched to capture these banditti, who have for some time been giving trouble, and the military anticipated an easy victory. They met, however, a very warm reception. Several soldiers were killed, and more than twenty were placed *hors de combat* with wounds, while the robbers still showed an unbroke front. The troops had to retire discomfited, and another body of 500 men has been dispatched from Canton as a reinforcement. The banditti only number about 200, but they make up in pluck and determination what they lack in numbers, and will doubtless give their thousand adversaries a good deal more trouble yet before they are finally dispersed or captured.

The *Shen-pao* has advices from Hankow which state that the Mandarins at Chungking were willing to settle the losses incurred by the missionaries in the late riots, and the missionaries had accepted the offer, but the authorities insisted on compensation being given for the death of a military cadet who was killed during the outbreak. On the 1st of August some converts living in Chiang-pei (a sub-profecture subordinate to Chungking) suddenly assembled in force, seized their arms and sought a quarrel with the common people. Some 300 men were killed and houses of over 400 families were destroyed or burned. The people thereupon became enraged against the authorities and burned the sub-prefect's yamen to the ground. The jail was destroyed and the prisoners set at liberty. Up to the present the authorities do not know where to lay hands on the escaped prisoners, as no trace of the official records remain.

The *North China Daily News* gives the following account of the wreck of the *Madras*: "The *Taku*, which arrived in Shanghai on the afternoon of the 17th of August, brought news of the loss of the British steamer *Madras*, Captain Pleuge, 1,090 tons, owned by Chapman & Ness of London. This is the steamer which brought out the eight 40-ton Armstrong guns for the Chinese Government in December last. Ever since then she has been running on the coast. She left Nagasaki on Tuesday, the 10th of August, with a cargo of coal for Hong Kong. On Thursday night she encountered a typhoon, and for two days no observation could be taken. During this time she appears to have experienced the full force of the typhoon, and on Friday her decks were clean swept and her boats all carried away, while there were two feet of water in the forehold and the coals got into the bilges, making it difficult to clear the water out of her. On this plight the captain, on Sunday morning, saw land, which proved to be the Taichow Islands. He then steered in, in order to anchor, but the vessel at 8 p. m., struck on a reef. The *Chintung* came along an hour after the accident, anchored, and remained all night. She sent her boats in the afternoon and with the assistance of some fishermen, took on board the captain, the chief officer, engineers and sailors and proceeded next morning at about 6 o'clock on her voyage. The second mate, Mr. Atkinson, and ten Chinese fishermen, were taken off the wreck by the fishermen, but the latter refused to put them on board the *Chintung*—for what reason is not quite clear. The *Madras* sank soon after the crew were taken off, with her upper deck about twelve feet under water. A swarm of junks immediately came down and began looting the vessel of whatever they could get hold of.

JAPAN.

The standing army of Japan numbers 34,000 rank and file, and the medical staff consists of one surgeon to every hundred men.

A recent ascent of Fujiyama has disclosed the fact that fiery vapors are now being emitted from fissures in the summit of the mountain in much greater volume than was the case formerly.

It is reported that a mutiny has broken out on board a Chinese man-of-war near Vladivostock and that her officers were attacked by the mutineers. The departure of the two Chinese vessels of war from Nagasaki is said to be in connection with the matter.

On the 7th of August Kim Yo-Kun, the Corean refugee who has been making himself such a nuisance to the Japanese government, was shipped away from Yokohama to the Bonin Islands in the sailing vessel *Hidesato Maru*. Kim had previously had the offer to go to the United States, the money for his expenses having been subscribed by his friends, but he preferred to stay and make himself objectionable. His sphere of action and capacity for being a nuisance will be much contracted in the Bonins.

The *Takeda Shimbun* of August 7th says that a resident of Yanaiho-Shinden, Kitagamawara-gori, Echigo, had an artesian well dug on his premises about five years ago. It yielded beautifully pure water, but in such abnormal abundance that it became a positive source of danger, and was therefore closed up. Nothing more was thought of the matter until the 2nd ult., when at about 2 o'clock in the morning the inmates of the house heard a fearful noise underground, accompanied by a trembling of the premises. They imagined it to be an earthquake, but soon found their mistake as a column of water burst up with a mighty roar out of the disused well. The kitchen was immediately flooded, then the floor of the dwelling place, and the terrified inmates barely succeeded in escaping with their lives.

Great excitement still prevails over the recent riot between the police and a large party of Chinese sailors from men-of-war in the harbor. According to the latest accounts, the casualties on that occasion were as follows: Loss on the Chinese side, four killed, six severely wounded and nine slightly hurt; loss on the Japanese side, one policeman killed, one severely wounded and eighteen hurt. A later telegram, however, says that in addition to the above, 15 or 16 Chinese are lying wounded at the Chinese consulate, and that there were several casualties among civilians. Of those wounded, one Chinaman and one constable subsequently died in the hospital. Negotiations with regard to the occurrence are proceeding satisfactorily with the Chinese authorities, and it will doubtless be settled in a satisfactory manner.

The ravages o the cholera still continue, there being an average of 1,500 new cases daily, with 62 per cent of them proving fatal. An officer belonging to the Hiroshima garrison died recently with cholera, and in accordance with his express wishes the body was dissected. Examination of the bowels showed that they were swarming with microbes, and these the doctors considered the cause of the malady. An experiment was then made to ascertain what effect carbolic acid has upon microbes, for this acid is usually considered in that direction. One part acid in thirty parts water produced no result, and when the strength was increased to one in twenty the mixture proved equally ineffectual. Then one of the doctors present suggested trying vinegar made from plums, and this killed the microbes at once. Since then plum vinegar has been extensively employed in cholera cases at Hiroshima, and with the most beneficial results.

According to the Tokio *Independent* the result of the present treaty revision is in its main points as follows: Mixed residences will be permitted throughout Japan within a certain date after the ratification of the treaties. Foreigners may freely travel and reside in the interior, subject to Japanese jurisdiction. But the law of the country will be administered by courts composed of Japanese and foreign judges; the foreigners to be employed by the Government and to administer Japanese law only. On the other hand, for a few years after ratification, extra territorality will prevail within the present treaty lines. Beyond these only Japanese law will be administered. Within a stated period after ratification the Japanese government will in all probability prepare and promulgate civil and commercial codes, etc., which will therefore be in force and practically tried several months before the establishment of mixed residence and the opening of the country. The tariff on imports will average between 10 and 20 per cent., instead of 5 per cent., as at present.

COREA.

Russia is reported to be fairly in earnest in demanding from the Government of Soul a grant of land on the coast of Kankyodo for the purpose of a naval depot.

Letters received at Nagasaki from Soul state that in consequence of a rumor that the King is seeking Russian protection, the Chinese Minister has demanded ships and troops to be sent, and has seized the telegraphs for his own use. Ming-yon-ik has been taken to Tientsin. Nine Chinese men-of-war are at Chemulpo, and great excitement exists.

During the entire month of July the mortality from cholera was very great, though a large decrease in the number of deaths is now reported. From July 15th to the 25th, 3,140 dead bodies were carried out of the gates of Soul. During several days subsequent to the latter date the death rate reached almost 400. This within the walls only. The suburban population is about as large as that of the capital, so that in and around Soul the highest daily death rate must have been upward of 800.

On the 15th of August En Seigal received a dispatch from the Chinese Government announcing that as Corea had entered into a secret treaty with Russia, they would send a large army to the former country. This news caused a great sensation among the Government officials and people, and there were indications of a riot among the latter. Several of the officials who had made the secret treaty were thereupon arrested. In consequence of this being done the excitement was kept down. Eight Chinese men-of-war have arrived at Nissin up to the 25th of August, and Chinese marines disguised as tradesmen have entered the capital in parties of between forty and fifty. A body of marines from an American man-of-war has also proceeded to the capital to protect the United States Minister.

A Corea official gives the following in reference to the number of persons killed in the outrages of 1882 and 1884: Among the Ryohan class, inclusive of women, about 700 perished, of whom 28 and 18 were killed by the outrages in 1882 and 1884 respectively, 300 were poisoned in 1882, and 50 in 1884 by the authorities, and 200 in 1882 and 10 in 1884 were beheaded. Besides these, 20 were starved to death in the prisons during the two years mentioned. Among the soldiers, about 2,500 died, exclusive of women. One hundred and fifty were killed during action in both years, 50 were poisoned by the Government, 2,880 were beheaded in 1882, and 250 were beheaded in 1884, in addition to 200 who perished in prison during the two years. Among the families of soldiers 1,400 perished, of whom 800 were wantonly slaughtered by Chinese soldiers, who were dispatched soon after the outbreak of the disturbance of 1882, and not a few women were among the unfortunates who died in consequence of outrages committed on them by Chinamen; 300 and 200 were hanged respectively in 1882 and 1884 and over 100 perished in prison in the two years. Among the common people (including women) 400 died, of whom twenty and 150 were killed accidentally in 1882 and 1884, and 250 were executed by the government for having taken part in the disturbance of both years. Among male and female slaves 300 died, of whom fifty were accidentally killed or perished in prison and 150 were executed. This gives a total of 6,300. Those who are posted, however, think that this is much underrated.

The value of sound health is seldom known until lost. Avoid risks. Red Star Cough Cure.

THE DESERET NEWS CO.

A CARD.

THE DESERET HOSPITAL, UNDER the most favorable auspices, is now open for the reception of patients, having removed to that large and commodious building lately occupied by the Deseret University. The appointments are new and of the first order. The halls and rooms are thoroughly ventilated, and warmed by a furnace and steam heating apparatus extending through the whole building. Good and capable nurses are supplied, and every attention paid to the comfort and welfare of its inmates. The medical department comprises a fine stock of drugs, and a line of some of the most valuable and elegant surgical instruments and appliances ever imported into the Territory. Arrangements have been made to secure the first medical talent the city affords for the benefit of patients. A specialty is made of the diseases of women, and correspondence is solicited from the afflicted.

H. B. CLAWSON, President.
W. W. ANDERSON, Medical Supt.
M. P. HUGHES, House Surgeon.
E. B. WELLS, Secretary.

A limited number of students will be taken, who will board in the Institution, receive instruction preparatory for future studies, and will be expected in return to devote a certain portion of their time and labor to attendance on the sick and other requirements connected with the Hospital. Correspondence on this subject is solicited from Bishops and other authorities in the settlements. d&w

SUMMONS.

In the Probate Court, in and for Salt Lake County, Utah Territory.

Mary E. Brabham, Plaintiff,
vs.
Lewis Brabham, Defendant.

The People of the Territory of Utah send Greeting:

To Lewis Brabham, Defendan .

YOU ARE HEREBY REQUIRED TO appear in an action brought against you by the above named plaintiff, in the Probate court, of the county of Salt Lake, Territory of Utah, and to answer the complaint filed therein within ten days (exclusive of the day of service) after the service on you of summons—if served within this county; or, if served out of this county, but in this district, within twenty days; otherwise within forty days.

The said action is brought to obtain a decree from this court dissolving the marriage contract existing between said plaintiff and you, on the ground that defendant has wilfully neglected and refused to furnish plaintiff with the common necessaries of life.

And you are hereby notified hat if you fail to appear and answer the said complaint as above required, the said plaintiff will apply to this court for the relief prayed for and cost of suit.

Witness, the Hon. Elias A. Smith, Judge, and the Seal of the Probate Court, of Salt Lake County, Territory of Utah, this 7th day of September, in the year of our Lord one thousand eight hundred and eighty-six.

[SEAL.] JOHN C. CUTLER, Clerk.

A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC R'Y

By reason of its central position, close relation to principal lines East of Chicago and continuous lines at terminal points West, Northwest and Southwest—is the only true middle-link in that transcontinental system which invites and facilitates travel and traffic in either direction between the Atlantic and Pacific.

The Rock Island main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, St. Joseph, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns and villages.

THE GREAT ROCK ISLAND ROUTE

Guarantees Speed, Comfort and Safety to those who travel over it. Its roadbed is thoroughly ballasted. Its track is of heavy steel. Its bridges are solid structures of stone and iron. Its rolling stock is perfect as human skill can make it. It has all the safety appliances that mechanical genius has invented, and experience proved valuable. Its practical operation is conservative and methodical—its discipline strict and exacting. The luxury of its passenger accommodations is unequaled in the West—unsurpassed in the world.

ALL EXPRESS TRAINS between Chicago and the Missouri River consist of comfortable DAY COACHES, magnificent PULLMAN PALACE PARLOR and SLEEPING CARS, elegant DINING CARS providing excellent meals, and between Chicago, St. Joseph, Atchison and Kansas City—restful RECLINING CHAIR CARS.

THE FAMOUS ALBERT LEA ROUTE

Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this route solid Fast Express Trains run daily to the summer resorts, picturesque localities and hunting and fishing grounds of Iowa and Minnesota. The rich wheat fields and grazing lands of interior Dakota are reached via Watertown. A short desirable route, via Seneca and Kankakee, offers superior inducements to travelers between Cincinnati, Indianapolis, Lafayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.

All classes of patrons, especially families, ladies and children, receive from officials and employes of Rock Island trains protection, respectful courtesy and kindly attention.

For Tickets, Maps, Folders—obtainable at all principal Ticket Offices in the United States and Canada—or any desired information, address,
