

## MAKE WARLIKE PREPARATIONS

Colorado Legislature Filled With Rumors of War.

### HOUSE CHAMBER GUARDED.

Thirty Men Armed With Shotguns, in Chamber, Instructed to Protect It at All Hazards.

Denver, Jan. 21.—There are rumors of war and plenty of warlike preparations at the state house tonight. Early in the evening the story gained currency that a body of armed men were hidden somewhere in the state house with the purpose of seizing the chamber of the house of representatives some time during the night and holding it in the interest of one of the senatorial candidates.

The house chamber has heretofore been guarded by three or four men and early this morning ladders were said to have been found in one of the side corridors, reaching to a window communicating with the house gallery. It is said that half a dozen unknown men were in the vicinity of the ladders, when they were discovered. This incident gave color to the rumor of an intended armed attack upon the chamber tonight.

To guard against such a contingency, Sergeant-at-Arms Plummer placed thirty armed men under charge of Assistant Sergeant-at-Arms Sherman, who was a member of Roosevelt's campaign, in the chamber with instructions to protect it at all hazards. Shotguns and large caliber revolvers are very much in evidence and it is not thought likely that a capture will be attempted even if it were planned.

The Democratic members of the senate are still in session, although most of them went to sleep upon coming in the evening. They are protected by perhaps a score of policemen and deputy sheriffs.

A joint session of the two branches of the general assembly for the election of United States senator, was held today but only Democratic members participated and there was no election. After adjourning in adjournment of the house with 2 o'clock Friday, the Democratic representatives proceeded to the senate chamber where the joint session was called to order by Senator Adams, president pro tem of the senate.

There were present 26 senators and 25 representatives, a total of 51, which is the number required to elect a senator. Three Republican senators were in the chamber during the session but withdrew before ballot was taken. Senator Theodore McQuinn, a Democrat, also retired after the joint session had refused to excuse him from voting, leaving only 50 members present.

Several members objected to the proceedings on the ground that the joint session was irregular and five Democrats besides McQuinn refused to vote for senator. On the joint ballot 45 votes were cast, all being for Henry M. Teller. The joint session then adjourned until tomorrow.

The Republican leaders claim that any action the joint session may take is illegal and invalid as the house had adjourned. They agreed to adjournment of the house until Friday in

## REVOLUTIONISTS HAD TO RETREAT

Venezuelans Who Attacked Coro Were Repulsed.

### LEFT DEAD ON THE FIELD.

Many Made Prisoners and a Large Amount of Arms and Baggage in Hands of Government Forces.

Caracas, Jan. 21.—The revolutionary force under Gen. Riera, which attacked Coro Monday, was obliged to retreat leaving 30 men killed and 115 wounded behind, as well as many prisoners and a considerable amount of arms and baggage in the hands of the government forces.

At 1 o'clock Monday morning the revolutionists under Riera unexpectedly assumed the offensive. The government supposed Gen. Riera was at Sabana, but instead he appeared outside Coro with 1,000 men, his entire command, and attacked the town from two different directions at the same time. One rebel column succeeded in pushing nearly to the center of the town.

At the first fire the government soldiers were thrown into confusion, but as soon as they recovered from the surprise they stood up against the rebel forces. The government troops were commanded by Gens. Hermosillo and Telechea.

After an engagement which lasted for 10 hours, the fighting going on in the streets and from the houses of Coro, the revolutionists were obliged to retreat.

Gen. Riera, who showed great personal bravery during the fight, is reported to have been wounded in the leg. He is now fleeing in the direction of Paraguanay and will probably embark for Caracas.

The government lost 10 men killed. The houses in Coro are riddled with bullets.

The victory of the government at Coro is held up here as proof that the revolution is far from being a success as is represented at Willensdram, where the revolutionary headquarters are. Gen. Valente, who has arrived at Macuto, near La Guayra, from Barcelona, after having eluded the vessels of the blockading powers, reports that the government has 3,000 men with which to oppose the revolutionists in the Barcelona district.

It is known here that two schooners succeeded Jan. 16 in landing arms and ammunition for the use of the revolutionists under Gen. Riera, at a point on the coast near Coro. The fact that these schooners were overhauled by an Italian schooner, which they had the munitions of war on board and that they succeeded in passing the blockade when loaded with arms and ammunition for the revolutionists, is quoted in Caracas as proof of the truth of the frequent statements to the effect that he blockading powers are interested in aiding the revolution.

### RAILWAYS IN BOLIVIA.

First One Built by State Nearing Completion.

La Paz, Bolivia, Dec. 24. (Correspondence of the Associated Press)—The first state railroad to be built in Bolivia is nearing its completion. Starting from the port of Guayaquil on Lake Titicaca, said to be the highest navigable body of water in the world, the route is an easterly direction towards this city, a distance of 57 miles. Actually only six miles of the track remain to be laid and it is expected that by Dec. 31 three more miles will be finished, to the edge of the plateau or tableland over which the line throughout its entire length up to that point has run beneath which, in a valley, this city lies. This spot is usually called the Alto, and will be used as a terminal station for the present. It has not been decided how to build the remaining three miles in which a descent of nearly 2,000 feet has to be overcome. The state engineers, who are studying the several plans for this section, are considering the adoption of an inclined plane with haulage by steel ropes, a cog-wheel track, or a detour of about 10 miles in order to reduce the grade about 4 per cent—probably a combination of the last two methods in a modified form will be finally adopted, more that will be known, hence, as for the present the executive is not likely to be able to provide funds for a costly undertaking.

During the last half year or so the government has been helped by its work by funds lent by the Peruvian corporation, the English company that owns the railroad systems in Peru, one of which is the line from the port of Mollendo on the Pacific to Puno, on the Peruvian shore of Lake Titicaca. The steamers that ply between Puno and Guayaquil belong to the same concern. The railroad is thus more than a debt and the corporation which will undertake its administration until such time as the debt and the interest at the rate of 6 per cent per annum are paid off. The government will relieve the debt as soon as possible with the sources of revenue set apart by congress two years ago for the purpose of building the railroad and which may not be diverted from this object until the road is finished.

There has been no change in the situation with regard to the Acre revolution within the past week.

### California Orange Crop.

Los Angeles, Cal., Jan. 22.—Railroad officials say that there will be between 22,000 and 23,000 carloads of oranges shipped from southern California this year, and that the fruit is the best ever grown here. It promises to be the banner year, as the most perfect fruit which ever left the state is going out now, and the highest price ever offered for oranges is being paid in the east. Unless some unforeseen disaster comes, it is safe to calculate that at least \$15,000,000 will be put into circulation in southern California.

### GAMBLING IN CHICAGO.

It is Carried on in a Very Extensive Scale.

Chicago, Jan. 22.—That gambling on an extensive scale is being carried on in Chicago is admitted by James O'Leary, who was a witness in Judge McQuinn's case. The case on trial was that of Pedro Martinez, a Cuban planter, who was indicted, it was alleged, to bet \$500 on a horse with one of O'Leary's agents. The horse bet on was O'Leary's. O'Leary was asked by the Cuban's attorney: "Is it not a fact that anyone can go into any hotel in the downtown district and make a bet with any of your agents?" "The witness replied, 'He can.'" "These bets are sent by your agent to your office and are recorded by you, are they not?" "They are," O'Leary answered. "There are agents all over the city. One man is responsible for the hotels, an-

other for certain clubs. The whole city is covered in this way. These agents in all parts of the city are taking bets with the one general agent receiving his reports and holding him accountable."

Frank Hogan and John Jerguson, the defendants, were discharged because it could not be shown by the prosecution that either of them was an agent for O'Leary.

Several hand bookmakers have been arrested by detectives under orders of Chief O'Neill.

It is estimated that there are more than 1,000 saloons in the city where bets are taken on the races. The police know of the places, but it is said betting is done so quietly that it is almost impossible to get evidence against the men who operate the bookshops.

### Coal Operators Terribly Upset.

New York, Jan. 22.—The springlike weather has caused consternation in the ranks of the independent operators, and if they have any a ton coal there are no buyers. Some independent coal was bought yesterday at \$9 and \$9.50 a ton, but the general price was \$9, and there was little demand at that price.

### DR. ELIOT STICKS TO IT.

He Still Insists that the "Scab" Is Here.

Buffalo, N. Y., Jan. 22.—President Eliot of Harvard university addressed 1,500 high school pupils yesterday, and in the course of his remarks said: "In 1896 I took occasion to say in a public speech that a 'scab' is a hero, and I still see nothing wrong in that remark. I have been a believer in labor unions, but my remark angered one man high in the councils of unionism, and he wrote a letter condemning me as 'an ignorant scab winder' with what he called a curse. It was a work, long hours and a hungering stomach while you live. I believe that long hours and hard work are best for every man. Work is the foundation of civilization and work makes nations as it does individuals. No man can work too hard or hours too long if his heart will permit."

### Driveway Under Chicago River.

Chicago, Jan. 22.—A broad, well-lighted, underground driveway, passing beneath the bed of the Chicago river, and stretching from the art institute to Illinois and St. Clair is formally announced to be the plan finally agreed upon by the park boards of the North and South sides to make the long-talked-of connection between the boulevard systems of these two portions of the city. A bill authorizing a \$2,000,000 bond issue containing a referendum clause will be prepared by committees from the two park boards, and will be submitted to the legislature. Plans for the tunnel have been drawn.

### Chicago's Teachers' Salaries Raised.

Chicago, Jan. 22.—A salary increase amounting to an aggregate of nearly \$200,000 a year was granted to the teaching force of the Chicago public schools by the board of education last night. Of this sum \$200,000 will be received in advance by the grade and primary school teachers. The salary of every teacher of these two classes in the system was raised \$20 a year. The salary of every head assistant is raised \$50 in addition to the regular schedule advances. Furthermore, every teacher who passes the promotional tests given by the board will be entitled to an additional increase of \$50 a year.

The salaries of all principals, high school teachers, and all department and district superintendents as well as of all janitors in the service were returned to the old salary schedule which was in effect before the 60 per cent reduction of last year.

Supt. Edwin G. Cooley's salary was raised from \$7,000 to \$10,000.

### Can't Stay Out After 8 o'clock.

Pulmon, N. Y., Jan. 22.—Pulmon's new curfew ordinance will go into effect tonight for the first time. Three taps will be sounded by the fire alarm at 8 o'clock, and the law is that children under the age of 16 will not be allowed on the streets without proper guardianship.

### British Colonists for New Brunswick.

New York, Jan. 22.—A party of British colonists consisting of 2,000 persons will sail from Liverpool on March 21 for St. John, N. B., according to the London correspondent of the Tribune. The Rev. J. M. Starr has been authorized by the Dominion government to take out these emigrants, and foreigners will not be permitted to settle on the territory reserved for them at St. John.

### A REMARKABLE DISCOVERY.

Cleveland, O., Jan. 21.—What is probably the most remarkable discovery made in years in medical research is announced by Dr. George W. Crile, a well known surgeon, as the result of his experiments in vivisection. Not only was Dr. Crile enabled to maintain life for ten and a half hours in a dog whose head had been cut off, but

last he again appeared on the border line below Malone, expecting to be taken to jail at Rouses Point, as that the trial would come before another commissioner. His arrest was made by Marshal Smith of Ogdensburg, who brought him here, where full identification was made. The prisoner had learned English in jail, and recognized the officers. Lue Hing, a New York merchant, swore that he was the prisoner's father, that the boy was shot here at the time of the first arrest, and that the prisoner had no Boston uncle. Lue Hing was ordered arrested for perjury and committed to the grand jury, and Kue Yen was ordered deported.

### President Refuses to Pardon Neal.

San Francisco, Jan. 22.—The appeal for pardon from ex-captain of the United States army, John M. Neal, serving a two years' sentence at San Quentin for forgery has been refused by President Roosevelt. Notice of the executive's action has been received by Neal's attorneys.

### Yellow Fever at Vera Cruz.

Vera Cruz, Mex., Jan. 22.—Yellow fever has made its annual appearance here. Five deaths, including two Germans, have been reported and there are a number of cases under treatment.

### No Plague at Port Stillwell.

Kansas City, Jan. 22.—The officials of the Kansas City, Mexico and Orient railway announce that a telegram has been received from John L. Case the company's manager at Port Stillwell, stating that there is no plague at that point, as has been reported. The bubonic disease has not reached any of the territory about the Gulf port at the present, the nearest place being 200 miles south at Mazatlan.

### Northwestern University Sued.

Chicago, Jan. 22.—Smith Parks, a former student at the dental school of Northwestern university, has brought suit against the university for \$50,000 damages for the loss of an eye. Parks recites in his bill that in 1901 he was a student at the university, and that while he was making an experiment with hydrogen gas the tube connected with a burner exploded. The flying glass lodged in his eyes and caused him to lose the sight.

### New Central Trust Savings Co.

Philadelphia, Jan. 22.—At a meeting of those interested in the organization of the New Central Trust and Savings company, it was decided to apply at once for a charter. It is stated that subscriptions to the stock to the amount of more than \$100,000 have already been pledged. The company will start with a capital of \$500,000, and \$100,000 surplus. It is expected to begin business soon after the charter is granted.

### Fire in Broadbent Block, Boise.

Boise, Ida., Jan. 21.—Fire broke out in the second story of the Broadbent block on main street between Seventh and Eighth at 12:30 this morning. It was very stubborn and it was more than an hour before it could be located. The fire seems to be under control at 2:15 p. m. The Grigsby-Allyn furniture occupying the lower floor will lose \$5,000 by water, while the tenants on the upper floor will lose \$3,000. The fire insurance and the building are fully insured.

### Mascagni's Plans for Future.

Chicago, Jan. 22.—"When I am through with America I shall return to Italy to resume my position as director of the Rassei lium," asserted Pietro Mascagni last night. "It is a life position and I cannot be deposed. I shall leave Chicago in a few days. The future plans of the company are pending against me are settled."

### A STRANGE PETITION.

Boston, Jan. 22.—One of the most unique petitions ever laid before the Massachusetts legislature has been introduced in the house by Daniel Leonard, a manufacturer of the county of Hampshire. He claims he has lost through a bunco game to Frank Smith, Leonard claims that after Smith obtained the money from him on April 17, 1900, he reported the facts to the authorities, and Smith was finally arrested, indicted and jailed for \$5,000. Smith jumped his bail, and the money was paid into the Hampshire county treasury. A part of the sum, Leonard believes, should be paid back to him for his efforts in making the arrest of Smith.

### Wouldn't Confirm Stewart.

Helena, Mont., Jan. 21.—The senate today, in executive session, refused to confirm the nomination of W. B. Stewart, who was appointed judge of the Fifth judicial district by Gov. J. K. Toole, to succeed Judge W. L. Holloway, who was elected to the supreme bench of the state. It is alleged that Stewart was identified with Helms in the late campaign and upon this the senate based its action.

### A Much Married Minister.

Port Gibson, Miss., Jan. 21.—The jury in the case of Rev. Marion Lane, also known as Dean Skyles, charged with bigamy, returned a verdict of guilty today. He was one of the most learned of the state and eloquent orators in the state. It was brought out at the trial that Skyles had been married seven times. Evidence showing mar-

riages in Carville, Tex.; Russellville, Ark.; and Woodville, was presented to the jury.

### Naval Tug Leyden Wrecked.

Washington, Jan. 21.—The navy department this afternoon received the following dispatch from Observer Day of the weather bureau: "The United States naval tug Leyden, from Porto Rico to Newport, Weymouth, commanding, with 33 men, went ashore on a rock off Block Island at 12:30 p. m. today. High water 20 feet from the tug. Nine men came ashore in boats, drove to pieces, the men landing safely; others, 24 officers and men, being taken off with breeches buoy. Probable cause of wreck, tug absolutely total loss."

The Leyden was of the class of naval tug, schooner type, 450 tons displacement. She was built in Boston in 1866 of iron, at a cost of about \$100,000. She was 137 feet long, 25 feet beam.
