NEWS OF THE DAY. THE latest news from Africa confirms the truth of the battle reported between the British and the Ashantees. It was fought at Accromba, on the 31st uit., and lasted nine hours, the British evidently getting the worst of it. The Africans had completely surrounded them and it was expected they would renew the attack.

The vomito has made its appear ance in Cuba.

The notorious old fillbuster, Santa Anna, has left Cuba, for Mexico.

Mrs. Cady Stanton is opposed to praying bands of women; she thinks woman's influence should be exerted in another direction. Agitating for the franchise would probably suit her notions better. A Missouri State senator, named Guecke, seems to be as much exercised over the praying women and the temperance movement as Mrs. Stanton. for he introduced a bill into the Senate yesterday, to make praying, singing, preaching or swearing, on or contiguous to any premises, without the consent of the owner, a misdemeanor punishable by a

Schisms, the curse of all efforts made to ameliorate the evils with which society is afflicted, seems to have commenced among the Grange organizations. At its late session in St. Louis, the National Grange disfellowshipped the Boston Grange; to-day's dispatches say that the latter organization met last night and declared itself independent of the national order, adopted a declaration of principles, and invites other organizations to unite with it as independent grang-

The latest official reports received by the British Government, published in extras by the London papers, at noon to-day, say that after five days' hard fighting the British forces had reached Coomassie, the capital of Ashantee land. Their casualties were three hundred. The king had promised to sign a treaty of peace, and the British commander and his men expected to start for the coast in a day or two.

THE LEGISLATURE.

DISPATCHES from this city report abroad that the Legislature, at its late session, did very little business. The session was but a brief one, only giving about a month of working days, say 35. In that time the Assembly considered 108 bills, more than an average of three daily, besides memorials, petitions, joint resolutions, etc. Of these 108 bills, if our information is correct, 47 were passed, and of these 47 sixteen were approved, the remainder being expressly vetoed or not approved by

Under these circumstances, that is, the almost hopelessness of passed bills receiving governatorial appreval, without the members of the Logislature stultifying them. the Legislature stultifying themselves or ignoring their convictions of right and duty in passing them we must conclude that the Legis-lature is to be commended for its industry, diligence, and perseverance in preparing, considering, and passing so many bills as were originated and did undervo such action. and consequently that the members deserve the continued respect and esteem of their constituents.

THE TERRITORIAL FINANCES. In our statement and estimate of the fluances of the Territory on Tuesday, an error occurred through misunderstanding with a clerk in adding up the Territorial Approprition Bill, resulting in the Defiency Bill being deducted twice instead of once from the gross amount appropriated. The error, however, was more than counterbalanced by the uncollected taxes due, which we did not take into account at all. Since Tuesday we have taken pains to secure more the public service. Tabled, definite figures, as accurate and 20. An act in relation to cerning the Territorial revenue, and 21. An act to incorporate the city we therefore herewith present a of Salem. The figures for the estimated Prevenue for the years 1874 and 1875 are still lower than those we gave on Tuesday, and it is believed that the allowance for the estimated increase of revenue in 'the two years over the figures of 1873 is much less than will be realized.
