

## SABBATH DAY IN STRICKEN CITY IS OF CONFLICT OF AUTHORITY.

Rude Altars in the Open Air Were  
The Chief Signs of  
It.

500 DEAD BODIES RECOVERED.

Health of People Generally Very  
Good: Civil and Military Auth-  
orities in Harmony.

San Francisco, Cal., April 22.—Had it not been for the sight of the rude altars set up in the open air wherever San Francisco's homeless thousands were camped, one would have had some difficulty in finding any of the peaceful associations of the Sabbath in this city today. Everywhere throughout the burned as well as the remaining section of the city there was the greatest activity.

### CLEARING THE STREETS.

Streets were being cleared of debris, laborers were repairing broken water pipes, sewers and gas mains; electricians were everywhere, seeking to untangle the almost hopeless confusion of wires—in fact San Francisco was in the first stages of its regeneration.

There are no hungry people here tonight, the gaunt specters of starvation have been banished by the magnificent response of the people of California in particular, and by the entire nation in general to the appeals that went out for assistance. About two thousand and bottled foodstuffs in sufficient quantities to overwhelm the committee which has to change its distribution.

### FOOD ABUNDANT.

So great was the volume of foodstuffs brought into the general depot at Oakland today that the general committee today made an appeal for skilled labor in the handling of these supplies. Grocers, butchers and commission men have been requested to secure men who are familiar in the handling of foodstuffs in order that the confusion attendant upon the distribution of such large quantities of foodstuffs might go on without confusion.

The homeless people are no longer obliged to subsist upon bread and canned stuff entirely, as they had been during the previous days of their trying experiences, but were today given hot coffee, canned meats and even cakes and oranges. Oranges have come in plentiful supply from southern California and the sight of California's famous product was everywhere hailed with words of delight.

It must not be understood by the charitable people of the country that there is a surfeit of food for the sufferers. While the supply is abundant at this writing, it is well for the public to remember that homeless thousands must be fed and cared for by an organized relief committee for an indefinite period. It is desired, therefore, that contributions be continued everywhere until the country has been rendered helpless and destitute by the city's misfortune can care for themselves.

### WATER IS PLENTIFUL.

The water situation, while causing inconvenience to the people, is no longer such a problem. About two-thirds of the remaining section of the city is being supplied with sufficient water for the pressing domestic needs, but of course, there is not yet enough to be had for fire-fighting purposes. Because of this fact, the most stringent orders have been issued by the military and civil police that no fires shall be built with a house and no lights, not even a candlelight, can be shown at night in the houses. All cooking for the present must be done on the sidewalks or in the open streets and in the night.

One of the noteworthy features of the situation is the remarkable promptness with which the work of systematic caring for the homeless has been thoroughly organized and put into operation. The fear that existed two days ago that the immense task of caring for the destitute and helpless people could not be met was now shown to be a mere scare, and that a possible epidemic, exists no longer.

### AUTHORITIES IN HARMONY.

The administration of the city's affairs is progressing most harmoniously. Mayor Schmitz and Gen. Funston are working in perfect accord. There was some slight confusion yesterday, owing to the misunderstanding of the orders by some members of the national guard, but this has been minimized. The system put into force by the mayor and Gen. Funston today is working in order of confusion and the city is as orderly as before the fire. Permits having been issued by so many heads of departments, as has been the case during the past few days, there has been necessarily more or less confusion of authority. It is to be observed, however, that there have been no complaints made anywhere that the actions either of the federal troops or the municipal police.

### CONTRIBUTIONS OF MONEY.

Contributions of money continue to be made from every part of the United States. Chairman Phelan of the finance committee today reported additional subscription of \$25,000, the largest of these being \$10,000 by the Chicago Commercial association. The finance committee will tomorrow receive some portion of the sum of the large sum of money which will soon be available for the relief of the sufferers.

### 500 BODIES RECOVERED.

The total number of bodies recovered

was 500. No complete record can be had at this time, as many bodies have been buried without permits from the coroner and the board of health.

Few of these bodies could be identified, and the graves were marked by numbers. It is impossible at the present time to obtain any reliable estimate as to the number of casualties. Whenever a body is found it is buried immediately without any formality whatever, and the body is buried in a mass grave. The bodies have been made at widely separated parts of the city by different bodies of searchers who do not even make a prompt report to headquarters. The confusion attendant upon the estimating of the total number of casualties and exaggerated reports have resulted.

### HEALTH VERY GOOD.

The health of the scores of thousands camped in the open air, under the circumstances, remarkably good. There have, of course, been several cases of cholera, but these are quite common, but there is nothing like an epidemic of pulmonary troubles. The board of health reports that there is a very slight epidemic of cholera, but the treatment of those cases special hospitals have been provided. An interesting item from the Golden Gate park district today was the report of a bird of prey, a hawk, being seen in the park. The hawk had been seen in the park, and the mothers and children removed to the various maternity hospitals.

### IMPROVING SANITATION.

Vigorous measures are being taken by the board of health and the board of public works to improve the sanitation throughout the city. While the sanitary conditions in general are not entirely satisfactory in some places, the sanitary conditions in some places are not yet a serious menace to the health of the people. The turning on of a considerable water in the residence district today, and a promise of much more tomorrow, will relieve the minds of all those living in houses of the fear of cholera. The thousands camped in the parks and on every other bit of open ground that must receive prompt attention. The work at these places is in the hands of the army, and under their efficient direction is progressing satisfactorily.

### LOSS MAY BE \$300,000,000.

It was estimated today by competent insurance authorities that the loss will aggregate \$300,000,000, on this vast amount of property. The insurance companies carried approximately \$175,000,000 insurance.

Chief Dinan of the San Francisco police today sent telegrams to the police authorities of all California cities, requesting them to take measures to prevent people from leaving their respective towns and coming to San Francisco out of idle curiosity.

Impudent upon people that there are more people in San Francisco than could find place to sleep, and that by coming here they were simply running their chances of being put to work clearing away the debris of burned buildings or repairing sewers. This does not apply to skilled workmen who have their own tools and who will be welcomed by the committee if they will lend their aid in carrying out the urgent needs of the street, sewer, plumbing, electrical, building and other departments of this nature.

### STEEL FRAME BUILDINGS.

STOOD SHOCK ALL RIGHT.

San Francisco, April 22.—A trip through the burned districts of San Francisco today revealed a scene of unexpected desolation. From many points on Market street, as the eye could reach in any direction, there was nothing but skeletons and smoldering ruins. It should be borne in mind that San Francisco was not destroyed by the earthquake.

While old buildings in that part of the city which stood on "made" ground east of Montgomery street, and some of that district lying south of Market street, it is true, suffered from the shock, it was that wrought the great devastation and destruction of the city. The great modern steel structures were practically unharmed by the earthquake, except for cracked walls and displaced plaster. All those great structures, however, were utterly ruined.
