

BLOODY NIGHT IN TEHRAN'S STREETS

Parliament Building, Chief Scene Of Military Activity, a Mass of Ruins.

SHAH'S PARTY VICTORIOUS.

Ever Since Constitutional Government Was Proclaimed Persia Has Been In Throes of Revolution.

Tehran, June 23.—After a bloody fight which was waged around the parliament building today, the city was comparatively quiet tonight, although the Cossacks were camped in the streets and squares. Cossacks and soldiers early in the morning surrounded the parliament building and demanded that a number of persons whose arrest the shah had ordered be handed over to them. The parliament refused to comply with the demand and shots were fired at the troops several soldiers being killed. Orders were at once issued from military headquarters that the parliament building be bombarded, and the bombardment commenced soon after.

While this was in progress bombs were thrown from the parliament building, disabling one of the guns and wounding the gunners. Eventually the halls of parliament were cleared, but not before many persons had been killed and wounded. The bombardment continued until 3 o'clock in the afternoon when it suddenly ceased. In the meantime the troops visited the political clubs and numerous residences of influential men of parliament, in which work they were aided by the populace.

The number of casualties is unknown, but it will be very large. The parliament building is practically in ruins. The firing was confined to parliament square, the other parts of the city being comparatively quiet. Large numbers of leading Nationalists, including Mirza Asadullah Khan, parliament, have been placed under arrest.

SHAH IS MASTER.

Berlin, June 23.—The troops have dragged the reformers who had taken refuge in the parliament building being entirely master of the situation. The dispatch to the Local Anzeiger from its special correspondent at Tehran, dated last evening, says: "The disturbances ended in victory for the shah's party. Opposition forces being entirely dispersed. The bombardment ceased toward 2 o'clock in the afternoon, and the army was withdrawn from the parliament building after that building had been cleared."

"Some looting continues in the parliamentary quarters. The dead have not yet been carried out of the streets and they are lying everywhere in exposed places. A very large number of persons were wounded."

"The artillery fired on the population at very short range while off the roofs of the houses and mosques, the people replied with rifles and revolvers. Tonight the Cossacks hold all the squares and streets."

"The shah remained almost entirely alone during the firing, only his personal aids accompanying him. All the troops were engaged and they suffered losses of more than 100 dead and wounded."

TROUBLE NOT NEW.

Washington, June 23.—For two years ever since a constitutional government was proclaimed by the shah of Persia, that country has been in the throes of a revolution, which has been general in character and included within its scope the inhabitants of larger and smaller cities. The shah rather reluctantly proclaimed the constitution and has cast his lot with the reactionaries, who are opposed to it. It is stated that during the two years of warfare, between 30,000 and 40,000 lives have been sacrificed.

MUST KEEP PROMISE.

London, June 23.—A special to the Times from St. Petersburg says that the Russian and British representative at Tehran have been instructed to remind the shah of his promise of loyalty toward the present sovereign and to acquaint him of the determination of the two powers to keep him to his promise. With the exclusion of this possible source of civil war, it is hoped that the situation will soon clear.

PARLIAMENT RESPONSIBLE.

London, June 24.—A special to the Daily Mail from Tehran says that the responsibility for the fighting lies with parliament, which took advantage of the shah's momentary weakness and made the Cossacks the dispatch add, suffered heavily, but the day ended in a practical victory for the shah. Much now depends on his wisdom in restoring order and bringing his coup d'etat to a successful issue.

THE CASUALTIES.

London, June 24.—A special dispatch from Tehran to the Times says that

INFLAMMATORY RHEUMATISM

Most Treatments Are Unsatisfactory but Dr. Williams' Pink Pills Have Cured So Many Stubborn Cases That They Command a Trial.

It is unnecessary to tell the sufferer from inflammatory rheumatism that the ordinary treatments for this disease are unsatisfactory.

Physicians are not of one mind on the subject but the highest authorities hold that rheumatism is a disease of the blood. All admit that in attacks of rheumatism there is a marked and rapid thinning of the blood. This is a condition that a treatment with Dr. Williams' Pink Pills at once arrests and corrects. The thin blood is enriched, the strengthened organs of the body throw off the poisonous impurities and the patient gets well.

Mr. John F. Orlenton, a retired grocer, of 1237 Fulton street, Chicago, Ill., and a veteran of the Civil war in which he served as a member of Co. A, 14th Illinois Infantry, bears witness to this truth. He says:

"I was afflicted with inflammatory rheumatism for twenty years and had received only temporary relief from the doctors. About three years ago I was helpless in bed with it. I could not use either hand or foot for over two months and suffered intense pain. My limbs were swollen and I could not move at all without great pain. I had sleepless nights and thought I would never be able to get around again. My friends and comrades thought I was going to die."

"I had paid out a lot of money in doctors' bills but was not cured. Then Dr. Williams' Pink Pills as he knew of cases they had cured. Before I had taken them a great while, I was feeling much better and was able to get out of bed and move around. I am now in perfect health and have not had a touch of rheumatism in any part of my body since."

Dr. Williams' Pink Pills are sold by all druggists, or will be mailed, postpaid, on receipt of price, 50 cents a box, six boxes for \$3.00. The Dr. Williams' Medicine Co., Schenectady, N. Y.

the killed and wounded in yesterday's fighting totaled 70, the casualties being heavy among the Nationalists. Several deputies were killed. The foreign residents are in no danger, as the shah is in the hands of the Russians. Rifle firing lasted for two hours after which the parliament building and adjacent buildings were bombarded. A close building eventually being scattered.

The looting which followed the firing was indescribable and continued throughout the day. The behavior of the troops, including the Cossacks was disgraceful, the mosque, the neighboring house, the palace of Prince Zill Es Sultan, and the estate of Amir Abdolreza being entirely looted and partially destroyed. In addition peaceful citizens were held up and robbed.

Twenty-five Nationalist leaders are prisoners in the hands of the Cossacks. The destruction of the great mosque has horrified the people and the shah will have extreme difficulty in coping with the situation.

BEGINNING OF TROUBLE.

Paris, June 24.—Special dispatches received here from Tehran say that the fighting began about 8 a. m. and was provoked by a bomb thrown from the roof of one of the buildings among the Cossacks. The fighting continued until late in the afternoon, many being killed on both sides. The shah sent the Cossacks and artillery to surround the parliament building as a result of the parliament's ultimatum refusing to hand over certain persons whose arrest the shah had ordered. An officer and 50 soldiers requested the assembly to surrender five men who had been leaders in the agitation against the shah. This being refused, the officer ordered the men to guard the doors while he proceeded to military headquarters for further instructions. An hour or two later and before the troops had been sent, a bomb was thrown from a roof among the Cossacks. It killed two horses and did other damage and created a panic owing to the absence of the officer. The latter hurried back and was fired at by the troops. He ordered the fire and there was a lively exchange which continued for three hours.

Late artillery was sent into action and shelled the assembly building for several hours. When all was over it was found that the casualties on both sides were very large. Apparently blank shells were fired at the building as the damage to the building was very light for a considerable time. A man who fought on the roof of the parliament building says that he and the others fired steadily into the troops until the ammunition failed and the rifles were too hot to hold.

Eventually a shell crashed through the door of the parliament building and the Cossacks charged, the occupants of the building fleeing. The soldiers had no sooner entered the place than they began to loot it, next turning their attention to the neighboring shops and the palace of Prince Zill Es Sultan.

Thousands of people, it was stated, who a few days ago assembled before the parliament and the shah, were now against the shah, now proceeded to the work of demolishing the building, with cries of "Long live the shah." "We don't want a constitution."

MINERS FIGHT, BOTH MORTALLY WOUNDED

Goldfield, Nev., June 23.—M. Taylor and C. W. Priest, miners, engaged in a duel this afternoon on Grand avenue, and both men are mortally injured.

The duels emptied their guns, Taylor being shot in several places in the abdomen. He is being attended by a doctor, while Priest has been taken to the hospital in a dying condition. The shooting occurred immediately following a remark by Priest reflecting upon Taylor's wife.

THUNDER BUTTE.

Will Be Abandoned as Soon as Ute Indians Return to Utah.

Washington, June 23.—Arrangements have been made by the war department to abandon Thunder Butte, S. D., upon the return of the Ute Indians to their reservation in Utah. The Indians will be accompanied by Capt. C. P. Johnson, second cavalry. The return of the Utes to their old camping grounds is entirely voluntary, because they are now confident that they will be far more comfortable there than they have been at Camp Thunder Butte, where the winters are excessively cold.

McCLELLAN'S PLURALITY.

New York, June 23.—The re-counting of votes today in the McClellan majority controversy gave Hearst a 117 vote plurality over Hearst. McClellan's plurality of 3,833 has now been reduced to 3,181.

MISSIONARIES IN PERSIA

State Department Assures Presbyterian Board of Foreign Missions They Are Safe.

St. Petersburg, June 23.—The Moscow Vremya today published a dispatch from a correspondent who has just completed a perilous trip from Tabriz, Persia, to Urmiah, through a country swarming with pillaging Kurds.

He declares that Urmiah is now completely surrounded by Kurds who are ravaging the villages on all sides up to the gates of the town. The sound of firing is constantly heard. The missionaries at Urmiah have held a meeting and sent out to their respective countries a statement of the critical position in which they find themselves.

Turkish regular troops are close behind the raiding Kurds. Two battalions of infantry, two squadrons of cavalry and a battery of artillery have occupied villages three miles from Urmiah and six days ago one battalion of infantry and five batteries of the Sixth division of cavalry went in camp in the region around Sigabul that is in dispute between Turkey and Persia. It is declared at the foreign office here that Russia has made continual representations to the ports about the situation at Urmiah, but without result up to the present time.

MISSIONARIES ARE SAFE.

New York, June 23.—At the office of the Presbyterian board of foreign missions in this city today, it was said assurances had been received from the state department at Washington to the effect that the missionaries at the stations of the Western Persian mission at Urmiah are not believed to be in immediate danger. The 15 missionaries there are: Rev. and Mrs. F. G. Coan, Rev. and Mrs. W. A. Shedd, Rev. and Mrs. Robert M. Labarre, Rev. and Mrs. E. McDowell, Rev. and Mrs. Harry T. Packard, Rev. C. E. Sterrett, Mrs. M. K. Vandusee, Mrs. E. T. Miller, Misses Mary E. Lewis and Miss E. D. Lamine.

There's nothing so good for a sore throat as Dr. Thomas' Electric Oil. Cures it in a few hours. Relieves any pain in any part.

Tandem match race, Saturday tonight.

ROMANTIC MARRIAGE ENDS IN DISASTER

Chicago, June 24.—A dispatch to the Tribune from Los Angeles, Cal., says: A police court here today heard yesterday of the end of a romance of less than a year, including a honeymoon spent on brakebeams and in box cars, from New York to the western coast.

The characters in the drama were William Koprivich, member of a wealthy Hungarian family, who fled from his native land to escape army service, and his wife, Albin, sister of Count Kabanov of Austria-Hungary. They were married in New York City, where she was visiting. He told her of a fine job he had in the west, and she, whose expenses she deemed a man's clothes and they beat their way to Los Angeles. The trip was made in snow and cold weather and the woman suffered much.

The husband deserted her here, and she was forced to ask the aid of the police. Koprivich was ordered to pay \$10 at once and \$4 a week until the divorce action she started is tried in August.

A baby, born less than a month ago, while the young woman was in privation, lived only a few days.

WILL CANCEL PASSES TO STEAMSHIP OFFICIALS

Chicago, June 24.—In pursuance of the interstate commerce commission's ruling the western railroads yesterday agreed to cancel all passes issued to officials and representatives of steamship companies. This means that all interchange of the courtesy of free transportation will cease between the steamship companies and the western roads. It is thought that the example of the western roads will be followed by all other lines.

RING SMUGGLING IN CHINESE COOLIES

Los Angeles, June 24.—In Los Angeles, according to information gathered by the immigration authorities, there is a ring actively employed in smuggling Chinese coolies over the Mexican border into the United States. The gang in southern California is believed to have agents throughout California and the southwest, and the inability of the regular force to cope with the situation has caused the department of commerce and labor to send a special agent from Washington to make an independent investigation. The agent will soon be on the scene.

Immigration Commissioner Hart H. North does not believe that the country is menaced with an invasion of coolies. He says that smuggling over the border has materially decreased in recent years, especially since the government stationed line riders along the Mexican boundary five years ago.

The department officials, however, apparently take a more alarming view of the situation. From an examination of the smuggling of coolies into the United States, it developed that the smuggling of coolies into the country is a matter of considerable expense, and that the traffic is financed and managed by a well organized ring. Commissioner North expects when the inquiry from Washington gains headway, that new light may be thrown upon the smuggling ring, but at the same time he is positive that whatever smuggling may be taking place, the operations are confined within the limited area, and involve only a few Chinese at most.

TO CONTINUE OLD WORLD INDUSTRIES IN THE NEW

New York, June 23.—All those who are interested in the continuation in America of the old world industries and the prevention of their utter loss by the merging of the immigrants into the great army of factory workers are interested in the efforts of Miss Carolina Amari of Rome, Italy, who is director of the Scuola d'Industria Italiana in New York. She has just returned to this city from Italy to continue her work in the New York school.

About two years ago Miss Amari was started at the Richmond Hill settlement house by a few New York women, who had at heart the welfare of the Italian women in this country. The idea was to revive the industries as it had been done in Italy, where schools were opened to keep alive the talent inherited from the ancient lacemakers whose beautiful work may be seen from time to time in the shops of the best patterns were used which were copied from gothic and renaissance sources and the result was the bureau lace, a very beautiful modern product.

SHAKE INTO YOUR SHOES

Allen's Foot-Powder. Relieves painful, smarting, nervous feet and itching, and instantly takes the sting out of corns and bunions. It is the greatest comfort discovery of the age. Allen's Foot-Powder makes tight or new shoes feel easy. It is a sure cure for sweating, itching, swollen feet, itching feet, itchy today, itchy tomorrow. Don't accept any substitute. Trial package FREE. Address Allen E. Ginstead, Le Roy, N. Y.

A committee to encourage the sale of the lace was formed with Queen Margherita of Italy for its president. From the headquarters of the society in Rome, Miss Carolina Amari came to New York in the winter of 1906 to organize a school similar to those already flourishing in Italy.

Miss Amari brought with her fine patterns of all styles and periods and a number of genuine antique pieces were lent for the inspiration of the workers. The patterns are used as samples in the New York school and are copied there and the sale of the New York pupils has already been put on exhibition at Milan and shown at the Italian school.

The conditions under which the work is done are as favorable as possible to the comfort of the worker. The workroom is cheerful, well warmed, clean and lighted, and the teacher, who is an Italian, understands the disposition of her pupils, and is an encouraging and helpful instructor. Wages are paid during apprenticeship, and girls earn from \$6 to \$8 a week at their regular work and considerably more when they have become especially skilled.

TWO DONKEYS

Smallest Oriental Ones That Ever Came to Country Arrive.

New York, June 24.—Probably the smallest oriental donkeys that ever came to this country were landed from the Hamburg, of the Hamburg-Amerikan line, which came in from the Mediterranean. They were consigned to David N. Goodrich, a retired rubber merchant of this city, who has a country home at Mount Kisco, and who will take them there for breeding purposes. The donkeys are native to Sardinia and 15 of them were put on the Hamburg at Naples, but one with a colic and the infant was given to another of the mothers for nursing. The mother took kindly to the addition to her small family and the two young ones are doing well.

The donkeys are diminutive—scarcely larger than big dogs—and attracted much attention. They came in a special cabin built on the afterside of the main deck of the steamship.

Don's Regulets cure constipation, tone the stomach, stimulate the liver, promote digestion and appetite and ease the bowels. Write for your drugist for them. 25 cents a box.

Salt Lake bicycle races tonight.

DEVELOPMENT OF MANCHURIA

Japan Will Throw No Obstacle in Way Of China's Work There.

Tokio, June 24.—Following prolonged negotiations both at Tokio and Peking on the general subject of the commercial development of Manchuria, the Japanese government today instructed its charge d'affaires at Peking to notify China that Japan would throw no obstacle in the way of the development of Chinese territory in Manchuria. On the contrary Japan declares its willingness to assist in this work and therefore will offer no objection to the construction of the Hamtun-Fukumen railroad, giving it a connection at some point south of Manchuria.

JAPANESE IMMIGRANTS.

St. Paul, Minn., June 23.—The Pioneer Press tomorrow morning will print an interview with Baron Kagura Takahira, who has been investigating the Japanese in the United States for the sake of the government. The interview was obtained last night at Crookston, Minn.

In the interview the baron says: "It is the desire of the Japanese government to thoroughly understand the proposition of the American on the Japanese question. The government realizes certain of its citizens have been the cause of disturbances on this side of the Pacific which at once have shaken the evenness of localities and disturbed our government too."

"It is not our intention to reveal the information I have received or the conclusion I have drawn, but my report will state to the Japanese government that the collection of Japanese immigrants in the cities of the Pacific coast is detrimental to friendly relations between these two countries and is actually in some cases an intrusion as far as concerns Americans who labor in the liberties and rights of the people who already inhabit this country. Therefore my report will advise that immigrants reaching the coasts of America be compelled to have in residence sufficient money to take them across the Rocky Mountains and into the agricultural regions of the middle west."

Rheumatism

Do you want to get rid of it? If so, take Dr. Miles' Nervine modified as directed in pamphlet around bottle. In addition to the direct curative properties it has a soothing effect upon the nervous system by which the rheumatic pains are controlled, and rest and sleep assured. It has made many cures of this painful disease, some of them after years of suffering. If it will cure others why not you. If your case is complicated, write us for advice, it costs you nothing and may save you prolonged suffering.

"I was so crippled that I could scarcely move, and my legs were so stiff that I could not walk for an hour or two I could manage to walk by suffering the pain. Then I bought a bottle of Dr. Miles' Nervine. I bought a bottle and I commenced to get better. After a few days I was able to walk and after a few more days I was able to walk as well as ever."

J. H. SANDERS, P. O. Box 5, Rockaway, N. J.

Your druggist sells Dr. Miles' Nervine. Write him for a free trial of this little bottle (only) if it fails to benefit you.

Miles Medical Co., Elkhart, Ind.

MARRIED WOMEN

Every woman covets a shapely figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided by the use of **Mother's Friend** before baby comes, as this liniment prepares the body for the strain upon it, and preserves the symmetry of her form. **Mother's Friend** makes the danger of child-birth less, and carries her safely through this critical period. Thousands gratefully tell of the benefit and relief derived from the use of this remedy.

Sold by druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

PATENTS

We desire to announce that we have established in connection with our paper, a Patent Bureau, and invite the co-operation of Inventors, Mechanical Engineers, Draftsmen, Machinists, Superintendents and Foremen of Shops and Mills. Skilled Mechanics in all trades, Farmers and all others, in building up a patent system, that will give honest advice to inventors, protect their interests by good patents and strong contracts; assist inventors in perfecting their inventions, and in selling their patents when obtained; and in all matters to render careful service and give full value for money paid.

We have associated with us at Washington, D. C., an attorney who has been in continuous practice for the past twenty years, and we are in position to guarantee that any patent matters placed in our hands will receive prompt and careful attention, and that the charges will always be moderate.

We also, in addition to securing of patents, obtain Trade-Marks, Copyrights, Labels, Design Patents, and in fact transact business of all character in this line.

All patents secured through our Bureau will be advertised for sale at our expense, and will thus be brought to the attention of the thousands of readers and materially assist the inventors in disposing of the patents.

If you have made an invention, send us a rough sketch and description with \$5, and we will have our attorney make a thorough search of the records of the United States Patent Office, and advise you as to the securing of patent, the cost and the manner of proceeding.
