

WALKER'S STORE

"YOUR" AUTUMN HAT IS HERE.

FORMAL ANNOUNCEMENT IS MADE IN THIS OF THE FALL AND WINTER MILLINERY OPENING.

A GAIN THE HAT! WEEKS, scarcely, does it seem since all homage centered in the Easter hat—exquisitely dainty in its delicacy of spring coloring, but months have tinged the fresh green leaves to the deeper, richer beauty of Autumn, and so it is that seasons steal all unawares upon us and with them—millinery changes. Artisans are put to it to bring forth more witchery, more of beauty difference and certainly the fountain of genius seems never failing—as witnesses, the simplicity and elegance that has formed visions of loveliness in the hats of fall and winter 1902. From Paris, London, New York, we have gathered to give scope to variety and bring "your" hat. The occasion is one of greatest importance to every woman of Salt Lake City. You are invited for

The reception held at the new Gordon academy hall on Thursday night was a delightful affair, the college faculty and a large number of others being present to enjoy the pleasant event. The rooms were beautifully decorated, sunflowers and asters being used with artistic effect. Rev. Clarence T. Brown read the dedication service, and Miss Mary O. Gray rendered choice piano selections. Miss Paine, principal of the academy, was assisted in receiving by Mrs. Allen of Park City and Mr. Jameson of the faculty, and a number of young girls, students of the academy and others assisted in serving refreshments.

The current events and current literature section of the Ladies' Literary club met at the club hall yesterday and an interesting session was held. The features of the afternoon were an address by Col. Page on the subject of Cuba, and a review of Edith Wharton's book, "The Valley of Decision," by Mrs. Dart.

The Reviewers' club will meet on Monday with Mrs. Evans, and "The Deathless Diary" will be reviewed by Mrs. C. D. Moore. It will be open day and a number of visitors will be present.

The year books of the various clubs are issued and all are gotten up in the usual attractive style. The sections of the Ladies' Literary club have excellent programs planned, and the general meetings of the club promise exceptional interest.

In the Clofian, the first part of the program will be devoted to reviewing the history of England in the nineteenth century, and the second to a review of the English authors, with miscellaneous subjects intermixed.

The Reviewers' subjects cover the usual important lines, and outside the book reviews, promise an interesting variety of topics during the year.

The two societies of the Revolution, D. R. and D. A. R. will discuss subjects of interest dealing with American history.

The Woman's club presents its usual various and important subjects, and these will be discussed by members and non-members thoroughly conversant with the themes.

The music section of the Ladies' Literary club will meet Wednesday morning, Sept. 24, at 10 o'clock, at the club house. Schubert will be the composer for the day, and the program will be given by Mrs. P. P. Reed, Mrs. Penbody, Mrs. Hoggan, Mrs. Lewis, Mrs. Anderson and Mrs. Knight. Club members are cordially invited.

The Browning musicals will be given Thursday evening, Sept. 25, under the auspices of the music section. Miss McDonald will interpret Abt Vogler, and eight vocal numbers will be given from the poems of Mr. and Mrs. Browning.

CLUB CHAT

The Utah society, Daughters of the Revolution, met at the home of Mrs. Lewis M. Cannon in Cannon ward on Wednesday, Mrs. P. T. Farnsworth, the regent, presiding. The regular business was first transacted, then followed an excellent patriotic paper written by Mrs. I. M. W. Sears, and read by Lucy W. Smith, after which delicious refreshments were served by the hostess and her little daughter, and sister, Miss Grace Cannon. The parlor and library were decorated with flags, beautiful paintings, and blue vases filled with sunflowers. The next D. R. meeting will be held on the 16th of October at the residence of Mrs. Myra Y. Rossitor, 24 north State street.

The Daughters of Utah Pioneers will meet next Wednesday at 8 o'clock at the

A New Era for Yankee "Wind-Jammers"

Constructed in the Fore River Shipyard, Boston harbor, the most remarkable sailing vessel ever built was recently launched to astonish sailors on every ocean. The hull of this leviathan is of steel, 405 feet long over all, 36 feet 3 inches long on the water-line, 50 feet broad and 36 feet deep. She has three decks. There are 15-inch bilge keels to give strength and stability to the hull. The bottom is built on the cellular principle, with compartments that will hold 1,200 tons of water ballast. She has six steam-engines on deck fitted for pumping out this ballast, or water due to a leak, should one be found, and for getting up anchor, hoisting sail and handling cargo. In all, 2,000 tons of open-hearth steel have been

used in her. When afloat, she will carry 7,500 tons of coal on a draught of 26 feet 6 inches, and her displacement when so loaded will be 10,000. All this is to say that here is the largest sailing ship in the world—the largest in dimensions and the largest in carrying capacity. And yet, speaking strictly, she is not a ship; she is a schooner. Seven masts rise 135 feet above her deck, but they carry only booms and gaffs for fore and aft sails. With the building of the five-masted schooner a new era dawned. With 12 or 14 men and a derrick, these engines on board, these schooners could carry as much as any ordinary tow of barges, and yet they employed fewer men and there was no expense for running a big

"THE PRESIDENT LEAVING THE 'SYLPH'"
President Roosevelt plans to follow up his New England and Southwestern trips by a tour of the West. The above snapshot was taken at the close of his Southwestern tour. It conveys a graphic idea of the unpretentious "appearance" of the Chief Executive of the United States.
