The Lutherans closed their fifth annual conference yesterday, with a well attended jubilee in the evening. Exercises were held during the day, the morning sermon being preached by Rev. Dr. P. J. OLD ESTABLISHED BUSINESS.

"Born in Maybole some 30 years ago Mr. McWhirter was left an orphan at the early age of 5 years. Born under the very shadow, it might be said, of the bakery, the boy was almost of a necessity brought up to regard the baking trade as the one and only source of real usefulness and importance to mankind. He has, however, had no cause to regret his early conditions and

view of life. "The business which he was destined to possess was established in the early part of the year 1842 by his grandfather. also named Alexander McWhirter which under his careful guidance MeWhirter quickly became the leading baking business in the town and neighborhood of Maybole. Possessed of remarkable ability Mr. McWhitter, the founder of the business, was therefore much re-spected by the community, as is evidenced by the fact that during his tim he occupied many responsible position in the municipal and social life of May bole. He carried on the business until his death in 1886, after which his widow continued to manage affairs until our young friend, the subject of this sketch, had left school, when he commenced to nad left school, when he commenced to render assistance to his grandmother in the management. Mr. Alexander in his early days in the bushness showed such capital commercial ability and clear-headed foresight that his grandmother in 1906 gave him full control of the business, and under his supervision the business rapidly extended. At this the business rapidly extended. At this time vans were put on the road and a full installation of machinery intro-duced in order to keep pace with the advance of the times. "At the death, in 1992, of his grand-

mother, there being several beneficia-ries under her estate, the business and property had to be publicly disposed of. Mr. Alexander, thoroughly alive to his best interests, then became the combest interests, then became the com-plete owner of both property and busi-ness, and has since carried on the trade at "The Bakery' with conspicuous suc-cess. During his short business cacess. During his short business ca-reer he has had many successes at the various trade exhibitions throughout the country, having secured three gold and two silver medals and one bronze medal, with the addition of six diplo mas, in competitions at London, Liver-pool and Newcastle.

MEN OF ABILITY.

"In association matters he has always taken a keen interest, being an energetic member of No. 11 division of the Scottish association and of the Ayr-shire Master Bakers' association. At the Dundee conference last year he was elected a member of the council of the Scottish association, and on the sucthe succottish association, ceeding day he was added to the membership of the exeutive committee of the association, thereby showing that his brethren in trade had every confiace in his ability and usefulness in administration. "At the municipal election, in Novem-

her of last year, he went forward as a candidate for that very mixed honor-that of town councilor-in his native town, and was elected without any aptown, and was elected without any ap-parent diffiulty. As a platform speak-er he possesses a readiness and choice of language, and he can convey his meaning with clearness and precision. He is sure to be a valuable and much appreciated member of the council.

appreciated member of the council. "Always a thoughtful speaker and fond of platform debate, as a mean's toward the end of acquiring greater knowledge from intercourse with others, he might be said to have been the founder of the Maybole Literary & De-bating association, of which educative assembly he was president for some vector only resident for some years, only resigning that position at the last general meeting. With this us-sociation and church literary society, work of a similar nature, combined with municipal committee work, all of which Councilor McWhitter found most with municipal committee work, all of which Councilor McWhirter found most congenial to his mentai welfare, it will further notice at the L X.
