PATENTS

obtained for new inventions, or for improvements on old ones, for medical or other compounds, trade-marks and labels. Caveats, Assignments, Interferences, Appeals, Suits for Infringements, and all cases arising under the Patent Laws, promptly attended to—inventions that have been REJECTED by the Patent Office may still, in most cases, be patented by us. Being opposite the U. S. Patent Department, and engaged in Patent business exclusively, we can make closer searches, and secure Patents more promptly, and with broader claims, than those who are remote from Washington.

INVENTORS send us a model or sketch of your device; we make examinations and advise as to patentability free of charge. All correspondence strictly confidential. Prices low, and NO CHARGE UNLESS PATENT IS SECURED.

We refer in Washington, to Hon. Postmaster General D. M. Key, Hon. F. B. Power, The German-American National Bank, to officials in the U. S. Patent office, and to Senators and Representatives in Congress; and especially to our clients in every state in the Union and in Canada. Address

Counterfeiters Arrested.

NEW YORK, 12.—The two men who were arrested last week on a charge of being engaged in counterfeiting Brazilian notes, were discharged, to-day, on a writ of habeas corpus, the Judge holding that the offense was not completed, the signature but being attached to the notes They were immediately rearrested, however, upon an indictment found in the court of general sessions.

Tilden's Chances.

The election of McLean, yesterday, as temporary President of the police board is significant, because McLean is a notorious personal friend and dependent of Tilden, and was one of his trusted clerks during the Presidential campaign.

The *Tribune*, considers the new move to control the police board equivalent to Tilden hoisting the black flag. Tilden and his friends recognize that defeat in the coming State convention would be fatal to his hope of controling the New York delegation to the national convention next year. Hence the unseemly and facetitious wrangle with Tammany about those city officers, and the desperate moves to obtain control of the ballot boxes through the power of selecting the the inspectors, both with the ulterior view of renominating and re-electing Governor Robinson. Tammany's counter move last night informally resolving that under no circumstances can the New York democracy vote for Robinson again without a sacrifice of honor and manhood, looks much as if there will be a certain bolt if Robinson's nomination is forced. Without New York City the democrats can't possibly win. Tilden and friends are evidently greatly alarmed at the danger that Chief Justice Church may be nominated, which would finally extinguish Tilden's presidential hopes.

Things Political in Gotham.

The *Herald* prefaces the Tammany anti-Robinson resolutions. Every district of the Tammany organization is unanimous in the decision to stand by Kelly and not support Robinson's claims to the nomination for Governor on any pretext whatever.

The *Times'* Washington special says: Governor Grosvenor arrived here from the west this morning, and left to-night for Maine, where he has agreed to deliver 24 speeches during the pending campaign. He represents the republicans of Ohio thoroughly united and growing more confident every day. The German democratic element, which is a wholly hard money faction in the party, is thoroughly dissatisfied with Ewing, and certain either to vote against or refrain from voting The revival of the iron interest in the state is having an appreciable effect in the campaign by taking from the democrats the capital they have in the cry of "hard times." The *Times* says: While sanguine Ohio republicans are talking of forty thousand majority, the democrats are not talking of any.

The Connecting Canal.

The *Times*, editorially, discusses the effect of the inter-oceanic canal on the merchant marine, and thinks it would be highly disastrous to our shipping interests. A revolution in commerce with the avoidance of a great circuit around South America, would primarily take shape in the substitution of steam vessels for sailing vessels in a great part of the for-ign trade with the Pacific ports. It instances the effect of the Suez Canal in raising up a fleet of steam freighters. The only Cargo a sailing vessel now can take to the east from Europe is coal. But wheat shipments from California, Oregon and Chili can and would be made by steam if the long southern loop in the route was cut off. To farmers and grain merchants of those districts this new facility would be a decided advantage, as it would place them in a position to compete upon favorable terms with their rivals in the Mississippi Valley who now have and would continue to have more or less heavy railroad charges to pay. Grain from Portland, Oregon, would be landed at Liverpool inside of four weeks, thus cutting down to one-fifth the time now required.

Cotton Exchange.

There is a large gathering of the members of the cotton exchange and others in the trade to attend the convention here to-day. The *Herald* says: Careful and detailed reports collected in all the cotton States give promise of at least an average crop, with the probability of better results than last year There is little doubt that the cotton planters will have as satisfactory a harvest in the south as the wheat farmers in the north.

Iowa Greenback Convention.

MARSHALLTOWN, Ia., 12.—This afternoon the greenback convention, after a wrangling and inharmonious session, was governed by the Pomeroy faction, and adopted resolutions.

First.—Endorsing the Chicago platform of March 4, 1879, and a pledge of their honor and lives to accomplish the principles therein set forth.

Second.—All future conventions, state and National, shall be conducted according to club representation; the organization of clubs to be furthered by every honorable means, in strict conformity to W. M. Pomeroy's instructions.

An assessment of 50 cents annually was levied on each member to form a campaign fund of $42,000 in Iowa, the statement being made that there are 70,000 members in the State. The convention adjourned without making any nominations.

Pushing West.

PHILADELPHIA, 12.—The directors and stockholders of the Texas Pacific Railroad Company, at their annual meeting, to-day, authorized bonds issued not to exceed $20,000 per mile for completion of the road from Fort Worth west to the Pacific coast, a distance of over 1,200 miles.

Newspaper Sale.

ST. LOUIS, 12.—The *Times-Journal* newspaper of this city, with all its good will, tangible property, leasehold, Associated Press franchise, etc., is to be sold at trustee sale, at auction, to the highest bidder for cash, on Saturday, the 22nd of August.

Shooting Scrapes.

LOUISVILLE, Ky., 12.—Jack Gleason, a street contractor, shot and killed Wm. Walker, at the National Park, to-night. Gleason some time since seduced a Miss Mills, and it is regarding this matter that the men quarreled, with the above result.

Boston, 12.—Thomas and William Kealin, printers, were shot to-night by Patrick Malone, at 545 Commercial Street. The shooting was the result of an old feud growing out of a domestic trouble. Thos Kealin received wounds in the groin which will probably prove fatal. Malone surrendered himself.

Dismissed.

CHICAGO, 12.—Attorneys for complainants in the $300,000 suit against P. T. Barnum to-day received directions from their clients to dismiss the suit, owing to the failure of a similar cause in Cincinnati, brought by the same parties against Barnum in the courts of that city.

Bold Robbery.

CINCINNATI, 12.—About 1 o'clock this afternoon, parties entered the banking office of G. H. Bushing & Co., northwest corner of Third and Walnut Streets, and while one engaged the attention of the person in charge, his confederate secured a package of $5,000 and decamped. The whole affair was so quietly performed that the attention of the people on the street was not drawn to the bank, and the robbers escaped.

YELLOW FEVER.

Fleeing from the Scourge.

CORINTH, Miss., 12.—A perfect stampede of citizens is in progress, owing to the illness of the mayor and the president of the board of health, who are supposed to be sick with yellow fever. It is thought their coming in contact with citizens fleeing from Memphis at the quarantine station caused the infection. The people are fleeing to the country, but many farmers quarantine against them and they are roaming through the woods trying to find refuge and safety. Seventy-five left at daylight yesterday.

Twenty-Two New Cases.

Memphis.—Twenty-two cases in all were reported to the Board of Health to-day—ten colored. Two additional deaths occurred—Annie Miller and John Swanander. S. H. Gibson, book-keeper with the *Daily Appeal*, was stricken with the fever this afternoon. Ed. Moore is dying, and all the arrangements have been made for his burial. W. W. Guy is worse to-night. The weather is sultry and rain is threatened.

New Orleans.—The City Council have adopted resolutions declaring that there is no case of yellow fever in the city, and protesting against the unjust quarantine established by the Southern cities.

Washington Notes.

WASHINGTON, 12.—Sprague, the American consul at Gibraltar, in a dispatch to the department of State, reports he has received a third anonymous letter from the party trying to extort money from him. A person has been arrested suspected of complicity in the plot, but the letter asserts the man is entirely innocent. At the same time the conspirators in a third letter withdraw professedly wholly from the attempt and abandon all demands for money and disclaim their former threats of personally injuring the consul or his family. Sprague's family and relatives reside in a secluded country, outside of the city. He has been in the consulate at Gibraltar thirty-one years.

Galusha A Grow will be tendered the Russian mission or some other, whose present occupant may be transferred to St. Petersburg.

Major Geo. B. Sanford, First Cavalry, has been ordered to conduct a detachment of recruits to the Pacific Coast.

Wool Markets.

PHILADELPHIA, 12.—Wool is in improved demand and prices firmer. Colorado flue and medium 22 @ 25; Colorado coarse, for carpets, 17 @ 18; extra and merino pulled 35 @ 38; No. 1 and superior pulled, 32 @ 35; Texas fine and medium, 18 @ 28; coarse 14 @ 17.

WESTERN.

Troops Pursuing Raiders.

SAN FRANCISCO, 12.—A Tucson special says: Out of many conflicting reports of so-called Indian depredations, the facts are that a raiding party, composed of Americans, Mexicans, and Indians (the latter renegades long resident in Chihuahua), with nearly 200 animals, stolen by the raiders. They were followed to South Mule Pass, and three of the Americans and two Germans were killed. The troops continue in pursuit.

FOREIGN.

GREAT BRITAIN.

The "Thunderer" on that Circular Letter.

LONDON, 12.—The *Times*, discussing the reported impending circular from the United States, in regard to Mormon immigration, says: The suggestion that European governments should exert their influence to prevent continued accessions to the deluded adherents to Mormonism is easily made; but as soon as we examine it, we are confronted with the new difficulties which would apparently impede its adoption. No European government can be otherwise than desirous that the gross superstition should be speedily dissipated. But we do not see any way to direct interference, though emigration commissioners might distribute tracts at outposts. Furthermore, if the United States should determine to forbid the landing of any Mormon proselyte, it would be necessary for them to declare the profession of Mormonism to be an offense in itself, and to institute a kind of inquisition into the religious opinion of emigrants. It is scarcely conceivable that legislation should go to this length, yet such measures would alone be efficacious. Whatever may be done by Congress, the British Parliament would never give the Executive power to interfere with Mormon emigrants. When the suggestions of the United States are before us in detail, they may modify the impression produced by the telegram. At present we see many difficulties, and the owners of transatlantic lines may suggest others; their obligations as public carriers may constrain them to take all passengers who offer themselves.

General News.

Lesseps, speaking at Beauvais, said there are energetic Latin races in America who are greatly interested in the Panama canal He said he had proofs that the United States does not think of resistance to the undertaking. Such a course would expose them to the censure of the whole southern population of the New World.

Experiments with Krupp cannon show that they are equal in penetration to Woolwich guns twice their weight. In one case at a range of 2,700 yards, the horizontal deviation of the shot was only two feet ten inches and the vertical deviation nine and a half inches.

In the House of Commons to-day the Secretary said he understood the Canadian government intended to apply to the home government for guarantee of a loan for the construction of the Canada Pacific Railroad, but no such application has been made.

The *Financier* says: On yesterday, and also for some days previously, large French purchases of wheat from the United States were arranged for settlement through this market. A further advance in French exchange on London is probable.

The *Standard's* Paris dispatch reports that the warm weather has increased considerably, improving the harvest prospects in France. French producers are frightened at the decline in prices of French wheat, caused by the heavy imports from America.

In the House of Commons, to-night, a bill enabling the liability of banks to become limited and allowing banks to increase their nominal capital by increasing the nominal value of their shares, passed through the committee.

Twenty-two persons were injured in a riot at Belfast last night growing out of a Catholic procession. They had their wounds dressed at the Royal hospital.

The *Standard's* Pesth correspondent considers the ambiguous denial of the rumor of Count Andrassy's retirement from office in the semi-official papers to be rather a confirmation of the report. The correspondent adds that if Andrassy resigns Herr Tisseas' fall is inevitable.

The *Standard's* Vienna correspondent mentions a rumor that Count Andrassy will become the Hungarian Prime Minister.

The *Times'* Vienna correspondent declares that nothing is known of Count Andrassy's retirement at the ministry of foreign affairs.

The *Times'* Berlin correspondent revives the report of coolness between Germany and Russia.

The *Times'* Berlin dispatch reports that the Ultramontanes, in view of the coming elections for members of the Prussian assembly, have issued an appeal to the electors in the cause of truth and freedom.

A dispatch from Berlin says: It may be affirmed, judging from the violent and repeated onslaughts against Germany in the St. Petersburg press that Russia thinks she has a grievance against Germany. There is reason to believe these onslaughts represent, though in a very exaggerated form, the views of Prince Gortschakoff.

A dispatch from Vienna says: The crisis in the Austrian ministry is on the eve of solution. Count Taafa, present minister of the interior, will be chief of the new cabinet, in which the liberal party will probably predominate.

The *Tagblatt* believes Court Andrassy's retirement will be due to his discussion with the minister of war, who opposes the occupation of Novi Bazar until preparations have been made on a large scale.

Gladstone, speaking at the opening of the art exhibition at Chester last night, said: When America learned to trust entirely to her own splendid natural resources the great genius of her people and their marvelous proficiency in the adaptation of labor-saving appliances in which she was at the head of the world, she would be a formidable competitor with English manufacturers.

Some cases of Asiatic cholera are reported at Constantinople, but they are believed to be sporadic.

It is reported popular disturbances have occurred in Samos.

The latest letters from Col. Gordon, Governor-General of Southern Egypt, dated 14th of June, show that his Lieutenant Sessi had conquered the slave dealers of Bargazelle district, killing eight of the leaders in a battle, taking their chief station by assult, capturing a large amount of booty and hanging nine of the ringleaders as a warning, he proposed to evacuate the district after disarming the inhabitants. When operations to check the slave trade would be confined to a rigorous watching of the frontiers, and of the encouragement of legitimate commerce. Suliman, leader of the slaves, who escaped after the last battle, has, however, mustered a force and is pushing for Darfur, where he will find an abundance of discontented spirits to join him. Col. Gordon thought the situation so serious he hastily returned to Darfur.
