# CRIMINAL CASES SET FOR HEARING

Will Come Up for Trial During Period Extending From Nov. 6 to Dec. 11.

ASSAULT CASE IS DISMISSED.

Evidence Against Anton Tomcyerovic Insufficient to Secure Conviction.—The Cases Set.

When seen by a "News" reporter this morning, John L. Nebeker, sitting clerk in the office of Bishop Preston, made the following statement:

"The man Campbell came into my office about 5 o'clock in the evening one day last week. He appeared to be very excited and nervous. He said that he had a matter to lay before me of great importance to himself and related that he had just arrived from Colorado and had been forced to leave his home on account of trouble that he had gotten into by assuming marital relations with a woman besides his wife. When I asked him how he had made such an arrangement he said that it was simply a mutual agreement between his wife, himself and the other woman, stating that his late wife took the part of the person performing the ceremony.

"He stated that he was not a member of the Mormon Church but his object in coming to the office was for the purpose of ascertaining if there was anything he could do to set himself right before the world and at the same time be permitted to live with both of the women. I told him that it was a most unfortunate condition he had placed himself in, as he had committed the crime of adultery and was subject to the law of God and the law of the land and that the best advice I could give him was to cease living with the woman he had betrayed, but support her and her prospective child and if the law should bring him to account for his conduct that he should face it as a man desiring to make restitution for the wrong committed.

"I told him emphatically that at no time during the interview, or at any time did I advise him to 'lay low,' neither did I in any measure seek to condone his offense."

# UTAH VOLUNTEER VISITS OLD HOME

Harold Pitt, Business Man of Manila, Proud of America's New Possession.

Discusses Conditions There

Is Now Engaged in Opening Up an American Summer Home for Residents of Manila.

After an absence of over seven years in the Philippine islands, in which he has been prominently connected with their industrial growth, Harold M. Pitt of this city returned home last night. Mr. Pitt is not one of those who is sorry we own the Philippines. He thinks that with proper exploitation and a liberal policy of control from the American government, they can be made a most valuable possession. Up to the present they have been handicapped by old Spanish laws, enforced by American authority with a rigor before undreamed of, and by tariff regulations which have prevented their growth.

Mr. Pitt was formerly a Utah volunteer, and remained in the islands after receiving his discharge. He was not with the batteries, but enlisted in the Eighteenth regular infantry, and saw service in Ilo Ilo. On securing his discharge he entered the firm of Evans & Company of Manila in 1899, and became its general manager. The firm was then supplying the army with its sugar, coffee, potatoes, butter, and rice, which were secured in the oriental market. After a few years in this position, in which he became thoroughly familiar with trade conditions in the orient and their effect on the Philippines, he started in the general brokerage business by himself.

He has since allied himself with the real estate firm of Williams, Chandler & Co., and is vice president of the Los Banos Improvement company. "Los Banos" is a town, or rather a collection of springs, on the shore of Laguna de Bay, the large lake lying behind Manila. It is reached by steamer via the Pasig river, and formerly was a favorite health resort. Mr. Pitt's company is exploiting it as an American summer home for Manila residents.

Since leaving Salt Lake Mr. Pitt has married. With his wife and two children he is now a guest of his parents at his old home, 170 west North Temple street. He comes to America on business which will soon take him back to Manila, and will require him to go to New York and Washington after a few days in Salt Lake.

The new telephone buildings and switchboards at Billings and Missoula, Mont., representing an outlay of \$150,000, have just been completed and are now in commission for the Bell company; and the new plant at Helena will be ready for operation in a week. Plans begin next week for new switchboards at various points of the system, outside of the larger cities, to be operated on the common battery system and will represent the aggregate outlay of \$200,000. Orders are in for material for the enlargement of the Boise establishment and its complete remodeling, at an expense of \$50,000; this being aside from the \$25,000 already invested in cable plant there.

So far this year, estimates for 226 pieces of new construction have been approved by the directors, these estimates involving outlays of \$300 to \$100,000 each.

# CAN SEE V CTORY.

University Students Will Rally Down Town Saturday Night.

Confident of a glorious victory over Boulder on Saturday, the students of the University of Utah this morning decided on a big rally downtown Saturday night, in honor of the event. At chapel this morning Manager Jensen of the athletic council made an enthusiastic talk on Saturday's game, and expressed the thought that Maudsley's men would return with colors flying. While the boys realize they have a big job on their hands, they believe they are well prepared to meet the enemy, and will leave for Boulder with little doubt of the result. Some of the football squad echoed the sentiments of Mr. Jensen, and the students assembled expressed their confidence in college yell illustrative of victory.

During the meeting the prep were presented with the banner won in the cross-country meet last spring, while talks were also made by President Hopkins of the senior class, and by President Stephens of the student body, who emphasized the necessity of students affiliating with the student body.

# BAD MAN IN PRISON.

Sheriff Beebe Passes Colored Terror Behind the Bars.

John F. Parker, a colored terror who has caused considerable trouble in Emery county recently, was brought to this city yesterday by Sheriff Oscar Beebe, of Emery county, and placed in the state prison, where he will remain for a term of three years for the crime of burglary, of which he was recently convicted. Parker burglarized a saloon at Green River, stole a keg of whisky, several boxes of cigars and

# broke open the slot machine with an ax and took all of the nickles.

He then undertook to carry his plunder away. Most of the whisky was transferred to his stomach, where he thought it would be more easily carried. In this he was mistaken for he was soon overcome by the liquor and was found a short distance from the saloon miserably drunk. As he was caught with the stolen goods on his person, his conviction was easy. Parker made boasts that he would never be taken to the state prison and considered a very tough character. Sheriff Beebe put him in irons and chained him to the seat of the car en route and hence had no trouble with him at all.

# FURNITURE HELD UP.

That for Federal Building Awaiting Cars at Chicago.

Acting Postmaster Keeler has been notified from Chicago by the furniture manufacturers, that the furniture for the Federal building is ready to ship, but the company can not find cars to ship it in, and therefore the goods must lie in Chicago until the railroads can find cars to carry them to Salt Lake. As the car famine is reported very severe, it is impossible to state just when the shipment can be made. It there is a fortuitous clause in the contract, the loss to the shippers will be considerable. In the meanwhile there is no further occupation of the new building, and can not be until the delayed furniture arrives.

# JUVENILE COURT WORK.

Judge Brown Shows What Has Been Done Since Its Establishment.

A complete report of the work of the juvenile court of this city up to date is being prepared by Judge Willis Brown for submission to the court commission. Since the court was established there have been 271 cases handled, of which 123 were boys, 11 were girls and 31 were adults. Twenty-two children have been committed to the reform school, of which three were girls. Ten of the adults were tobacco dealers, five were saloonkeepers and six were parents who contributed to the delinquency of their children. One hundred cases have been disposed of out of court.

So far the court has practically paid

# its own expenses in fines. Under the old law it cost the county on an average of \$40 for each child committed to the industrial school. At that rate the 22 boys committed by the juvenile court would have cost \$880. All of this expense has been saved, and there have been no witness nor jury fees paid and the expense of taking the children to Ogden has been very light.

One case is cited where a boy had been arrested a number of times before the court was instituted and had been sent to Ogden three times. He had cost the state \$650 in handling his cases. He is now out on probation and is doing to make a good citizen. The court held its first session on April 12, 1903, and since that time \$200 has been collected in fines.
