The many wrecks that the Southern Pacific Rallroad, company has been having during the past few months has disabled so many of the company's engines that they are at a loss to know how to get their passenger and freight traffic over the road. The repair shops are working at full capacity night and day to push the work of repairs on the disabled engines to completion, but there being so many engines needing estensive repairs, the freight traffic has fallen greatly behind, and the company has found it necessary in order to get ber increased freight over the road to hire fifteen extra engines from the Un-lee Pacific, which will be used until the engestion of freight is abated. The Southern Pacific company has al-precived three of their 2,500 class new sgines which were ordered several salts ago, and expect some more of se class from the factory in the rest class from the factory in the near

Lyman Ovard is the Victim - Death

of George Rogers. Special Correspondenca.

American Fork, Feb. 27.—Another sad accident has occurred in our place and there is bitter sorrow in the home of Joseph Ovard in consequence. Lyman, his 13-year-old son, lies dead with a 38 caliber pistol ball through his head. How it happened How it happened no one knows but it is presumed the boy was playing with the revolver and accidentally discharged it with the above result. He was suffering with toothache this

He was suffering with toothache this morning and was excused from school. Later in the day he went with his nother to visit his sister. About 1 d'clock p. m. he was sent on an erranc back home. That was the last seen of him alive. When school was over for the day his cousin, a boy about his even age, and his nephew. Two or his own age, and his nephew, two or three years younger, were sent to find him. After searching around the place they noticed the cellar door open and on entering found the little fellow lying

in a pool of blood with the pistol by his side. He had been dead some time as the body was cold.

It seems the boy went home and took the revolver from a trunk. It can only be surmised why he went into the cellar but it was likely to keep from being disturbed in his examination of the pistol. He must have been looking down the barrel while he worked it for the ball entered just above the right eye passing entirely through he head,

causing instant death.

He was a bright, active, obedient boy and will be greatly missed in the day school, Sunday school and among all his mates.

The bereaved family have the sympathy of the entire community. DEATH OF GEORGE ROGERS.

There is no other way and the idea that a medicine in itself can purify the blood or supply new tissues and strong parvers in relations. nerves is ridiculous and on a par with the fol-de-rol that dyspepsia or indigestion is a germ disease or that other fallacy, that a weak stomach which refuses to digest food can be made to do so, by irritating and inflaming the bowels by pills and cathartics.

Stuarts Dyspepsia Tablets cure indi-gestion, sour stomach, gas and bleating after meals, because they furnish the digestive principles which weak stomachs lack, and unless the deficiency of pepsin and diastase is supplied it is useless to attempt to cure stomach trouble by the use of "tonics" "pills" and "catharties" which have absolutely no directive. no digestive power, and their only effect is to give a temporary stimulation.

People who enjoy fair health take Stuart's Tablets as regularly as they take their meals, because they want to keep well, prevention is always better than cure and Stuart's Dyspepsia Tablets do both; they prevent indigestion and they remove it where it exists. He was traveling on horseback purporting to have Kaysville as his destination where he claimed he had a sister living. Just below Morgan his horse gave out, which he abandoned, taking the saddle and hiding it; he then divested himself of shoes and stockings and wandered into the brush and stayed all night getting his feet frozen. He is apparently demented at times. This appears from his strange actions and conversation.

Hard Luck of O. S. L. - Death of Special Correspondence.

Pocatello, Ida., Feb. 27 .- A freight wreck occurred on the Oregon Short Line one hundred and fifty miles north of here, near Monida, Mont. The train was composed of the huge all steel 100,000 pounds coal cars, commonly called "Battle ships," and was in charge of the veteran Conductor Johnny charge of the veteran Conductor Johnny Riel. Ten or twelve cars were derailed and about seven or eight were ditched. The wrecking crew from both Lima, Mont., and Pocatello were called out, but the Pocatello wreckers were recalled after having gone part of the distance. There was no loss of life. The cause of the wreck was the spreading of the rails. It is not expected that the south-bound passenger will be delayed much if any, as the track was "cleared" at 8:25 p. m. Later reports say eighteen loads are in the ditch, requiring one or two weeks' labor to remove the debris, and reload the coal

#### BOISE, IDAHO. LEGISLATIVE PROCEEDINGS. Hot Political Fight on a \$1,500 Job

-New Judiciary Districts. Special Correspondence.

Bolse, Idaho, Feb. 28.-The political fight of the session is being waged today in the House. It is over the creation of an assistant attorney general at a salary of \$1,500 per annum. It came up for final action this morning, much discussion ensuing. The claim was made that it was in the interest of economy and its passage looked favor-

The speaker ordered roll call, when Walters of Lincoln arose and said the bill was strictly an administration measure and that for this reason all fusionists should support it.

Hunt of Bannock replied: "I had favored the bill. Walters has shown it to

be a party measure, creating a fat job or some Democrat, and shall oppose its passage."

Roll call resulted in defeat of the bill by 21 to 20, 4 Populists voting with Republicans against it. Kelly, Populists of Shoshone, who voted against the bill just before recess, announced he would in the afternon move a reconsideration. It is understood the Pop ulists have ben brought around, and it is most probable the bill will now pass. The following bills were passed:

By French, prohibiting opening of en-closures without consent of owners. By Allen, regulating the survey and platting of cities and towns. By Bangs, allowing the state land board to extend time of payments for state lands for a period of ten years, also allowing leasing of state lands from one to five years. The limit has

hitherto been five years. By Hunt, prohibiting the pollution of waters used for domestic purpose. By McKinsley, prohibiting employers compelling employes to trade at com-

pany's stores. By Durant, providing for payment of \$2 per day to witnesses and jurors at coroner's inquests.

By Hunter, amending the present municipality laws giving trustees and rouncils greater powers.

The sheep inspector bill was recommitted to committee and for correc-

tions but without losing its place in the calendar. Little but routing was done in the

senate. But one bill was considered, and it passed, by Donnelly, describing how and where buildings to contain explosives shall be erected. The senate will have for special con-

With the exception of the regular testimony meeting, in which the High school students expressed general regrets at his death and appreciation of his labors; the usual routine of work was abandoned, and preparations for memorial services were begun. The High School students spent the after-noon decorating. This morning at 10 a. m. the services began. In the assembly hall the room and stand were beautifully decorated. On blackboards were written Brother Maeser's words: "Claiming the privilege of a veteran in the cause, I feel to exhort all parents and teachers of this younger generation to accept the work of latter-day educa-tion as a sacred heritage and to carry it to its final consummation, when those shall have passed away, that have labored, perhaps not with your efficiency but with a devotion tested in the furnace of long and bitter trials.
