

## CRIPPLE CREEK WAS ALL DARK.

Light Company Unable to Secure  
Water for its Steam Engine  
Boilers.

### COMMISSIONER SHUT IT OFF.

He is a Union Man and Turned Off the  
Water Out of Sympathy with  
The Strikers.

Cripple Creek, Sept. 10.—A permanent  
military camp of 45 men was established  
at Elkton today.

"Slim" Campbell, who was arrested  
last week by the civil authorities for  
complicity in the assault on Justice of  
the Peace Hawkins, was arrested at  
Altman and H. H. McKinney at Independence. McKinney was formerly city  
marshal at Altman.

At a conference of mine owners in  
Denver, the subject of which was the  
importation of miners to break the  
strike at Cripple Creek it was decided  
to send a committee to Joplin, Mo., to  
secure the men needed. Permanent  
employment at \$3.50 per day will be  
offered them.

Fifty men in all were arrested by the  
military today, and a "bull pen" was  
established in which they are detained.

Tonight practically the whole district  
was thrown into darkness. The La  
Belle company, which furnishes light  
to the camp, was unable to secure water  
for its boilers. This morning the com-  
pany commenced to furnish compressed  
air to the Golden Cycle mine and every  
man in the employ of the La Belle plant  
walked out. The power and light com-  
pany immediately installed a new com-  
plement of men and wheels turned very  
smoothly the entire day.

Shortly after the new night shift went  
to work they were surprised to find that  
they were not receiving any water for  
their large boilers, so the machinery  
had to be stopped. This water is fur-  
nished by the city of Goldfield and the  
water commissioner, who is a promi-  
nent union man, had it shut off.

Citizens of the district began notifying  
the military officers that they were  
afraid to be in their homes with every-  
thing in darkness around them. Gen.  
Chase and a squad of cavalry started  
out to find out the direct cause and see  
if they could not remedy it, but up to  
a late hour it had not been rectified,  
and the district is still in darkness.

#### Fatal Fall.

Duluth, Minn., Sept. 10.—Four men  
were instantly killed by the giving  
way of a scaffold 40 feet above the  
ground this evening. The men were re-  
pairing a break in the heavy concrete  
elevator when the scaffold fell.

#### DEAD.

Andrew Anderson,  
Oscar Ericson,  
C. Anderson,  
An unknown man.  
John Swan was badly hurt.

#### Disastrous Fire.

Nashville, Tenn., Sept. 10.—Fire to-  
day resulted in the death of one and in-  
jury of eight others and damaged prop-  
erty to the extent of \$125,000.

#### DEAD.

William M. Smith.

#### SERIOUSLY INJURED.

Assistant Chief Joseph Weaver, scalp  
wound and probable fracture.  
Capt. Robert Burke, spine broken.  
George Ferris, rib broken and injured  
internally.  
Samuel McHenry, colored, injured in-  
ternally.

#### After Senator Smoot.

Asbury Park, N. J., Sept. 10.—At the  
convention of the Evangelical Lutheran  
synod of New York and New Jersey,  
held here today, a resolution was intro-  
duced by Rev. C. W. Heisler of Al-  
bany, in sympathy with the movement  
to oust Reed Smoot from his seat in  
the United States senate. After 10 min-  
utes' heated discussion the motion was  
laid on the table by a vote of 18 to 15.  
In part the resolution follows:

"Whereas, The seating of said Smoot  
is a direct insult to the purity and  
integrity of the houses and families of  
this Christian nation and public recog-  
nition of an avowed exponent and of-  
ficial of Mormonism, with its accom-  
panying polygamy, is in direct contra-  
vention of the basic principles of our  
government, and,  
Resolved, That through our secre-

tary we memorialize the Congress of  
the United States to propose an amend-  
ment to the Federal Constitution for-  
ever prohibiting polygamy and polyga-  
mous practices in the United States  
and territories."

#### Hydrophobia Patients.

New York, Sept. 11.—Suffering from  
hydrophobia, Andrew Marks, aged 60,  
and Sylvian Marks, his son, aged 35,  
are on their way here from their home  
at Williamsport, Pa., for treatment.

Clinton Marks was bitten by a dog  
three months ago. The wounds healed,  
but a month later, hydrophobia develop-  
ed. He died in terrible agony. The  
father, who was his constant attendant,  
kissed him as he was dying and the  
foam around his mouth evidently in-  
oculated the father. Sylvian was in-  
oculated by treating a wounded leg with  
an instrument used during his brother's  
illness.

#### Young Artist Suicide.

New York, Sept. 11.—Cline Wilson, a  
young artist, committed suicide early  
today in his studio by inhaling gas.  
Wilson was a native of Russellville,  
Ky., where wealthy relatives are said  
to reside. Despondency over failure in  
his chosen work is supposed to have  
prompted the suicide.

#### Rescued From Fire.

New York, Sept. 11.—More than 20  
women and children were rescued from  
a tenement house fire in Long Island  
City early today. A dozen persons were  
slightly injured.

The fire started in a saloon and  
spread to a six-story double tenement  
adjoining.  
Four policemen who were nearby  
rushed into the building and succeeded  
in getting out 20 persons who, but for  
their timely arrival, would have per-  
ished. In her excitement a woman  
tossed her baby from a window on the  
second floor. The child was caught by  
a policeman and was unhurt.

#### Let's All Go.

Chicago, Sept. 11.—A dispatch to the  
Record-Herald from Des Moines, Ia.,  
says:

Michael O'Connor has just returned  
from Korea, where he saw Leigh Hunt,  
formerly a teacher here and later presi-  
dent of the state agricultural college.  
O'Connor said:  
"Hunt is a multi-millionaire, his  
wealth being estimated anywhere  
from \$75,000,000 to \$100,000,000. His con-  
cessions in Korea and eastern China  
are said to be princely. Hunt is now  
engaged in vast irrigation schemes in  
Korea."

#### Rural Letter Carriers.

Chicago, Sept. 11.—Rural letter car-  
riers of the United States will meet  
in Chicago today and tomorrow to form  
a national association. There will be  
in attendance delegates representing  
17,000 rural letter carriers, who daily  
supply 12,000,000 country residents with  
mail. They travel 500,000 miles every  
day, their routes covering two-thirds  
of the best farming districts of Ameri-  
ca.

Better roads, more salary, fewer pri-  
vations, holidays, and numerous other  
improvements in their conditions are  
the hope of the rural carriers, who de-  
clare they travel over worst roads in  
the world.

Heretofore the rural carriers have  
had state organizations. Now it is the  
intention to have all the state organ-  
izations subsidiary to the national body.  
The organization will be known as  
the National Rural Free Delivery Let-  
ter Carriers' association.

#### Platt Favors Roosevelt.

New York, Sept. 11.—United States  
Senator Platt of Connecticut has an-  
nounced that he favors the nomination  
of President Roosevelt as the head of  
the Republican national ticket. This is  
his first expression on the subject. He  
made the announcement in a speech at  
the annual banquet of the Young  
Men's Republican club.

## ANOTHER GRAFT FROM CHICAGO.

Agitation as to Impure Water  
Prompts Enterprising Milk-  
men to Suggest.

### THREE OUNCES FOR A PENNY.

Pasteurized Lactical Fluid to Take the  
Place of Water in the  
Schools.

Chicago, Sept. 11.—The children in the  
Chicago public schools will no longer  
have to drink impure water, if a pro-  
posal of the milk commission meets with  
the approval of the board of education.  
Pasteurized milk, on sale at a penny a  
bottle at every school, is the solution  
of the problem suggested by the com-  
mission.

This plan has been outlined by Mrs.  
George M. Moulton, president of the  
commission, after seeing the popularity  
of the milk distribution among the pu-  
pils of the Thomas Hoynt school, where  
the pasteurizing plant is located.

The water has been shut off from  
the building while some repairs have  
been in progress. The thirsty children  
were offered the pure milk at one cent a  
bottle, and more than 300 three-ounce  
were taken in the course of the day.  
Many plans have been submitted to  
provide pure water in the schools. Last  
winter it was proposed to have  
plants put in to boil the water and  
filters have been recommended. All re-  
forms thus far advocated have been  
discontinued because of the expense.

#### Prodigal Returns.

Chicago, Sept. 11.—A dispatch to the  
Tribune, from Portland, Oregon, says:  
After wandering around the globe for  
15 years, for getting even his birth-  
place and the names of his parents,  
Marcus Hechtman, now 32 years, has  
walked into the store of his father to  
look at a watch, and has been recog-  
nized by the aged man. Young Hecht-  
man was stolen by a wandering troupe  
of variety actors when seven years old.

#### Negro Must Stay.

Salem, Mass., Sept. 10.—Senator Hoar  
and George Von L. Myer, United States  
ambassador to Italy, were the prin-  
cipal guests today at the annual sum-  
mer outing of the Essex club of Massa-  
chusetts at Baker's island. Senator  
Hoar, the chief speaker, discussed  
"Problems of the Nation." Discussing  
the race problem in the south, the sen-  
ator said:

"I know, my friends, that there are  
special difficulties in this problem as  
it affects our colored fellow-citizens.  
I know how deeply moved are the feel-  
ings of our southern brethren. I would  
not utter a word of reproach. I know  
how near to their homes and how close  
to their social and political life comes  
the cloud and shadow."  
"I see that one enthusiastic southern  
gentleman has renewed the proposition  
that we shall send 10,000,000 negroes out  
of the country. This is totally imprac-  
ticable. Let us not delude ourselves.  
We have got the question to meet  
squarely at home. The negro will stay.  
The European and Asiatic will come.  
You cannot turn them out, and you  
cannot keep them out."

#### Accidental Killing.

Chicago, Sept. 11.—Stewart Johnson,  
aged 8 years, shot and killed his sis-  
ter, Mabel, 16 years old, at their home  
last night. The boy had been given a  
rifle as a birthday present, and was  
playing with it when it was discharged,  
the bullet entering his sister's heart.  
Stewart was overcome by grief. The  
police made no arrests.

#### Confessed Seven Robberies.

Portland, Or., Sept. 11.—Edward Or-  
pin has confessed to Chief of Police  
Hunt that since last April he has com-  
mitted highway robbery seven times  
and has set fire to at least as many  
buildings. His action in setting fire to  
different buildings has been the result  
of drunken revels, so he says. He had  
no other motive than a drunken desire  
to see the buildings burn.

Dissatisfaction over the amount of  
booty secured from F. C. Fletcher makes  
one of his victims, led to his arrest. He  
got but a dime from Fletcher and sev-  
eral days later was heard declaiming  
bitterly against men who walk the

jewelers keep it 25 cents a package

streets with no larger sums than 10  
cents in their pockets. His talk arouse  
d the suspicion of one of his suppos-  
ed friends, who notified the police.

#### Investigate First.

Billings, Mont., Sept. 11.—Word has  
been received from Acting Gov. Frank  
H. Higgins that requisition papers ask-  
ed for by Missouri authorities in the  
case of Carey Snyder, in jail here, who  
is wanted at Kansas City for a \$7,000  
diamond steal, will be withheld, pend-  
ing an investigation of the charge that  
Snyder's arrest and his return to Mis-  
souri is part of an alleged political plot.

#### Got Walking Papers.

Washington, Sept. 10.—Hugh H. Price,  
surveyor-general of Arizona, has been  
removed from office as a result of an in-  
vestigation made by Secy. Hitchcock's  
orders into charges preferred against  
Price and his chief clerk, W. E. Mur-  
phy, of receiving illegal fees for expen-  
diture work in the office. Frank S. In-  
galls of Yuma, Ariz., has been appoint-  
ed surveyor-general in Price's place.

Murphy has been suspended, pending  
the inquiry by the civil service com-  
mission into the charges against him.  
He has sent in his resignation, but it  
has not been accepted. Murphy was  
appointed from Georgia and Price from  
Arizona.

#### Officers Imprisoned.

Munich, Sept. 11 (AP)—Customs  
Inspector Thomas Probst and Lieut.  
Gubare, customs officers, were im-  
prisoned at San Fernando, who were ar-  
rested recently on the charge of misman-  
aging the customs office. They have been  
tried and convicted of the crime. Lieut.  
Gubare has been sentenced to 10 years,  
and Probst to eight years. Both have  
been reserved. The minimum penalty for  
the crime is imprisonment for 12 years.

#### Beavers Arraigned.

New York, Sept. 11.—George W. Beaver,  
the former head of the department of  
salaries and allowances in the postoffice  
department was arraigned before United  
States Commissioner Hitchcock in the  
federal building today on a bench war-  
rant issued in Washington charging him  
with conspiracy to defraud the govern-  
ment. Beavers furnished a bond of \$5-  
00 for his appearance on Sept. 15.  
Beavers was recently arraigned on the  
indictment returned by the federal grand  
jury in Brooklyn.

Signature of J. C. Ayer & Co.

# UNIVERSITY OF UTAH

The University of Utah includes the School of Arts  
and Sciences, the State School of Mines, and the  
State Normal School.

#### SCHOOL OF ARTS AND SCIENCES.

The School of Arts and Sciences  
offers courses in:  
1. General Science.  
2. Liberal Arts.

#### STATE NORMAL SCHOOL.

The Normal School offers:  
1. A four-year Normal course.  
2. Advanced Normal courses.  
3. Courses in Kindergarten Train-  
ing.

#### STATE SCHOOL OF MINES.

The School of Mines offers courses  
in:  
1. Mining Engineering.  
2. Electrical Engineering.  
3. Civil Engineering.  
4. Mechanical Engineering.

#### PREPARATORY SCHOOL.

A preparatory school is main-  
tained which gives preparation for  
the courses in General Science, Lib-  
eral Arts, Engineering, Law, Medi-  
cine, and Business.

The shops and chemical, physical, electrical, mechanical, assaying, and  
metallurgical laboratories are unsurpassed in the completeness of their equip-  
ment.

The proximity of great mines, reduction works of various kinds, and power  
houses for the generation of electricity, affords unexcelled advantages for  
thorough and practical work in all the engineering courses.

Manual training and domestic science are features of the normal courses.

Entrance examinations, September 9th, 10th and 11th. Registration of  
students, September 11th and 12th.

Students will be assisted in finding suitable boarding places.

Annual registration fee, \$10. No tuition.

Send for catalogue and illustrated circular and learn what excellent oppor-  
tunities the University offers for a broad, liberal, and practical education.

# Several Snap Shots of Clyde Fitch, the Playwright, Revealing Many of His Interesting Characteristics

WILLIAM CLYDE FITCH, whose  
latest photograph is repro-  
duced in this illustration, is  
undoubtedly America's most success-  
ful dramatist, but he does not resemble  
the popular conception of a play-  
wright. He is neither carelessly pictur-  
esque in attire nor eccentric in de-  
meanor, being at all times a well  
groomed man of the world, dressed in  
the extreme of the prevailing fashion.  
Mr. Fitch is not yet forty years old,  
having been born in New York, 1880.

THE photograph from which the  
above illustration was made  
was taken about the time Mr.  
Fitch scored his first great theatrical  
hit with "Beau Brummel," a play  
which he wrote for Richard Mansfield.  
Mr. Fitch was only twenty-two when  
he produced this his second play, his  
first, named "Betty's Finish," having  
attracted not a little attention. Mr.  
Fitch wrote both plays almost fresh  
from college. He was educated at  
Amherst.

THE camera has caught Mr. Fitch  
in a characteristic pose in his  
splendidly furnished library. Al-  
ways artistic in taste and tempera-  
ment, the playwright makes it a  
point to surround himself with  
beautiful things. He has been abroad  
a great deal and on each trip spends  
much time hunting for unique and  
costly decorations for his New York  
home. One of Mr. Fitch's special hob-  
bies is the collection of early eight-  
eenth century theatrical books.

DESPITE the fact that his health  
is at no time robust Mr. Fitch is  
almost every day to be found at  
his desk, abandoning it only when his  
physician insists upon his taking a  
vacation. He has been hard at work  
all summer upon several plays, and  
the illustration shows him absorbed  
in the working out of a knotty point  
in the plot of a drama which it is be-  
lieved will add not a little to his fame.  
It is said to deal with life in high  
social circles.

MANY people are inclined to  
think that since Mr. Fitch is  
something of a dandy and quiet  
and unassuming in demeanor and  
speech he is a rather negative nature,  
but the reverse is the case. Those  
who have witnessed him conducting a  
rehearsal of one of his plays will tes-  
tify that the dramatist is decidedly  
positive. At rehearsals his word is  
law and his productions are invariably  
presented to the public exactly in ac-  
cordance with his wishes.

THERE are others who have pro-  
nounced Mr. Fitch careless in his  
work owing to his profligacy in the  
matter of plays, but it is an open  
secret that many of his recent suc-  
cesses were written in his salad days  
and were whipped into shape as the  
managers sent in orders. While at his  
desk Mr. Fitch is energetic and tire-  
less, working away with reckless dis-  
regard of the tax on his strength, his  
great aim being to produce artistic  
results.

IN this illustration Mr. Fitch is seen  
resting after an exceedingly active  
campaign with his pen. It is not  
impossible that the placid expres-  
sion of his features is caused by the  
thought that this season a round dozen  
Fitch plays, old and new, will be pre-  
sented by many companies all over the  
United States and that the resultant  
royalties will of themselves amount to  
a good sized fortune, estimated by  
some to be in the neighborhood of  
\$250,000.
