MINING, BUSINESS AND STOCKS

AMERICAN AND UTAH COPPER.

Smelter Trust Said to Have Bought a Million Dollars' Worth of Stock.

HOLDINGS OF U. S. R & R. CO.

Deal Denied at Colerade Springs, But Rumors Will Not Down-After Bingham Mines.

An eastern disputch conveys the information that the United States Reduction & Refining company of Coloras do has sold its holdings in the Utah Copper company of Bingham for \$1,000, . 000, and that the purchaser of the stock is the American Smelting & Refining company. Late this afternoon James A. Poliock & Company received a message from their Colorado Springs correspondent in which it was claimed that officials of the Reduction company in that city had denied that any such in the Sait Lake offices had authority to talk on the subject during the day, as Movager D. C. Jackling was in Binghaving taken the early train for

Notwithstanding Springs denial, among local mining men the belief prevails that there is a whole lot of truth to the reported deal. For some time past rumors have been persistent that the American holds an option on a large block of Utah Copper stock, and recert events, taking place out towards Garfield Beach, where the American holds options on several sections of land, tends towards confirmation of these rumors, The United States Reduction & Re-

company, as a corporation, held shares of the original stock of 46,000 shares of the original stock of the Utah Copper company, while the balance was issued to Charles M. MacNelli, Spencer Penrose, Charles L. Tutt and other principal owners of the stock of the Reduction company, and D. C. Jackling and Col. E. A. Wall, in addition to a few scattering shareholders. It is believed here that the American's option applies only to the Reduction company's interest and probably the facts will come out a little later.

It is very evident that the big smelting concern is gradually securing a big ing concern is gradually securing a big footbold in the Bingham copper camp with the ultimate intention of controll-ing the copper situation in this state. Nearly every mining man hopes this condition will never come to pass, for without the competition existing in the local ore markets at the present time, the future would look none too bright for the small producers.

DULL DAY IN THE PIT.

Only Two Stocks Sold on Regular Board Session of Mining Exchange.

This day is another dull one for the members of the Salt Lake Stock & Min-ing exchange. During the regular foreon call only two stocks participated the sales; Ajax and May Day, both of which were slightly stronger than on yesterday. On the open board only a half dozen participated. New York Bonanza stiffened slightly, while Ca-pisa remained practically stationary. The closing quotations and tales

MR. BETTLES RETURNS. Chief Metallurgist of Newhouse Mines

Comes in From Colorado. A. J. Bettles, of the Newhouse staff A. J. Bettles, of the Newhouse staff, has returned from Colorado and expects to leave for Beaver county tonight to spend a day in watching the movements of the big mill at Newhouse. Upon his return he will devote his entire attention to the construction of the Boston Consolidated company's big plant to go up on the west where of

Poston Consolidated company's big plant to go up on the west shores of the Utah lake. BOOM FOR SODAVILLE.

A. E. Betiles Believes Nevada Town Has A Bright Future.

A. E. Bettles, the noted min-ing engineer, a brother of A. J. Bet-tles of the Newhouse staff, was in Ton-pah a few days ago. He is heavily interested in the rich copper properties interested in the rich copper properties near Sodaville and predicts a great future for that section. He says that Sodaville will shortly have a 100-ton smelter and as it will take the place of Hawthorne as the railroad division point, it is bound to become a city of considerable importance. The surveying the the new Sodaville townsite has been completed and the property will soon be placed on the market. The townsite covers several acres of patents soon be placed on the market. The fownsite covers several acres of patented ground and a warranty deed to every lot sold will be given. In speaking of the mines of the district, Mr. Bettles says that the Bounde and Douglass-Van Duzier properties west of Sodaville, are being developed on an extensive scale. tensive scale, with every indication that they will make rich producing mines.

CONCENTRATES.

The May Day mine of Tiptic is is the market with ore today. Simon Bamberger is expected home from California next Monday, Manager Henry M. Crowther of the Continental Alta mine is in camp again H. L. J. Warren, formerly of this city out now of Boston, is visiting Salt

Manager Whitley of the American smelling and Refinlag company is in disposed today.

but now of Lake again.

President E. L. White of the Bing-ham Consolidated left the city this af-ternoon for his home in Boston. The ore and bullion settlements re-

ported late yesterday were as follows: Crude ore and concentrates, \$85,100; base bullion, \$39,790.

Henry M. Adkinson, manager of the New England Gold and copper com-pany's mine in Bingham, has returned from a trip to Los Angeles. The Mammoth mine of Tintic has started up again with a force of about 80 men on the payrolls. The number is to be increased soon.

Supt. C. E. Allen and Andrew May-berry of the United States Mining com-pany, visited Eureka, Nevada, a few days ago and inspected the Eureka Consolidated and Richmond properties in that camp.

The executive board of the Western Federation of Miners is going over the accounts of the organization. The na-tional convention, which meets next tional convention, which meets next Monday, President Charles Moyer says, will probably last three weeks, !

Gustave Overstrom has been selected chief draughtsman by Manager Jack-ling of the Utah Copper company and will have in charge the drawing of the plans for the new 5,000-ton concentrator to go up near Garfield beach.

TO PROCEED WITH THE SLIMES PLANT

Superintendent Frank P. Swinder Instructed to Let Contracts For Equipment.

MILLION DOLLARS IN A DUMP

The New Plant Will Have Capacity For Treatment of 750 Tons a Day.

All the plans having been passed on by the executive heads of the Bamberger-Delamar Gold Mines company, opcrating at Delamar, Nevada, General Superintendent Frank P. Swindler has been given orders by General Manager Simon Bamberger to proceed forthwith to let contracts for the proposed slimes plant to be erected at Delamar.

Mr. Swindler arrived in the city several days ago and at the company's offices today was beseiged with machinery men who had come to look over the plans and obtain all necessary data before submitting their estimates. The building of this slimes plant was decided on sometime ago; the directors acting favorably on the recommendation of Superintendent Swindler, who pointed out that that by means of the

pointed out that that by means of the installation of this plant the company would be put in a position to realize a pretty snug fortune from the old tailings dump, which, it is estimated, centains at least 500,000 tons of ore carrying values, it is claimed, av aging somewhere around \$3 a ton.

The fact that the building will be located below the present mill and this dump will enable the handling of the dump stuff at small cost, makes it almost certain that the profits to be derived will agregate all of a million dollars, to say nothing about the low grade ore that will be brought out of the mine.

The new plant will be built to handle

The new plant will be built to handle to be used is one that has been experimented with at the mine for sometime and which Superintendent Swindler and staff have brought up to

Swindler and staff have brought up to the stage of perfection.

Recent developments in the mine,
Acting Manager Sidney Bamberger said during the day, are of a decidedly pleasing character. In the old work-ings new ore bedies have been devel-oped and, in virgin ground, the results have been equally as gratifying.

STOCKS STILL LACK STRENGTH.

Buying of Leaders Gave Some Impetus to Others, Aiding the Market Somewhat,

REALIZING MET SOME ADVANCES

Pressure Against U. S. Steel Sapped Energy of the Bull Speculation.

New York, May 17 .- Opening prices of stocks varied but little from last night and the volume of business was very small. Simultaneous buying of several recognized leaders gave an impetus to other stocks, and the entire market developed a fair degree of strength, Buying was spirited at intervals, but occasional realizing met the advances. St. Paul improved 214 to 1781/2, the preferred 31/2, Northwest 214, Pennsylvania, Union Pa-cific, New York Central, Louisville & cific, New York Central, Louisville & Nashville, Illinois Central, Colorado & Southern, the second preferred, Brocklyn Transit, Locomotive, Lead, Consolidaced Gas, United States Rubber and Hide and Leather preferred 1 to 1½. Northern Pacific lost 1 and railled 1½.

The United States Steel stocks were sold to a medium reaction below last night and fractional reactions in sympathy were general. Northwestern reacted 1½ and Locomotive and Louisville & Nashville a point, Great Northern preferred and Bag lost I, St. Paul was then marked up again to 1794, and prices elsewhere hardened. Kansas City Southern preferred, Colorado Fuel and Paper gained about a point. Prices yielded again at neon.

Bonds were firm at noon.

Bonds were firm at noon.

The pressure against the United States Steel stocks sapped the energy of the buil speculation and discouraged commitments. United States Steel sold down almost a point to 304, and kindred stocks were weakened. Tennessee Coal losing 1, and Colorado Fuel as much. Northern Pacific fell back to 191, St. Louis Southwestern dropped a point and the preferred made a precipitate decline of 2%.

Speculation was devoid of feature for the greater part of the afternoon, Great Northern preferred sagged 2 and General Electric. Colorado Fuel. Metropolitan Street Railway and Steel Foundries preferred 1 to 14.
