WIND AND FLAMES There is never a disagreement in any family on DEVASTATE TAMPA Northern Section of the City Laid Waste by Winc-Driven Fire. HUNDREDS MADE HOMELESS.

Half the Men Are Out of Work-Militia on Guard to Prevent Dep. redations-Loss \$600,000.

Temps. Fla., March 1 .- The entire extreme northern section of this city was destroyed by fire, which broke out in a boarding house early today and raged uninterruptedly for four hours. The area burned co-cred 55 acres or 18% city blocks, and 368 buildings were destroyed, with a total loss estimated at \$600,000, and one woman is dead, from excitement.

The burned section included four large and one smaller cigar factory, and numerous restaurants, saloons boarding houses, and over 200 dwellings occupied by elgarmakers. The factories burned were M. Stachelberg-& Company, loss \$100.000; M. Peres, & Company, loss \$50,000; Gonzales Fisher & Company, loss \$40,000; Es-berg, Gunst & Company, branch of Stachelberg, loss \$40,000, and Fer-nandez & Company, loss \$20,000. STARTS IN BOARDING HOUSE.

All factories carried large stocks of by fire embraced all that portion of the city between Twelfth a nd Michi-gan avenues and Sixteenth and Twen-the the streets. It originated in the boarding house of Antonio Diaz, 171 Twelfth avenues and fanned by a Twelfth avenue, and, fanned by a strong wind, spread fan-shaped, defy-ing the efforts of the fire department, which was crippled by a very weak water pressure. Occupants of over water pressure. Occupants of over 200 dwelling houses, thrown into a panic, rushed out, attempting to save but little of their belongings. A Cu-ban woman dropped dead from the shock.

FIRE CHIEF OVERCOME.

Fire Chief Savage was overcome by heat and smoke carly in the fire. but recovered later. Citizens volun-teered assistance to the hard-working firemen, but the spread of the flames was so rapid that little effectual work could be done. Among buildings, was so rapid that little effectual work could be done. Among buildings, other than factories, destroyed, were the hotels and cafes of Perez & Cas-tro and Maximo Caras, six saloons, 12 restaurants and 10 boarding houses. The car barns of the Tampa Electric company, containing 20 cars, was en-dangered, and, owing to the destruc-tion of the trolley wires, cars could not be removed. The fire finally burned itself out at the extreme north-eastern section of the city.

HOMELESS AND OUT OF WORK.

Fully half of the people rendered homeless were out of work, and their shelter became an immediate probshelter became an immediate prob-lem. St. Joseph's convent was opened to them by order of the Jesuit fath-ers and many found lodgings there, while others were accommodated in homes throughout the city. Besides this, thousands of men will be out of work on account of the burning of the factrics.

The insurance is estimated at not more than half of the loss. The state militia was placed on guard tonight in the burned district to prevent depredation.

HUSLER'S FLOUR It makes the best hot breads.

BIG LOSS IN NEW YORK.

Two Fires Destroy Property Worth \$2,500,000 at Car Barns.

New York, March 1.—Two fires that brought out all the fire aparatus in the upper section of the city and raged in lively fashion from midnight until cave today burned down the car barns New York City Railway the in the been city avenue in Harlem and the paint factory of George W. Grote & Co., only a few blocks away. There were 740 surface cars burned in the destruction of the barns, and the

the destruction of the barns, and the loss of the company is estimated at \$2,500,000. The loss on the paint fac-tory is given as \$125,000. It was the railway people's second serious fire within the year, and for-mer blaze having destroyed the Madi-son avenue car barns. BURNED TO THE GROUND. "The are heres took up the block

The car barns took up the block bounded by First and Second avenues and Ninety-sixth and Ninety-seventh and Ninety-sixth and Ninety-seventi streets, and though torrents of water were poured on the blazing building, the fire did not subside until it had leveled the three floors to like ground. The fire started in a paint shop on the

The fire started in a paint shop on the second floor. During the progress of the fire the police ordered scores of families, living opposite the barns, to leave the teno-ments. While the apparatus was at the car barn fire, two alarms were turned in for a spectacular fire in the paint factory of George W. Grote & Co., occupying a four-story building on One Hundred and Second street. The paints and oils burned foriously and within a short time the building was in rulns. vas in ruins.

FOUR BURNED TO DEATH.

Buffalo, N. Y., March 1 .--- Anthony Buffalo, N. Y., March L.—Anthony Schultze, 55 years old, and three of his children, Nellie, 13; Joseph. 11, and May, 8, were burned to death in a fire in their home in Depew, 10 miles from here, early this morning. Mrs. Schultze and her four youngest children were resourd.

RAILROADS MUST COMPLY WITH "NINE-HOUR" LAW.

Washington, March 1.—American rail-ways have made arrangements to com-ply with the provisions of the "nine-hour law." The operation of the law will mean the employment by railroad companies of several thousand addi-tional operators and the closing of a large number of small stations on the principal systems. While discontinuing of railway service at many points, it is thought, will induce at least temporary Inconvenience to the traveling and shipping public, in order to reduce op-erating expenses, which now seems necessary, the operating officials of the railways believe that this is the only way that they possibly can meet the situation with which they are con-fronted fronted

HAYWOOD ON ROOSEVELT.

HAYWOOD ON ROOSEVELT. Philadelphía, March 1.--William D. Haywood, secretary of the Western Federation of Miners, who was recently acquitted on the charge of being im-plicated in the murder of Governor Steunenberg of Idaho, was the prin-cipal speaker here today at a Socialist labor meeting, held under the auspices of the Moyer-Haywood-Pottibone con-ference. In paying his respects to Pres-ident Rooseveit, he said: "To say the least, he is peculiar, When we were shackled in prison he stabbed us in the back with his let-ters. I say that this was not the act of a brave man."

DRAWING EMERGENCY COIN.

LESSENED DEMAND

United States Feels the Need of Deposits Made in National Banks

To Tide Them Over Crisis.

New York, March 1 .- Securities markets last week were inert and were adjusting themselves to an attitude of waiting for the development of events to shape the future course of affairs This was true not only in New York but in the great financial centers abroad. At all these points there was discernible the tendency toward accu-

mulation of reserves in banking cen ters and in all cases the reason given for the accumulation was a shrinkage in trade and industrial activity, leaving a lessened demand for money for ac-tive use in enterprises. In the United States the effects of the accumulatio of reserves are offset by a number causes. The United States treasur partly induced by the current deficit in the revenues, has commenced to with draw from the national banks the de-posits which were placed with them as an emergency measure during the finan-clal crists. The national bank notes which were issued in extraordinary vol-umes at the same time are going into rapid retirement by deposit of lawful money with the treasury by the issu-ing banks ing banks.

INTERIOR BANKS HOLD ON.

These symptoms of contraction in the needs of the circulation are accom-panied by signs that interlor banks are disposed to keep up their reserves to a high level and to refrain from redeposit in the central reserve banks to the ex-tent allowed by the national bank law. The additional requirements of the Now The additional requirements of the New York trust companies in preparing for the weekly statements of condition were another factor in taking up the slack in another factor in taking up the stack in the return flow of money to the reserve centers. The consequence is that the plethoric money conditions which were expected to follow the subsidence of the panic have been slow to develop. In-terest rates on time loans in New York have shown a hardening tendency dur-ing the week.

LOOK TWICE AT COLLATERAL.

Another element in this course of the Another element in this course of the money market was the discrimination exercised against collateral offered for loans. Some of the industrial stocks and railroad securities of companies which have suffered from diminished earnings are looked at askance by mon-ey lenders and add to the difficuities of borrowers. The shrinkage of profits and the diminution of earnings applica-ble to payment not only of dividends. and the diminution of earnings applica-ble to payment not only of dividends, but of fixed charges, has been a con-spicuous influence on special securities in the open market. Corresponding im-portance is given to the plans for cur-tailment of expenses to meet the de-cline in earnings. The question of wags reductions was given special prom-imence.

STEEL BUSINESS IMPROVES. On the industrial side a good impres sion was made by the placing of orders for steel rails by the railroad com-panies and by the report that the rolling activity of the United States Steel coractivity of the childed states steel cor-poration had risen from the 25 per cen-capacity touched in the depths of the depression to 51 per cent of capacity The cooper market showed improve-ment. Railroad carnings showed no proneurical betterment and operations h g neral trade were reported to be or conservative lines. The singgish in vestment demand for bonds was con-spicuous and offered little encourage ment for early success in the placing o new capital issues, which are relieve

TO BE A VICE-ADMIRAL

Washington, March 1.—In a quiet way naval officers in Washington are endeavoring to arrange an agrecable surprise for Admiral Evans when the battleship fleet under his command sails through the Golden Gate, com-pleting the Pacific cruise. It is pro-posed to greet the rear admiral with a commission as vice admiral of the American navy. Of course the success of this understanding depends upon Congress, but the president has done his part in making a proper recom-mendation to that body for the re-es-tablishment of that naval grade, and it is not doubted that Congress can be in-funced to act upon the recommendation in season to ensure the issue of Ad-miral Evans' commission, so that he may bear the tille of vice admiral for the few months that will intervene be-tween his arrival at San Francisco and his retirement from active service.

POLICE GUARD PRIESTS IN CHICAGO CHURCHES

Chicago, March 1.—Details of police were stationed during early mass in all of the Roman Catholic churches here today, because of threats against the today, because of threats against the lives of priests in letters received since the Denver tragedy. The guards, who wore citizens' clothing, closely scruti-inzed every person who entered the churches where trouble was feared, and, after the scrylces began, occupied posts close to the altar. Special pre-cautions were taken in Italian churches in all parts of the city and in seyeral Bohemian churches, because of anti-clerical feeling known to exist among persons of those nationalities in Chi-cago. Less attention was paid to the large cathedrals, because of the num-ber of poincemen always in attendance at services in them. No disturbance was reported at any of the churches.

was reported at any of the churches.

OPERATING EXPENSES DROP WITH EARNINGS

Philadelphia, March, 1.—The monthly statement of the Permsylvania Baltroad on pans, giving comparison of earnings and expenses of the lines east and west of Pittsburg for the month of January shows a large decrease in the gross and het earnings and in the expenses as com-pared with the same month last year. The gross earnings of the lines cast of crease of \$2,030,490; there was a failing of of \$1,353,600 in expenses, and the net earnings show a decrease of \$666,800 ultrabelly op-rated, show a decrease in gross ear-nings of \$1,652,800, and a decrease in ex-penses of \$1,652,800, and a decrease in ex-penses of \$1,653,700.

ARRIVAL OF MILITIAMEN PUTS QUIETUS ON ALIENS

Kentwook, La., March 1.—Following the arrival of one company of Louisiana mili-tia, all has been quiet here today and the threatened outbreak against the Ital-ian population of this section has appar-ently been thwarted. Daniel Bunch, Pines Hughes, Joseph Bennett, Arthur McClendon, Charles

HOT BISCUIT

Kind of Breakfast Passing Away.

The old-time hot biscuit played a prominent role in the breakfast bill of fare, along with fried potatoes, ham and eggs, and coffee. The whiter and lighter the biscuit the more pleased the cook, which was usually Mother, who did the best she could, with her understanding of the matter.

natter. But most people have learned in re-ent years, that white flour lacks the ourishing dements of the entire theat berry, and many cases of im-effect nutrition follow its use. In Grape-Nuts, all the food ele-ionts of wheat and barley are used, and this largely accounts for results imilar to those given in the follow-ng letter;

similar to those given in the follow-ing letter; "I wish to tell of the health and strength-giving properties of Graps-Nuts. I am 45 years old and had for years been afflicted with indigestion and other stomach troubles, brought on by eating hot biscait, white bread and improperly cooked cerents. "Noteing an advertisement stating the benefits derived from eating Graps-Nuts, I was skeptical because I had field so many so-called 'health foods.' I thought II would be use-less to try Graps-Nuts. "But during the last six months I have been cating it, my stomach has been the best for years, my mind clear, my nerves quilet and a feeling of bioyancy pervades my whole be-ling."
