Davis County Clipper: A letter dated Woodruff, Utah, March 15th, 1896, was received here the first of the week which contained the following sad lines: "Cyril Call's oldest boy came out here from the sand ridge, arriving last night. He has gone out of his mind and tried to kill himself last night by cutting his throat with a pocket knife. He was not dead at sun down tonight." We understand the young man has been sick a long time and had a great deal of trouble of a domestic nature.

Mrs. H. C. Lewis, of Ketchum, Idaho, who has been spending considerable time in Utah of late, and who is an ardent champion of the rights of equal suffrage, is now in this city, where she will be heard in an address at Unity hall in the near future. Mrs. Ketchum is a lady of very pleasing address, and is an excellent conversationalist. It is said that she also possesses fine ability as a public speaker. While the question to be discussed is an old one in Utah, she feels that much can be said upon it that is instructive and interesting. Mrs. Ketchum hopes to see equal suffrage adopted in her own state before long. Just now she is much interested in the approaching campaign in California, and it is not improbable that her voice will be heard

in the Golden Gate state before it is over.

PAYSON, March 20. — Three fires within a few hours today's record for Payson. This morning the roof of C. Provatsgaard's residence on the east bench was discovered to be ablaze; then the alarm was sounded that a shed belonging to G. Cramer was in flames, and about 1 o'clock a shed and straw stack, the property of Mr. C. Gale, was the scene of another excitement.

All three blazes were extinguished before any serious damage was done. In the case of Mr. Gale's property a lucky change of the wind saved his barn, residence and buildings from destruction. They are located but a few feet from where the fire occurred. Mrs. Gale received severe burns on her hands while moving a wagon which stood in the shed. The local fire apparatus was taken to this fire but was sadly damaged and out of repair and called to work.

In speaking of the Bonnett malpractice case and the resolutions of the Provo ladies, supported by largely signed petitions to the council to refuse Duggles a license, the officers state that a contribution by citizens to pay for some detective work would be very effective in furthering the ends of justice at this stage of the case. They believe that by expending one or two hundred dollars for sleuthing the evidence can be so connected as to bring the crime home to the guilty parties without any question. The officers, of course, admit that citizens may say they pay taxes from which officers are paid for ferreting out crime; but they express doubt as to whether Salt Lake county, where the crime was committed and where this work should be done; will have the matter attended to as thoroughly as it should be, and are strongly of the opinion that, as public opinion, however well founded, will not be accepted as evidence in a court of justice, something should be done in order that the guilty may not escape.

WILLOW CREEK, Idaho,

March 16, 1896.

We have had a nice winter so far and are having beautiful warm days at present. People are commencing their work. Many of the ranchers lost the greater part of their crops last year by rabbits but they have waged a war on them this winter that has had a tendency to thin them out some. The crusade ended for the winter with a grand hunt in which about eighty men and boys took part on the 13th inst., when the weary nimrods returned laden with their spoil. They were met at the meeting house by the brass band and a substantial lunch prepared by the ladies. We have some good marksmen here, but Mr. Walter Dodge carried off the plum with a score of 68 in three hours. We have corralled and killed about 2,000 this winter and there is a bounty of 2½ cents per scalp.

Mr. Theodore Jackson has been called on to mourn the death of his wife, who died Saturday, the 12th, leaving a babe eight days old. Mr. Jackson has the sympathy of the community in his bereavement.

Our adjoining ward was cast in gloom by the death of George Blumwell, who died a short time ago, leaving a wife and two children.
