Chapter by Prof. Paul—The Com-mercial club has been presented with a series, in four books, of Natural School Geography by the American Publishing comyany. Perices of the Salt Lake Real Estate association has been furnishing the Baedeker Guide Publishing company with a large amount of data and sta-tistics about Salt Lake and Utah, which ought to prove of special value. Heretofore, Salt Lake has figured mostly as a curlo establishment, in the Guide Book, but the next issue will show the town is noted for other things than curlos. other things than curios. May Establish Freight Bureau— The proposal to establish a freight bureau in connection with the Com-mercial club is now being seriously contemplated. This involves employ-ing an expert freight man at \$6,000 a year, and the assumption of duties appropriate to a state commerce com-mission. Chairman Quigley of the special committee of the club appoint-ed to consider the matter, will be able to report in a few days the find-ings of the committee in the premises. C. J. The North American Mining com-pany of this city filed articles of in-corporation with a capital stock of \$50-000 in 1,000,000 shares of 5 cents each, half a million to be treasury stock. The officers are President, R. J. Evans; vice president, Charles Morrison; sec-retary and treasurer, N. J. Sheckell; directors, D. P. Rohlfng and P. Ryan. The Burro Mining company of Boun-tiful, incorporated, with a capital of \$75,000 in shares of 10 cents each, of which 400,000 are treasury stock. HOTEL MEN AROUSED.

They Want Tourists to Have More Time to See the City.

There is another agitation among the hotel and real estate men against the custom of the Rio Grande road in laying over Pullmans at the depot in this city for three and four hours while the tourists "do" the town in the sight seeing cars, and then resume their jour-ney. By this arrangement, the visitseeing cars, and then resume their jour-ney. By this arrangement, the visit-ors do not patronize the hotels to any alarming extent, and cat for the most part at the restaurants. Then oppor-tunities for seeing the chance for good investements in Salt Lake realty are lost, and good business chances are overlooked. It is said that 200,000 is a conservative estimate of the number of visitors to this city in the course of a year; and it is calculated that \$1,-000,000 a year is expended by these visitors. It is argued that if stop overs good for a couple of days were issued, the tourist travel would be of immense value to the town. mmense value to the town.
