CHANCELLOR BARNES FETED.

The Knights of Pythias of Ogden last evening did themselves proud in entertaining Hon. Charles A. Barnes, supreme chancellor of the order. The distinguished visitor, after lunch at the Red hotel, was taken for a ride through Ogden canyon and about the city, which he greatly enjoyed. On returning from the canyon he was banqueted at the Weber club. Last evening at the Carnegie library he was tendered a public reception, which was participated in by many. Mr. Barnes and Judge Howell were the principal speakers. Some excellent instrumental and vocal music was rendered. Mr.

Barnes left on this morning's train for Portland.
FAILS OF CONFIRMATION.
The board of county commissioners held a short special session yesterday afternoon to consider confirming the appointment of Ben Chadwick as assistant fish and game warden, whose appointment was made by State Warden H. B. Cromer. The board declined to confirm the appointment of Mr. Chadwick, believing that better results can be accomplished by one of the deputy sheriffs being selected to perform those duties.

FUNERAL OF P. C. WESTOVER.
All that was mortal of the late Perry C. Westover was laid to rest in the silent tomb in the Ogden city cemetery yesterday afternoon while Nichols' band played "Nearer, My God, to Thee." The funeral services were held at Larkin & Sons funeral chapel, at 2 o'clock, and were attended by a large number of relatives and friends. Rev. J. E. Carver of the Presbyterian church preached a comforting sermon on the resurrection, and spoke of the many sterling characteristics possessed by the deceased. Nichols' band led the funeral cortege to the cemetery, discoursing sweet strains of music.

A wealth of beautiful floral tributes evidenced the high esteem in which he was held. Among the largest designs was one from the R. G. W. railway, Southern Pacific, Western Weighing association, American Federation of Musicians, Congress, his wife and members of the orchestra in which deceased played.

Saloons and Gambling Houses Closed Sunday and at Midnight.

Ogden, Feb. 29.—Acting under the direction of Mayor Brewer, Chief of Police Browning had all the saloons and gambling houses in the city closed at midnight last night, and this order will be strictly enforced in the future. Some places will also be closed up tight on Sundays hereafter. The most of the saloon men endorse the movement, but some are opposed. It will operate to work a hardship upon many honest men, who are in the habit of sleeping on chairs, and tables in the places referred to. About 100 were turned out on the streets last night to seek shelter as best they might.

OPPOSE WAGE REDUCTION.
Effective March 1 an order has been issued by the R. G. W. railway company, reducing the wages of its tag-men, who are here out of work, which is naturally much opposed by the men most concerned. W. H. Weston, chairman western telegraphers' grievance committee of the Telegraphers' union, is here from the headquarters in Denver conferring with the men on the question. A labor will be taken up with the railway people to have them rescind the order.

RHEUMATISM

The form of rheumatism known as inflammatory means that the rheumatic poison in the blood has affected the joints. It is characterized by excruciating pain and fever and the hands and wrists are often distorted and crippled.

Mr. John Blake, a veteran of the Civil War, now a prosperous farmer, whose address is R. F. D. No. 2, Verona, N. Y., says:

"I was so afflicted with rheumatism that life was a misery. The pain was mostly in my limbs while my hands were so crippled that I could not close them. I suffered like this for years and there seemed to be no chance to get well. One day I read of Dr. Williams' Pink Pills and I gave them a thorough trial and was completely cured."

No external remedy will cure rheumatism for the poison is in the blood and the best blood medicine to combat rheumatism is

Last evening in student meeting, Prof. Horace Seiser delivered his lecture on "Civil Rights." Prof. Seiser gave a lecture in the Sixth ward before the Parents' club. Mr. P. G. MURRAY.

BUSY SESSION OF COUNCIL.

Second Ward Reunion—M. I. A. Program—Fire Scare—Thief Caught.

Murray, Feb. 29.—Murray city council has decided at last to make Vine street and a portion of State which borders on the Atwood ditch, a paving district. This move will meet the approval of the people living on those streets, and to all that are "interested in the beautifying of the city." This ditch has been a great inconvenience, and has been condemned many times, but nothing has been done to better the situation. It has also been a source of anxiety to mothers as their children would play along the banks and some times fall in. If covered it certainly will be a credit to the city and the city administration.

A letter was received from Secretary Beatty of the state board of health, calling attention to the fact that one health officer from each city or town is required to attend at least one meeting a year of the health board at the expense of the city. From a little observation it is made plain that Murray needs to be represented at this meeting. A thorough cleaning up of this city would certainly be beneficial, speaking of the foreign districts and slaughtering houses.

John Wood requested that the city furnish him with the grade on the south side of his building between State and Poplar streets, as he wishes to pave the sidewalk. The engineer was ordered to furnish the grade. The engineer submitted a report on the water system and the distributing system which was accepted. Herman Harris state chemist filed his report on the water used in the city, which comes from Big Cottonwood. The report stated that the water is of good purity and free from deleterious substances.

Attorney Moffat submitted an opinion advising the council that there was no legal reason why the city should not pay the \$500 installment now due the Progress company for water service.

CAUGHT BY THE GRIP-- RELEASED BY PE-RU-NA.

La Grippe Is Epidemic Catarrh.

THE disease now known as 'grip' used to be called 'influenza.' It very closely resembles a cold, but is more tenacious in its hold upon the system and produces more profound disturbances.

Grip is in reality epidemic catarrh. When it once begins it spreads over the country very rapidly.

People do not catch the grip from each other, but each one catches it from the atmosphere.

"Most Effective Medicine Ever Tried for La Grippe."

Robt. L. Madison, A. M., Principal of Culverhouse High School, Painter, N. C., is chairman of the Jackson County Board of Education.

He is a writer of occasional verse and has contributed to a number of leading papers and magazines,—religious, educational and secular.

In speaking of Peru-na, Mr. Madison says:

"I am hardly ever without Peru-na in my home. It is the most effective medicine that I have ever tried for la grippe."

"It also cured my wife of nasal catarrh. Her condition at one time was such that she could not at night breathe through her nostrils."

"In consequence, an inflamed condition of the throat was brought about, getting worse and worse and yielding to no remedy until Peru-na was tried."

Healthy Mucous Membranes.

Those who are fortunate enough to have perfectly healthy mucous membranes ordinarily do not catch the grip.

The mucous membranes lining the nose, throat and lungs, when in a normal state, are an effectual barrier against the invasion of grip.

But, if there happens to be the slightest catarrhal derangement of the mucous membranes, then the victim becomes an easier prey to the grip.

This in part explains why some people get the grip, while others do not.

The rational thing to do is to keep the system free from catarrh. In attempting to do this most people have found Peru-na to be invaluable.

Systemic Catarrh, the Result of La Grippe. Pe-ru-na Receives Credit for Preventing Good Health.

Mrs. Jennie W. Gilmore, Box 44, White Oak, Ind. Ter., formerly Housekeeper for Indiana Reform School for Boys, writes:

"Six years ago I had la grippe, which was followed by systemic catarrh."

"The only thing I used was Peru-na and Manalin, and I have been in better health the last three years than for years before."

"I give Peru-na all the credit for my good health."

Antone Hanson of the Fourth ward Sunday school were honorably released and the following new officers were sustained: William C. Nelson, superintendent; Hans H. Larson, first assistant; and Antone Hanson, second assistant.

Mrs. Hyrum Timothy of Greeley, Colo., a former resident of Lehi, was operated on at the L. D. S. hospital the first of the week and is now reported doing nicely.

Saturday the Lehi high school basketball team will play the deaf mutes in the Y. M. C. A. gym to determine who are champions in the high school class of the state. An excursion of rosters will be run over the Salt Lake Route from here.

NEW S. S. SUPERINTENDENCY.

Sunday last Supt. Elsha Peck, and his assistant, Hans C. Nelson and

During an epidemic of grip Peru-na should be used. The doses recommended on the bottle are sufficient.

After the grip has once been acquired, Dr. Hartman recommends the use of Peru-na in teaspoonful doses every hour during the acute stage, after which the directions on the bottle should be followed.

Experience has shown that the people who use Peru-na as a remedy for grip generally recover sooner and are less liable to the distressing and long-continued after-effects of the grip.

When Peru-na has not been used during the course of the grip and the patient finds himself suffering from the after-effects of this disease, a course of Peru-na should be resorted to.

Suffered Twelve Years From After-Effects of La Grippe.

Mr. Victor Patenande, 328 Madison St., Topeka, Kan., member of Knights and Ladies of Security, writes:

"Twelve years ago I had a severe attack of la grippe and I never really recovered my health and strength—but grew weaker every year, until I was unable to work."

Preliminary contests will be held in the different wards and towns.

Mrs. Thomas Sims is quite sick. There are a number of cases of chickenpox in town. The measles epidemic is fast dying out.

"Two years ago I began using Peru-na and it built up my strength so that in a couple of months I was able to go to work again."

"This winter I had another attack of la grippe, but Peru-na soon drove it out of my system. My wife and I consider Peru-na a household remedy."

Pneumonia Followed La Grippe.

Mr. T. Barncock, West Aylmer, Ontario, Can., writes:

"Last winter I was ill with pneumonia after having la grippe. I took Peru-na for two months, when I became quite well, and I can say that any one can be cured by it in a reasonable time at little expense."

Pe-ru-na—A Tonic After La Grippe.

Mrs. Chas. E. Wells, Sr., Delaware, Ohio, writes: "After a severe attack of la grippe, I took Peru-na and found it a very good tonic."

Mrs. Jane Gift, Athens, Ohio, writes: "Six years ago I had la grippe very bad. I read a testimonial of a woman who had been cured of grip by Peru-na. My husband bought me a bottle of Peru-na. I was soon able to do my work. I continued using it until I was cured."
