Weber County, graduated yesterday with high honors from the Annapolis Naval academy, and will receive a commission as a junior naval officer. He graduated from the Ogden High school, and upon afterwards passed a successful examination to enter the naval academy, which usually requires four years of study. The great demand for junior officers in the United States navy caused those in charge of the school to select 50 of those standing the highest in their studies to take special training. Mr. Child was one of those selected, and has now graduated, standing ninth in the class, having completed the four years training in three years and three months. It is expected he will come to Ogden for a short visit with his parents before entering into regular naval service.

POLITICAL ASPIRANTS.

Children and Matches Cause Fire—Lecture by Erling Bjornson.

Special Correspondence.

Logan, Cache Co., Sept. 12.—The fire department was called out yesterday at noon to a blaze at the premises of George Brown of the Third ward. Mr. Brown's hay stock was consumed and some other property slightly damaged. The loss will amount to about \$25, with no insurance. Children and matches were the cause of the fire.

A fair sized audience greeted Mr. Erling Bjornson at the tabernacle last night. The train from the south was late and Mr. Bjornson did not arrive until after 8 o'clock but the audience bore the delay patiently and were well rewarded for the wait. After the meeting Mr. Bjornson was escorted to the residence of J. A. Hendrickson where he was tendered a reception by a number of prominent Norwegians. He returned to Salt Lake by this morning's train.

James England, who was operated upon for appendicitis on Sunday last is in a very critical condition and fears are entertained for his recovery. Deputy Sheriff W. J. Harrison will return to Richmond next month and

will engage in the genteel furnishing goods business.

POLITICAL AWAKENING.

Politics is beginning to warm up in this county. The Republicans will hold their primaries tomorrow night and their convention on Saturday evening to elect delegates to the state convention. Indications now are that the county delegation will be solidly for Howell.

Candidates for the various offices are beginning to come out. J. A. Hendrickson has been working hard for the state senatorial nomination for several months past. H. Balleu, Jr., is also in the race while D. R. Roberts is looking quietly on. W. H. Maughan will be a candidate for the house to succeed himself. H. A. Borden's friends are urging him for the representative from Logan and C. Z. Harris is talked of from the north end.

J. H. Smith wants to be sheriff. A. A. Law is spoken of for county attorney, but J. C. Walters may be a candidate for re-nomination; J. L. McCarty is spoken of for superintendent of schools.

The Democrats are talking of A. G. Barber and I. C. Thoresen for the senate and James Monson and Quill Nebeker and M. J. Ballard for the house. N. W. Crookston is mentioned for sheriff.

SPRINGVILLE.

Sudden Summons of Oldtimer.

Jacob W. McCurdy Dead—Untimely Visit of Jack Frost.

Special Correspondence.

Springville, Utah, Sept. 12.—Mrs. John M. Clements died at 11 o'clock yesterday morning after being sick less than two hours. For the past few months Mrs. Clements has been suffering from severe kidney trouble but has been better and able to be out the last week. Yesterday morning while attending to some household duties she suddenly threw into convulsions, from which she never revived. Arrangements for the funeral have not been made.

Mrs. Clements was born in England, Dec. 2, 1823, and came to Utah in 1851, when she became the wife of John M. Clements. They came to Springville at the time of the move and have since made their home here.

Another of Springville's old-timers, Jacob W. McCurdy was called to the great beyond yesterday at 4 p. m. Mr. McCurdy was a native of New Jersey, where he was born in 1818. He identified himself with the Mormon Church and came to Utah in 1847, making his home in Iron county, but moved to Springville three years later. He became dissatisfied with some of the Mormon principles and after being expelled from the church he joined the Josephites to which church he belonged at the time of his death.

The funeral will be held at 2 p. m. Thursday.

Dr. Dunn was called last yesterday on account of the very serious illness of his father.

Jack Frost visited the squash and cucumber patches last night and killed many of the vines.

A number of the farmers have received orders to begin digging beets Sept. 13. Prospects are good for the best beet crop that has been had in this section for several years.

DR. FINN'S TESTIMONY INTERESTING.

Dr. Thos. Finn of Boonsboro, Md., who has practiced medicine for 32 years, says he has used every prescription known to the profession for treatment of kidney and bladder troubles, but says he has never found anything as effective in both chronic and acute kidney and bladder trouble as Foley's Kidney Cure. There were several visitors present, some from Salt Lake City and from other parts. Following the banquet a fine program was rendered and dancing filled up the time to the enjoyment of all.

The pavilion is a great credit to the company of young men (about a dozen of them) who erected the fine building, which is quite an ornament to the town. It cost nearly \$1,500. It will be used for amusements in place of the meetinghouse.

A fine new schoolhouse, as fine as any in the county, has been built. The Amalgamated sugar factory being situated in this precinct has been quite a help towards building the schoolhouse.

Most of the people here are well supplied with beautiful, clear spring water for household purposes, and there is very little sickness here.

A SCIENTIFIC WONDER.

The cures that stand to its credit made Bucklen's Arnica Salve a scientific wonder. It cured E. R. Mulford, the founder for the Patrons of Husbandry, Waynesboro, Pa., of a distressing case of Piles. Snow of Ogden were elected to a full representation of the state officers, were in attendance. CARDSTON, CANADA.

AGRICULTURAL FAIR.

Harvesting Bumper Crops of Grain—Building Big Grain Elevators.

Special Correspondence.

Cardston, Alberta, Canada, Sept. 1.—The harvest weather for 10 days past has been ideal. Grain is ripening just fast enough to keep everybody busy, without allowing some of it to get too far along and be wasted before being secured.

The Cardston Agricultural fair officers are as busy as can be making preparations for the fair, which is to be held the 17th and 18th insts. Judging from the prize list and the active interest manifested the affair promises to be a pronounced success.

To aid in taking care of the bumper crop here, the roller mills have constructed a new and commodious warehouse at the station, and the railway company has just completed an extensive loading platform. This last, accommodating feature is a requirement made in the government grain shipping regulations, and will prove a great advantage when shipping vegetables and sugar beets, by facilitating the handling of such products, vast quantities of which will be shipped with an increase each year, over that of the previous year.

A new 40,000-bushel elevator is also under way at Woodford, the thriving district just six miles east from Cardston, on the Kinsland branch of the railway, and another one under contemplation for Kinsland. This indicates the faith of capitalists in this new but productive country, at present developed to a limited extent.

Most of the excursionists from the south are postponing their return until the limit of time, so much do they find to attract them.

H. S. Allen & Co. are installing a new steam heating plant in their store. When the water connections are made with the system, and electric lights put in, the establishment will present quite an up-to-date appearance, as it has already the cash carrier system in operation. Plate glass will be the next step in most of the business houses, where, at present, the old style of small windows and still smaller lights prevail.

As an indication of the possibilities of Alberta as a wheat growing center, John Silver is now negotiating the sale of his crop, estimated at 40,000 bushels, to the local elevator people. This is only the first year's crop of Mr. Silver's farm, with the past winter so severe on wheat and yet the output in this case as also in that of Mr. Thos. H. Woodford of Cardston, who estimates his present crop at 15,000 bushels, is a fair indication of the great growth in the farming industry here.

The health of the people is good. Whoopingcough constitutes the greatest and most serious ailment at present, and everybody is too busy to spend the time to be ill.

It Depends on the Sugar and the Maker

Whether you get a deliciously wholesome, genuinely pure, cane sugar syrup that you can depend upon year in and year-out.

In the process of refining we bring out all the delicacy of flavor—that smooth palate-enticing taste found only in the sun-kissed West India cane sugar. That is what makes

Towle's Log Cabin Pen-o-che Syrup

the one rarely good table syrup on the American market. Children will love it and grow-ups who have once tried it will never be without it.
