### Roosevelt's Book Translated into French for Benefit of the Gauls.

Paris, Nov. 9.-A translation into French of President Roosevelt's book, "The Strenuous Life," which appeared here last week under the title of "La pay. Via Intense," has attracted widespread interest. The translation is by Princess Ferdinand de Faucigny-Lucing and Jean Izoulet, who declare that their

work has the authorization of Mr. Roosevelt. The preface of the translation pays a glowing tribute to the United States and compares President Roosevelt's book to James Bryce's "The American Commonwealth," saying the latter gives the views of the outside observer, while "The Strenuous Life" gives the views of the observer on the inside. President Roosevelt is described as "the virile champion of a nation which has become powerful in deciding the destinies of the world." The high standards which President Roosevelt has introduced into public life in Amer-

ica are dwelt upon. Another work, by Vicomte de Noail-les, which appeared last week, gives a detailed account of the operations of the French soldiers and marines who participated in the war for American independence. The information contained in this volume was obtained from official archieves. The vicomte's book is one of several works on simi-lar subjects which are in course of preparation and which are encouraged Upon the by the French government. title page there is an engraving from a portrait of Washington.

# HAY'S ROUMANIAN POLICY.

#### Rabbi Krauskopf Criticses it Very Severely,

Philadelphia, Nov. 9.—Rabbi Joseph Krauskopf, D.D., of the Reformed Con-gregational Kenesthe Israel, a leading Hebrew of this city, and one of the Hebrew of this city, and the of the best known Hebrew clergymen in the east, today delivered a sermon enti-tied "Secretary Hay and the Rouman-ian Jews," in which he criticised the note sent by the secretary to the European powers on the question of Roumanian Jews. Dr. Krauskopf said three months had

passed since the note was issued and the results that were anticipated have the results that were anticipated have not yet come to pass. Continuing, he said in part: "My want of faith in the success of these laudable and well intentioned efforts

on the part of our honored secretary was based on the note itself. The larger part of the note, which I call the self-protective, I felt from the outset invited failure for the United States and

Higher Wages for Native Employes

New York, Nov. 10 .- The chamber of mines, says a Times dispatch from Johannesburg by way of London, has agreed to the proposal that higher wages be paid to natives employed in the mines, the average being fixed at \$12.50 a month.

The correspondent says that this probably will improve the chances of recruiting native labor, but it is to be feared that the scarcity will not be entirely overcome by raising the men's

Taken by Special Train to Yorktown And Kept in Cars. Winnipeg, Man., Nov. 9.-The Douk-hobors were taken by special train from Minnedosa to Yorkton last night New York, Nov. 10 .- Hitherto King and were kept in the cars guarded by Northwest mounted police. If the fight to move them 100 yards is a sample of what the government has to contend with, it will take a much

larger force to move them the 100 miles to their villages, which are that disance from Yorkton. Minnedosa dispatches tell of stormy scenes during the entraining of the pil-grims there. After repeated inter-views with Seikroff, the leader of the fanatics, Agent Speers decided to use force, and, grabbing the leader by the shoulders, pushed him out of the building in which the Doukhobors had spent the night, at the same time calling upon the policemen to bring the rest As they came out the fanatics locked

## No Significance to Kaiser's Visit.

Edward has celebrated his birthday in quiet fashion at his delightful Norfolk home, but it is certain that Premier Balfour, Colonial Secy, Chamberlain and War Secy. Brodrick were not present vesterday merely to wish him many happy returns of the day or to extend a velcome to his imperial nephew, says Tribune dispatch from London. Offlcial statements which are published protest that the kaiser's visit levoid of political significance, but few people here really believe that the German emperor has come merely to shoo pheasants. London is anxious to greet him. The imperial visitor will, however, remain at Sandringham for week and then go direct to Lowther

castle on a visit to the Earl of Lonsdale, for whom he has an extraordinary attachment.

There is a degre of peace and safe ty in the Philippines now that was never reached under the Spanish rule. The Spanlards used to pay the brig-ands to keep the peace, and we have refused to continue this system. After the passage of the Philippines bill last year we established the insular constab. ulatory, and we now have 6,000 of these police. We find that they are the best men for the business, and they have

cleared the provinces of law-breakers with great rapidity. The service is one which appeals to the natives, for the police are chosen from the tibes where they must serve. "The future of the islands will be a
