The great whilewash game in the blice scandal has commenced. Sheetz and the dummy detectives must be ved at all hazzards, for the reason that the very existence of the "American" party is threatened. At headquarters and in the city and county uiding the scandal has assumed the roportions of a great problem with tion yet in the future.

Meanwhile like a brazen woman of he half world, American party barkers ad spielers are running up and down he face of the earth crying, "Sheets is intuous! DEPOSITED WITH MORGAN.

George Morgan, the genial boniface t the Vienna cafe, was the subject of most unmerciful amount of chaffing today over the fact that "Jim" Don-aldson deposited two \$1,000 bills in his and son deposited two 1,000 bills in his safe on the night following the rob-bery of the two young Scotchmen; and that Morgan let the money go. It appears that, as proviously stated, Donaldson exhibited these bills. For 3

few days prior to this Denaldson had been eating at the Vienna on credit. He was allowed to come in and get his meals, but the waiter did not give him any startling amount of attention. On the night in question Donaldson sat

any startling amount of attention. On the night in question Donaidson sat down and ordered supper. The waiter brought him the usual table ware but forgot a serviette. "Do you want a napkin?" he asked. "Oh, h--," answered the bunco man, "Tve got a napkin all right," and suit-ing the action to the word he proceeded to tuck one \$1,000 bill into his collar and another between the buttoms on his

another between the buttons on his After eating he deposited two \$1,000 bills in the safe and walked out. Later he returned, asked for the money, and got it.

The night manager is now getting unmercifully jollied because he did not say, as one customer subsequently suggested when the news of the robbery became public property, "turn over on your back, Jim, you are dreaming. You did not leave any \$1,000 bills here. You've got to prove to me that you got bills them in the first place."

FRATERNITY IS MAD. The gambling fraternity, or that part of it which has not received po-lice protection, and which has not been permitted to open houses, was mighty sore today over recent developments anent the \$10,200 robbery of the two young Scotchmen. By this statement it is not meant that the fraternity would like o "cut in" on similar deals, but they would like on similar deals, but they would like o "cut in" on similar deals, but they would like to get the game going again, and would like a "square deal." They claim they are not getting if from the police, but that crooked men, grafters and sure thing experts are preceiving protection because the new

receiving protection because the per contage of their winnings is so great they can afford to "cut" with the pow-ers that be, through the "middle ers that be, through the man

One man, who for a long time, was a prominent gambler here, said to the "News:"

"Shortly after the so-called 'Amerlin the weather bureau at Washington can' party took charge of affairs here, several of the boys announced their infention of remaining here, stating that the game would soon be opened Before the departure of the United States, Maj. Hersey closely examined the latest weather reports, and knew instantly that the heavier and faster nd that they would be permitted to run. At the time I told them that no SQUARE gambling would be allowed, for the reason THAT A MAN WHO RAN A SQUARE HOUSE COULD NOT AFFORD TO MAKE A carry CUT WITH THE POLICE. When the game was going on we had to pay a fine of nearly \$200 per month. If there was a fair deal all around that was enough, and the gambler could not afford to slip anything to the police. Now they (I mean the so-called 'Americans') tell us that there is no gambling going on here. That's all rot. Gambling is going on here but it is not of a square kind. When one little deal can rake in \$10,200 those who worked it can well afford to cough up pretty liberally to the police." MCWHIRTERS ALSO A COUNCIL-MAN. The Tribune is insinuating that the McWhirters, the two young Scotchmen, who were robbed of \$10,000 by the band of bunco crooks, are in conspiracy with certain individuals to create the down-fall of "honest George Sheets." It may be an interesting fact to note that Alexander McWhirter carries in his baggage a certificate that he was a member of the town council of his na-tive city, Maybole, Aryshire, Scotland, In addition he has an address that was presented to him prior to his departure from Scotland for the United States by the citizens of that place. In this ad-dress is a testimony to his worth as a public citizen. Such is the man the Tribune would political effect. Such is the trype of man, according to the Tribune, who would enter into league with a band of gamblers to cause the overthrow of Chief of Police Sheets.

They had every reason to believe that because such would have been the case in their na-tive land, Scotland, where the police are guardians of law and order not only in word but deed. Once the mat

## MAGOON THINKS WELL OF JAMAICA NEGROES.

Washington, Oct. 3.-Former Gov. Charles E. Magoon of the Panama canal, who has spent a good deal of time on the isthmus, has considerable confidence in the Jamaica negro as a laborer on the canal. He has organized a police force of these men, and says they are very efficient. Much of the complaint that has been made against them as laborers, he thinks, is because not thoroughly understand they do American terms and the names of articles in common use. He says that up-on the whole they are intelligent, and can read and write, are prolific letter writers, as he can testify by the many writers, as he can testify communications received from them. They all begin their letters in the same "Your excellency: I have honor to inform you that I am a Brit-ish subject," etc. Judge Magoon says ish subject." etc. that they are all proud of being sub-jects of Great Britain. He believes the method to be ultimately adopted in handling labor on the canal will be

similar to that adopted by Kitchener when he advanced on Knartoum. The British general utilized African labor, but had it organized on a military ba-sis. Judge Magoon says he does not mean that laborers on the canal should be under military discipline, but that

they should be organized in companies under the charge of competent offi-cers with men of their own race and kind, in positions similar to non-com-missioned officers in the army. He bethat a satisfactory system will result from this method.
