

E. Snyder, of Provo, is announced for the 19th.

The ladies of the Democratic club will give a grand ball in the Mosart hall, Thursday evening, Dec. 13. A large committee of representative ladies has the management of the event and a pleasant time is assured.

Cards are out announcing the wedding reception of Mr. Thomas P. Allen and Miss Agnes S. Jensen, at the home of the groom's parents, Mr. and Mrs. Thomas W. Allen of the Second ward. The bride is the daughter of Mr. and Mrs. C. H. Jensen of the Third ward. Both are highly esteemed young people.

A pleasant surprise party was enjoyed Tuesday evening at the home of Mr. and Mrs. Thos. M. Allman, of the Fourth ward, the occasion being the anniversary of their wedding day. A large number of Mr. and Mrs. Allman's friends passed a delightful evening with music, song and games and enjoying delicious refreshments.

A number of friends surprised Mr. and Mrs. William C. Graham Thursday afternoon, in honor of the eighty-fifth anniversary of Mrs. Graham's birth. A most enjoyable social time was spent and a fine supper was enjoyed.

#### CLUB CHAT.

Three former Chicago women hold official positions in the Society of American Women in London. Mrs. Laura Temple Kott, still a member of the Chicago Women's club, is the corresponding secretary in the club beyond the sea. Mrs. Charles E. Roche is the recording secretary. Mrs. Wm. F. Stead, Jr., who is chairman of the committee on current events, was Miss Charlotte Royce before she married the son of the distinguished London editor.

A social club for men and women has been founded in Lahore by Mr. and Mrs. Jai Chandra. It is named the Victoria Club, and furnishes opportunity for outdoor sports as well as indoor sociability. It is an attempt to bring together men and women in order as it is stated that the modern world looks with respect and honor on the women and that the women may come to know their rights as well as their duties. It is the reform society, the Ayra Samaj, that is supporting this and they have also recently established a brotherhood whose members are required to marry their sons and daughters without regard to caste.

The new French postage stamps represent a young woman resting her hand on a tablet which bears the words "The Rights of Man." Mme. Hubertine Auliert has caused to be made a quantity of blue stamps which show a young man resting his hand on a tablet which bears the words "The Rights of Women." She recommends persons who believe in equal rights to affix one of these stamps to each letter, side by side with the official stamp of the government.

The Society for the Protection of Birds in England has offered two prizes, one of fifty and one of twenty-five dollars, for the most useful papers on the best means of establishing a "Bird and Arbor" day in England. The essays should not exceed 3,000, and it is preferable to have them typewritten.

The striking feature of women's club programs this year appears to be men. The number of grave college professors, men lecturers, singers and speakers who will expound almost an endless array of topics before attentive and delighted women has never before been equaled in local clubdom. The Arche club alone has a list that speaks well for its judgment and taste. Last month it had Nat. Brigham with his smoke dance talk, and Dr. Nathaniel Rubinkam. The latter fresh from the land of Wagner, and Thomas Moors, who sang beautifully. The first November meeting disclosed Professor Zuehlke with the fore with an illustrated talk on his pet, "William Morris." Oliver Denett Groves, who adorns another day of this month. David A. Clippinger is to have charge of the musical program of the Russian day in December, and on another occasion Professor Edwin Eric Sparks is to give what he terms "A Possible Explanation of Abraham Lincoln." All the women are especially anxious to hear it.

Still another day when a man will be the conspicuous figure is "patriotic day," when Elbridge Ayer Burbank is to tell about "North American Indians." Mr. Burbank will have to share the honors of the event, however, with Mrs. Burbank is to appear with him. Ralph Clarkson is promised next, and the members are glad, for Mr. Clarkson is particularly admired and admissible.

With this imposing array of men the few women engaged will have to compete smartly, for all their rivals are especially trained to be in the field as they are to open to the pleased senses of the Arche.

The announcement of biennial arrangements has stimulated interest in that meeting, and it seems to be assured that several Federation trains will cross the continent from the Atlantic coast in time to reach Los Angeles in late April. Mrs. Anna D. West, the Massachusetts member of the board of directors, will take a large party from Boston; one will undoubtedly go from New York and many private excursions parties have already been arranged. Among the biennial speakers already announced is Professor Wheeler of California, who is considered one of the best in the country. The musical part of the biennial will include a remarkable program to be interpreted on one evening by some of the most distinguished artists, the expense of this entertainment to be borne by the club-women of Los Angeles.

The recent annual meeting of the League of American Writers, held at its headquarters, Washington, D. C., showed that organization to be in a flourishing condition. The committees reported a good balance in the treasury, the autobiographical library, which is a special feature of the organization, to be growing appreciably, and the various other enterprises under the club's charge as progressing favorably. The comfortable club rooms of the League, at No. 1429 New York avenue, Washington, will be retained, and pen-women throughout the country, visiting Washington, will be cordially welcomed. The new roster officers read: Mrs. Juliette M. Rabbitt, president; Mrs. Evelyn Clark Morgan, vice-president; and Mrs. Marian Longfellow O'Donnoghue, corresponding secretary. The board of directors elected was as follows: Mrs. Virginia Rink Frye, Mrs. Lillian Rozell Messenger, Mrs. La Salle Corbell Fleck, and Mrs. Ida Husted Johnson.

Madame Sarah Grand has been talking to clubwomen in Boston and meeting many of them there at various functions arranged in her honor. She is much interested in the development and growth of club life in America, her comment on the movement in England being full of interest. "We in England," she says, "are comparatively young in this movement, and all our advanced steps are taken tremulously and with extreme caution. I belong to the oldest woman's club in England, formed about 1894 by Mrs. Massingberd. Begun as an experiment, it has developed into a large, helpful, and actively working organization. Madame Grand thinks that the women of England have much to learn from the clubwomen of America. She spoke of the criticism which followed the first

clubs formed in England, it being freely said that homes would be neglected and that there would follow a train of attendant evils such as the world has never known. She assumed that the same criticism and excitement developed over here, and argued promisingly for England from the way in which the woman's club movement in America had been accepted and endorsed.

Another visitor among us, deeply interested in club work and clubwomen, and also from England, is Mrs. Hugh Griffin, who will be in this country until the beginning of the new year. Mrs. Griffin is an American who has been in London over twenty years, and, being a woman of observation and conservative judgment, her testimony concerning English women and their life is interesting. Mrs. Griffin has been a guest at many club entertainments, formal and informal, and expresses herself as greatly impressed with the development of this movement since her last visit to this country eight years ago.

The Jewish Ladies' Relief society held its annual election of officers on Thursday afternoon, the following officers being elected: Mrs. Fred Simon, president; Mrs. I. Watters, vice president; Mrs. N. A. Ranshoff, treasurer; Mrs. Sig. Simon, secretary; Mrs. Adolph Simon, corresponding secretary; Mrs. Moss Woolf, Mrs. Jake Obendorfer and Mrs. B. Smith, trustees.

Music lovers are looking forward with great interest to the piano and song recital to be given by Mr. Woodmansee and Mrs. Sonora Cooke Thursday evening, at the Ladies' Literary club house under the auspices of the music section. Mr. Woodmansee has been in Salt Lake only a short time, but he has already won recognition as an artist, an intelligent and sympathetically interpreted pianoforte music. In addition to his skill as an interpreter is the interesting fact that Mr. Woodmansee will give some of his own compositions, both vocal and instrumental. That the vocal numbers will have adequate and artistic rendering by Mrs. Percy Somers-Cooke goes without saying. Press notices of other cities where Mr. Woodmansee's work has been heard, speak of it in the most favorable terms, and Salt Lake is desirous of having him locate here permanently.

At the meeting of the Parliamentary club last Thursday it was unanimously decided to take the necessary steps immediately towards returning to Monday, the original day, for the next meeting. It is believed to be the most convenient for the majority of the club. The next meeting will be held Monday afternoon, Dec. 16th, at 2:30 at the club house. All who are interested will please take notice of the change in the day.

**Dr. Bennett's Electric Belt**

Is not like the many electric and so-called electric belts now being foisted upon the public. My Belt has soft, silken, chambray-covered electrodes, that do not burn and blister as do the bare metal electrodes used on all other belts and appliances. It may be renewed at will when burned out for only 75c; all other electric appliances, when burned out, are worthless. These two advantages should appeal to anyone's good judgment.

**Varicocele**

Is the direct cause of more than one-half the cases of Loss of Vigor and Failing Power, Paralysis and Locomotor Atrophy. Four men in five have Varicocele. Beware of dangerous operations.

There is no use in "doctoring" to restore your Power, Vigor and Vitality while the Varicocele exists—it is a waste of time, money and energy. Electricity as applied by my method is the only rational, scientific, permanent and scientific cure. Do not be deceived. Write for my special letter to men on the dangers of an operation for Varicocele. You may be cured without any loss of time or money.
