Each surviving member of any branch of the Nauvoo Legion is respectfully requested to write, on a postal card, his name, age, present address, date of enrolement, and position last occupied in and position last occupied in the Legiot, and mail the card to Wm.H. Perkes, Secretary of Association of Veteran Artillerymen of the N. L., Historian's Office, Salt Lake City. The information is de-sired for entry in the histori-cal record of the Association.

But Wall Street Market Was Lifeless, and Closed Dull.

Favorable Bank Statement - Live Stock Steady and Strong-Produce Market Advance.

New York, Dec. 2.-Small gains were shown all through the list at the opening, not exceeding a half in any case Sugar, after the opening, rose 1%. There was no animation and dealings were on a very small scale. Strength was developed in various parts of the list. Glucose sold up 1% in sympathy with the advance in American sugar. American tinseed pfd. continued its recent upward movement. Pacific Mail and Reading first pfd. gained a point each. Heavy takings of Union Pacific, Northern Pacific and Burlington lifted them sharp fractions. There was some irregularity in the local group, tobacco and leather, but the changes were narrow. The bank statement accorded with the forecast and brought little realizing by professionals. The market was lifeless and closed dull and easy, at small mixed net changes.

Sugar, raw, steady; refined, steady. MONEY AND BONDS.

Money on call steady at 5 per cent; prime mercantile paper, 51466 per cent. Sterling exchange firm with actual business in bankers' bills at 4.854@16 for demand and at 4.81@14 for 60 days posted rates, 4.82億%; commercial bills, 4.80% @ 1/2.

## WEEK'S STOCK MARKET,

New York, Dec. 2.-The stock mar-ket has been sustained by the aggressive strength of a few invididual stocks notably the great trunk lines, on belief in a consolidation of control. This factor served to offset to some extent the effect of disappointment over the fall-ure of the money market to work easy. Prices have been comparatively steady, but the undertone in the general list has been heavy and profit-taking has been on a large scale. The interrup-tion of the Thansgiving holiday helped to deter operators from speculative tion of the Thansgiving holiday helped to deter operators from speculative cimmitments. The result was a narrow spotty market and neglect of the stocks usually prominent in the trading. The further collapse in leather has aided the reactionary party. A few stocks showed marked gains but the general list is ragged with a mixture of small gains and losses.

## SMALL CAINS WERE SHOWN THE DEXTER IS "ALL RICHT."

Manager S. B. Milner Has a Word to Say Regarding Floating Rumors.

GRAND GULCH SHIPMENT.

Frisco of Bingham Looking Well -Daly-West Dividend-The New Chicago Mining Company.

The publication of the Tuscarora Times-Record article in criticism of Colonel S. B. Milner's management of the Dexter has caused no little comment in mining circles. It has been followed by rumors regarding the property which might tend to unsettle some of the stockholders. The latest, heard today, was to the effect that W. S. Seavey of the Thiel detective service, is camping on the management's trail, in search of light on some reported crooked deals. Mr. Seavey has been in town for several days, but could not be seen tolay in refernce to this re-port. Colonel Milner, when seen, designated the Review article and all derog-atory reports as an attempt to break the stock of the Dexter property, which was never in such shape as it is today. The prospects of the mine, it is said, are much brighter than they ever have been. "There is no reason for anyone to be alarmed," said the manager, "as the books are all open to be examined and the management is doing all in its power to run the mine in a businesslike way. The compressor, which excited the Ire of the Times-Review writer, is of the same kind as that of the Mercur mine. It is true there is not power to run it properly all the year. The water power is insufficient for several months, but the present cost of operating the compressor is about \$7,000 a year. If worked by steam it would cost about \$46,000 a year. We thus effect a sav-ing of nearly \$40,000 a year."

Mr. Milner reiterated his statement that the mine looked better than ever and that there is no cause for alarm, no matter what rumors are circulated.

DALY-WEST DIVIDEND.

One of 20 Cents a Share is Declared Payable December 20.

The Daly-West has come to the front with another dividend of 20 cents a share, or \$30,000, payable on the 20th inst. The books close on Dec. 15th, at 4 p. m., and open on the 21st.

#### FROM THE AETNA.

Assay Returns Today Show Good Values in

Gold, with 20 to 40 Per Cent Iron. Assay returns were obtained today. on some samples brought from the Aetna by Judge J. W. Burton and W. F. Olsen on ore tested specially for gold values showing \$9.91 a ton were shown. An average taken of five samples from a different chute from the above shows \$3.50 in gold, with 30 per cent iron, gives a first-class smelting ore and has caused the hearts of the stockholders to beat with jubilancy.

## A CALIFORNIA MINE

Will be Shortly Operated by T. E. Wilson and Associates.

F. E. Wilson and associates have se cured a controlling interest in eight claims on the Mother lode in El Dorado county, California. The property is lo-cated one mile from Nashville and eight miles from the El Dorado station on the C. P. Rv. The report of the ex-perts who have visited the property show that there is a good wagon road to the property, which is located below the snow line in a well watered and timbered country. It is estimated that the grade of ore will run about \$6 a ton and it is stated that what appears in sight will furnish work for a 20-stamp mill for several years. The prop-erty will be worked under the name of the Chicago Mining and Milling company and estimates are already being secured for the erection of a mill.

#### JOE BOWERS EXTENSION. Small Bodies of Shipping Ore is Found on the 309 foot Level.

Work is progressing nicely on the Joe Bowers Extension property. Some small stringers of good shipping ore are being found in the 300 level and while no new developments are reported at the 400, it is said another three or four weeks' work will suffice to tap the vein. The Estella claim recently secured by the company from the Burnham estate is now being worked. The shaft is down something over 40 feet and great things are expected when depth is attained.

#### NEARLY A TON OF CYANIDES. Received During the Week at the Rooms of the Refinery.

The week's receipts at the rooms of Consolidated Kansas City Smelter and Refining company amount to near-ly a ton of cyanides. The Star of Bingham contributed forty pounds, Over 400 pounds were also sent in by the Nevada Reduction company. Fifty pounds came from Cherry Creek, Nev. The Sacramento shipped 400 pounds, Daisy 150 and today the Mercur came forward with 900.

NUGGET FOUND IN THE DESERT. Peculiar Jump to Riches Made by an Indian Near Needles.

"I stopped in the town of Needles, Ariz., on my way through from the Pacific coast." remarked J. W. Banks, 2 mining man, at the Albany hotel yester. day, says the Denver News, "and was treated to a sight of the largest gold nugget ever picked up in the Southwest. The nugget is about the size of a man's hand and is an eighth of an inch thick It is not pure gold, but a banker of the town was glad to pay \$1,300 for the re-markable specimen. It was found by an Indian, who was wandering out of Needles. He had a tolerably correct idea of its value and had no difficulty in effecting a sale. When the people of the town heard of the find there was a stampede for the spot and acres of desert were dug over, but not a single grain of yellow metal was found. Nobody can imagine where the sugget came from originally, but there it is in the yault of the principal bank of Newl the vault of the principal bank of Need-

FRISCO SAID TO LOOK WELL. Streaks of Ore Coming in at the Foo

and Hanging Walls. Since our reporter visited the Frisco month ago work has been done in the fourth level, upraise from it and Mag-gie crosscut, with the result that prospects for making a first-class mine of the property never seemed brighter. In the fourth level of Frisco a lime inches in width.

It is interesting to know just how "77" cures a Cold by restoring the checked circulation (known by a sudden chill), the first sign of taking Cold; starts the blood coursing through the veins and so "breaks up" the Cold.

Kemember that Colds include La Grippe, Influenza, Catarrh. Coughs, Sore Throat, Diphtheria, Bronchitis and

A handy bottle of "77" carried in the pocket for immediate use prevents, "break up" and cures every kind of a

Manual of all Diseases sent free. For sale by all druggists, or sent on receipt of price, abc. or five for \$1.00. Humphreys' Homeopathic Medicine Co., Cor. William and John streets, N. Y.

horse of serious dimensions was encountered some time ago. It has at length been passed, and the easterly drift is again following a nice streak of ore at footwall. A similar streak is now also found at hanging and the vein shows here to be over six feet wide with every indication that in the next few feet the ore streaks will come together and present a solid face. The and good looking truck is being knocked down.

The crosscut to the Maggle from fourth level—a most important devel-opment—has been driven something over 150 feet and is liable to break into the vein any day-virgin ground, so far as the old Frisco is concerned. The Maggie vein will be tapped at over 500 feet depth, and what is significant there will be little or no water to contend with the ground having been drained by Highland Boy operations below. As we have before stated, the Maggie is on a contact of porphyry and quartitle, paralleling Frisco and Morning Star and equi-distant from them. Years ago high-grade ore was taken from an in-cline at south end of this claim, until large flow of water was struck and the impecunious owners had to abandon

The drainage that has taken place would indicate that the Maggie is on one of the Highland Boy galena veins, one of the Highland Boy galena veils, and there is no reason why the great lead ore bodies of the Highland Boy should not be duplicated. If they are the Frisco people will be strictly in it—confronted by they leasing difference between taking down and eternally "putting up."—Bingham Builetin.

#### GRAND GULCH SHIPMENT Is Settled for Today on a Basis of Seventysix Dollars a Ton.

The shipment of ore from the Grand Gulch mine in Arizona, was settled for today on a basis of \$76 a ton. It consisted of a 17-ton lot of mixed quality. Some of the assays obtained on samples show 51 per cent copper, and other re-cord as high as 68.8 per cent. Some cord as high as 68.8 per cent. Some splendid samples were shown today of the red oxide of copper in which the metal appeared in globules as if shot into a clayer formation. Twelve men are working the property at present, and an attempt is being made to prove up the riches of the deposit. Four of the men are getting out ore, but the others are doing development work. others are doing development work.

The management is laboring under great disadvantages, both owing to the scarcity of water and to the distance has to be hauled. Water cannot be had nearer than eight miles, it is a 130 mile hand by teams to Mo-dens, at present the nearest shipping point. This costs \$25 a ton, making the freight cost in marketing the product amount to \$81 a ton. This, with the cost of getting out the ore, takes off the gilt. but it is hoped that the Utah & Pacific will follow its proposed route through Meadow Valley Wash, which will cut the team haul down to between 50 and

#### WALTER GOODWIN ON ALASKA. Ore Assaying as High as \$20,000 a Ton

Found at Gleanerville. After an absence of over two years in Alaska, Walter Goodwin has returned to the city, very favorably impressed with the land of the frozen north. Some interesting specimens of gold, eliver and platinum bear testimony to the story told by Mr. Goodwin of the treasures unearthed at Gleanerville, located 65 miles northeast of Skaguay, and about halfway between Log Cabin and Atlin. Some claims were first located there

by three Swedes, who extracted ore which they believed to contain iron pyrites, but which a party of surveyors, whom they met at Caribou crossing as they were on their way to Lake Ben-nett for supplies, knew to be telluride of gold. The offer of Mr. Lewis, of the surveying party, to join the trio, was accepted, and after the ore they carried was sampled and assayed, seen that it contained gold and silver values, ranging from \$9,000 to \$20,000 a ton. Eight locations were then secured and after about five tons of high-grade ore was extracted, it was decided to send it to the custom mill at Juneau. When tested there the presence of ex-citing gold and aliver values was ascer-

## DO IT YOURSELF

And Save a Doctor's Free-If Test Denotes Kidney Trouble Dr. Kennedy's Favorite Remedy is the Only Medicine That Will Positively Cure You.

Trial Bottle Free.

It is easy to tell whether your Kidneys or bladder are diseased. Take a bottle or glass tumbler and fill it with urine. If there is a sediment—a powder-like substance—after standing a day and night, if it is pale or discolored, ropy or stringy, there is something wrong with the Kidneys. Other sure signs of disease are a desire to urinate often, pain in the back, or if your urine stain lines. There is no question that Dr. David

Kennedy's Favorite Remedy is the best and surest medicine in the world for and surest medicine in the world for diseases of the Kidneys, Liver, Bladder and Blood. Rheumatism, Dyspepsia, Chronic Constiption, and the sicknesses peculiar to women. It quickly relieves and cures inability to hold urine and the necessity of getting up a number of the necessity of getting up a number of times during the night. It puts an end to that ecalding pain when passing unine and corrects the bad effects of whisky and beer. It is sold for one dollar a bottle at all drug stores. Send your full postoffice address to the Lr. David Kennedy Corporation, Rondoul, N. Y., and mention this paper. They will then mall you a trial bottle of Favorite Remedy and a valuable medi-

Favorite Remedy and a valuable medi-cal pamphlet free, glving full directions for its use. Every reader of this paper can depend upon the genuineness of this liberal offer, and all sufferers from the diseases mentioned above should take advantage of it at once.

tained, and, in addition a very gratifying percentage of platinum. With the value of the ore proved, operations have been systematically started. A tunnel has been run on the vein about 50 feet, which has demonstrated that while the vein is about six feet between walls, the ore bearing stratum runs up to 22

#### Tintic Ore Shipments.

Special Correspondence.
Eureka, Dec. 1.—The ore shipments Eureka, Dec. 1.—The ore shipments from Tintle district for the week have been as follows: Dragon Iron Mine, 21 carloads; Bullion-Beck, 10 carloads; Gemini, 11 carloads; Eureka-Hill, 2 car-loads; Godiya, 2 carloads; Uncle Sam, 5 loads; Godiva, 2 carloads; Uncle Sam, 5 carloads; Grand Central, 10 carloads; Alaska, 2 carloads; Showers Couselldated, 1 carload; Sunbeam, 2 carloads; South Swansea, 4 carloads; Swansea, 6 carloads; Mammoth, 28 carloads; Ajax, 3 carloads. In addition to these the Mammoth mill sent out one carload of concentrates and the Bullion-Beck mill also shipped two earloads of Beck mill also shipped two carloads of

#### MINING NOTES.

Mr. Cutler is now in charge of the Red Wing mill.

The Grand Central had 10 cars of ore on the market today.

Five care of ore were marketed today from the Niagara property.

The Florence group, which adjoins the Silver Park, has been surveyed. Two cars of ore from the Galena King

of Stockton were on the market today. The Conklin sampler reported 1 car from Bingham and 4 from Tintle today. Editor J. B. Graham of the Blngham Bulletin, is visiting the metropolis to-

The Taylor-Brunton sampler reported 5 cars from Bingham and 10 from Tintic today.

A strike is reported by D. S. Calder

in the Valle Valley View claims near Belle-A car of Red Wing concentrates were

on today's market. Another car is ex-Twelve men are working at the Lower Mammoth and prospecting is going

on in every level. An assessment of one-half cent a share has been levied on the capital stock of the Little Pittsburg.

The working force of the Ophir mine at Stateline has been increased. Things are said to be booming in the district. Nearly 500 feet of development work

has been done on the Puritan group at Bingham. The ore chute is two feet The sult, in which A. W. Mountney sought to stop the 2 cent assessment of Joe Bowers Extension, has been

withdrawn by consent of the parties. The stockholders of the Old Susan Mining company will meet on Monday afternoon at 2 co'clock to consider im-

the end of the tunnel beyond the Jumbo stope to be looking well. After bringing about a settlement of the Joe Bowers difficulty Mr. C. T. Burnham has taken his departure for Colorado and eventually for his home

L. H. Curtis was at the Red Wind Mill yesterday and reports the vein at

in Milwaukee. The current number of the Mining Review contains a description of the Congor property of Bingham with a photographic reproduction of the entrance to the tunnel.

A quit claim deed was filed yesterday with the county recorder which sur-renders to John C. Dugan the Jersey Blue mining location in Cottonwood gulch, Bingham, for \$8,500.

Bingham Bulletin: The claim of company on the Win Dutch namuck mine having been adjusted by sheriff sale, no doubt the old property will seen be in operation again. There are understood to be considerable bodies of fair-quality ore ready for stoping, from which steady shipments can be made this winter.

Bingham Bulletin: The Dailton and Lark is now making daily shipments of 25 to 30 tons of excel-lent ore coming from incline bottom and 850 level north. The latter is all in pick-ing ore at face and has been pushed ahead over 50 feet the past Drifting is progressing in the 950 level north, in ore carrying a good per cent of copper. A new cable, 1,200 feet in length, was put on the Lark hoist last 

## BUSINESS NOTES.

December is likely to be a lively month in local stock circles, for the reason that many of the corporations pay their dividends at the end of the month, and there is always a stronger quest for investments as the dividend period draws near On the 31st the following stocks pay their regular quar-terly dividends: Home Fire, 1½ per cent; Utah Sugar, 2½ per cent; Heber J. Grant & Co., 21/2 per cent, and Co-op Wagon & Machine Co., 2 per cent. During the week there has been a good demand not only for these stocks, but for Ogden Sugar, Z. C. M. I., and Desert National, and Broker Cutler reports sales of the last named at the figures given below. The following are the

latest quotations: Deseret National Bank.. ......\$237.50 Zion's Savings Bank & Trust Co., 126.0 BONDS.

Salt Lake's clearings reached a phenomenal figure for November, the total being \$12,454,419, as against \$9,565,883 for November of 1898. The country's clearings for last week show something of falling down, reaching \$1,437,945,126, Sait Lake's clearings for the week ending Friday night were \$2,900,000, an increase of 7.7 per cent over the same week last

Walker Bros, evidently appreciate the full influence that the erection of the government building will have on Third South street property. They have just finished an addition to their big dry-goods house, which gives them a large floor area in addition to what they had, and Manager Shelp is now considering adding a cafe to the attractions of the store. Light restaurants in connection with big shopping headquarters are quite common in the east, but will be a decided novelty here.

The American Beet Sugar Manufac-turing company holds its annual meet-ing in Omaha on the 5th, and Manager Cutler of the Lehl factory will leave to-night to attend the session. The or-ganization is made up of the beet sugar manufacturers of the country, and they hold an annual meeting for the purpose of discussing the growth and progress of the industry, and in order that they may act in concert on questions affecting it. The enormous growth of the beet sugar industry makes the sessions of the association important as well as in-teresting, and Manager Culler always makes it a point to attend them. Thes. D. Dee of Ogden will also attend and represent the Ogden Sugar Co.

#### BUILDING AND REALTY.

On yesterday A. J. Pendleton bought 4x6 rods on H street, just north of South Temple, the price being \$2,000.

Mrs. Mattox will build a home on State street, between Fifth and Sixth South streets, having purchased a lot

there for that purpose.
For the sum of \$6,000, a sheriff's deed filed yesterday conveyed to Samuel Mc-Intyre part of lot 4, block \$0, plat A located at Fourth West and First South

sie and Robert Dansle, have sold 391/2 acres of land at Riverton for \$4,000. Two 8-room 2-story pressed brick houses are building by the Descret Savings bank, one being located on the corner of South Temple and Twelfth East streets, and the other on the cor-ner of Fourth and I streets.

Eleven building permits were issued by Inspector Folson during the week, amounting in value to \$8,350. The parties to whom permits were issued are William Berkenshaw, Fifth South between Fifth and Sixth East, two story brick dwelling, \$2,000.

Alta club, corner State and Soud Temple, open porch, \$500, Four miscellaneous permits amount-ing in value to \$650, making a total for

The board of regents of the State Un. The board of resents of the State University met yesterday afternoon to consider some matters pertending to mew buildings, and a sestion was some mitted from the property owner living on the west size of the University street the full length of the grounds asking for the opening of a new south a half block east of Thirfeening the street desired would run north and south a half block east of Thirfeening the street desired would run north and said campus from the adjoining property. The matter is looked upon favorably by the regents but no action was taken yesterday. It is proposed that he University give half the ground and its adjacent property owners the other half, sufficient to make a second adjacent property owners the other half, sufficient to make a atreet not less than one hundred feet wide. The regents will pass upon the matter at some future date.

With a sharp stick you can turn up the dirt and get ground ready for planting-but what a clumsy, slow, labora ous, ineffective way of going to work! Not ous, ineffective way of going to work! Not much more so, though, that the old-fashioned way of washing. Think of it! Grinding the clothes up and down on a wash-board, with nothing but soap and main strength to get out the dirt. Then think how simple and easy is Pearline's way

-soaking, boiling, rinsing. You need Pearline for all your washing and cleaning. You need something better than soap or a sharp stick when you're dealing with dirt. Willions Pearling

you think of winter. Where will you buy it? At SIEGEL'S, of course, because you get the best values for your money. Below we enumerate a few of our many bargains in medium priced OVERCOATS. A Grey Overcoat neatly made with
